विषय/Sub.: Annual Research Programme of BSI (*on Flora of India* and on *other than Flora of India*) – reg.

महोदय/Sir,

Please find attached the final Annual Research Programme of BSI (*on Flora of India* and on *other than Flora of India*) for the year 2019 – 20 and for some cases for the year 2020 – 21. This Annual Research Programme of BSI has been prepared after the deliberations took place in the Heads of Offices meeting held at BGIR, NOIDA during 15 – 16, April 2019 and after the decisions taken in the subsequent meeting of the Research Advisory & Monitoring Committee of BSI held at CNH during 30 – 31, May 2019.

This is for your information and strict compliance please.

संध्यवाद/Thanking you,

भवदीय/Yours faithfully,

(बि. के. सिन्हा)/(B. K. SINHA)

1.	Pteridaceae of India (excluding Genus <i>Pteris</i> )  Dr V. K. Rawat, Scientist-D (ca 54 species excluding 41 species of Genus <i>Pteris</i> )	2018 – 2022	<p>Q1. Identification and documentation of specimens collected earlier.  Q2. One Herbarium Consultation Tour to CNH and DD and one field tour to west and east Kameng. Identification and documentation of collected specimens  Q3. One field tour to protected areas of Meghalaya (Nokrek Biosphere Reserve). Identification &amp; documentation of collected specimens.  One Herbarium Consultation Tour to ASSAM and BSA  Q4. One field tour to protected areas of Assam (Kaziranga National Park and Dibrugarh National Park). Identification and documentation of collected specimens</p> <p><b>Total: 3 Field Tours and 2 Herbarium Consultation Tours</b></p>
2.	Materials of the Flora of Arunachal Pradesh Vol. 4  ■ Dr. M. R. Debta, Scientist C ■ Dr. Krishna Chowlu, Scientist C ■ Dr. U.K. Tiwari, Scientist C <i>New Project</i>	2019 – 2020	Complete the checklist along with updated nomenclature and distribution of all additional species reported from Arunachal Pradesh not included in earlier Floristic account of the state

*Note: In addition to above, Dr. Krishna Chowlu and Dr. U. K Tiwari are to submit the final reports of the projects namely, 'Red Listing of Orchids of Arunachal Pradesh as per IUCN criteria' and 'Flora of Eastern Kameng – Arunachal Pradesh' respectively by 31<sup>st</sup> July 2019*

Nature of Tour	Q1	Q2	Q3	Q4	Total
Field Tours/ ex situ conservation tour	0	1	1	1	3
Herbarium Consultation Tour	0	1	1	0	2

**EASTERN REGIONAL CENTRE, SHILLONG**

Sl. No.	Name of The Project	Period	Quantifiable deliverables for 2019 – 20
3.	Flora of Nagaland (Vol. 1 & Vol. 2).  ■ Dr. N. Odyuo, Scientist D ■ Dr. D.K. Roy, Botanist ■ Dr. David Lalsama Baite, Scientist B (under guidance of Dr. A. A. Mao)  ● Vol. I: Ranunculaceae to Asteraceae (Approx. 1500 taxa) by March 2020.  ● Vol. II & III: Campanulaceae to Ceratophyllaceae and Hydrocharitaceae to Poaceae (Approx. 1500 taxa) by March 2021.	2016 – 2021	<p>Q1. One field tour to Phek district. Identification and documentation of collected specimens.  Q2. One field tour to Wokha and Mokokchung district. Identification and documentation of collected specimens.  Q3. Identification and documentation of collected specimens.  Q4. Herbarium Consultation Tour to CNH for 10 working days.</p> <p><b>Total: 2 Field Tours and 1 Herbarium Consultation Tour</b></p>
4.	DNA barcoding and phylogenetic analysis of 20 selected endemic plant species of North East India and Phytochemical Screening of 11 medicinal plants  ■ Dr. Deepu Vijayan, Scientist C ■ Dr. Dilip Kr. Roy, Botanist	2017 – 2020	<p>Q1. Quantitative phytochemical analysis of selected medicinal plants using spectroscopy  Q2. Collection tour to Dawki, Meghalaya. Quantitative phytochemical analysis of selected medicinal plants using UHPLC.  Q3. DNA barcoding of selected endemic plant species  Q4. Final report preparation</p> <p><b>Total: 1 Local Field Tour</b></p>
5.	Diversity and phylogeny of Aquatic fungi from North east India  Dr. Ashish V. Prabhugaonkar, Scientist C	2018 – 2020	<p>Q1. Molecular phylogenetic analysis of selected isolates.  Q2. One field tour for collection and isolation of fungi from streams in Jaintia hills. Molecular phylogenetic analysis of selected isolates.  Q3. One field tour for collection and isolation of fungi from streams in West Khasi hills and East Garo hills.  Q4. Compilation of work and submission of final report.</p> <p><b>Total: 2 Field Tours</b></p>
6.	Micropropagation of RET Plants of North East India in ERC, Shillong  ■ Miss I. Chanu, Botanist ■ Dr. Deepu Vijayan, Scientist B	On going	<p>Development of culture protocols for <i>Ilex khasiana</i>, <i>Paphiopedilum hirsutissimum</i> and <i>Rhododendron cokinianum</i>. Maintenance of existing culture in all Quarters.</p> <p><b>Target:</b> Maintenance of existing culture in all Quarters. Hardening and introduction of the seedlings in the Garden.</p>

Sl. No.	Name of The Project	Period	Quantifiable deliverables for 2019 – 20
7.	<i>Ex-situ conservation &amp; multiplication of endemic, rare, threatened and economically important plants of NE India at Experimental Botanic Garden, BSI, ERC, Barapani</i> Dr. David, Scientist B and Shri L.R. Meitei, B.A.	On going	Recording of phenological data of plant species growing in EBG, Barapani and multiplication of RET species in all four quarters. One field tour in 3 <sup>rd</sup> Quarter to Khasi Hills, Meghalaya for collection of live plants of RET species. <b>Total: 1 Field Tour</b>

Note: In addition to the above, Dr. N. Odyuo, Scientist D is to submit the final report of project namely 'Flora of Eastern Nagaland' by 31<sup>st</sup> July 2019. Besides, Dr. Chaya Deori, Scientist D is to submit the final report on 'Flora of West and South West Khasi Hills district of Meghalaya' by 31<sup>st</sup> July, 2019 positively.

**AJC BOSE INDIAN BOTANIC GARDEN, HOWRAH**

Sr. No.	Name of the Project	Period	Quantifiable deliverables for 2019 – 20
43.	Enrichment of medicinal plant section (Charak Udyan) of AJC Bose Indian Botanic Garden through survey, collection and introduction of medicinal plants Dr. S. P. Panda, Scientist C	2015 – 2018 (Extended upto 2020)	Two ex-situ conservation Tours in Q2 and Q4 to Andhra Pradesh and North Bengal respectively to collect 20 medicinal plants from each tour for introduction in the medicinal plant section (Charak Udyan) of AJC Bose IBG. <b>Total 02 Ex-situ conservation Tours</b>
44.	Collection, documentation & ex situ conservation of Aromatic plants of India ▪ Dr. M.U. Sharief, Scientist E ▪ Dr. B. K. Singh, Botanical Assistant	2017 – 2020	Two tours in Q3 and Q4 to Jammu and Andaman & Nicobar Islands respectively to collect 15 aromatic plants from each tour for <i>ex-situ</i> conservation. <b>Total 02 Ex-situ conservation Tours</b>
45.	GIS phyto-mapping & digitization of shrubs and trees in AJC Bose Indian Botanic Garden ▪ Dr. M.U. Sharief, Scientist E ▪ Dr. C. M. Sabhapathy, Botanist ▪ Dr. B. K. Singh, Botanical Assistant	On going	▪ Number labelling and GPS reading of the Trees and Shrubs of remaining 15 Divisions of AJCBIBG. ▪ Labelling the Scientific names to the important trees and shrubs of AJCBIBG. ▪ Updating and compilation of latest field data

*Note: In addition to above, Dr. B. K. Singh, Botanical Assistant is to submit the final reports of the project namely 'Herbaceous Flora of AJCB IBG (Dicot and Monocot excluding Cyperaceae and Poaceae' and 'Introduction of Mangroves associated plants in AJCB IBG' by 31<sup>st</sup> July 2019. Apart from that, Dr. S. S. Hameed, Scientist D is to submit the final project report of the project namely 'A re-assessment and revalidation of Phoenix loureiroi and its variants in India' by 31<sup>st</sup> July 2019. Besides, Smt. Nita Sarkar, Botanist is to submit the final report of the project namely 'Documentation of woody climbers of AJCB IBG' by 31<sup>st</sup> July 2019.*

**CENTRAL BOTANICAL LABORATORY, HOWRAH**

Sl. No.	Name of The Project	Period	Quantifiable deliverables for 2019 – 20
46.	Ethnobotanical study of some tribal populated districts of Bihar  <u>Team I</u> <ul style="list-style-type: none"><li>▪ Dr. Monika Mishra, Botanical Assistant</li><li>▪ Dr. P. A. Dhole, Botanical Assistant</li></ul> <u>Team II</u> <ul style="list-style-type: none"><li>▪ Dr. K. Althaf Kabeer, Scientist D</li><li>▪ Sri A. C. Halder, Botanist</li><li>▪ Sri R. Saravanan, Botanist</li></ul>	2018 – 2022	Q1. Processing and identification of herbarium specimens. Documentation and compilation of data collected in previous tours. One field tour to Aurangabad (Area: 3305 Sq Km; Tribal Population: 1,640) and Nawada (Area: 2494 Sq Km; Tribal Population 2,158) by Team II. Q2. Processing and identification of herbarium specimens. Documentation and compilation of data collected in previous tours. One field tour to Kishanganj (Area: 1884 Sq Km; Tribal Population 47,116) and Araria (Area: 2830 Sq Km; Tribal Population 29,423) by Team I along with Sri R. Sarvanan. Q3. Processing and identification of herbarium specimens. Documentation and compilation of data collected in previous tours. One field tour to Purnia (Area: 3229 Sq Km; Tribal Population 1,11,197) and Kathiar (Area: 3009 Sq Km; Tribal Population 1,40,418) by Team-II. Q4. Processing and identification of herbarium specimens. Documentation and compilation of data collected in previous tours. One field tour to Gaya (Area: 4976 Sq Km; Tribal Population 2,945) and Nalanda (Area: 2367 Sq Km; Tribal Population 970) by Team I along with Sri R. Sarvanan. <b>Total: 4 Field Tours</b>
47.	Chromosome count of Genus <i>Impatiens</i> of Sikkim / Darjeeling Dr. Monika Mishra, Botanical Assistant	2018 – 2021	Chromosome studies of nine species of <i>Impatiens</i> to be done in the year 2019 – 20.
48.	Study of Micro-Algae and monitoring of water quality of all lakes of AJCB IBG Dr. (Mrs.) Pratibha Gupta, Scientist E <i>New Project</i>	2019 – 2020	4 – 5 samples to be collected from each lake of the garden per month to study the periodicity, succession, distribution and monitoring of micro-algae.

*Note: In addition the above, Dr. Pratibha Gupta is to submit the final report of the project namely 'Study of micro-algae and monitoring of water quality of Lerum lake of AJCB IBG by 31<sup>st</sup> July, 2019.*

**CRYPTOGAMIC DIVISION, HEAD QUARTERS**

Sl. No.	Name of The Project	Period	Quantifiable deliverables for 2019 – 20
53.	Studies on algal diversity in Hot Spring of Rajgir and Munger. Dr. R.K. Gupta, Scientist D	2017 – 2020	One field tour each in Q2 and Q3 to Rajgir and Munger hot springs. Study of the collected samples under microscope with image facility for taxonomic description along with microphotography. Diatoms samples to be studied under SEM for taxonomic description along with microphotography. <b>Total: 2 Field Tours</b>
54.	Liverworts and Hornworts Flora of Darjeeling District, West Bengal. Dr. Monalisa Dey, Scientist C	2016 – 2021	Q1. Identification, illustration, micro-photography of specimens collected earlier. Q2. Continuation of study, identification, illustration, microphotography and description of previously collected specimens. Q3. One field tour will be undertaken to Darjeeling district, West Bengal. Processing, preservation of collected specimens Q4. Continuation of study, identification, illustration, microphotography and description of previously collected specimens. One field tour will be undertaken to Darjeeling district, West Bengal. <b>Total: 2 Field Tours</b>
55.	Bryo-flora of Jharkhand Dr. D. Singh, Scientist D	2018 – 2022	Q1. Identification, camera lucida illustrations, microphotography of all the specimens collected earlier. Q2. Identification, camera lucida illustrations, microphotography of all the specimens collected earlier. Q3. One field tour to Godda, Sahibganj, Dumka districts including Rajmahal Hills ( <i>ca.</i> 400 sq. km) and study of collected specimens. Q4. One field tour to Palamu, Lohardaga, Gumla districts including ( <i>ca.</i> 600 sq. km) and study of the collected specimens. <b>Total: 2 Field Tours</b>
56.	Wood rotting fungi of Valmiki National Park Dr. Manoj Hembrom, Botanist	2018 – 2021	<ul style="list-style-type: none"> <li>■ Two field tours in Q2 and one field tour in Q3 to the area for collection of specimens. Macroscopic and microscopic characterisation, description, drawing and phylogenetic analysis of collected specimens to be done.</li> <li>■ Two Herbarium consultation tour to be conducted to Punjabi University Patiala and Forest Research Institute Dehradun in Q4</li> </ul> <b>Total: 3 Field Tours 2 Herbarium Consultation Tour</b>
57.	Pteridophytes of Goa *Dr. A. Benniamin, Scientist E (*Transferred from WRC)	2018 – 2020	Two Field Tours to be undertaken in unexplored areas of Goa for collection of Pteridophytes in Q2 and Q3. Cytological studies to be done for the collected species of Pteridophytes. Spore Morphology for all the species is also to be done. Distribution Map to be prepared for all the species using QGIS Software. Preparation and submission of final report <b>Total: 2 Field Tours</b>
58.	Exploration of Caterpillar fungi in Himalaya: Morpho-taxonomy, Molecular phylogeny, Chemical & nutraceutical properties Dr. Kanad Das, Scientist E Dr. M. Hembrom, Botanist Sri Arvind Parihar, Bot. Asstt <i>New Project</i>	2019 – 2021	Two Field Tours to be undertaken to Kumaon Himalaya (Last district of India: Pithoragarh) and to Sikkim for collection of Caterpillar fungi in Q1 and Q2.  <b>Total: 2 Field Tours</b>

*Note: In addition to above, Dr. Kanad Das is to submit the final report of the project namely 'Study of wild mushroom of east and south Sikkim' by 31.07.2019*
