of Natural History, hold it out to me
the greatest charms, which together with
the inducements for execution you hold out by
the views on the success of your art, in
the completion of a pretty copious Flora
of Arabia or Persia but are at once
with the most strenuous labour, which
believe me shall not be without that
except on the urgent calls of public
I know important avocations. For the
present however I am under the necessity
of taking a trip to Europe for the advancement
of some designs which will I hope not
be leaving me at Buxton altogether

in a situation which will enable me
to continue to offer my humble services
in any way you may feel disposed
to command them. It is good however
as well to send, to me, all packets
from the West, &c. in the care of Captain
Bruce Resident at Kistine who
has offered to take them in charge till
my return & in the mean time request
the favour of your correspondence
which he requests me to answer you
shall be despatched promptly on his
part - He is extremely anxious in
gardening than warm admirer

of your favourite science. I sail for
Bombay on a day or two & shall be there
for a month previous to my departure
for Europe so that you will still have
time to write me just before the
receipt of this - I also I inform you of
I can do anything for you or for I see
in the East. I shall return to the
Guelph & present rather via Persia
& Russia, you certainly shall have
specimens of the *Artemisia* & *Alnus*
plants for they be in my collection
exactly in the time of my journey. The
Sarcocolla plant grows near us too

I am eagerly watching for the moment
its flowers & ripens its ^{*~/*} . " .
less zealous than myself I am or at least
surely will be, able to gain perfect seeds
& specimens - I will also endeavor to
press our surgeon Dr. Sharp into your
service. I said by this I probably
an outline sketch of the plant & a
short description generally by a friend
of James of the Bombay Establishment.
The sketch I took from an original
of a friend Johnson a friend who took his
route to Europe last year & sent me
specimens which from carelessness

The bears were destroyed. I hope to be
more successful.

Allow me now my dear
son to congratulate you and Mrs
Wells on a relocation to an office
you only ought to have filled from
the requests of every part knowledge
of the just claims of business. The
Court at home were just I trust
a triumph must have given you
exquisite delight. I hope you may
enjoy it as long as you please.

Do you intend to go on with the

England I wish to plan to you
commonwealth. I am going to England to
arrange about my Arabic Dictionary
to publish a History of the Wahabites
which I have compiled from authentic
sources. The account of the Wahabites
both publicly & ecclesiastically is much
calculated for use & I hope to well succeed.

I impute my dear Sir pray, come
over with all fresh Botanical news
from Europe that you may receive
- you are at least as much as you
can without encroaching on more weighty
business.

I have made up a packet of all

3"±

I have already sent quantities to Dr. Wilson. I request him to share them with you.

Of the dried specimens, which have seeds also, you have none. I believe in your garden. With the exception of the Antholyza and the Amaranthus montanus all belong to the Ericaceae group in a sandy, ^{loose} soil to the south west side of the head town in the month of June 1816. The Croton tectorium is the only one of the whole I could distinctly class; so that I hope you may gratify with the discovery of a new genus in our

of them at least. I am however but a
young student, so that you will not
I am sure excuse my mistakes &
misapprehensions too severely.

Herewith you will receive
corrections & additions to my former
Memorandum. You will also receive
a drawing of the Paropha Palliata,
which I drew with the greatest care and
attention to proportion colour figure &c.
It differs much essentially from the
P. cod. of Fabricius & the P. palliata of
Loew, so that I conceive I ought
to be named accordingly - as I shew it

to your Entomological friends &
Judges & should have opinion accord
with mine pray pronounce the
essential differences that it be agreed
& published in the next ^{annual} Report
of the Committee of Affairs printed.

If my avowal is incorrect I beg
to recede & think me well.

The information of the Commission
I think perhaps might be worth
communicating even imperfect as it is
if so long my dear Sir adieu
I beg to inform the Society.

Pray remember in return to
Messrs Caldwell & Gordon whenever
you see them. I particularly offer my
regards to both every I Marstonian
of ^{Paris} ~~Switzerland~~ ^{Switzerland} shall always hunt
with the most interest. - The seeds now
sent are few - a remnant of my former
stock; since as they are however by them
in the East & favour with the result
of those of your examination of the
dried plants.

Should you favour me with
a letter in Bombay direct to Messrs Loshes
of that place - If you wish on the
receipt of this there is time for it to reach

vw_ <^tsa^.._..* <**. - In every

P. H. J. J.

My dear Sir

I have just returned from India
and whether I had gone to get rid of my fever
I had a gram left me but these attacks
keep me back sadly in my Botanical
pursuits indeed the prospect of being obliged
ultimately to abandon them and go to Eu-
rope drives me very much. I have
many queries to put to you when I can
arrange my papers. The seeds that you
contain almost all the different sorts I brought
down and many of them are of plants men-
tioned in the short and hastily written
scrap of paper sent to London. I know not of
them named in that Catalogue & Sp. *Hypochaeris*
vis - 2 Sp. - Paris - *Hypochaeris* or a new
genus allied to it 1 Sp. My situation and allow-
ances

which in my hurried trip ^{'*&&-^-Z^V^} the
probability of the seeds being still more
rich - ^S By the by do you think the plant
really a heath which I sent you - it
appeared so to me I couped having
to the Board of Commissioners for cash to
send you that you might forward me a
boat load of them - ⁶ ^{*} He inform me
Government they believe have authorized
to expend the amount and carry it to the
account of Govt - I pray inform me yet is so
and if you can also furnish me with a
copy of Dr's large descriptions of plants
at their expence also - ^{part} the small descriptions
I have sent me a very incorrect copy of her
which I have been obliged to pay out of my
pocket - I pray send me as many seeds
of useful forest trees and plants as possible
more than need ^{£&} ^{/?} to have also
to look upon with you

Handwritten text in cursive script, likely a letter or document. The text is dense and spans the entire page, with some lines appearing to be crossed out or heavily scribbled over. The ink is dark and the paper shows signs of age and wear.

Jan 27th 1864
Dear Mother
I received your kind letter of the 26th and
was glad to hear from you and
to hear that you were all well
and happy. I am well at present
and hope these few lines will find
you all the same. I have not
much news to write at present
but I will write again soon.
I love you all very much and
am sure you love me too.
I am your affectionate son,
John Smith

ans^d 14 Feb

My dear Sir

Although your letter of the 11th ult. has now
been in my possession a full week this is the very earliest
opportunity I have had **jj£z^£*£? , y*~ /"** them - and even
at present I have so many demands upon my time
that I can only devote a few minutes to their contents.

Before your letters reached me I had already dis-
-cussed to the Plains, where I am likely to be detained
till towards March in Barometrical observations and
other ^o **•£*''***i^i** do that any attention **^-7^-/^^/** who
supplies a material for paper is for the moment out
of my power but your wishes on this subject shall be
particularly attended to hereafter. The three cedar
trees from which the specimen of wood I sent you
was taken are now some fathoms deep beneath the
snow Linnæus, and then sit unappreciated. The
fruit is a berry of which (of the creeping cedar) I sent

Yours

a *Sottanpuk* formerly which you perhaps saw - I then
supposes them to be *Sunipin* - There is *Shelieny*
no tradition how they came into *Suwahin*, and as none
are to be found farther East? they may perhaps be
considered eastern here - In *Yukwal* however they
are said to be so numerous as to be used for fuel
and you shall have proper samples next Spring -

The nation name is *Pudma Chur* ^{^SC*,***} _{wt^} - word
Shelien is used in the sacrificial, or other ceremonies
of the *Amindoo*, and I have been told that the name
is sometimes improperly applied to *Sausal*. but I have
had no opportunity of questioning any learned natives
on the subject -

^{^&&Lts& *-* -*.*jffly ~Xi wS^^S^*-*}
the researches of your native *Botanist*, but I know of
no individual whom *Seoul's* recommends for that
Post - Mr. *Leislaw* who is now at *Fuldehquik*
will probably give me before I return to the *North*
and his knowledge of *Physic* ^{***AM* sfc*&G*1*^-C4?} may
afford you more *spiritual* ^{r&Crt^cr*-*-*} _{/yU»}
unlearned

efforts could do, but I wish say more to you upon
this ^{ucJLt} soon - when I am again abroad -

Col. Sometimes ago I received from an
Inquiry suggested by Mr. Kiss ^A some kind of
wood which might supply the place of lignum ^{vici} ^{*4L}
in the manufacture of Ship Blocks - or rather as I
suppose sheaves - ^{*^4&f^} ^{<^*-*} by the way the
^{&ta*} ^{*-<f&-<0*} piece of the only wood which I have yet
met with which seems suited for that purpose
and I wish you would hold a consultation with
Mr. Kiss upon the subject, with whom I am quite [^]
unacquainted - The natives of this part of the country
generally use Lignum / Sheeshum, for that purpose
but I think that the sample I have sent is tougher,
harder, and less liable to split from sun, or rain.

When you next see Col. Hainsworth give
my kindest compliments to him, and say I hope
all has gone on well ^{f fardc} ^{A^+r*} ^{*&+<-} see last
part - in Portman Square -

This is possibly a very shabby reply
to your kind letter, but I am only at Bareilly
for 3 days, and what with visiting, purchasing,
mending, & making the people will not allow
me one moment's quiet - I go from hence to
Rashtropur, and as soon as matters return into
their usual channel you shall hear from
me again, nor shall I hesitate when need
presses to avail myself of your kind offer
to execute commissions for me in Calcutta
which is cordially given so heartily that
I am sure you means it should be
accepted

Believe me

My Dear Sir

Yours faithfully

Yr truly Yours

P. S. Peck

the sum of \$10.00
for the year 1877
this 24th day of January
1878
Wm. Gardner
Noyes

My dear friend
I received your kind letter
about the commencement of the month
and I prevented answering it by
reason of being from the circumstance of
having a good deal of public matter
to transact. I am much obliged to you
for your kind words and for the trouble you
took in the matter and I have the pleasure
to acknowledge myself to
have the honor of one of the ablest
Medical men in the country. Since
the publication of that letter I have
drawn up an account of the Great
Dysentery in London and I have a copy of
what I send to you as a member of
the Medical Board as that gentleman
was a witness to part of the treatment

detailed in it. May write to DeFollian
in the paper for your perusal I can
scarcely have no spare time to draw
up a fresh copy for you but you
may easily imagine what a deal
I have to do with this Division when
I inform you that I am Surgeon to the
Staff to the Female Native Hospital
to the Hospital for Camp Followers
and Medical Store Keeper. Situation
that so employ my time that it is
on snow and then I can get a spare
moment to write a letter to my friends
you wish therefore ^{you} I am convinced excuse
me. After the perusal of the paper
I need not solicit for your opinion
because I know you will readily
give it and by return of De K
In requesting the perusal of the

Ms. 1. Douthett
H4t & *~** - f}r^ eu^ ft^ujti
I had. Wit*fa~l that -&* ,// - J&

and you wd thank
&,, 4*W <^C /U usual epib. The old
gentleman might have been offend SZ3
with me had not sent it to him
just as he was kind enough to
pardon me and wrote I believe
(at least he said he would) himself
about me to forget thus you see
my dear friend I am indebted to Dr. Williams
and it only becomes me as a young
medical officer in the Service to
pay him this mark of my gratitude
and respect. Concerning m^-*~**?->/££
prospects. Some friends have asked me
at Mr. D's to go down to Calcutta and
practice on which subject I solicit
your advice and if you are of opinion

I should succeed and you wd ^{be pleased} to
if I have then to ask you whether
there are any situations now or likely to
become vacant and which you
wd advise me to ask for. but
bear in remembrance I am 7000
Pence in Debt. Yrs

Yours My Dear Friend
I trust on your own advice to which
I shall adhere knowing you wd advise
me as you wd a brother for you
have always evinced in your kind
conduct to me the hospitality the
friendship and the affection of
a Brother for which I shall be
always grateful this must be
a secret between us for it wd
do me much hurt to make the
above intentions public

The inclosure you put on the
Lord I much admire and I determined
to show your letter to the Judge
Advocate General who so much
admires your sentiments on that
subject that he declared to me
that he should endeavour to
become acquainted with you as
soon as he returns to the Papirney
and my dear friend ^{Mr} ~~the~~ ^{Stork} ~~Stork~~
wrote you but that gentleman is a great
favorite of the Lords and I thought if
your sentiments could be conveyed to him
in any way it wd do you further good
at least you have another man of much
a warm admirer of you.

In requesting you will present
my most grateful thanks to Mrs W. for her
kind offer which I hope one day or other
to be able to accept. and with all
your happy & contented family

RECEIVED
MAY 27 1818

Camp Kesheepoon Aug 27
1858

My dear Sir,

9 July
O k
Mr

I have your good thanks for having so kindly
procured for me a fine and full set of the Humboldt's specimens
which was ^{<d*t& A***** S-*<sCy ~ifh^r} received this morning and which I
will ^{detain} detain a single day, though I
could wish very much that a copy had fallen
to ^{*&**,-} share. It would have been much
more agreeable to me, and at the same time more
satisfactory to Baron Humboldt had a complete
copy of the papers, ^{Lord Hastings,} been
remitted to him, a deficiency which Mr. Davis will
hereafter be able to supply.

In the mean time as you probably attend
the meetings of the Asiatic Society do me the favor
to perform the office of Special Pleaser on my behalf
when the "Memorandum" is presented - Enclose your
Brief

which I could rather wish you to read as part
of a letter addressed to yourself than as any formal
communication to the Society.

This is the station from whence my altitudes
are reckoned and I shall be engaged here during the
next three weeks or more in Barometrical Observations
to determine its elevation above the level of the sea.

You would render me a very great service if
you could procure for me, from any person in
Calcutta, who keeps a meteorological Diary, the
height of the Barometer & Thermometer at noon
during the next month, February; I really do not
know any person to whom I can apply for corres-
ponding observations, and without them, I shall be
obliged to content myself with the mean of obser-
vations as far back as 1784, which is by no means
satisfactory. Pray do not omit to make enquiries
whether it would be possible to procure a copy
of such

Such observations in future -

Mr Laislaw who is appointed Mineralogist
to the Survey, and who is understood to be versed
in Physical Geography generally, has arrived at Pustet
-quit, and will probably join me before I leave
Kasheepoor, we shall not however go far into
the mountains before the middle of April, so that
your Natural Collector of Plants, (who by the way
had better proceed to Bareilly direct, and there
apply to Dr Evans, the Civil Surgeon, for informa-
tion respecting my route.) will have time enough
to join me -

Cannot you persuade Government
to let Dr Dixon roam awhile among our
woods? He would indeed be no great feat for
meeting his talents as a Naturalist, but in Botany
there are subjects inexhaustible -

Send you a sample of wood from Bareilly
with

Monsieur le Ministre

d * > M X

Je vous prie de vouloir bien agréer mes
remerciements pour les envois que vous
m'avez fait parvenir par votre bienveillance
particulière, pour son complément en fait, pour leur mérite
et leur utilité. Je désire que cet envoi soit utile & agréable.

Pour votre bien vouloir employer toutes les précautions possibles
pour que les envois soient faits avec la plus grande exactitude & la
plus grande rapidité possible, en me faisant passer votre Catalogue
ou son supplément lorsque la parole. J'espère que vous n'aurez
rien de difficile à lui faire passer, si je ne manquerais pas de
vous en faire passer un exemplaire pour que vous en ayez
posséder votre bienveillance pour les objets que vous
m'avez envoyés.

En attendant je joins ici une liste de nos Indigènes.
Vous pouvez vous en procurer quelques uns, j'aurais un grand
plaisir à les tenir de vous et à vous témoigner toute ma
reconnaissance.

Je suis, Monsieur le Ministre, avec toute la reconnaissance et toute la
fidélité de votre dévoué et de votre bienveillant serviteur,
le Ministre de l'Intérieur, J. B. de Lamoignon.

P. D. Kelly

My dear Sir

I beg You will accept my heartiest thanks for Your kind letter of the 1st Jan^y and for the good wishes contained in it, which I pray God, may be also fulfilled beautifully in Your person.

I congratulate You to the pleasant charge which has been conferred upon You as Superintendent of the Botanical Garden at Calcutta, and I have no doubt but that under Your direction it will flourish more & more. I am greatly obliged to You for the friendly offers You make me to communicate with me the wishes contained in the beautiful Garden; and certainly it is my duty to do every thing in my power to return Your kind offices. But alas! my present circumstances are so that I am afraid I can do but little to satisfy Your wishes. I have not only to attend to the several duties connected with the Fem. Asylum; but I am also lately been obliged to take charge of the Vepery Mission after the death of the Rev. Mr. Parole. All this takes up my time so much, that I can scarcely think on any other pursuit. I beg leave to recommend to You our friend Dr. Heyne, of whom

You made mention in your letter as to whom I have comman-
ded the same; he is now here and willing to do for you every thing
in his power. My correspondence with the different Societies in
Germany concerning Natural History has been interrupted and cease-
d entirely.

The first time when I shall have the pleasure
of seeing Mr. Harington, I shall inquire after the *Cocculus Ind.*
or *Menispermum*. I see it inserted in the Catalogue of your
garden which belongs to Mr. Harington and a copy of which would
be an acceptable present; but from the description you have
made of it in your letter, that which is in your garden, seems
not to be the same. How many excellent plants still unknown
may not produce the Hopland Country. About Madras I think,
will surely be found still any thing interesting to you; but should
it be otherwise, I will with pleasure read it. It is impossible
for me any more to think on a journey. I am now fixed to this
place; here I must remain till the Lord calls me to a better
world.

Mr. R. and Dr. Hays join me in kindest regards to
you and I remain

My dear Sir

Yours very sincerely & obediently

Dear Sir,
I have the honor to acknowledge the receipt of your letter of the 11th inst. in relation to the above named matter. I am sorry to hear that you have been disappointed in your efforts to secure the necessary funds for the proposed project. It is regrettable that the necessary support has not been forthcoming. I am sure that your efforts have not been in vain, and that the project will be carried out in due season. I am sure that you will be able to secure the necessary funds in the future. I am sure that you will be able to secure the necessary funds in the future. I am sure that you will be able to secure the necessary funds in the future.

to you and is at your disposal.

My dear Sir

In considering naturally ^{+++*-*} consulting my
friends relative to the propriety of my having any
thing to do with the copying of Mr. De Witt's
Drawings deposited with me or countermanding it by
labeling the plates contained for that purpose
by Mr. De Witt - I find that I subject myself to a degree
of responsibility unwaranted by any authority of go-
vernment whereon - When I ^{**V<*>} turned to our friend
Mr. Goodson my willingness to assist in the printing these
Printers to their work which you will easily suppose
they are neglecting as much as possible - My objects were
not to prevent them from injuring the Plates in any
manner and to maintain that authority on the ground
which is incompatible with these people being and
young and copying without appearance - If I had the objects
of control over them - but only have the first volume
of the Drawings been injured in their drawings but
their Drawings spoiled and ones of the letters missing
Mr. De Witt I assure that I might be called to an account
for countermanding a mandate from which I have not a
sanction of Government. If Mr. De Witt's agents will have the
goodness to apply to Government and obtain that sanction
only with very strictness and a grant be necessary - but I
shall only I am actuated by what I think
to be my duty - shall them be most happy to render Mr.
De Witt every assistance I can afford with this view of carefully
and improving the work of his Printers.

Yours truly
James De Witt

My dear Sir

Calcutta - Feb 7 - 1818.

21 Feb

My Dear Sir

I am going to put your professions to the proof. And you have already shown so much attention to me voluntarily, that I entertain no serious fears of being disappointed. - I have the utmost need of help, but I know not how he is to be approached, and I have not any acquaintance in Calcutta who could interest him in my behalf unless you would be so good as to do me the honor to write to Mr. Nicholson, begging you most earnestly to use your influence to procure him the sum of £1000 - and not only so - but to receive the amount for me, and forward with it any specimens he may mention to you as necessary. - nothing of that kind could be procured here - and Messrs. Alexander & Co. who are in the city will be ready to defray any expense which you may think proper to incur.

ij4i,jy£> i-

t<*&*L to &-

Yrs

The despatch has better be addressed
to me via Baccly - so I cannot yet anticipate what
may be my movements -

I am a very indifferent French scholar, and I
oblige myself to send away Humboldt's Essay before I
has properly spell it through - Since it went away it
has occurred to me that I may have said, though I do
not recollect it, that It was nearly a mile higher than
Chimborazo - and perhaps in Mr. L. H. work I
may have mistaken a mile ('ou mille?') for 1000 feet.
do therefore oblige me by turning to his work, and
if I have blundered cancel the first part of your
Brief - I may as well conceal my ignorance when
I can -

My Barometrical observations are in
progress, and as soon as Mr. Laidlaw arrives I shall
be ready to make a small excursion, but the
higher hills are at present quite white - and we
shall

not proceed in earnest before April.

I hope however to send you the Paper-plant
early in next month - and I hope you have
not neglected to draw up your promised instructions.

With all kind wishes

Believe me

My dear Sir

Very sincerely yours

A. S. Webb

mSfs-?^

My Dear Sir,

I have not the convenience
of writing at any time since I have had the
pleasure of receiving your kind letter. I have
wrote you from my pen to some other business
may be left in your hands. I have
been out of my power to give you the pleasure
of the read that I before sent.

I have not only myself you have been
at my compliance with the wishes of my worthy
friend Mr. G. and you have much
ably served that little task, which I believe
you give me a pleasure to fulfill. I have
my mind increased in my return to England
with better mind than. We perfectly agree
in our views as to the utility of the
knowledge of Botanical research, indeed I strongly
believe it is as unequal in its vegetable
productions, as in its fruit by any other
and I believe I believe in its medicinal virtues.
I have with much regard to the medicinal
virtues of the plants, in the garden
in the field, would be available to your garden
for the use of the medicinal plants, I believe
George Washington, because in the garden of
George Washington, because in the garden of

I submit it sometimes looks for the convenience
of the Military Bureau as far as regards
its application to so useful a purpose. The
Manufacturing of it, I'm told, is exactly similar
to that followed in the making of Paper.

The shape from which the ^{S*fs*S S*} mineral
fracture that you allude to grows in quantities
within a days journey North of Washington
and furnishes a great deal of that article
for home consumption as well as for exportation.
We have got some shovels of it into our
Garden that were thrown up with it as they
were the first that I saw in the Valley I
am led to suppose they will not do so well
as on a greater elevation where the soil
is so much looser. However that being
a thing of the Nation may be ^S blame
in this as in many similar cases.

If you have not seen any of the Paper
Manufactures from the 'D. Bureau' the
enclosed may tend to give you an idea of
the Superiority of properties over any we
have for common purposes, so as to give
it should be particularly well adapted
by its ^{4 * .} ^{'<' "'} ^{...'} texture to
resist moisture and friction and from whence
it is answer so well in a small compass

spontaneous in every place and in every hole.
What perfection might they not be brought
with the most trifling care and rendered by
long their transplants for a season the
we believe to succeed where we are to be placed
Bamboo, which is to be seen so frequently in
Sungai. Probably the enclosed seed may be
acceptable to you - they are from a very fine
Shrub bearing a beautiful bell flower of a
pale yellow color and were brought a few days
back at 'Nantwood' but I could not learn
the rest.

Now Boundary defining words having
been to say I immediately commence my march
back to the hills, where I trust you will
be arriving and in copying your wishes
in my way I am be useful to forwarding
your products either as they can afford an
suitable opportunity or otherwise to the public,
and in return, your kind offer shall not
be forgotten in the event of my being
to reach your garden.

Believe me My Dear Sir,

My Dear Sir

recd 20 Feb

Had the pleasure daily

to receive your last acceptable favor, for
which my best thanks are due. I ought

to have answered it much sooner, but have
been from well lately, which added to
the a ^{A 12.} ~~been~~ obliged to get through

some how or other, has actually prevented
me ^{^>***~_____^<^^-t**} of my pen. I sincerely

hope you ^{£**. £~±,€*-c c*} may be thus recovered
from the vicious attack of w' ^{'J*. c^.} you

complained at the time of writing, and
^{£:~*/<} you are now restored to your usual
^{•L~v} strength.

The affinity between Alex
and Lepidus never struck me before, indeed from
Linnæus's genuine character of the former, it is not
very ^{<sU/t#^-. - y^r^^i &} ~~very~~ ^{owner your support}

tion of the ~~idea~~ ^{?7} the two genera must be
correct, for if any plant is the [^] *Sig. lica*, the
leaves, which I, following the description of
that genus, called *Stem* ^{z & A} *Stem* ^{^ ^}, might
with as good right be called *Metastem* or *ap-*
pendages to the corolla. The character of *Alax*
would however require to be modified ^{D. c}
observe that Raybungh has three new species
of *Alax*; so any of them come near to mine.
I wish I could meet with it again to ascertain
whether among a number of specimens, the un-
divided petal was constant & invariable, or
whether all three might not some times be *trifid*.
I do not recollect finding any variation.

I am extremely obliged ^{Hsls £*} ^{new genus} by
N. Brown's [^] *sis* / *Archidæan* plants of
fructification, which will be a very great as-
sistance to me when I meet with others of
the tribe. — Your elegant character of

2111
Lindrobenia agrees exactly with the
plant I sent you, and explains how I
ought to have described the Labellum, which
just led me so much. The other book
clearly does not agree with the cha-
racter of Pterygodium; I shall be glad to
learn what you make of it when you ex-
amine it from fresh specimens.

I have to thank you for procuring
for me the first sheets of Raynolds's Flora
Asiatica, of which I have received six sheets.
It will be an invaluable acquisition to Indian
botanists, and I am happy to observe that
it will be enriched with your own recent
discoveries & observations. Pray, would
it not be proper to make a remittance to
Dr Carey ^{V^x} to meet the expense of transmis-
sion & any other cost? I will be
&^st^-*M^y, /

to R. Colquhoun

10 Feb^{ry} 1818.

Much obliged by your informing me on
this point. I suppose the expense of the
work itself is not yet exactly ascertained.
Pray, at whose risk is it publishing.

I met with two species of *Justicia*
in the hills, which I could not ascertain,
but which I think not un- **X⁴ g^{^^^}-**
usually *J. thyrsoiflora* & *pulchella*; will
you oblige me with the characters of these
two species. The first had flowers of a red
brick dust kind of color, & the other blue.

I am the goodwife & offer my best
regards to M^{rs} Wallack and believe

me My Dear Sir

Yours most sincerely

Singapore

Feb^y 10th 1818.

W. Jack

Sir

I am desired to acquaint you that it has been ^{by} Government, that Dr. Hais's Papers ^{shall} not be permitted to make any further copies of the late Edinburgh's Botanical Drawings, and that the Copies which are under the possession of the Printers shall be forwarded to the Honble the Board of Directors who will determine on the propriety or otherwise of delivering them to Dr. Hais. You will accordingly be pleased to procure the Copies in question from the Printers, and to Pack them in a careful manner for transmission to England by the Honble Company's Ships which will probably sail from this Port towards the end of December next, or ^{the following} Month.

Council Chamber,
the 10th of July 1788.

Yours Obedient Servant
Richard A. Foster

I have the honor to receive your favor of the 27th inst. and in answer to inform you that the Honble the Board of Directors have been informed of the same and will determine on the propriety or otherwise of delivering them to Dr. Hais. You will accordingly be pleased to procure the Copies in question from the Printers, and to Pack them in a careful manner for transmission to England by the Honble Company's Ships which will probably sail from this Port towards the end of December next, or the following Month.

J+£,s &j£

~ < K X ^tmil~*

from the evidence in ~ < K X ^tmil~* by the aid of glass, plates, there
have under the necessity to open the covers of several volumes, to separate
the drawings and distribute them among the printers. It would be the pro-
cess of thus opening and binding must add to the delay which has, and
and climate have worked, may be easily conjectured.

With respect to these facts, and for " ~ < M E < r with < **** < ^ ^ & L

that I should be wanting in the execution of
the duties I owe to the Institution and which I have the
pleasure to thank you for which has been committed to my care, and to

The New President in Council, in obedience therefore, to the instructions
contained in Mr. Secretary's letter to me, in the date shortly
after, have the honor to inform you with the following explanation
The Manuscript Herbarium of the late Sir Hans Sloane
is illustrated by twenty plates of about 2000 original
drawings, which will excite his immediate inspection, disor-
dered among the most perfect and valuable botanical works that
have ever been attempted or executed by any one man, it forms at once
an unparalleled monument to those great talents, which for nearly
half a century were successfully directed to the cultivation and ad-
vancement of every branch of Botany, and to that success which
by encouraging and rewarding them, induced their progress to his
reputation as one of the first botanists of his age. Of this great work
the double number of plates are in possession of a complete copy, which
during its progress in the hands of the late Sir Hans Sloane, a
manuscript, that duplicates of all such drawings and descriptions as are
deposited in the Garden shall be sent home for
the purpose of being deposited at the Museum at the Lady's House
of the Museum, and others, at the expense of the double number, and under the
direction of the Right Honorable Sir Joseph Banks a great portion of them
continue to be periodically published under the title of Herbarium of the
Garden of Linnaeus. It is highly probable that this important and
valuable work may soon be printed in full as to the copy the work
of Dr. Roxburgh it is that the purpose of the plates among the most
illustrious botanists of the present day, may under the sanction and
approval of the double number of plates to the double number of his
drawings and to be given as an ornament to the history of the East-
India Company, which has been under the sanction and the

Sir

London 11th Nov 1791

An Accusing Charge of the British Company's Stationer's Letter in August last Year, I found that a number of thoughtless, and very un-
 connected with the established Government, were engaged in giving the
 Stamp, which belong to the Government, to their friends of the late Dr
 Hays, and which are deposited with me in the Department. I un-
 derstood that they were maintained for that purpose by Mr. Hays, the
 late Stationer, and that they had continued to do so since his
 departure from this Country. I soon became aware of the consequences to
 which I rendered myself liable by permitting a measure, warranted
 by any other than former Parliaments, and by no means the original in-
 tention, and which from several benefits to be explained, I could not
 but consider as a considerable business, having to purchase upon this
 subject, to the notice of Government, permission of a private nature,
 and which I have now to submit the opinion of the Honble the Vice Pre-
 sident in Council for allowing to influence more directly an instrument
 of least a preliminary nature, which being established, that of permitting
 on the part of the House to put them forward under the sanction, chiefly
 in order to have as much as possible in any of the marching bills sent
 by them to the Merchant's original they were given. But on further
 deliberation I resolved to ^{44*e+f} withdraw from even the appearance of
 connivance at the transaction, and accordingly
 Mr. Hays, in reply

The following copies are added, with
the view to illustrate that part
of the official statement for part
dated 12 March (see above),
which mentions a letter from
Dr. Spence dated 11 December 1915
and a correspondence since that
in same reference took place.

I lay up heard from Sr Fleming and Mr. Scarborough, himself
that he was in the possession of making the drawings of each plant, one of
which he sent him to the Honble the Court of Directors the other was
sent to the garden, and it has been to enquire in what from Sr Scarborough
in the drawing of a letter sent him some time since, in which there is
distinctly acknowledged, as well as there was some more in questioning
the propriety of making these drawings and the Public's service, years at
the Court of the Establishment, I am assured that the drawings left
by Mr. Colchester with Mr. Scarborough late Superintendent of the Botanic
Garden and sent to be deposited by him to Mr. Copley were those very
originals, and were presented at the Public expense, it was therefore
great mistake in Mr. Colchester to deliver them with the private
property belonging to Sr * > * > * %

Calcutta
The Honble the Court of Directors
with the said date is inserted in the margin as there is a letter in the
to Mr. Bennett Esq. I will send a copy of the drawing
of the drawing of the plant, and in the margin of the drawing
I have to be sent to be sent to the Honble the Court of Directors
Honble the Court of Directors, Bengal, on his own one hundred and sixty
four drawings, and description of the plant of this country. I have
therefore the copies of as many of them made out from the originals as
my painter could accomplish, and at the same time continued to
make drawings of such kind as are of the same nature, as come to
my knowledge, they amount to several from Sr 1759 to
the present and are put upon the same list as the
of the Honble the Court of Directors, Bengal
* > > ^ w
The Honble the Court of Directors, Bengal

I have the honor to acknowledge the receipt of your letter
 dated the 11th instant acquainting me that as it would appear from
 the enclosed copy of a letter from Sr. John the Superintendent of
 the Botanical Garden that some original drawings the property of
 Governor Pitt were made over to one Thomas a mistake of Mr. Colborne
 with the private property in his possession belonging to the late Sr.
 John Pitt in this respect the Right Honble the Governor has not on
 Council is pleased to direct that similar orders should be made to
 Sr. John Pitt's estate in order to be made over to the same person
 whether the drawings in question consist of twenty large plates
 or the property of the Botanical Garden or the private property
 of the late Doctor Pemberton appears to be undoubtedly but in compli-
 ance with the requisition of Government. Hence the honor to forward

Official Correspondence

on the subject of the orders
of Government relative to
the discontinuation of the
copying of Dr. Roxburgh's
drawings for Dr. Hare

John Maxwell

1918.

10th June 1819.

I expect that it would interest in the sentiments expressed
in the proposed draft of a bill, the friends of the House of Commons,
and the friends of the House of Lords, to see them joined in support
of his Majesty's plan for the purchase of the Library of the House of Commons
from the late Mr. ...

The large portion of this book was collected under the
superintendance of the late Mr. ... A part was copied from the
collection of Mr. ... Mr. ... and others, but the whole was
purchased by the House of Commons, and as such I consider
it to be entirely at the disposal of the public authorities. This collection
together with other drawings of Natural History has been made with
public view for the advancement of Science, and by no means allow
ing individuals not only to inspect the drawings, but if required to
make copies of them, one of the primary objects of the House of Commons
in the Establishment of the Museum of Natural History.

r£~*y.

It would be curious, from its being the means of diffusing Botanical
Science, in the Public Institutions of a similar nature in
England, the most liberal access it affords I understand to men
of rank & consequence, without fee, to be kept the drawings which
are now in their possession, but in my opinion should be the custom
of the House of Commons to have a Class of persons
to another to such an extent, Mr. ... may be so considered, as he
is the person who enabled the Government to borrow from the Executors
of Mr. ... the drawings which should be distinguished by
his name, and to be kept in the same place as the drawings made
by Mr. ...

lx

Wallich took over substantive charge
of the Calcutta Gardens from Casey on
1st August 1817.

From letters by H. Colbrooke to Sir
W. Carey, it appears that Colbrooke,
Fleming and Sir Joseph Banks
recommended to the Board of Directors
Wallich's provisional appointment
as Superintendent, but the Board appointed
him, ^{absolutely} at their meeting on 29th
Jan. 1817, and conveyed this
appointment to the India Council
in their general letter of 12th Feb. 1817.

See 1817, Volume.

In June 1816, we find Wallich then
again resident in Calcutta writing
as Superintendent of the Asiatic Society's
Museum to H. H. Wilson the Secretary
regarding the closing of the Museum
when the students were present etc.

In August 1817, Wallich then permanently
established as Superintendent of the Asiatic Society's
Museum he could not continue to perform
officially the duties of Superintendent of the

1817.

Asiatic Society's Museum and so she
proposed the appl. of a joint report.
to relieve them. The Socy. however
considered their own objection to a
dual control and resolved there to
relinquish wholly the
report. paying them at the same
time a high compliment for
their past services.

Dear Sir

When I went off the ship
of St. Pierre I did not mean
to see that you had pointed out
any mode of packing. However
on referring to your letter of the
11th inst. I was surprised to find
that at a late hour the
mode I adopted was just the very
worst. I have now the pleasure
of sending you some more
specimens in more perfect
& packed agreeably to your
instructions

And the young. Will be
happy to hear from you
of these days. Arrived
Seaman.
Dear Sir,
Yours obedtly
Wm. G. F. H. H.

London 19th February 1818.

My dear Sir

2nd Feb

1818

3rd Feb

I have to acknowledge & thank you
for your delivery of the 4th & 7th with
the former enclosing two most
acceptable parcels of seeds from France,
for which, as for your kindness in having
forwarded a supply of seeds to Mrs
Cornwall, I am much indebted to you
I have informed her of your having done
so - & if you have been good enough
to promise some occasional packages
in future. - The Dispatch of plants
which you are preparing to send as
will be a great acquisition - My Father
who I hope will arrive safe with
his family for you - can, as you prefer
take charge of them, & return in the boat
if necessary, he can remove the plants

that the reddish flower is that which is
so highly perfumed. The white consequently
having but little smell or rather, sweet.

There are also some seeds encased in
heads - and that the theory of adding
a black substance which has been given
me here as what is used for firing in
Tibet. I have my own opinion of what
it is - but may request the favour of
your looking at it and informing me
at your leisure of its proper name &
qualities - Have an idea that it
is a species of Asphaltum? -

I am very sorry my people have not
enabled me to send you any more of the
Goozela seeds - or the bulbs which you
mentioned in one of your letters - but
I shall not cease to have procured the

from the boxes into Journals for
transporting them thro' the Miles
long, Oak carries you another packet
of the cinerous from Seblon. I also
do myself the pleasure to send with
this letter a specimen in flower of what
I believe to be the Palesian - and some
more specimens in flower of the Primrose
kind - I have directed my people
to procure some more of the π (^ & ^) you
allude to as singularly articulated
Such send them as perfect as I can
get them, they grow, & hang parasitically
but upon rocks I think & not trees -
I also send another specimen of the
Pet. Narva - bearing the reddish flower
some of the white flowered I think went
with former despatches. I was lamented

for you. Hope soon to have the pleasure
of furnishing you with some Rhododendron
in flower, - I wish dead them first in bud
then when they are opened & lastly in
full bloom. - I must the young trees
I had the pleasure of sending you with
thrive. & produce flowers themselves
hereafter, some of them are very small
& young but I thought such had the
best chance, perhaps, of living. - Have
beds of all manner of young plants for
your people when they return to you
Pray is there not a large fruit growing
in a large tree in Bengal - called
"Chullak" of an acid & suberyonic
quality. The other kind lapping over
in several places? I promised what appeared
to me a curious fruit of this description
the other day with the intention of forwarding

that the reddish flower is that which is
so highly perfumed. The white comparatively
having but little smell or rather, scent.

There are also some seeds enclosed of new
kinds - and I take the liberty of adding
a black substance which has been given
me here as what is used for firing in
Tibet. I have my own opinion of what
it is - but may request the favour of
your looking at it and informing me
of your opinion of its proper name &
quality. - Have an idea that it
is a species of Asphaltum?

I am very sorry my people have not
enabled me to send you any more of the
Moozela seeds - or the bulbs which you
mentioned in one of your letters - but
I shall not cease to have procured them

Wagon - but my ^{perhaps} Bengalees tell me
it is found in plenty near Calcutta.
I think they said on the road to
Barackpore -

Send my sales have prepared
more specimens than I thought. so
I have made up two packages to go
by the day's dak - besides the letters
I have despatched another by
dak Baghee

Adieu Dear Sir

Yours very obed^t & affectionate

To Mr Wallish Esq.

Superintendent Botanic Garden

Sir,

The Board of Trustees having been pleased to send to you the difference between the allowance drawn by you from the said department and the established salary of the Superintendent of the Botanic Garden, during the period in which you officiated in that capacity between the departure of Dr. Buchanan to England and the appointment of Dr. Hall to that Station, I am desired to intimate to you, that such amount has been paid to the Sub-Treasurer for the payment of the amount to you in accordance with the order of the Board, and that the copy of the General Order on the subject is enclosed for your information.

To Mr Wallish Esq.

Wm. Pitt Rivers

27th February 1843

Edinburgh

Extract from a Public General Letter from the Honble the Lords of Council dated 23rd September 1841.

It appears that you granted to Dr. Wallish when you had appointed to succeed Dr. Buchanan some salary on footing with the Botanic Garden, only a moiety of the salary of his Predecessor but as we have appointed Dr. Wallish to succeed Dr. Buchanan you are hereby in that Office, as advised in our letter of the 13th February 1843 he is to receive the same salary as Dr. Buchanan enjoyed, to commence from the time Dr. Wallish entered upon the duties of the Office.

jfe^jt&^Li

Wm. Pitt Rivers

To Mr Wallish Esq.

Secretary to Government

Edinburgh

I was duly honoured by the receipt of your letter of the 27th February 1843.

last, relative to the arrears of my Salary, and by its appointment the foundation
of the Honble the Vice President in Council, that I have since through the
Office of the Civil Service as authorized by Government the difference of
Salary as above dependent on this order from the 15th February 1815 the
date of Mr. Archer and Department for Europe, which has been the date of the
same year when the same was appointed Superintendent.

B « Under the spirit of the Order of the Honble the Board of Directors, I
served in the contract from their general order dated the 2nd September 1811 which
you transmitted to my information, it seems to have been intended
that it should have included the full allowance as a Superintendent, yet when
I have actually in charge and performing the duties of this in-
stitution, which is relative to the 1st April 1811, making an addition of period
of four Months and a half. On that date I was when < g^JL* as
will appear from a letter which I addressed to the Civil Service on the
25th August 1811, in which I take the liberty to annex a copy, and from the
inconvenience which in consequence took place between the Department for
Government and that Office, leading to my allowance as a Superintendent, to be
independent during the period in question, being passed on the 6th of
following. An obstacle, however, appears to arise to the full operation of the
Honble Board's ordinance, from Mr. Haas having been removed from the
date of his appointment and from the acknowledgment, in your order that his power
cannot amount to Salary attached to Civil Office by Board, and present Sta-
tute as actually and is equally due to the Honble the Board for their gra-
tuitous mark of their generosity, superintending to their former period and
position, and I respectfully submit the Honble the Vice President in Coun-
cil would be in the favor to have sent to the Honble the Board of Directors, my
most hearty and acknowledgements for their kind and most generous offer of so
an excellent deal and wishes to be in myself and entirely independent of
that happiness which they have conferred on me.

VA

Spencer
J. Waller

To Mr. [Name] Esq.
Civil Auditor.

Sr

I have with me the enclosed bills for my salary as assistant to the
Superintendent of the Botanic Garden for which I have been in charge, that
I was upon the 11th of January 1863 and was directed to receive my charge of the Garden
on the 21st December in a letter from the Chief Secretary to Government
bearing date the 11th of that month. I however continued to perform the
duties of being Superintendent as usual until the 26th April 1863 on
which date Mr. [Name] took charge of the Garden himself.

With reference to these circumstances I might have been induced
to submit the bills at an earlier date, but being determined from the 11th Decem-
ber 1862 until the 26th April 1863, being the date on which I was actually
relieved from the charge of the Garden, I have been unable to do so.

Council Chamber
17th November 1863

By order of the Secy. of the Council
A. J. [Signature]

w>^K\w

Letter from the Com^r dated 19th July 1720.

Relative to the payment
of the allowances of D^r W.
as Acty Supdt in the B.G.
at Calcutta up to the date
of the Appointment of D^r
Haw to be Supdt instead
of the date of D^r W's delivering
over charge of the B.G. to
D^r Haw.

By your decision in this case,
D^r Wallich has perhaps in strict
justice received less, & D^r Haw
more than he ought. But D^r
W. has been appointed Supdt
of the B.G. in obedience to our
orders. We consider any further
intervention in his favor to be
unnecessary on our part.

at your own risk you may find
the same as the Hospital. You'll see
that the Hospital, as well as the
the public, you'll see the 9. The 10th, and
and the 11th. You'll see the 12th,
you'll see the 13th and 14th. You'll
see the 15th. You'll see the 16th
and 17th. You'll see the 18th.

John Smith

My dear Sir,

With reference to
D. Rues letter to Sir of the 18th
last - I have been desired to re-
-fract that you would be good
enough to send to me a set
of D. Ruesman's Drawings which
have been sent to England, for
List of them which according to that
Letter still remains to be forwarded
and. — Hope the Letter of the
18th

Correspondence with the Super:
Canyon at Canyon which these
now the pleasure to send wide
have anticipatory to you.

I have it pleased to
Walter height what you mentioned
in your note of Monday last. I
apologize for it will give me
pleasure to avail myself of the
invitation contained in it, but I
cannot promise myself that I
will be able for some time to come as
from my official engagements.

would not admit of my sending a
message in so pleasant a manner
The Archdeacon is at present resi-
ding at Barrackpore, but there
no doubt he will be happy to
accompany me to the Gardens to
say his respects to you which
remain. I am my beloved

Yours very

H. L. Allen.

My dear Sir,

I have two very flattering and
 friendly letters from you to
 acknowledge & thank you for ^{my} ~~of last month~~
 dated the 14th & the other the 21st. The
 latter only reached me yesterday.
 I feel much pleasure that our
 despatches to you have given so
 much satisfaction. As to the
 Bhamal Singh an order was
 employed according to your instructions
 and you may depend upon my
 continuing to second them to the
 best of my power. I have
 forwarded two packages of specimens

from them - and I have ascertained
that, exclusive of what they send
you, they are preparing 4 or 5 larger
specimens of each plant which I
have told them to increase to 8.
They are now putting them upon
large boxes & when ready I will
send them by the first good opportunity
down to Legowlee in order to be
permitted to grow by the return of
your boat, ^{coming} with the plants you
have been so good as to loan us
with. - Hope my kahu will
have reached the Botanic garden
with his cargo of Boreas' & in
a good state. She may get back to

Lepala was about a month I
suppose - a little more -
I have delivered you the page to
De Silva & Bharat Singh of your
satisfaction at their conduct and
your intentions in their favor. at
which they are not a little pleased.

I must again thank you for
your kindness in sending the
seeds you mention to Mr. Jernvale
who I am sure will be very sensible
of your attentions. I have already
written to prepare her for them.

There is a plant, of the true
name of which I am ignorant,
that is I have forgotten it. which
grows in Rumooan, but which these

My Dear P. P. Smith
I have the pleasure to
acknowledge the receipt of
your kind letter
concerning the manuscript of
your book on the
- from the Lib. -
I have the pleasure to
acknowledge the receipt of
a copy of the paper furnished
by my brother and to
accept it with thanks & to
return it to you as soon
as possible. I have the
pleasure to see that
Mr. Smith has the pleasure
of your work and to
see that the work is
done. My dear P. P. Smith
I have the pleasure to
acknowledge the receipt of
your kind letter

The first of these is the
 fact that the population of
 the world is increasing
 rapidly. This is due to
 the fact that the number
 of children born to each
 couple is greater than the
 number who die. This is
 true of all countries, but
 particularly so in the
 tropics. The result is
 that the world is becoming
 more and more crowded
 every day. This has led
 to a number of serious
 problems, such as the
 shortage of food and
 shelter. It has also led
 to a number of wars and
 conflicts. The world is
 in a state of chaos and
 confusion. We must find
 a way to control our
 population if we are to
 survive.

Kotlovaca Cap. March 24 1818.

It seems to be evergreen only. *Proth.*
Cm. of the *Pterocarpus Indulinus?*

Sample of the *Santalum* see, found near the Kotlovaca

Is. The Wood considered as very valuable by the Mountaineers
and turned by them into cylindrical pellets for containing pills,
Pate Uca. The capacity of the largest I have seen may be about
3 Gallons. When the wood has been properly cured, it is almost
never split, or cracked. (A sample of the Wood has been already sent)

General Height of the Tree - - - 60, or 70 ft
Girth a little above the Ground - - - 6 feet (if equal diameter)
Aspires to throw out branches at - - - 12, or 15 feet above the ground

My Dear Sir

Shall not time to add another syllable. every thing being
written, and confirmed. You, chief for the first day, or two - You shall
have a sample of the *Piper* which, when we ascend a little higher -
This is surely not a *Sheeshum*? Gray tells me what it is - Gray ever Dr. R. Webb

Sir

I have to acknowledge of yours

Package of Seeds & Letters safe & in good order, for
which accept my best thanks; and in return have
taken the liberty of sending you a small box of seeds
and also a box of Plants of the herbaceous kind
which I trust may some of them prove acceptable if
they are packed in a way, now recommended to my
self & without trouble to either Company
and should the arrival of your good order

Plants may be packed in the same way to be
forwarded to this Country, more particularly the
Tuberos or fleshy rooted Plants, such as the
Mazandarian Plants, no doubt but by this you
will have received a Letter from Mr Pascaud relating
to the Seeds of Dates. Should or Palms would
be very desirable; & you of course any Established
House or Seeds with the same view

I shall feel great Pleasure at all times to
forward Seeds or Plants to India if possible to
add to your Rich Collection, and shall be
happy in hearing from you when convenient

I am Sir
your very obedt Servt

John Shepherd

1818

10/1

I have the pleasure to inform you that
 the same has been forwarded to you
 by the same conveyance as the
 others, and I am sure you will
 be satisfied with the result.
 I am, Sir, your obedient servant,
 J. M. [Name]

1819 - March 18/18
 J. M. [Name]

I have had a share in the
the American seed - I have
had no further supplies from the hills or you
I have had a share - My brother's success
is very much - I am
going to the hills which I hope to do
I shall be able to send you a few
your opinion -
at least 5
of Impatiens that with one
grows at Suran in
to the height of from 10 to nearly 20
feet - I can send you as many seeds of
the belliferous family as possible - for they
are a troublesome race you know to young
plants - Could you get the different fasciculi
of D's manuscript copied before sending them
it would be very convenient for you know
we can not get that done properly here
having any kind of boards would be tipped

h

Preservation to them I Casey wrote me he be-
lieved the *Theobroma cacao* produced per-
fect seeds in some seasons with you. From
we could get that introduced here - as well
as Coffee - the rats and mice in the boats
were the chief enemies the last investment of
Holland which brought ^{'£*} put my own ex-
pense met with - I hope you will be able to
send me in the rains - I brought the seeds
of Cape Fermea with me
just before reaching this having been re-
peatedly eaten by vermin - the above descri-
tion

I have now *Stentella hyperica* the *Stentella*
imperius - I wish to know well - re-
I pray [^] we know if you know the *Stentella*
the *Stentella* *imperius* - the *Stentella* *imperius*

8181 Journal of J. B. Smith

A good many **&***+•* <*M Z-4** sent to D. A. amongst
 a variety of seeds, those of the *Carex Indica*, which
 I presume succeeded, as I observe your having sub-
 -mitted a most particular description, accompanied
 -ed by elegant drawings, of that plant, to a
 late Meeting of the Society. **s^&^*?3\$**
 Now being very acceptable, as, to the best of my
 knowledge, it had not been before described. Now
 that you grant to an immense size, I suspect the
 largest Parent Trees, **f>v»** which catch the
 catches hold of the branches of the adjacent Trees, &
 their drops from one to another to an astonishing
 extent from the Parent Root, when in flower
 all these various Branches, as well as the Parent
 Stems, are thick covered with large *Dandelion* or
Groen which afterwards yield a surprising quan-
 -tity of the Down.

If you will be so good as mention my Plants
 which are to be found here & which you wish to have
 I will most gladly use my endeavours to procure
 them

From you

1875

Valley of Stipault, March 9th
1818

My dear Sir,

I have had the pleasure of receiving
your letter of the 21st Ult, & must return
you my thanks for your kind offer of
supplying any of my experiments at home
with ^{r /} your garden in England. I have
never ~~on~~ ^{on} those accounts I would wish to trouble
you; but at the present time one or two of
my friends have commiserated me for supplies
of seeds ^{the} production of India, & I cannot omit
the opportunity of your obliging offer to mention
them as objects of your attention. The gentlemen
I allude to are Mr Telfair & Dr Burke; the
latter is superintendent of the Botanical garden
at Complègne

The former takes great interest
scientific pursuit, & objects of utility &
improvement. I think it probable from your
acquaintance with the luminaries that these
gentlemen are already well known to you
& that you may even be in communication
with them, especially with Dr. Clarke especially.

I was happy to find that the Extract
that I made from the Alpha Station has been
proved of service to you in your researches
regarding the manuscript of the Paper plant,

I am not surprised at the desire you
feel of paying a visit to these regions, which
are so well calculated to satisfy your curiosity
generally, & your botanical researches in particular.
The only obstacle, & that I fear is an insuperable one
to the gratification of your wishes, exists in the

feelings evincing of their forb. to admit strangers,
especially ^{inquisitive} ~~curious~~ strangers, within their mountains.
The mountains of Kumaon indeed are open to
travellers, but you would not perhaps be willing
to satisfy your curiosity at the expense of so
long a journey -

Mr. Selous & Sherat Singh do not neglect
their collection of plants, & make excursions
for the purpose to the woods & mountains. I
directed them shortly after their arrival they
to take up a neighboring mountain, whose summit
was then covered with snow, in which we had
to track our way more than a mile deep,
you may well suppose the novelty excited
their wonder in no small degree; I told them
to give you an account of this trip, but I do
not know whether he has done so. Sherat
Singh is an indefatigable climber for his years,

€ fA

131
I am indignant at a contrary supposition, especially
to treat the great monuments with contempt,
& Nestor-like swearing of those of his former
days, such he executed with Dr. Burdeman, although
they are the same & have not in the least
wave of,

Af^x^xi47-

We are now enjoying the interesting
of spring after the chill of winter on the
vegetable world. *VS>

u

I beg you will present my compliments

Wesley, W. Report

2 August 1884
My dear Sir
I have just received your letter of the 28th & I am glad to hear that you are so interested in the plants of the West Indies. I have a few specimens of the plants which you mention in your letter and I will send them to you as soon as possible. I have also a few specimens of the plants which you mention in your letter and I will send them to you as soon as possible. I have also a few specimens of the plants which you mention in your letter and I will send them to you as soon as possible.

them & deputize them to you by your
elaborate coat of arms & arranged
and your people to do so or at least
as they have done very much to do
for future brass medals & medals
of what you had done for
his father & what you intended to
do for his self and the rest here
think if they wanted it would
be sufficient to the medals then
their creation but they really are
very jealous and at the same time
very well behaved quiet people
and are constantly employed in
the pursuit of their sport I don't

know anything that would give
me greater pleasure than to see
you here. I am confident you would
afford me the gratification of hearing
personally, although I am not
but I should be very glad to
must be satisfied to give each of
and then to return to the
vegetable production in the
with a most successful and
rather than the more profitable
the distance you are situated. But
at present, I am sorry to say, the
are obstacles which I have not
early measures. This part is particularly
salutary to us because of Europeans coming
into the country and as it is a point

which we can feel justly desirous
of preparing at all other times
to do so. and have desired myself
to write the following pieces many
of my friends & acquaintances
be desirous of many of my acquaintances
& others to write I suppose. I am
not without hopes that the present
Whistle may prove very useful
may be a good way of getting on the
way first intention of the road
being open for you and this thought
will be the case we might perhaps
make some arrangements that
could be put in that we wish
to keep this very desirable

write to you more fully on the subject
to go. The ~~best~~ season is the
only time you can safely come up
to that there is time enough before
not consider of it

with the boxes going down for
you I wish send a few small
plants of different kinds in pots.
I shall be happy to hear that the
Bosnia is well. Write you safe
Believe me My dear Sir with
great esteem - Yours very sincerely

Edward Smith

My dear Sir

I have the pleasure
to acknowledge receipt of your
last containing case seeds - some
I shall send **fay r.** the hills to be sown
... the well ... a better chance
Pray to the ... **Arven** />(^JU

... here
... and Barley the I have
A*v ... a situation where I
could suppose it may ...
... habitat of the species of *Impatiens*
you mention to I think between Simla
and Dinnace chokree - which are on the
high ridge along which the road runs
from Subathoo to Kotepur probably
5 or 600 feet above the plain I
... habitat of the gigantic species
mentioned in my last and which is
either a new one or may probably be
lost by situation was I mean to
^ ... I have no specimen of the

In any preservation - but shall send
you them when I go to the hills

I shall write again soon - I am
generally well at present many thanks
for your kind enquiries - but have
got my spleen indicated - although
it is only at times it can be discovered
by examination - in the cold weather I am
well and fit for any fatigue but the
rains are very apt to give me an attack
of indigestion which increases the en-
largement of the spleen which
again disappears with the fever -

In the hills I am **M,** **u*** ******* **•**
I am using occasional cathartics and the Pancha-
Murcha's Ferri - pray let me have your
advice and consult your friend Gordon
when you see him - If I might say
I should be glad to have any
good effect should be apt to go to
Calcutta next week for that purpose

The Journal of the Hospital Society
the Nov^r 1819 - my only hope is
that the enlargement of the
permanence and stability of the
forming - Pray send you as
soon as possible of the nature
of the cure - a case of the same
nature always after once having
been cured

Yours very

Mon cher Monsieur

Je me réjouis d'autant plus de pouvoir
 vous adresser ce matin le Tableau des points de
Mutualité de Paris que j'avais déjà plusieurs fois
 buté vers l'un ou l'autre sans pouvoir le trouver
 si que je commençais à être persuadé de l'infidélité
 du commissionnaire auquel j'aurais l'avoir confié -
 mais enfin je lui ai écrit plusieurs fois et j'ai
 obtenu le point de ce commissionnaire. et je
 souhaite bien sincèrement que ^{la réception de} la lettre qu'il m'a écrite par son
 adresse de Paris que j'en ai moi-même à son
 domicile.
 J'ai vu hier le Dr. Vaysses; son ouvrage beaucoup
 fait de vous. il est bien vrai qu'il a été nommé
 président de la commission chargée de l'étude du régime
 de l'eau, et qui part pour Hyderabad dans un mois environ

Je vous prie de m'excuser de deux semaines que
je ne vous ai pas écrit et je vous prie de me
excuser de ne pas vous avoir écrit plus tôt.
Je suis très occupé et je ne puis vous
écrire plus souvent. Je vous prie de
m'excuser de ne pas vous avoir écrit plus
tôt. Je suis très occupé et je ne puis
vous écrire plus souvent. Je vous prie de
m'excuser de ne pas vous avoir écrit plus
tôt.

Typical 20th March 1898

My dear Mr. ~~W.~~

I have had new top used
Thank you for your letter of the
10th inst. and I assure you I feel
quite gratified that our contributions
to the Garden are acceptable and
have afforded you any pleasure
Yesterday some more living plants
specimens were despatched for you
today I send ~~£~~ *tt* * S ^ * ^ the
Banghee one of which contains the
Native form - which I trust may prove
the Native form. a name that I do not
know to the Museum & I suspect
must be the Portuguese language -
and there are also some ^{other} very rare
balls & roots - another box shall
go tomorrow. I have a bird or two
more

a two more of specimens almost
ready among them, & the seeds of
various plants, are those of the
M-turra - a paper plant, attached
to a bough of the shrub. The other
showing plants are all packed in
truss and these will reach you
in good order.

V-fcv

I am surprised my
mother who went down with the
Boatman had not arrived of the
S. but think they will have been
with you very shortly after an
detoured the cargo quite safe.

If you wish to have the proceeds of
let me know what plants of these
you have received, you particularly
wish to have the flowers - or better specimens
of what be my business to procure them

the Khasaphal is now out
of flower. I regret much I did not
send them when they were in bloom
but the next opportunity that will
occur we will have them sent you
I have ordered you
to get the Khasaphal seeds
plants you will have to look out
for them. I have told my people to do
the same. I have also told them
that you are the seed of wisdom we have
of course to all to provide more
I am sure Great God will do
the other things. I shall make every
enquiry after it. I hope some of them
which are now going by you may
turn out to be those you want.
The Shubla I intended to see passed
from Noa Kote - at some distance from

There where alone it is found I believe
I had no opportunity of a certain
knowledge of its properties but I will
endeavour to do so. I let you know
it is different from the
Bengal tree with respect to
pleasure to eat & its medicinal
properties.

I send you the only remaining
specimen of the black substance
which you think is Popul wood
It came from White and Hall
as means at present of procuring
more of it and of informing you of
the place it was found in, the quantity
of the substance on hand & such
other particulars. It is taken from
you more with these particulars
so far to discover what it really is —

3

Understand little of these matters
but it strikes very ~~strongly~~ in a way &
was I thought too heavy for paper
wood. I entertained an idea that
it might be a species of Asphaltum
or Naptha? long exposed perhaps, to the air -
I also enclose a

specimen of what appears to be
but very rich vein of copper, ~~stone~~
I wish do myself the pleasure of

sending you a Box one of these
days of different mineralogical
specimens, ^{at your com. if you please, apply to Mr. Colbrook} but have no memorandum
of the date elevation - in places

they were taken from. Pray accept
my best thanks for the seeds you
have sent to Mr. Bernwall &
Bellevue by sea by - Yours very
sincerely & kinely Edward Savin

Typical 21st March 1818

I am pleased to hear of the good
state of the 11th species in your
herb of the Chomaha form. I think
many plants have lately gone
in from several dispatches but
I will send a few more
to you with which you people
will be a great many for you
my state look down upon
plants of this species of Paterson's
with him and they are your
own to be given to you to be put
in touch of you when you
the other plants which you mention
I shall seek for without delay.

kindly depend upon having
them if they are procurable

u

Least but feel highly flattered
at the desire you express of attaching
my name to one of the & in my private
plants you have received, but my
sense of the compliment is diminished

NT

by the consciousness of how little I am
deserving of the honor, for I have
in fact but a very humble laborem
in this walk and have no claim
or pretensions whatever to any
distinction beyond that of a zealous
desire to be useful in a pursuit
which at the same time affords
me pleasure >£ /k^v£^£ culture, and
I am amply repaid by knowing that
my endeavours for this end have not

been wholly unsuccessful, and
it has yielded me no slight benefit
in procuring me the pleasure &
advantage of your acquaintance
Accompanying you I have the
pleasure to send you two kinds of
flowering roots, and a small parcel
of seeds; by the way, I have two
more boxes of different kinds of
roots & plants packed in stop such
to be dispatched, and I have had
prepared 4 or 5 large boxes of fine
living plants worth upwards of \$5.
Let us meet each evening, which
I intend to send down by the first
good opportunity to be put on
board your return boat with the
cheek & packages which will I am

before. I hope he will not
 set out any more things on these
 some curious ones among them
 I you would be happy I know to
 receive them in good order they
 are most of them too large to send
 in any other manner they
 are all numerous to be sent

My dear Sir

Yours very faithfully

as

I have the pleasure
to read you four
kinds of plants and
by the way a box
sent today, containing
of them among which
was a quantity of the

sr *r/

Chumash was
remained by death
from any further

I should be glad
to hear from you

I have the pleasure
to read you four

Sept 29. 1902

Received a letter from the
Alton & Mount Vernon

of two boxes they

sent me of books to

read. They are

very good. I

will read them

as soon as I

can. I will

write you when

I have finished

them. I hope

My dear Sir,

I hardly know how

to stand accused for the liberty

of the e^{\wedge} only

to have been about to take

the good news of my mission

L* received

the apology with

in its true light - - There is

in the first page of the letter of

the 12th but which I am very anxious

to see changed. I mean the word "con-

vinced" with its general acceptance we

r •

are

perhaps apt to give to this word more
that it really in plain, Amos case
-tarily that I feel confident you
intend here to attach to it - With

their in person I have ever since
^{for reasons which will probably occur to yourself}
I am in the belief, been determined
perfectly that you would change
the word to some one less strong?
I have however decided whether I
could venture to take the liberty of
I thus do it ~~perhaps~~ without any
right. as I said however before
I must bend to your **u^^^SL^**,
Z

my motive as at least some excuse
for the freedom -

Dear Mr. [unclear],
I am very sorry

25 March  
1818

My dear Sir

Yours

**Jt~4\***

I acknowledge with many thanks your letter of the 6<sup>th</sup> Instant with the Cape seeds - which I immediately put into the ground and shall not fail to inform you of the result - all your wishes in regard to the paper plant shall be attended to.

My friend Mr Gardner informs me you are anxious to get some specimens of the "Choore" or Butter Tree. In pursuance of sending you

some of its seed also in a small bottle a specimen of the butter produced from it - The Tree does not grow in this neighbourhood \* had the nearest place I have seen it is at

at Jockchunt on the River Klee  
Seven days March to the Eastward  
at this which place I have  
written for specimens of the  
leafy flower. I have sent  
you a seed of a very pretty  
little tree called Koonae, it grows  
to the height of 12 to 14 feet - when we  
first came onto the prairie it  
was called *Si* hill above the appearance  
of the seed however proves this  
to be a mistake - the word is hard

& \*\*2 cf\*

you a small  
specimen of it - The Pine seed which  
accompanies this is from a very  
handsome tree which I have not  
met with in our part of the District  
on the bank of a lake on the  
plains

plains - it grows tapering like the *Agropy.*  
I shall continue to send you  
seeds occasionally as I pick  
them up -  
I remain

My dear Sir

Yours faithfully  
R. S. Colquhoun

L. R. Reynolds  
& Co  
29 March 1866

ms. 79pl

My Dear Sir,

While at Patna on my  
return homewards I had the pleasure\*\*\* of  
your obliging letter of the 28<sup>th</sup> Februy-

The Season of the Year did not admit  
of its being in my power to collect any  
seeds on my way through the Hills, as all  
was in blossom, but the few I g<sup>ave</sup> the  
President to be sent you with others he  
was **J**spatching. I regret that I secured

the **\*fi,** seeds in vain for the same year. I  
however in the event of your **V**  
not succeeding to find it here I sh<sup>all</sup>

send a man at the setting in of the rains  
to the Hill of Soombar to collect some

from where I procured the first.

Pray be so good as to inform me of the enclosed leaf and of course are of the Mahogany tree. Should they prove so I shall be highly pleased at our possessing so valuable a Timber in our Neighbourhood. My attention was struck by the color of the wood, as well as the leaf not being that of the Goen, as I observed some wood Cutters felling the Goen, which was a very fine one with its stem running to a great height, at Phuamphoo on the South foot of the Mountain of Phuamphoo. If our best Indian Mahogany it may probably appear to you the Swint recorded in Dr Flamingo's letter written and even in this case it will not be a less valuable discovery to the many unhappy objects, laboring under the curb of the Parts - which may be more

familiar to you under the name of Malabar,  
that it exactly resembles) than the former  
will be to our cabinet Masters!

Your people, with the kind and ready  
assistance the Resident affords <sup>• S\*S\*,T</sup>, are collecting  
treasures of <sup>f~</sup> your Gardens <sup>f \_</sup>

Believe me

Yours &c Sir

Very truly yours

Handwritten text in a cursive script, likely a historical document or manuscript. The text is dense and covers most of the page, with some lines appearing to be part of a list or series of entries. The handwriting is somewhat faded and difficult to decipher in some places, but the overall structure suggests a formal record or account. There are several small annotations or symbols interspersed throughout the text, such as the 'tl' at the top right, the 'r' and 'f' in the middle, and the '^ ^' and '? ^ ^' at the bottom left.

à me a prouvé le plaisir de voir offrir la table de  
bonne foi. J'aurais d'ailleurs un différend établi  
de quelques années de l'âge et nombre de production de  
votre pays. Si je ne pouvais par conséquent pour cela sur les  
richesses de votre établissement, je tacherais de en rassembler  
moi-même quelques-uns, et de les envoyer à une figure  
longue. De mon côté j'aurais bien promis que  
le meilleur professeur de toute la nation par son degré  
de savoir particulier.

Vous ne pourriez certainement pas la liberté et la  
multiplicité de ces demandes. que je ne me permette de vous  
faire par dans le but d'être utile à une pièce par votre  
connaissance et votre habileté pour marcher et  
et dont je regrette tous les jours davantage de ne me pas  
occuper.

Agreez moi cher Monsieur, mes compliments bien sincères  
et une remerciement pour le superbe dessin que vous me avez  
envoyé qui a suffi à la terminaison de mes affaires et de vous  
de moi. Si je ne puis par parler plusieurs jours de vos choses  
amables et me réjouir de vivre sous la protection de vos affaires.

Entendu je me présente à vous respectueusement de votre humble  
serviteur et de votre dévoué  
ja me réjouir de vous l'écouter de l'ouvrage de vos livres que vous  
me faites. —

pfetxf\*

I have the pleasure to include an  
 additional supply of the *Scapharia* and  
 was you expected to have  
 to *Salmon* - it is all now ripe  
 for use in ripening daily - I would  
 wish for a further supply - It has been  
 uniform in blossom since Feb last - It  
 presents the peculiarity in the hot weather  
 that the flowers used to blossom after  
 dark & perish at 6 or 9 o'clock

But the weather - but when the cold  
weather set in, it kept in lower  
the evening <sup>t?</sup> is now gradually resuming  
its former habits. The flowers being away  
about that day - I wish to know if I had  
any thing else that might be useful in  
your garden. I have a pretty good collection  
but those that are least common I have  
no names for. I shall send two specimens  
to you by Mr. Salomon to leave their names  
or if they should be wanted, I shall be able  
to supply seed - & also of the *Melilotus* Major  
we came up from Cape Seed last year & is  
now going to seed.

Yours very truly

Yours faithfully

William Lister

Mr. Seydoux

My dear Mr. Wick

I now return the  
papers - I do not know  
that I have been able  
to do much good

Thank you for

what I may have

had to say to her.

I am sending a great

bottle of Quinquina

Wick - I just receive

Yr. W. Wick

Yr. friend

My wife is about  
bricks & has only  
to stay for an hour  
I must be content  
(your very truly)

Friday  
Monday

W. J. P. P. P. P.  
W. J. P. P. P. P.

W. J. P. P. P. P.  
W. J. P. P. P. P.

^1 ^t 7  
 | A • r -

My Dear Mother  
 I have just finished  
 part in the old paper  
 My occasion for  
 talking to you is  
 that I thought it better  
 to a short time to  
 put in a few lines  
 to you today  
 while you are  
 in the city  
 I hope you are  
 a happy and contented  
 in all respects

My Dear Mother  
 I have just finished  
 part in the old paper  
 My occasion for  
 talking to you is  
 that I thought it better  
 to a short time to  
 put in a few lines  
 to you today  
 while you are  
 in the city  
 I hope you are  
 a happy and contented

 I hope you are  
 a happy and contented  
 in all respects

5 1/2 -  
 1 -  
 9 -  
 7 -

My Dear Dalziel,

I now send you the Hudson  
Papers. Be good enough to return  
them to him when you have  
done with them, - I think you  
will find them very  
satisfactory - W. Stanley  
who wrote to him you will  
see in a very serious &  
very elegant style is the  
some remote connection of  
mine, & is married to a  
Cousin of mine -

Your friend & friend  
Castor oil candles are not  
so inflammable as but first  
thought them - It has been  
found that all these substances  
are composed of two bodies  
one much more fluid and a  
given heat than the other  
The less fluid portion of  
olive oil does not become

liquid under a heat less than  
100 degrees -

Now it only remains to suppose  
that the more solid portion of  
Castor oil, will not liquefy  
under 115 or 120 degrees &  
the object is accomplished

I believe by their candles  
will liquefy at that heat,  
that I do not well satisfy  
myself this morning of the  
degree of heat at which it did  
liquefy -

Now make the  
experiment in Castor  
and oil, by boiling in Alcohol  
in the cold season try  
it by preparation

Do you know the article  
produced in the hills  
called Phulloo, the produce  
from the kernel of the  
Butter tree, I never tried

if but some like that?  
better if it were a few  
the best car as for the  
I like. I know of them,  
I have some in Boston is  
at Morristown?

Yours very truly  
Wm. W. W.

By the bye have you  
said you the time in the  
the I think there were a few  
many some from the hills

N. Wallick Esq.

---

W. Lycurtus

My Dear Madrick

In continuation of my  
5<sup>th</sup> letter take as commenced  
with to particularise a little  
in the first place you will  
find a Potatoe Walker - & 2 Potato  
Courses of the Men who cultivate  
these Potatoes - <sup>& "</sup> - men - Tobacco  
a quarter of the wort covered  
also with Potatoes - You will find  
a new Fruit Garden stocked  
with 5 or 600 trees (among them  
£3 100 Vines (about) & about 100 of  
grafted oranges - the 3 up Country  
sorts - Pumpkins - Cabbages &  
Nursery, & some other  
You will find a great deal  
done in establishing a system  
way is to circulate thro' the  
whole estate to supply the life  
blood of a garden - a Water  
course for way as far as it  
goes - & for the result lead  
as planned - I presume to  
take merit - It was intended  
from - given, <sup>with the house</sup> <sup>weeds</sup>  
under ground in form of the

House & then <sup>at</sup> another five or six feet  
to the S. to reassociate itself  
& walk <sup>\*\*E.</sup> southward.

You <sup>.^:& A^?^ \*z ^^^</sup> laid out  
with my own hands to the  
S. a future *Shrubbery* establish-  
ment on the boundary, now  
principally covered with grass  
& what I meant for a botanical  
arrangement <sup>on the inner side of the road</sup> on a large scale  
a great part of way it producing  
for the season but see there  
are other divisions connected  
with it also, the *Mosses*, the  
Plants, the *Gossamers*, the  
arums & the *Calla* have  
separate beds & by uniting  
these 4, I have added

^^T

About the half way,  
to my Botanical arrangement  
was on planting it with  
*Trichandra* & *Trichandra*  
appeared rather too limited  
for my object's instruction as  
large as life. There is a  
separate arrangement  
for many other particulars.

/ -A

of my we want a layers  
sabby; < & \* \* \* portion (last layer) for my  
Friends all escaping plants, connected  
too with the Palma base, & the  
below, another, a  
---? for Coffee, as

5 1 ^ ^ ^ ^ ^ z

however <sup>s</sup> is not  
moment in my memory -  
Such has been the general  
plan to the South -

You will find words (some  
now catch) ornaments with  
Cypripedium - You will find  
them (or into future means  
greatly enlarged if they succeed)

now from success, by that most  
unaccountable & painful failure  
I myself & want of irrigation -  
You will find the same little  
ornament in the way of Eucher

flowers in front of the houses  
making the same built & later  
established - usually ditched turned  
into Rambeaux - The black sheds  
repaired - Euphorbia fences

planted & planted by contract  
You will find that even a most  
intelligent Sicilian & every thing  
for it goes carried on with  
the greatest economy & freedom  
of expense to say with

an extended eye to the whole  
I think with this success that  
you & I shall be happy to trace  
over with you (if you can walk  
as **/H** ) a little of the way - more

expectedly put under my protection  
without food & without ailments  
& I really give her over to  
you with the happy feeling  
that I have done my best  
& considering my means  
not far **\^ J 5fr** much in my zeal  
for her education

& so farewell Tilly  
I see me 3 Days Daily  
I repeat you when there were at  
my elbow always - & here always at  
my breakfast table  
Yours very truly  
Monday Evening W. Leg. 1818

My dear Wallack  
Having when we came  
home mentioned to Carter all  
the Cons. He said that as for the  
matter of expense he did not  
care about it, that his  
object was to get for any  
part of this China text that  
to obtain that object he was  
willing to perform a certain  
Duty free of all cost whatever  
to our Society.

Now I think our anti-bond  
object can not possibly  
be free of all cost  
for myself. For very sure

now say with me collect  
the same case but makes

that we shall never have any  
good bear until we have  
good sorts (as I have seen  
very large barking bears  
produced at Dinagapan  
I really am not sufficiently  
sceptical to doubt the  
production of better sorts  
as to the other things  
now sold to <sup>you</sup> of this  
proposition I regard all  
the produce of the Cape  
may be obtained here or  
sent out to Europe to the  
Westward - Under this  
proposition may I not  
say that you consider

the plan to be likely beneficial  
& that I believe in any  
share of the Society - to feel  
in the same manner  
more particularly as  
involving no expense we  
ought not to interfere with  
their ~~affairs~~ <sup>any</sup> business

Say ye, for a opinion

Yours very truly  
A. L. L. L.

W. W. L. L. L. L.

W. W. L. L. L.

My Dear Wallick

I inclose a list of  
54 Geneva & shall be much  
obliged if you will supply  
me therewith -

Carter & myself were  
disposed to make you  
a visit Satdy, if it will  
be agreeable to you to  
receive us - I had  
intended to have said on  
Thursday next (being a  
holiday) but I recollect  
the same case w<sup>o</sup> makes

W

4L & JuSt

it a body will probably  
produce a fall of prices  
not very favorable to  
ambitious expectations

Yours very sincerely  
W. L. Garrison

Saturday

Do not you think it  
to be worth while to  
contribute to the purchase  
of goods to be sent to  
the Col. under the  
bill - from Savannah  
to the Plymouth

W. Leicester

My dear Mr. White

Thank you for the  
Cherry at 1/2 shilling for  
concrete enclosed. You this  
Evening & leave - (at)

for you - I suppose you  
will have heard notice  
for the 15th day next -

Yours truly,  
W. Leicester

W. White

Wm Lloyd Garrison

Tuesday

Monday October 1st

After breakfast we went  
to the Cape Robinson  
to see the bay of  
Cape Robinson. The  
bay is very beautiful  
and the mountains  
are very high.

The mountains are  
very high and  
the bay is very  
beautiful.

Monday

Monday

My Dear Mr. Hall  
I certainly think we want  
no Supplement. ~~of the~~ but therefore  
request one from Mr. Taylor  
if he chooses to send it in  
consequence. . . . . What was said  
by Mr. Hall he will know  
the cost of his job. We can  
not help it. but we have you  
know a Committee of Papers.  
We shall see if any thing  
can be done for Boston.  
I have got an application  
for some plants for an  
old garden of mine at a place  
formed on 5 pages of

^ S

Optimum (and eight & ten to)

years ago - afterwards there

is the Red Sea & the

the

the

the

Dr. J. J. J. J. J.

Dr. J. J. J. J. J.

usual inspection above  
I have you have a plant  
work at ideal plants  
just as I hope I

Best Compl't & adms  
W. Hallik  
Yours very truly  
W. J. Taylor

W. J. Taylor

Dear Hallik

I understand  
the botanical  
I promised to give  
explain - I have  
them yesterday  
first place  
log of the same  
are all by the  
conclude you  
that they are  
to be sent  
in  
last several

W. J. Taylor

My dear Pollock

You will I think have been  
pleased with the Bud tea ow  
antela if it was open enough  
for you to see - or it may not  
I send some more - I do not  
understand why you has not  
blossom'd for I sent it to you  
before I sent any to Vityfher  
& in the order in wch the layers  
were ready - & I found on Friday  
morning the Vityfher one  
in full blossom - I have since  
been to Prose whose white  
ants are always the most  
voracious - & where the scars  
are divided into perpendicular  
lines & destruction I saw the  
with whom, seeds afford a promise  
of disappointment & living plants  
an assurance of their rapid  
decay - I am not very sure that  
our the antela may not  
be a lineal - descendant of the

Seed Conservation in the Royal  
Gardens of the Prince **fa^t. Lina**  
However with all this **-ZS^^**

It is not getting on very well  
What is the proper season  
for sowing Sissoo & Coffea  
W? it not be advisable to  
add to your plantations a few  
hundreds of Sissoo / Dalbergia  
latifolia & fancy. **^.^y?** if  
so to secure by writing my  
letter you to write to local  
agent **r^\*** **?&^<-^C** seeds of that

~~seed of Sissoo~~  
& Opium I found my crops  
at Filly much more flourishing  
by a great deal than projected  
but on the whole view of affairs  
I came to the conclusion that  
I c? be of no further effort  
here in retaining slaves  
for some months before  
that vacation was to be the  
path way was to lead to  
Disappointment & failure.

I have no wish to travel -  
on such a road to so impro-  
-vising a goal.

I therefore desired the Sican  
to wait on you & gave him  
my Estaffas to present

Your sincere

W. Leycester

Wednesday morning

I have been a day longer  
determining than I intended  
but I stayed to look at a  
particular spot I have  
benefited by my visitation  
have come to the knowledge that  
if you wish to have a good Country  
House Estab<sup>t</sup> at the river - you  
must commence by being an  
auctioneer or a Puff<sup>r</sup> of the  
side - the late Wagon<sup>r</sup> &  
W<sup>h</sup> the other operations above  
Barramafore - the former place  
has been purchased by Lopez Pacheco  
but is now held by another  
with us together I think <sup>(Vant Ochoa)</sup> <sup>or</sup>  
equal to us.  $i . \wedge i / \sim \epsilon' \kappa r x^{j * \wedge} \_$

in the  
to the

My Dear Mother

I very sincerely congratulate you on your return to the full recovery of your health.

I heard of this morning of having left home to endeavour to see the Commodore, with the intent of begging for a Pilot Schooner to take me & my eldest girl down the beginning of this month, & having failed to find him at home - I wander;

;) 3

I spent in search of Law & Literature when I met you in New York, but alas the great affair did not pick up the Commodore's son.

I sent down a man with a bag of paper & you will I suppose have shown you

I trust you will be satisfied with him. I am in addition by it to be understood that I am personally interested in his favor & that I have

\*V\*

y

the amplest testimony of his  
merit  
with regard to the care  
of the Bot Garden I have  
nothing to claim, & when I  
heard you were not going <sup>on</sup>  
to China, I gave up the idea  
of the repair <sup>^ C < ^</sup> tenting myself  
by <sup>" ^ < f ~ 4 z X ^ s.</sup> <sup>Gricks</sup>

A\* yft

'fp>v?/\*\*yf

ready  
I have been <sup>6</sup> slaves & the  
outline to <sup>... for me</sup>  
will not I think be <sup>to improve</sup>

I must leave the particulars  
of this to a moment of more  
leisure - I will only add now  
that I did not see in you  
be having previously arranged

JL ^ n ^ M.

matters on far more  
terms, one point <sup>error</sup> has  
been committed - I trusted my  
faith to your account of the  
extent of the Estate & my

proposition had been acceded to  
the day before I was ~~the~~ Estate  
was six times larger  
I have only now to add the  
lamentable circumstance, but  
I never much affected my  
spirits that you will find  
our Estate burthened with  
debt. It was so clear that  
things must be done that  
they wd be best done if at  
once done - that I have had  
no hesitation in doing or engaging  
for all that was indispensable  
to the not so much of the  
gradual discharge of the  
incumbrance. I have as to  
the liberality of God when in  
giving over charge to you  
I might say this I have  
done - that I have done - but  
right? was it, not unavoidable  
& if so God will pay -  
You however arrive in time

to stop my extravagance, in a  
great degree, - a Royal Monument  
for the I believe, a 6000 of these  
for roads, at a rate by way the  
whole cost might I believe be  
covered by the sale of half

I finally I have been annoyed  
by a determined resistance  
to the terms of the endowments,  
at the B. Gardens, but  
have not submitted with  
spirit to the same  
Remonstrance of the  
Gentry there are

I shall not be it for  
pleasantly to myself, - but I shall  
very happy to see you  
again

Yours very truly  
W. Pitt

It  
V

My Dear W. H. Child

I know I had had the  
my books I wanted them with  
regard to the Ligon reference  
& before I sent you my last  
parcel I looked for them  
& not finding them about  
the room I sent an order to  
my Librarian who had  
liberally removed all my  
books some 2 or 3 times  
when shortly after <sup>^ ^ ^ T\* j</sup> came to  
me & said that a parcel  
had been sent some time  
before I mean many days before

of Victoria <sup>by the same with the Bot Garden</sup> that they were  
wanted & that they were accordingly  
sent - Now I hope that on asking  
said sinner you will find  
them - if not you will please  
let me know -

I was up at 5 o'clock on Sunday  
& a good deal of water had by the  
frost of my fields - my  
Potatoes however, suffered a good  
deal in "parts" for want of  
water - I fear they cannot  
get the full benefit

I have however a plan in  
progress to get it water during  
the next tide we have a day

My Dear Ballin  
I have in fact sorry to  
my final resignation of all  
concern with Fifty  
My Tenor is so precarious  
& known to be so that I can  
not expect any exertion  
of mine to be useful  
I can not manage the  
expense with this influence  
of a Powder & Character & a  
shoe of black & if Cyphers  
are paid accordingly other  
men will not do their  
part - Having power  
over the estate yesterday  
& today - I have the  
pleasure to feel that  
I have not fallen much  
short of what I might  
have been accounted for  
within the bounds of the State  
of the account - Such  
that the question of simplicity

TA.

cle

C

whether you will walk  
across deep in mud on any  
dry road? if the former  
takes off the expense with  
the materials. This should  
principally be decided.

With regard to selling  
the rest it is too small  
to speak for a few months  
perhaps in a dance, possibly  
know not in the mean of that  
however in in Boundary  
Embarkment we will  
last for ten years.

It is necessary that  
we be vaccinated. But if it  
please you please not object  
occasionally to be a  
Visitor to the place & to  
at times when no one  
else may be present.

The general supervision  
has not within under present  
circumstances

M. S. S. S.

My dear Father

I enclose you what I deemed  
to me very much like a letter of  
Recommendation was written in  
his own favor  
& of if he does the thing with  
fidelity is the best certificate  
of conduct  
that a man can produce

It occurred to me that this  
man will suit admirably for  
one of the Trade Plantations  
Carter under whom he has  
served in the Barracks  
I have given a very high account  
of him as an industrious  
honest & willing man  
& found them highly useful  
to him in that laborious  
Department -

Let me know yours

our last meeting

very sincerely  
W. J. Carter

Dear Mr. Wallich

I have just received your letter of the 10th inst. and am glad to hear that you are well.

I am writing to you now as I have some news to tell you.

The first part of the book is now ready for the press.

I hope you will find it interesting and useful.

Yours truly,  
J. Wallich

My dear Wallich

Here is some  
news from England

and some from  
the other part of the

continent. It is  
very interesting.

On my way - by the way

I thought when I was  
with a number of

with the barbe came  
off - there are a few

with a few days

in the - or a few

as you had to come.

Handwritten text, likely bleed-through from the reverse side of the page. The text is written in cursive and is mostly illegible due to fading and the angle of the page. Some words like "Dear" and "I" are faintly visible.

amongst you will  
obscure several.  
The two most 'prevalent'  
issues - is also the one  
you could not make  
out exactly

I have now much pleasure in  
 sending you <sup>some</sup> ~~some~~ specimens  
 of the Goojee Loan the chamber of the  
 Lepamine head, that you wish  
 to have. I have sent there, for  
 expedition sake, by Rak. Some  
 others shall go by Nanga with  
 your box send you - Accom-  
 panying are also a few sheets  
 of the paper manufactured, as  
 you told, from the Chuk moore  
 Loan - and three other papers  
 of specimens. - the flower of the

1858

White Borsari a seed I have not  
yet been able to procure - but  
have not yet got the seed of the  
"Buttashie Loan" but hope a few  
days will enable me to forward  
them to you.

Yours faithfully

Howard Gardner

1871  
1872  
on the last species, and they all  
attain the height and bulk  
of fruit trees. The whole  
specimens are very beautiful but  
I am afraid they are the worst  
of their form & delicacy before  
they reach you through the  
hot winds, their petals & volume  
is a dazzling white and are  
very pleasing flowers. Some  
of the specimens to send you a  
small quantity some of the seed  
at last after a promise of this  
season, and have you the same

been husband to enough to form  
by you all the days since  
no less on your last letter, and  
in like manner I shall feel  
practical in attending to some  
precautions against the  
disease.

Remember  
My Dear Sir

Your very  
Obedt Servant

Spencer

September 12th

Dear Mother  
I received your letter of the 10th and was  
glad to hear from you and to hear  
that you were all well. I am  
well at present and hope these few  
lines will find you all the same.  
I have not much news to write  
at present. I am still in the  
same place and doing the same  
work. I hope to hear from you  
again soon. Give my love to  
all the folks. I am, dear Mother,  
your affectionate son,  
John H. [unclear]

My dear Sir.

I have the pleasure of sending  
you some of the Fruit of the Paper  
Shrub which as it is perfectly fresh  
I have great hopes may succeed.  
The Sprigs I planted are thriving  
and I shall be able to send you  
a supply of the plants whenever  
you think the Season favourable  
for transporting them. The rains  
I should think the best Season  
If you could send up a carriage  
Gardner to take charge of them  
it would secure their reaching  
you in good order. He might  
bring up a few growing plants  
from

from your Garden, those of  
Europe & China I have no doubt  
would flourish in this Climate

I remain

My dear Sir

Yours faithfully

W. Balguy

My dear Hallist

I have just recd your letter of the 20 ult. though indeed this predominates a warmth of heart, and of kindness, which always gratifies, and affords me, because I am really at a loss how to return you my thanks in words that may adequately express the gratitude I feel - Regret extremely, that Schoutts have been the involuntary cause of your having received such extraordinary and unaccountable neglect from Dr. H., nor can I refer it to any possible cause unless he should have caution - I place the circumstances of my having requested you to use your influence as a paltry shift to avoid paying him the fee, which I understand he does not object to receive as a remuneration for his advice. - Should this be the fact, the supposition is extremely ungenerous, and I need not assure you unfounded - unless I have heard Dr. Schoutts's liberality

In this respect so frequently entitled that I am willing  
to believe I subject myself to the "retort courteous" in  
entertaining such a suspicion even for a moment  
and still hope to receive all the benefit which I may  
expect to derive from his advice -

The subject on which I consulted him appears  
to me to be an insipient disease of the Prostate Gland  
unaccompanied by a peculiar affection of <sup>VT&Z:- &szJtsrjc</sup> the  
both have been occasioned I imagine by that arrangement  
which occasions frequent involuntary emissions - a  
disease under which I have long suffered, and which has  
gradually undermined, and destroyed my health - This  
still I am willing to flatter myself possible, as I am  
not more than 33 years old that professional aid may  
afford relief, or alleviation, and as Sir Thomas Stowe  
is considered at the head of his profession in such cases  
and Nicholson is his pupil, he appears to be the  
individual most proper to be consulted -

I do not very well understand what may be the  
state of medical science in France, but it occurs to  
me that possibly D. Diers - I will not say  
more, lest your prompt benevolence should involve  
you

to more disagreeable on my account.

It is sufficient to feel and to bear the evils inflicted  
on humanity, without making our groans audible

to confide in my own

maladies, even to you. Did not your letter carry with  
it every mind the strongest caution that yours is  
a disposition which delights in rendering benefits -

I feel greatly obliged to Mr Colson for his kindness  
which I think it will be right that I should acknowledge  
to himself - the most proper time for doing so will be  
when he receives the valuable communication which  
he promises - I look forward with great pleasure

to the receipt of your letter <sup>A\*\*</sup> continuation which  
I hope contains your Botanical instructions -

I am obliged to carry my reasoning along with  
me and therefore proceed pro a poco & pro a poco  
with slow circumspection, but I hope to leave  
Sunderland to the South before the end of this  
month, and see May close. I find myself scathe  
to the region of Pines, Cypress, & Cedar - Do you  
wish for samples of the Mountain Oak? Acacia,  
Chesnut

Apple - with grape - with pear etc. etc. or of the  
with fig - <sup>^C&BM^i</sup> - Blackberry - Rhododendron  
or have these been sufficiently described. I detailed  
by Coll. Cassin's - ?

Return the **JirJS** Philosophical Journal  
which you have been kind enough to send with  
thanks - It has an evil appearance, (and  
is difficult to account for Humboldt's blunder, in  
confusion of the <sup>»-\*\*\*<Ji \* « ^ / \* « ^ » &€\*s\*</sup> limit peaks) that so great a dis-  
crepancy as the difference between 7821 & 8187 meters  
should be referred to calculation - I was an ass

sent at **'JL-J** about Sunday evening parties  
while in England, and at the instance of some  
friends who are members of the Royal Society, I sent  
some months ago an abridged sketch of

my proceedings with an **6tfoCt\* < \*3** containing  
260 Prints of illustration with **&ZT&. Aj^**  
that will perhaps be presented for the Philosophical  
Transactions - The first regular notice of my enquiries  
will therefore appear when it ought to do - in London -

Yr always most sincerely  
W. S. Webb

14<sup>th</sup> April 1845

My Dear Sir,

Capt. Lihou, a  
nephew of Admiral Sir James  
Saumarez, who lately brought  
out Letters of Recommendation  
to me, has got the appointment  
of Captain of a ship bound on  
a voyage to South America  
along the line of Coast of the  
Andes &c. I immediately engaged  
him, & have his authority to  
offer to you, to procure for you  
any plants or seeds which  
you maybe desirous to obtain

from that I wanted, I do  
follow your instructions in  
preserving them, if you will  
be so good as to communicate  
your wishes to him on the  
subject.

I have to thank you for  
your late presentation of a  
West Indian fruit, which  
(if I recollect rightly) you  
denominate the <sup>Lochda</sup> Lolata, or  
your own name. I recognized  
the fruit to be what is called  
in Jamaica the Nesbery  
or Nesberin; my recollection

richness most to the latter, &  
that it is then a more juicy  
fruit & something larger. I have  
no doubt however of the identity  
from the shape & flavour, &  
it must be considered to be  
a valuable addition to the  
fruits of this country.

Y<sup>r</sup> very Dear Sir

Superintendent of the Forest & Botany

---

Mou cher Monsieur Wallich,

J'ai été bien fâché de ne pouvoir aller  
à la botanique à mon retour de  
Jalta, où j'avais rencontré le Navire français à la  
rencontre de quel j'étais allé, mais un léger incident  
m'ayant séparé de mon bateau, j'ai été obligé de  
revenir à l'île de Sarcote.

Je vous ai écrit mon cher Monsieur de  
me préparer un paquet de graines pour expédier  
à Monsieur Thoinet par la prochaine occasion du  
Navire Casan. J'ai vu bien le capitaine et le Lieutenant  
qui m'ont tellement invité à leur charge de me  
envoyer pour le Muséum et m'ont tant promis de  
garder tout le bien imaginable de tous les objets  
que j'aurais bien leur confier, que je ne puis

ne l'empêcher de vous demander avec instance  
une petite caisse de Plante pour vos amis  
correspondants de Paris. Cette occasion me paraît  
si favorable que l'idée de vous jeter  
dans un moment où je sais que vous êtes  
sûrement à Paris, me vient au cœur, il est  
vrai que je vous en prie avec indulgence et que je  
ne suis pas sûr qu'elle réussisse, mais je suis sûr que vous  
ne refuserez pas une demande que vous pouvez  
faire de votre côté et qui sera  
très utile à votre établissement. Je suis sûr que vous  
serez très obligé de son obligeance  
demain de cette affaire vous voudrez bien me le  
faire savoir, et dans la soirée demain dans la  
journée j'en ai moi-même attaché la petite caisse  
et son renvoi de Paris vers de cette belle  
affaire que vous vous êtes fait à moi rendre.

Avec l'assurance de mon parfait dévouement  
et de ma haute estime pour vous et votre  
admirable Société. Je suis de tout mon cœur  
Vos très affectueux amis

ground. The seeds of the Butcher's  
 brome grass you succeeded in growing  
 but you may depend upon having the  
 first year yet. The Butcher's  
 brome grass are always in abundance  
 employed in a garden within three or  
 four years of any particular plantation  
 previous which you might please  
 to specify. I have no doubt the stalk  
 will be able to tend to you. You people  
 have just brought to me a parcel of  
 specimens another of seeds and a bag  
 long kind of fern. I believe you have  
 addressed it - they will be dispatched to  
 day, & they have another specimen of  
 fern long & very thick for which we are  
 making a box to send it to present to  
 with proceed on the boat. Remains by  
 your most faithfully Edward Mordaunt

4 May -

My dear Sir

I have the pleasure  
of sending **A\*** a few more  
seeds of the "St Barocai" - so  
ripe & fresh that I have  
great hope they may succeed,  
in the former state it is  
extremely difficult to procure  
them as the moment they  
begin to ripen they are picked  
off by the birds - & this unfortunately  
leaves the seed bearing only the pulp  
of the fruit - ~~Two~~ or three kinds  
of the first supply of seed you  
sent me have appeared above  
ground

ground-

2/2 May 1888

Dear Mother  
I have just  
received your  
kind letter  
and was glad  
to hear from  
you. I am  
well and hope  
these few lines  
will find you  
the same. I  
am writing you  
now and hope  
to hear from  
you soon.  
I am your  
affectionate  
son,  
John Goodpast.

Valley of Mypan

13

My dear Sir

I have much pleasure  
in sending you <sup>a quantity of</sup> the  
"Four" which is not however a complete  
set, but a large one. The  
"Four" is a kind of *Prunella*  
and the "Kew" is a species of  
*Seranium*. There is also another  
very like it but bearing a white  
flower. These have sent you  
in the date of Expedition and  
I have dispatched to you <sup>some</sup> *Prunella*  
three small boxes containing several  
plant seeds of the "Hudson" and

Wm. W. W. W.

but thank you and welcome

My dear Sir

Yours very sincerely

Wm. W. W.

*[Faint, mostly illegible handwritten text, possibly bleed-through from the reverse side of the page]*

and indeed the most common  
names among the Hindustani  
Mughal & apply to the institutions for  
kind of other means of information  
there is an annual fair  
to know a plenty of them, or even three  
sometimes, distinct names -  
Both the above & any other also but  
the names as the word strike them  
I am I repeatly therefore produce  
every different looking word, tho'  
they are generally said to be traced  
to the same origin - and with few  
exceptions who may command the  
title as Nawabee names - I am  
sorry my time has not allowed me  
to be more particular in their etymology  
occasionally send to you and which

to high as the, and if we do  
 not succeed in getting it here, we shall  
 have some difficulty in getting the foot of  
 the hill. With regard to the names  
 which are affixed to the specimens  
 you receive, they are for the most  
 part, both those which I send and  
 which are dispatched by the  
 respective terms. There being many  
 people who are employed to  
 collect them, but they are for the most  
 part being correct and consistent  
 along in the names they give, and  
 it sometimes happens that the  
 I should send, as my name is there

Portman Square - April 30<sup>th</sup>  
1818

My dear Sir -

I hope you are convinced that I used my exertions  
in every Quarter to promote your Interest, but  
I kept your Memorials to the King & Ministers  
by stating hardships, was not the way in this  
Country to serve you essentially, which I was so  
anxious to do, & I now do most sincerely congratulate  
you & the Gardens at Calcutta on your  
being restored to the Situation which is entirely  
owing to your own Merit & high Character,  
& not to mine or any other applications.

Mr. Pitt the Chairman of the East-India Company  
spoke of you to me in the highest terms  
possible, & so did all the other Gentlemen  
of the India Direction, Mr. Lambert, Sir J. Banks

Stuyvesant April 30<sup>th</sup> April 1818.

My dear Sir  
I was yesterday furnished with a copy  
of the report of the committee on  
the subject of looking for the two  
places in the western part of the town  
of the report of the committee on  
the former in the first of which  
the names are not given by the  
State do not give the pleasure  
furnished me of them to you, the  
other are have been sufficient for  
had the pleasure of reading your  
specimen of character a great time  
back, which I hope will be remembered  
of H. Townsend. This is a receipt

& all the Men of Science here were extremely  
anxious for you being reinstated, that I say  
you will not consider yourself under  
any obligations to me, for your own sake  
has done every thing, - I say you will accept  
my best thanks for a Box of Plants that  
arrived in excellent order on the 20<sup>th</sup> April by  
Mr John Craigie, & were sent off the following Day  
to my Gardens at Pecton Hall near Wathfield  
Yorkshire, & also for a Parcel of Seeds that  
were left at my House N<sup>o</sup> 35 Tortoise Square  
yesterday, & **<£& &e 2\*&/fy? \*>** by your  
order, I have sent them to my Gardener this Day  
these are very valuable Acquisitions to my  
Garden - I shall be glad to know what I  
can send of Seeds that will be acceptable to

the garden; I received every page the tale of  
Dawnings which are executed most admirably  
I am going to show them tomorrow to Mr. Doughty  
Hawker, & Mr. Lambert — (St. Thomas's)  
has much success for your success, & all  
his best power to assist you, he gives me  
Doughty I am Sir

Your sincere Friend & Helper  
R. T.

Thomas Paine

Copy  
Portman Square April 30<sup>th</sup>  
1818

I do most sincerely congratulate you on  
the success of Dr. Wallichs being reinstated in the Botanic  
Gardens, my utmost exertions were used for him in every  
direction that I thought could ~~assist him~~, but he did not  
need any assistance, his own Fame & Character stands so  
high, & Mr. Peck the Librarian referred to me in strong  
terms, the opinion the Company entertained of his abilities,  
but I was determined never to cease my applications  
in Dr. Wallichs' until he was restored, I shall  
be ~~assisted~~ <sup>assisted</sup> him, but I really  
believe his being restored to the situation, is entirely
