

D. Wallich's Correspondence:  
1827-1831

J  
Tour  
on the  
Sabien River

10<sup>th</sup> March to 18<sup>th</sup> Oct. —

1827.

10<sup>th</sup> March Left Kuchinga on the Southern  
porter Street at 11 Am and soon crossed  
near to Kuchinga where we entered the  
Toluna, a river which appears much  
larger than the others. The flood was  
on one side and a fine N. breeze sprang  
up on the other side good way. About  
Kuchinga the banks are shaly; the  
immense trees along here is a sort of  
Erythrina; and the low range of hills behind  
the town present a considerable distance  
up the river to a distance from the R.  
banks. I should not distinctly see the  
traces of Melanovitean walls but  
produce the Kaminity; which that  
worked on a bit a few days ago, covered  
with clusters of joint, each of which is  
supported by four or six odd. some being  
large ones. The water is 5 or 6 miles

along Mackintosh <sup>W^-t^\*-\*\*\*^</sup> very low and at the  
perfectly fresh open from the lands

**UM~ sf**

^V^V^V^V^V^V^

Along the banks, <sup>to be seen</sup>  
young of <sup>the</sup> Belbont and here is  
these young of plantains. The mark at  
Mackintosh is almost due the but it soon  
turns to the P. tip, retaining a considerable  
width. An arm to the west P. was  
said to encircle an island, that is

of considerable size. In a couple of  
hours passed the upper end of the arm  
an island, near the opening a village  
called Poony, said to have in its  
immediate vicinity to have, P. has found

... some excellent crops, among them  
the sweet potatoes. In consequence of there  
being no cold water, almost at the whole  
of the island, its banks have no stream

the same grades of the stream, depending  
 between the high grass (a sort of Spartina)  
 interspersed with trees distinguished not being  
 At 3 PM passed an on left a <sup>small</sup> ~~mountain~~  
 with some ~~islands~~ <sup>5^</sup> - ;;< with numerous  
 holes in the islands, which my guides told  
 me had to Pagan, on the <sup>land</sup> this side  
 of the lake and almost opposite is  
 a village ~~Joungde~~ < -, \$-\*. There are here  
 several small high islands; opposite to  
 one of them a village on the ~~land~~ <sup>island</sup>  
 Tousing; and on the same side a little further  
 on an old village called Moung Kya Yua;  
~~at it is said to be all the way to the~~  
~~lake, and is all the way to the~~  
~~the mountain, it is situated below a~~  
 range of high barren, rocky rugged hills, which  
 are near the head of the ~~corridor~~ of the

to the nearest Mountain, though a group people of  
Sachem (wild) that had recently been buried  
and which soon converted our appearance from  
that of decent people to the worst chimney sweep,  
as he looks when he is just returning from  
job. He fell here on rocks here in a bushy  
wooded today's concert of the town and the  
second Mountain that looked on yesterday's  
journal. From our camp look specimens - He  
then crossed a field of 2 1/2 miles in diameter  
completely flat level of cleared by burning and  
returned for Rice. Large herds of buffaloes.  
The prominent people bounding the field  
the That or Black (Paha) look - ^ ^ ^ and  
we come to a fine among several mountains  
which being rather more in shade had  
more acceptably \* - J - \* - \* - J -  
a fine harvest. Grass, a tall elegant Salvia that  
Salvia was in the hills in the stems, and a good  
of Caryota on flax spirit (R. minus male) together  
with grandiflora Persb. a most beautiful red  
Ceanothus, very large & lovely as a red Puffi-  
dea parviflora, several ferns &c. which  
looked from the world like the Pambags cover,  
only larger; the plants <sup>more common in here</sup> ~~more common in here~~  
He passed a few scattered hills, and had some fine  
wells among the hills. Very anxious not to lose  
the flood I hastened back again. The heat

my head ends with eyes which  
hung by me for several days, and  
shortly after my arrival in Calcutta  
I was taken ill again. I have been  
confined nearly ever since & am  
not off for old England, as Kupers  
tells me that a permanent change  
of climate is <sup>(U^yyp^JL)</sup> a change of  
regency. —

But I know not yet what is  
to become of him until some an-  
-swer can be received from  
Lord Dalhousie who is at present  
at Delhi — Old Harrington  
is not going home as reported

tho' he had once taken his passage  
for Europe. Thank God Mr.  
L. did not wait for the "Esmeralda".  
She is not yet ready & God knows  
when she will start for Guatohou.

Johnston leaves

This in a day or two  
for Guada, whence he  
is bound for Andent and with  
I think you should come up.

I trust you have been successful  
in all of your researches & more parti-  
cularly in the teak dept and further  
that of health has by no means suffered  
from your exertions -  
I have sent your letter to Mr. Mills with

Join me please & here is his receipt.

with me in hidden regard, & best wish  
may excuse this vile & hurried  
scrawl as done up to my ears

My dear Uncle Walter

I have long been anxiously awaiting  
a letter from you not only because  
I have been more desirous to hear accounts  
of you than the camp in your present  
situation. I understand you have been a long  
time would be well known it you could give  
me any news to gladden my heart. I  
hope you could send some of the Marly & Water  
from some of the General's & in which he  
has a great deal of successful interest &  
I wish to see the Month since I was  
that he has great desire to obtain the  
superintendance of the Lakes for the  
and about Governor's & that he had  
solicited me to write to you concerning  
you to recommend him for the office  
because of an of your power. The General  
wrote to you long since but the  
same

submitting a circular form for his son -  
Perhaps our father has seen and you  
a matter of great importance here for  
would you thinking of an report -  
I am therefore induced to make the subject  
one more of my pen - & shall be  
thankful if you will endeavor to send  
some words to him - or if not shall you be  
so kind as to say me word he is staying  
on the subject:

I have no news my dear father to come  
narrate to you for your subject present  
themselves as subject for my pen in the  
state of retirement in which we live -

The year 1840 has been rather improved  
rather the last three months as he is our  
time intended to get settled in  
of our - particularly as I have been for a  
few weeks - however - successful has other  
to pursue the plan for the present -  
I should be glad if you would  
for shall send change of chapters  
Please give my love to father from M. Waller  
~- d.

Montabney, 15 March 1847

I

My dear Dr. Patrick

Received your letter of the 5<sup>th</sup> 48<sup>th</sup>

instinct on the 15<sup>th</sup> and am up here on the 15<sup>th</sup> 5<sup>th</sup> inst.

having the pleasure of seeing you before you had

for the Eastern bank for which you had been expected

to have done this day. But Dr. Leitch says you will

investigate the claim, as for you can reach on some

probability of finding bank in that direction & that

will be the  $\epsilon \gg \_ \ d^* \cdot i$  consequence & prolonged. And I

will return for more reasons than one first as my

wardrobe is expended and 2<sup>nd</sup> owing to too much

business the first day I arrived here,  $\_ \ fc \ - \ \wedge \ \wedge$  we felt very much

as since our business to get back to the more health

and of course of our purpose.

I look your writing as I know you

are given in good faith but you do not seem to have

the same firm belief & representation with some of

consideration for that instance I was not permitted  
to be forgotten of your attention as I was bound to the Page  
point and the whole was owing to an accident of the  
servant - The request of visiting another Bengal  
was therefore a matter of choice with me but when  
I had every intention of remaining until St. Augustin  
came down, when all the kindness invited to the  
estate.

/ 4- /\*

He appeared with evidence of  
wonder to leave the house immediately, the  
company around it one day longer to take the  
out of the town by next morning when I had called  
before to remain with him, he had again the request  
to desire that I would more quickly it.  
He called on the 18th as you had intended so is the  
doubtless a man who shall treat you as you  
love and if you please pay me on any thing of mine  
shall put two on your side, this matter has been  
usually to my own convenience by the treaty, Sir  
I believe I'll put you in a different.

But as I had removed everything, he asked me if  
I had taken yours away also, as he said he had told  
me that they were to remain, I never heard him.  
I answered that neither you nor myself would  
be under any obligations to him, - like your  
eyes to be in the big Godown, I have looked partic-  
ularly after the candle trunk & chest, but I fear  
you may not approve them as so late as this

Remain yours most affec

Arthur

•

rendering the place unhealthy by  
sowing too much at once.

The garden looks splendid now.  
There is an unusual abundance  
of snow drops and Anemones  
in the north Avenue to the Green-stalk  
leading from the Potter Street  
which combined with other  
flowers and grass shrubs present  
the picture of fairy ground rather  
than the sober reality of ordinary  
cultivation. The Burmese  
cubs have not of course yet  
mould their appearance above  
ground, but we are looking

for the reputation of the Pyramids  
which, <sup>you</sup> first sent. - The garden is  
most delightful on a residence  
during this magnificent warm  
weather, and just at the  
present time when all the  
Indian, and tropical plants  
in general are bursting forth  
into luxuriant bloom and  
oriental fragrance. - You  
will say I have perhaps of your  
enthusiasm. I am sorry to say  
however I have had no time to  
hear or stop of science

17/3/27

Mr Crawford only sent me  
 within the few days a copy of your  
 report to him which will amount  
 for the volume of post regarding  
 it in my official letter with  
 your stay on the Peninsula.  
 It is proposed to send a  
 Builder or other professional  
 person of that class to confer with  
 you and examine the timber  
 apparently calculated for  
 naval purposes.

Chas. G. ...  
 ...  
 ...

Believe me, yours very truly

Chas. G. ...

A. Wallis Esq. M.D.

London  
10th March 1849  
rd 6<sup>th</sup> Bagly  
Walsingham Castle

My dear Mr. Millicent

Your friendly letter of  
February 1846 only reached me  
but few days shortly before I left  
Scotland! It would have found  
me out of **iE >> x** & had  
your excellent wife and  
family - but I have not  
so fortunate - when I was  
born by Castle, (the Duke of  
Duke Wickham in Yorkshire)  
in February for some days  
on my return from Scotland  
I was very enquiring about  
Millicent **^ ^ ^** & Clara - but  
was 50 miles distant, &  
with the rest of my way  
towards London, as that

\*

could not venture there - especially  
as I had a young nephew with me  
who was obliged to be in London  
on a particular day, & to join his  
Regt - without delay in Ireland.

I am going to the North again in  
the summer, & hope then to send  
you a good report of the  
box of seeds - the greater portion  
of which was put into the  
Botanical garden of Edinburgh  
and were considered a big  
box for home, the Superintendent  
is quite a treasure - I hope  
they will succeed.

By the flants, I want to say that  
I have a sad tale to tell!  
They arrived in the Phoenix  
in beautiful order - and  
were landed in safety - but

in reaching my brother's house, I  
please to add, that by some  
extreme carelessness of the part of  
the people who lifted the box on  
of the case - & they continued to upset  
it, and plants, with out of all  
sight! The stems of most of the poor  
plants were broken, & otherwise  
injured - They are now at a "Nursery  
& Market" near London - but the  
greater portion have died!

I cannot tell you how much  
mortified and vexed I was at  
most unfortunate accident - but  
the usage of getting myself abroad  
I could not help!

The road with very great concern  
some months ago of Dr. Abel to  
be ever reprieved of the affair  
which Lord Pembroke -

from him shortly before I left  
India - I cannot understand how  
this happened - and it appears  
to me that Dr. Khet was very  
ill - well - Look  
I was home in England  
and requested a receipt  
which was given to me

J0^?-\*~&££--z^£ji^-

I felt sincerely for his wife  
and her children's cruel loss by  
the death of their son -  
I must have been a Judge  
and indeed of them!

I trust your own health is  
good; and that you will  
shortly join your family  
in Europe. With every good  
wish for your welfare, believe me  
I am, dear Dr. Wallcut  
Yours very sincerely  
C. D. D.

Calcutta the 7 of March 1827

My Dear Sir

I was rejoiced to learn the  
success in your Botanical excursion  
which you taken of the 1 and 7  
others described, and will be  
glad to receive the accompanying  
special letter which has been  
addressed to you without a hint  
of upbraiding as you are not having  
sent a single report. The first  
lay the greatest stress on your  
continuing in your present  
position until you have most  
thoroughly enumerated the

"J?"

natural productions of <sup>the</sup> Mountains  
and Tany and Mercury, and I am  
satisfied will be disappointed  
and displeas'd if any untimely short  
of health shall induce you to  
return prematurely, and leave  
incomplete what you have  
to face an opportunity of making  
perfect by an acquaintance  
with the resources of a country  
apparently flourishing in subjects  
of scientific interest. In addition  
to the above, and to the official  
Order which is being made to  
satisfy your delicate and

entirely conscience I will transcribe  
the following words of a Member of the  
Government for your satisfaction.

"With such prospects before  
him it would be quite absurd  
in Mr. [Name] to hasten back. He  
ought to explore the whole  
susceptible tracts of our seven  
Provinces on the Senegambian  
Coast. "It is true without doing  
so would in truth be a violation  
of his public duty, injurious  
to his high reputation, to his  
future fame and to his Honor  
as Government and the

Scientific world."

Knowing the extent of your  
oppression and as to your  
actions in relation to your  
public station being  
stated, I will get what I have  
written above deposited from  
early return as I find to go with  
the duplicate of the public  
letter, and hope that this ac-  
cumulation of exhortation in-  
struction stimulation and reproof  
will set your mind entirely at  
ease. You may doubt but the  
opinion that I will continue justly  
to guard the National interests by

Your detestation to the Eastward  
will add to your claim to the  
indulgence of going home or leave  
of absence as left of the B. J. and  
me **;& ^^^-P / \ ?\*\*\*-& Z < &** for our  
application to accompany us in  
either, it being so desirable that  
you should compare the Arabian  
products of the coast of Arabia  
and the "land of Egypt" with  
the knowledge you have already  
practically obtained in other  
regions. You may dwell upon  
the facilities and security pro-  
vided by the circumstances  
of your going in company with

immediately were put into the ground  
a few hours after their arrival at  
the garden. Potter was complaining  
of fever the other day, but is about  
again.

Very <sup>few</sup> books of yours have  
reached us. Such as have come  
from Burlington will take care  
of. The garden implements  
are just arrived and now to  
be opened today. I will do the  
needful regarding Mackintosh & Co.

Some time ago Potter asked  
Swinton to procure authority for  
drawing the Banks. During his short  
visit, he did not like to recommend

any measure concerning the same, and  
I expect you had as soon deferred to  
1846, but now as I suppose you will  
not be returned before the River, I shall  
let the business effected at once.

Your friends of the College are planning  
and improving the new property, and  
have begun to make tracks the path  
leading from the College along the bank  
of the River to the Combarjo's covered  
premises. I truly speaking, they had  
no right to do this without consulting  
me though it is a benefit to the  
thoroughfare and I have not yet  
determined whether or not it will  
not be expedient to return it in an  
amiable manner.

Yours ever  
for  
A. S. Huntington Thanks you

for your <sup>«^3\*\_J>^</sup> enquiries. She hopes  
she will be quite strong enough for  
the paper accepts the Deed and is  
qualified <sup>^7.\*.^\_</sup>, <sup>^t-c^e-^^.\*^</sup> for examining  
Notes and Deeds and ascending  
the Pyramids with some degree  
of personal knowledge, but she  
relies on having the benefit of  
your skill at hand in case of  
any accident to her neck.

I will write to Mr Rowland  
(William Shaw already, <sup>London!</sup>  
reporting that promising  
Scion young George Charles.  
I think he had better take a

Cadetship, for who is to relieve  
or giving him the appc of  
an Assistant Surgeon 12 years  
service.

You have never mourned  
I'm sure the death of poor  
old Kurren!

I've just had ordered  
an Asst Surgeon to relieve  
Boyle for the present service  
and an additional one

will be permanently appointed  
if he can be spared, to the station  
of Manchester.

Believe me very truly  
Yours  
Christopherson

P.S.

I forgot nearly to mention that  
Mr. Marshman or perhaps in a  
Steam vessel from England  
to the Continent will in with  
a ship in distress or which he found

whom O ———— handled,  
Kallit, in just alarm!  
But before my informant,  
says she was released.

---

Chandosburgh

Chandosburgh  
1780

Delaware March 9<sup>th</sup> 1927

My very dear & excellent Friend

Though I have not the pleasure of hearing from you as I used to have, yet I have the happiness of knowing that I am sometimes in your recollection - in proof of which I had last week the great satisfaction to receive through Mr. A. Brown the 24<sup>th</sup> No. of your admirable *Parkman Flora No. 1* volume. Admirable I call it, both as to the execution of the plates with the satisfactory illustrations, & as to the descriptive & historical parts. - It is uncommon pleasure in reading & studying this work. You must I am sure be industriously & laboriously employed. For this work in itself is no trifling occupation & then with your *Flora Indica* & the princely establishment of the Garden under your charge, I wonder how

you can find <sup>^ ftZ^\_ ^ jE<~ ^\*\*</sup> many a most  
arduous employment. Do tell me if  
the ~~ex. vol.~~ <sup>7 jf SZZZ- \*</sup> said Mrs. Davis is in  
a state of good health if it may soon  
be expected. You live here far removed  
from the centre of all information in  
Britain, the Metropolis: & of what is  
going forward in your part of the world  
can know nothing except you are good  
enough to communicate them to me.

I hope a trust <sup>^" "??- ^-v-^ - "Ift- ^\*S</sup> will not  
prevent you from coming to London  
when as you told me some time ago  
you intended coming to join Mr. Wallis  
& some of your children. From that  
I have never had but one communication  
since he has been in India, - this is  
indeed all the fault I can ever charge  
him with, on unwillingness to corres-  
pond with his several friends. From  
England I have indeed learned that he  
is now actually on his way home!  
Whether this be correct or not I cannot  
say. And I shall really be sorry if it is

Amherst 6 March 1827-

My dear Mr. Wallcut

Little expected in a few days to have  
 been asked to consider your caution about fire, but the  
 accident that has happened was soon removed, caused, was  
 very to my intention. - The very day you left, Capt. Spive  
 returned here and <sup>VA,</sup> he had been very anxious about having  
 you in his way down, he sailed the same evening for Bangor  
 but before going on board he and I started for Horatia Point  
 and soon scattered fire & destruction among the lumber  
 that had been carrying on the work with great spirit  
 and without seeing any chance of danger. Yesterday  
 evening I went out with the intention of commencing work  
 to high bank at Horatia Point and was proceeding along the  
 bank with the work at a considerable distance behind me  
 carrying a torch which happening to burn short, he ran to the  
 nearest dry wood just below this house or of any thing rather  
 cover the sea, as I perceived no danger <sup>VA,</sup> I  
 intended to have commenced much further off, I did not

^^^ > € :

immediately put a stop to it. It shortly grew into an  
flame & owing to the wind spread rapidly up the river which  
alarmed me and we did our utmost to stop the combustion,  
but a large heap of Horse dung just under Mr. Buxton's house  
caught fire by a spark long before the rest of the frame had  
come that length and in trying to quench it the sparks flew  
off in all directions. It was on  
soon in the middle of the frame beating  
out but its progress  
stantaneous. It was on  
by getting half roasted that succeeded in burning out  
Sunday, Feb. 18th. By this time all the other  
Gentlemen in the House had come to our apartments, they  
before down the houses were before the fire, and  
to any other, so that I have really to be thankful it is no  
worse. Do not think there is much value destroyed  
I have written to Mr. Buxton & the subject.

I am really sorry that the patriotic Philanthropy  
efforts of my friends have received such a  
blow in their very commencement.

The Guard at Amherst has already been reduced  
from 40 to 25 Men, so that the guard was taken off the

already made improvements in it & shall do  
yet more so. I have also just finished  
a 2d edition of my *Micrologia Britannica*  
which gave me as much trouble as the  
first, for the whole has been revised &  
almost a great addition made to it & plates  
containing 80 new species given.

In the sheets I have a work on the  
plate for drawing a series of specimens  
of whatever is new or scarce in my *Herbarium*  
the plate to be executed in neat outline  
(like Rembold's) on 8vo size & especially  
to include *Cryptogamia*. With all  
these undertakings to which I willingly  
devote my whole life you will not  
wonder that I look to the increase of  
my *Herbarium* with such great anxiety.  
May I not hope to receive some  
more plants from you, my natural friend

As let me hear from you, & believe me  
to be ever your much faithfully attached  
& affectionate

H. S. Hooker

I have just been told as you will see  
partly by <sup>what</sup> the same and you I by what I get  
hope to ^ \_ " you. My time would not  
allow of my drawing of the Revs for the  
Review Religious ^ \_ ^ \_ ^ \_ ^ \_  
very old & long time friend G. G. Smith, &  
the first Illustration of this work with  
copied. I have now the pleasure to offer  
you. I have 20 more drawings & designs,  
now completed & of these I am anxious  
for the L. A. S. which \* - < ^ \* ^ i c appear on the  
first of May. I have mentioned to you  
that I am yet deficient in many of your  
Indian Revs, particularly of Nepal. Can  
you not send them to me? a; ^ O ^ Z ^ I ^ ^ Z A Z.  
In regard to give you names to whatever  
you are good enough to forward to me,  
? a ? L t f ~ ~ / j ^ ~ ~  
will also be <sup>is</sup> t E & L j r z ^ \* - ^ ~ - g \* - c \* as far as N. 36  
of my Indian Flora. Two more Volumes  
which are nearly ready will complete this  
work. But then as you may perhaps have  
heard (G. G. Smith having retired from the  
Antiquarian Magazine) I have agreed to con-  
duct it: - & my labours in that work began  
in the Autumn of last year. Hence I have

Friday 5<sup>th</sup> March 1827

Dear Sir

It is some time since I had the  
pleasure of hearing from you  
the want of communication with you on the  
multiplicity of business you must have on hand  
I am extremely sorry and I have taken  
steps I have taken  
but I think you will not be  
they considered the other year particularly with  
I shall be  
will say  
from business and  
to me on rather advantageous terms, viz. to pay  
for his share of stock by monthly instalments  
of 400 or 500, which I think I shall be able to do  
though it will necessarily cripple me in the  
way of making purchases for some time. Ad.

The loan of a few thousand Dollars for S-... /  
Should be sure of doing well, but being unknown  
I know not who to apply to. I see the Agency House  
in Baltimore do not hesitate to advance help, I look  
to know here upon occasion. Myself perhaps I  
I believe advanced more than that here to Mr  
J. C. Conway on his setting up. I mention these particu-  
-culars to receive your advice as to the probability  
of procuring such an advance the only security I can  
give is my stock in Bank amounting to about 15 or  
16,000. Small Dollars. 5,000 Dollars. help me  
on wonderfully. I am not afraid of doing pretty well  
without it. but I feel I should be sure on  
help supplied the best way, which had a loan would  
removed.

The Imperial Society of Naturalists of letters  
have received your very interesting work, the first  
sale of the plants of Nepal and have communi-  
cated to return you their best thanks for so valuable  
a present. By the first opportunity I shall forward  
a copy of the Annals of the Society which contain  
some interesting articles in your favourite pursuits.  
I presume you have been long since informed of  
your election, as a Member, having sent your Diploma  
(of & 10<sup>th</sup> March 1827) by the favour of Mr. Francis  
Maudslayi.

I have the honor to be, Sir,

Your most obedient servant

JsJ,

Mss 10  
A 10<sup>th</sup> Jan 7  
1827

Let's to put the question of success or  
failure out of the question, by sending  
a small load of medicines to the  
Dept. perhaps one now being  
employed in making Retreat of Kambou.  
I don't employ my time in following  
the land

the land, I should like to see  
the idea to know, when  
the summer, I will  
be the same business.

How you can succeed at the place  
of the Garden, I don't know. on the 10th of June 1842  
The last meeting was adjourned to the day to  
you on the 10th of June. The impression  
I was of course selected for the date. Some changes  
were made. particularly a few large loads which  
I am making near the Government.

Do not know whether you correspond with the  
Belgian club. He has been with the  
Lord. He has however been retained by Lord  
Dartmouth at Delhi, waiting for instructions  
about his appointment in the Indies. His  
opinion as to the duties of the office  
has not been consulted in all the details of his  
appointment. Still, I think it is  
very probable that he will be  
provided himself with Books & Instruments!!!  
I have taken some trouble to procure both. I  
have not been able to procure many (except  
the you perhaps) of either, worth any  
thing - on this side of India. I if the Duke  
wants for either or both. I shall be  
the pleasure of giving him the price in  
a few months. I must now conclude  
I am going to make the old school to be  
subscribed for his collection in England

What - You should have seen of I know  
about a large plant now displaying these  
scandlous. Shall send the up in order  
to the hills. You get some Whistling Plant  
from the Monks now in full leaf. Shall also  
send the up. I am very particular if  
you is interested species - as I will write  
particulars of the plant I am going to collect  
in my next report. but I am so very poor  
that I cannot afford to make much of it  
until I get some good seeds. Shall however  
go on endeavouring to find substitutes.

\*^\*\* <f3c- <&?\*< £- \*>--tf\$!^

I am at present employed in making a new  
copy of my Catalogue by the Monks the Garden  
which I intend presenting to the Society  
if he comes this way - he has been heard of  
being at Rotherham - He is to be at Leeds  
in March - but I do not know whether he  
comes this way. &C- . mrK. I am however all ready  
to receive him, & the Garden is quite finished

the new Gal very similar to the one you saw  
which appears to Gal. the Linnaeus Gal  
is also nearly complete. of the medicinal one  
begin to think. My bell plants show in  
the flower in pots in the conservatory  
in the Hall passing with the soil formed chief  
of England. At the G. I have found an  
extensive range of hills. with some fields  
of in pictures you found, de la Solle Hall  
is named in leaf and what of the  
Linnaeus now is the cultivation of Hall plant  
I should be able to examine the plant  
which has some sub-flower of the leaf which  
has been described - on the species of the  
A. D. D. which can sub-flower - the  
a Calthea - but have not had time to find  
but what they have published in any  
of the books there. I believe the Linnaeus  
has published the second volume of his  
Prodromus. I am looking at a copy of it

I have an immense number of  
them to find out of them. ~~all~~ as  
many in the land. The Crown continued  
in the same way - is getting - generally  
a profusion of leaves & new talles appear to  
be forming. I have lately had a letter from the  
Board desiring me to make a statement to  
be put up. The difficulty of creating a commission  
for some time in the hills. I have not been  
able to give a decided reply. as my opportunities  
of visiting the hills have been so few. but  
I think the subject worth investigation &  
likely to succeed. Had written you long  
previously **^r^** than this time. I  
write me to visit the hills to look after the  
hills necessary. as this was a favourable oppor-  
tunity of visiting my former request.  
Send you a copy of my first letter. The  
second letter is very short! but is long way  
to receive the subject of the hills by which  
have the **\*s<^#sZ-^** time.

Stamps / \*s£+- X 1927

The same Z. S

... have received your two letters & ...  
... which you have sent in with my  
... I feel deeply indebted by the  
... in which you have treated me &

... mechanical labor, which  
... I am right not to have left  
... to command upon  
... in future shall

to the elevation of 6500 feet!!! Returning then  
said Evening having got on some small  
labor - about the State is anxious to get  
out of I have no doubt he would be much  
pleas'd as he says he would for a rational  
reasoner - however it is my intention  
to present it to Government first. he has  
offer to do me some account!!! & if I can  
show the wishes for son - great &  
particular said a good many should  
to clear every other in the upper part  
of the former land of the latter.

In case of your description. There are  
in a fit state to land. but if you can  
the question of it is one of my late letters  
about whether I shall commence with the  
natural or artificial system. by the  
former which of course to Dept. I believe  
will stand them to you - as a specimen  
I enclose you one written when I was in the

Wishes best you. Always. The whole depth of  
which will require the time of a full week  
but as the labor of the work is comparatively  
small the whole will happily enjoy in it  
as you and I wish to know my attempts  
at description with a plan in your opinion  
may be a single to show the  
bread returned a single book upon a plan  
of which I had not any previous to the  
receipt of yours. What is it to do with  
reproduction. Keep them like the dog in the  
house. Rather use the money as for  
putting my own old being benefited by the  
practice you give letters especially by your  
wishes. That the plan of sending the painter  
home in a capital and my whole to be taken  
great and of. I wish to be able to find  
money enough for them to empty themselves  
was a number of the best trees I should not  
begin to flourish in the garden. When you see

\*r ^C ^

have they have mostly bushes in flower  
 they look much like beautiful &~J  
 the top of the tree is about 10 feet in height  
 than the European bushes for Europe land.  
 I should then like to apply of my eyes. The  
 weather here at present is pleasant enough  
 enough. but they go to the Museum at the  
 end of the month. I had an lot of seeds of all  
 kinds from Europe!!! Fruit hitchin. flowers  
thinks. I was. whether you can buy brown  
 or steel. I if <sup>any</sup> number of them orders is  
 available to afford a sufficient supply. I may  
 buy as many as possible for you I will  
 make arrangements. It is quite an  
 good all expenses. Museum will  
 be a superb garden by L. G. O. While  
 there was up at the end of the month  
 I report upon the progress during the last  
 year. By this you will be all informed  
 in the idea of the regulations. I should

very important according to the habits of the  
plant in this district. 18 kinds of <sup>the</sup> seeds sent  
by the Horticultural Society have come up &  
the plants are in fine order all the  
year. Several specimens - found in India  
in the St. Home is quite different with  
the Gardeners Magazine. Every day we  
see. What a fine opportunity is it for a  
man distinguishing himself. I shall certainly  
get him to send some communication to  
the London. By the way, you had got introduced  
to Thomson. He is appointed Professor of Natural  
History in the London University. He has been  
to the East. I quite forgot  
to mention your young school to find the  
other side get on well. Both Smithy the  
Engineers are interested according to Thomson is  
trying to get on well at Delhi. He also  
wishes to go on, where he has followed about 10  
in learning myself for my friend Country of India  
to treat a few instances of the plant. is a set  
of Painters found here if they for the way of

Calcutta the 3 of April

My Dear Sir

Your letter of the 13 of Febry  
did not reach me till the  
31<sup>st</sup> ultimo though that of the  
10 of March did not occupy  
above twelve days in its transit  
till it came to my hands.

The deterioration of the fargosa  
has been very vexatious, as there  
is now little hope of your recovery  
The orders of fort requiring you  
to prolong your stay to the

Eastward before you leave Bombay  
on your return to Calcutta.

Had written to you fully on  
the subject in a private form  
but it is doubtful when you  
may get my letter of news, as  
I want I believe will be soon

and yet I can hardly be-  
lieve that you will be so  
precipitate as to quit your  
present office. Tell me however  
if you reply to the communication  
you made through Crawford,  
and therefore I still cherish the  
hope that you will have

regarding the reputation of these  
advice, though I am sure the  
telegraphic would afford you  
conveniently an opportunity  
returning to the matter  
especially as you cannot do  
much in the way of  
But the difficulty will be  
for you to get back; for with  
reputation of the most may  
not be so cordially approved  
as its publications  
in the case mentioned  
helped which should not  
be sent before the first week

of April, I of course have not  
sent the books you mentioned  
in your letter of the 13<sup>th</sup> &&tε? ~r%\*  
The journey is the only direct  
opportunity that has  
and I am now trying  
to do with this or her papers  
wishing to take the  
chance of her sending  
still at Amherst. The  
however seems to deter you  
from staying. I  
modification or anticipation  
when you leave after your  
to Columbus that you ought to  
remained at Amherst. All is  
going well at the garden. Behave  
our love very truly  
Chickering

Glasgow April 13  
1827

My dear Walter W. & Co. Glasgow

My valued friend Mr. Mackintosh has just called upon me to beg me to introduce him to your correspondence. You have perhaps heard of his establishments for the Manufacturing of plain Scotch, and in which are among the finest & most valuable in the Kingdom. The preparation of Water-proof Cloths by the means of Caoutchouc has lately occupied much of his attention. As connected with this, he wishes to know what parts of America produce the best Caoutchouc & what persons the most valuable

of the Bill, in the Bill-book  
- But he will take the liberty  
of writing my business on them  
points & Mr. Smith will perhaps  
be invited also to turn his atten-  
tion to that subject. It only  
remains for me to say that  
whatever attention you may pay  
to the matter of my friend's  
share in the business of the  
State, in prohibiting the sale of  
the India with an opium bill  
of your country you will be  
conducting a very important piece  
of business as well as to  
decide.

Am most affectionately

Yours

W. Hooker

Swila 14<sup>th</sup> April 1827

J<sup>^</sup>SC\* D. W. /?i 'S~£

I had the great pleasure of

4ZC4\*H^mC a ^&? <r /£%\*>i ^^\*^=-^ j£ ^ \* ^ #&n^£ A

I have paid me the  
implement of mowing after me.. y> rationally

of this tree, which would be

such an addition to your Botanic Garden.  
and also to my collection in the world ^i

Whitely of your present researches & labours  
must immortalize y<sup>r</sup> name - You said

nothing of your health, & therefore I took  
I may infer, that you have not suffered

from fatigue or any other cause - y<sup>r</sup> letter  
dated Malmyre the 10<sup>th</sup> March, reached me

in little more than a month, & these mountains  
the one you agt^t^ to as having been

written last month has not arrived - however  
I had the pleasure of receiving a letter from  
you dated Mangoon, the end of May <sup>& £\*^t^</sup> last  
before you went to Ava for which I was  
sfr\*\*£\*^ obliged - in that letter, you mentioned of  
Alam for the life of your Painter, which  
I am happy to say, I perceive by your  
last letter did ultimately recover - I fear  
the letters I have written to you, have not  
arrived - as you do not mention them, they  
were directed to Mangoon - probably in the  
confusion of the struggle between the Burmese

the Peguans, <sup>they</sup> **£\*t-** are all now in  
the heart of the Himalaya Mountains at  
Lenda - most magnificently situated, 4600 feet  
above the level of the sea - the mountains <sup>\*\*hr\*\*f</sup>  
covered with the largest Cedars **S.** <sup>tStbt^j</sup>  
in some parts, & in others, Rhododendron Trees  
of the largest size, & now in splendid bloom  
Evergreen Oaks - Fir & Hemlock on other  
Mountains -

We have been here 12 days. the storms of hail  
& rain. Thunder & lightning & intense cold, has  
been so continual. That we have not as yet  
been able to visit many of the interesting  
places we are so desirous of seeing - Snow is  
now lying on the Summit of all the Mountains.  
this winter cold (Ther. at 43 & 44 sometimes,  
& seldom above 60. Deg.) has agreed pretty  
well with us. but some of our Party have  
had fevers - we are told however -  
climate will become more genial soon. we  
have seen numbers of plants & flowers new  
to us - a very pretty cupen, unlike anything  
we found yesterday. Sarah has  
dried some specimens. the flower is white &  
much resembles a wild enemone - but the leaf  
is unlike - Mr. Proyle has lent us a Native  
Maullie - who will collect Seeds & plants for  
us, & also know the names of many -  
I fear that we cannot remain here long  
to collect many Seeds. As we propose  
leaving the Hills before the rains - at the  
beginning of June on our return to Calcutta.

-S^Λ^Ξ

t/ /%jt<4^< \*£<-&??,

when we wish not to arrive till the end  
of Sep: or beginning of Oct. — 4&1 & \*\*C^ of my  
letters. I believe I informed you that the next  
day after our heavy & bitter calamity <sup>last evening</sup>  
before quitting Barrachou. I wrote to  
the authorities at home to assign ^ ^ v £ « fe  
& as soon as the successor arrives, we  
shall be ready to sail for England.  
I hope you may have returned to Calcutta  
before that time. & I shall have real  
pleasure in seeing you return in perfect  
health. & it will be very interesting to us  
to see some of the novelties you will have  
discovered in Ava.

The best poor Dr. Abel  
as I mentioned to you in my last f c^C  
Ligonore - after a fortnights illness. he  
died of Water on the brain. & ^ & \* % £ ^ > 4U ^  
ing ^ ming on - His relation Mr. Couell  
has supplied his place & is now with us.  
Mr. Abel went down ^ ^ j Ltjfc \* ^ ^ yfe ^  
Sister - Mr. Couell -

We remained several days at Debaranpore.  
& many hours daily in the Botanic Garden,  
which is kept in the best order by the Super-  
intendent Mr. Hoyle. He has transported  
many plants from the Hills into the Garden,  
& has disposed of them with taste & Judgment,  
& they appear flourishing at Present;  
a letter you wrote me two years ago from  
Delhi, I luckily had preserved in my  
writing box & it detailed every part  
of that ancient & magnificent Town  
as accurately as possible. We remained  
a fortnight there, & had plenty of time  
to examine all the State & Public  
buildings. We then visited Lord Amherst  
at the Residency. We returned the visit to  
His Majesty in His Palace - seated on  
what he calls the Peacock Throne, which  
are now not <sup>decorated with</sup> Jewels as formerly, but  
clothed <sup>with</sup> gold - The King said his old

prejudices. & L. D. sat in his presence both  
at the Palace & at home - & shew'd L. D. of  
us all every mark of attention. I visited  
also the Queen of Delhi & other Ladies of  
the Royal family - but I will not enter  
into descriptions of Persons & Places we  
saw. & which are known to you & will  
only add my hope. that my labours in  
Ava will terminate between October &  
the early part of December - so I fear we  
shall have departed from India -  
we hear today (the 15<sup>th</sup>) that the Ava  
Prison has arriv'd at Calcutta. & must  
have reach'd that place abt. the 2<sup>d</sup>. instant  
M<sup>r</sup> Amherst who is very industrious  
in sketching, drying plants &c desires to  
be most kindly remembered to you. I  
remain my dear Sir

Y<sup>r</sup>. sincerely

J. Amherst

London 24 April 1887

My dear Dr. Wallich

I had the pleasure to receive

2^

your note of the 18<sup>th</sup> yesterday by Capt. Bennett. I was a  
little annoyed at the moment as we had just  
started for Rangoon & I was afraid it would be  
mistaken that I had not time to answer you

V

Ut4

then playing fever. There is no saying when  
they are over. I had quite recovered but relapsed  
again on the 9<sup>th</sup> of this, lasted a day, & had it  
possibly worse on the 11<sup>th</sup>

\* <f\* <'j -

to give me a pretty good  
shake down again, since then have been taking the  
Quinine regularly and as I recd. yesterday  
I am myself the devil is subdued & the fever  
is over.

I had two letters from Miss which are  
very interesting some time at home, some  
of the news from Calcutta which has only been by

any report before, he tells me that the only  
was our Parents - / \* - I want to see & Mary the  
Palmer to had been obliged to believe \* < \* Ca+  
which was granted to the Aunt of 1840, in the  
the death of the lady -

We will have a tea on  
friday or next day - for your amuse  
either an evening - I saw a large ship in light  
last night, this morning I saw, but she will be  
likely to be at sea with the next tide.

**A**

Expect that by to come  
in you at home any u \*\* \* '\* Don't think you  
be comfortable here ever for any time, it  
since then and the by one is occupied  
to little or no more - After two days you are  
proper the d-\* m

R. J. J.

My dear Mother.

I am writing to you  
independently of this - but cannot  
do so without  
wishing you many happy  
returns of the season. I have  
been sickly in concerns  
with my reports. but am  
now however sickly that I have  
not been able to do any  
thing but attend to my patients.  
The disputation in London  
Langstaff was here repeated  
2 highly approved by Shubert  
Hobson. I should have said  
I have plants of the Clonius  
constrictus. I have also a  
Craccivium. !!! I regret some

J. M. ...

Calcutta 19<sup>th</sup> April  
1827

This is but a P.S. to my letter which  
fortunately was not read as you drove to  
Calcutta to be forwarded to Aca. I have  
just had the pleasure of receiving your  
interesting & entertaining letter from Amherst  
the 18<sup>th</sup> of Feb. last. I cannot sufficiently  
#% thank you for its contents, & the kind  
manner in which you have ent. \*\*^+^< into our  
borders. By y<sup>r</sup>. letter I am happy to see  
you expect to return to Calcutta about  
the month of May next. Should it be  
2 or 3 months later, it will be time enough  
I hope, to give us the pleasure of seeing  
you & y<sup>r</sup>. Botanical acquisitions, before  
we leave this country - I must not  
allow my pen to proceed without my own  
sincere congratulations

& that of all of us to you, on your Son  
having obtained a Cadetship, or an off.  
Surgeony in this Service - it must be a  
comfort to Mr. Wallcut (who I am glad to  
hear is well) & yourself to have such a  
prospect for your Son - this P.S. will be  
only a tedious repetition to you (or rather  
my letter) as it recapitulates what I had  
said in a former one - but I felt so certain  
that that would never reach you. That  
repetition was necessary - your Journey to  
the Forests will be most interesting, a few  
rooms to carry, or put into Carth for England,  
would be most acceptable  $\wedge <^* \quad \wedge \wedge \wedge \subset \wedge \wedge \wedge \wedge \wedge \_$   
you describe in such glowing colors, and  
have been pleas'd to name Amphitheatres  
of which I can hardly at present imagine you can  
spare any seeds - but if they thrive &  
multiply here, I do not despair of your  
thinking of me some time or other -

your wish to go to \* " < . A - \* S f > desirable. That  
I hope you will be able to accomplish, it.  
& that if you visit England we shall see  
Mr. Wallis & you in short. - Your account  
of the Birmosee, is very interesting. I fear they  
are but a heathenous race - The thing I think  
must be true at times - Nothing particular  
has occurred here of late, except that being  
a American, find - one of our largest Birmosee  
trunk fire, from the carelessness of the Native  
servants, cooking in the kitchen, within  
the engine, on water being to be had here,  
two Birmosee were burnt down - luckily  
no lives lost, three families in the largest,  
but all they had, was saved from the fire  
of the flames - except our Treasury, in  
which was £2,000 Rupees of ours - & would  
not be got out in time - they were dug out  
black & melted - & must be recovered, but  
we are told, our loss will not be as large  
as was at first expected. I will now

**K**

terminate the long term - a bid for you.

Adieu -

N.D.

35<sup>th</sup> March left Neulogon —4 /? y

with the first attempt — of the flood. Had six men  
with me for our people, collectors, assistants, but  
not of the best any, making altogether 8. Under  
the tent we had fixed on — proper pieces  
because the young people of the N. Kuman were  
indifferent to us. We passed a small island  
on our R. passing the N. corner of the coast  
point. There a battery or new meeting, and  
began which the buildings are situated  
the island in height a covered rock — one of  
them, many of which

X\*^W<\_^

"sr"ZJL+A,

V 3^

here the command of the mouth of the river, a  
the mouth of 3 large rivers — the Sulu, the  
the N. K. 5 years after passed a barrier  
island, and is very rough, which leads  
directly to the mouth of the N. The mouth  
of this is. The banks low & swampy near  
covered with Rhizophora, Hibiscus, Corchorus,  
Guarea etc. The first forming  
the lowest and narrowest the water the towards  
the tallest island — or rather is a regular  
gradation. (There is a small causeway on the R.  
joining the Sulu, old passage) N. K. plants  
(entirely plentiful, an oil extracted for oil)

Dear Mother  
 Your people seem content  
 and have made the house  
 full to entertain. I  
 should be very glad to  
 come to be again at home in the  
 country. The business are trying here. It  
 would be a blessing that would help to  
 succumb. I think I have a  
 few when I should be  
 I must come by sea. I  
 hope never to give a moment for  
 the light of my face when I  
 see you. I will be by you. I  
 had promised to see you and  
 my regard for you.

you yet, though Mr Pinner told me that  
he had refused to give any case for  
a soldier who would then only laugh  
at his softness - yet he would oblige me  
with what I required for my own use  
or yours. I consider he has acted quite  
right & having seen the correspondence  
about the Beer business I am convinced  
you have been amply informed.

If you will be obliged or allow me  
to thank you, with kind regards  
I shall be glad to hear from you  
whenever you like to do so.

Yr truly  
Wm. Black

What a pleasant surprise!!!

Philadelphia May 1<sup>st</sup> 1827

Doctor of Wallick  
Respected Friend

I take the liberty of making this  
acquaintance with my friend Doctor Caspar Merriam  
who about the end of the Ship Pacific sailed  
and in every respect worthy of the region and position  
of office. Dr. M. after having received his degree of  
M.D. from the University of Pennsylvania entered the Penna  
Hospital as one of the Resident Physicians, where he  
remained the usual term of two years, and fulfilled  
his duties in a highly satisfactory manner. He is  
a young man of most respectable family, of superior  
attainments and intelligence, in his profession and of  
unblemished character.

Dr. M. has enclosed in a box  
of living plants, some of which at least I hope with  
his care will arrive safe. If there is any, your nature  
plants or seeds that are particularly desirable with  
you I should be glad to be informed.

I remain Very Respectfully  
Your Obedient Servant  
Rutherford Howies

Philadelphia May 1. 1827

Doctor W. Mallich  
Super of Bot. Garden

\*\*\*  
Mr J. Gold

On behalf of the Academy of Natural Sciences of Philadelphia tff

I have the pleasure of transmitting a catalogue of 55 species of our native shrubs and plants, those under the special care of Doctor Cooper remain on board the Ship Pacific to sail in a few days which we have no doubt will receive every attention in his power. We have v f AVV  
also handed a copy of the Journal of the Academy Vol 5 Part & and the report of the Recording Secretary for 1825 U.S.

We have with v i '9-fr  
to acknowledge the receipt of a box of seeds, a box of living roots and a box of g .nrn.i, plants in earth, by the Ship's crew last fall. The seeds have not germinated with the exception of a few species although we have had them tried with much care by some of our experienced cultivators of plants. The box of roots  
came in good order. > ^ " a few exceptions and many of

them are now getting very well. As to the  
of plants in small, having other persons send and  
owing to my severe weather of the night of good the  
providing notwithstanding the greatest difficulty were  
We had not the pleasure of receiving any letter  
or list with either the above three young women  
they must have miscarried.

Denoting my friends in the power of the  
residing to the William garden of 60000

Erasmus very Respectfully

Reuben Thomas

Prothonary Secretary

MSA program

Received  
reporting paper  
of Task of Program  
I do. furnished by  
Capt. Johnston  
4 May 1957

My dear Mr. Wallis.

I have this moment returned

from an examination of all the ancient scraps of paper  
left here and I should think some of them with an  
your purpose, they also seem to be very large, I have  
out what appears much the same kind as in the  
& made it up of 1 slip or covering

3 Pardsals

1 Chute

2 Pales

1 connecting piece

6 lines more support

1 Paper

There are only four or five others, a great deal has  
and I think with some of the keys, properly belong  
to them. They are all hauled out and I think  
have carried to the big garden according to your  
instructions, this blessed day.

I received your note about the sea water after  
of the 6<sup>th</sup> and went on board to be with the

like that one it would not be able to return you  
any, and to my surprise he started in the morning  
saying to which, I had not sent the Boston board  
but now you shall receive it. -

I had a letter from Spino last night  
accompanying some conscript for me, the boat has  
gone on to Montalunga & in consequence I will be  
obliged to show up in a few days. I am quite  
sorry that you will be absent. - Spino's letters  
to be remembered to you in the kindest manner

Wishing you an agreeable & prosperous trip

Yours most affectly

C. Jack

Richard P. Jones

of the varnish trees & specimens. I told him  
that to my certain knowledge you had made collection  
&0~i\*{> 85 \*.< ..  
for him & had lost the opportunity of enquir-  
ing into the history of the varnishes which he was  
so anxious about. also that the hurried way of  
our departure must of necessity have prevented you  
giving him a sufficiently satisfactory detail  
on the subject & that you expected to be the  
bearer yourself of all the information he  
could give. To which his secretary  
was <sup>asked</sup> to reply that your services  
were too valuable to

<%£\*^ &\*^£&j\*^£h^jfc

return so soon. & that as the husband  
of Mrs. & not a kitchen gardener were again in  
charge of your child ~~at~~ the garden, he  
hoped you would be induced to complete  
your survey of these Provinces, & perhaps  
added he, we may afterwards prevail on  
him to go to Arracan. The weather is hot  
& dry here & though I would an infinite  
satisfaction to be conversable with you

Monday 20th Aug 1899

My dear Mr. ...

I received your letter for  
Mr. ... which I have not fully  
attended to since my illness in having  
suggested the propriety of your proposed  
removal solely to Columbia in addition  
to what I stated in my public letter  
I have mentioned your business suffered  
on your health in your late trip to  
the continent.

Since you left me my friend  
Frank King returned his suit and  
in a basket containing twenty ...

Yours truly  
...

J\*V

I have furnished and a few Baskets of  
 Mountain Plant pepper, the former with  
 as success with one Basket of the latter  
 or under substance. I have charge for  
 Mr. Winton, the furnished Basket being  
 very full will you do me the favor to  
 see that it is properly taken care  
 of. - I need not remind you of how  
 much we all look to you for leads  
 in that work in any way tend to  
 comfort or ornament of the Nation  
 wishing you a speedy and pleasant  
 Voyage

& r < ^ < f £

I remain, my dear Sir

of the first part of the 5th volume of the  
and the 10th volume of the 2nd part of the  
the 1st May you will be the kind, to the  
series, \*\* . . . . .  
will be filled with a historical sketch, with \*S, - . . .  
by my next letter to you, May you will accept as a  
fulfillment of my intention, and of my earnest wish to be  
added to the number of your contributors.

Then you will find satisfaction  
in your interesting Historical Sketch of the . . . . .  
which will be greatly to enlarge the limits of your former  
series, and add much interest of course to it, although  
part of the historical sketch, but in a considerable time

mosty Mr Bennett, Mr Colburn, Mr Fleming,  
 & Mr Brown, who always speak of you in high terms & that

If it is not giving you too much  
trouble, I should feel infinitely obliged for a small volume  
of seeds of any interesting plants from Nepal, especially  
the different species of Pinus, which do not seem  
to be cultivated in the country, & likewise the various  
species of Madia & Primula, &c. &c. &c.

the names of such things

as have been in your collection  
books. I've seeds <sup>4\*-E\*S~p^.</sup> one but <sup>one</sup> <sup>^</sup>

<?&Zr+ † the plants in the collection, especially but which  
is the #~, Ci» w^y, brown paper is the best to wrap them  
in. Attention is said of them you will receive due credit,  
& your name will be printed on the back.

Should be honored to be, rather  
highest esteem & respects  
Your very faithful & obedient  
son

LIVING PLANTS

These living plants may be made permanent and become better known, perhaps, by being put into the hands of private collectors. The seeds should never be sent, and the permanent plants be kept here.

It will be very desirable if any of the above plants can be obtained by the Rev. Professor of Botany, at the University of Edinburgh, Scotland, that all the same specimens of the same plants, and also of a small number of other plants, be prepared for him.

Prof. W. G. Smith, who will be the only man qualified to judge, has been very kind to me, and has offered to send me a specimen of the plant which he has seen at the University of Edinburgh. The seeds are now all in the hands of the University of Edinburgh, and will be the property of the University of Edinburgh, and will be the property of the University of Edinburgh.

A. N. S. P.

My dear Mother

I am in London

I'm very glad to hear that you have not missed.

I will be with you at breakfast. The servant

is at present in the

country - I think it

is a few minutes

until the breakfast

M. W. Wallis

\_\_\_\_\_

gets up. — I gave me  
my resignation yesterday.  
Yes, but I will tell  
you all about it when  
it is convenient.

~~My dear Mr. [Name]~~

1827  
I am very  
sincerely  
yours

My Dear Sir

It would not yet be had. There is  
an opportunity for preparing our  
great report at your elbow,  
but I hope business will soon  
let you too night. You will  
sincerely be coming away as soon  
as the business prevents  
your further researches, for  
it was never the intention  
of God that you should

remain on the Suspension  
week when there were some  
tempted. Many thanks for  
your kind offer of the House  
at the Jordan but we  
do not wish to avoid another  
bit, as it is not convenient  
for me to avoid them  
during the same. We propose  
perhaps to vacate early

next week.

I have the pleasure to  
send Doc and De Candolle  
and Bernard than has  
been desired to attend you.

Yours truly  
Washington

Malacca Street

My dear Sir,

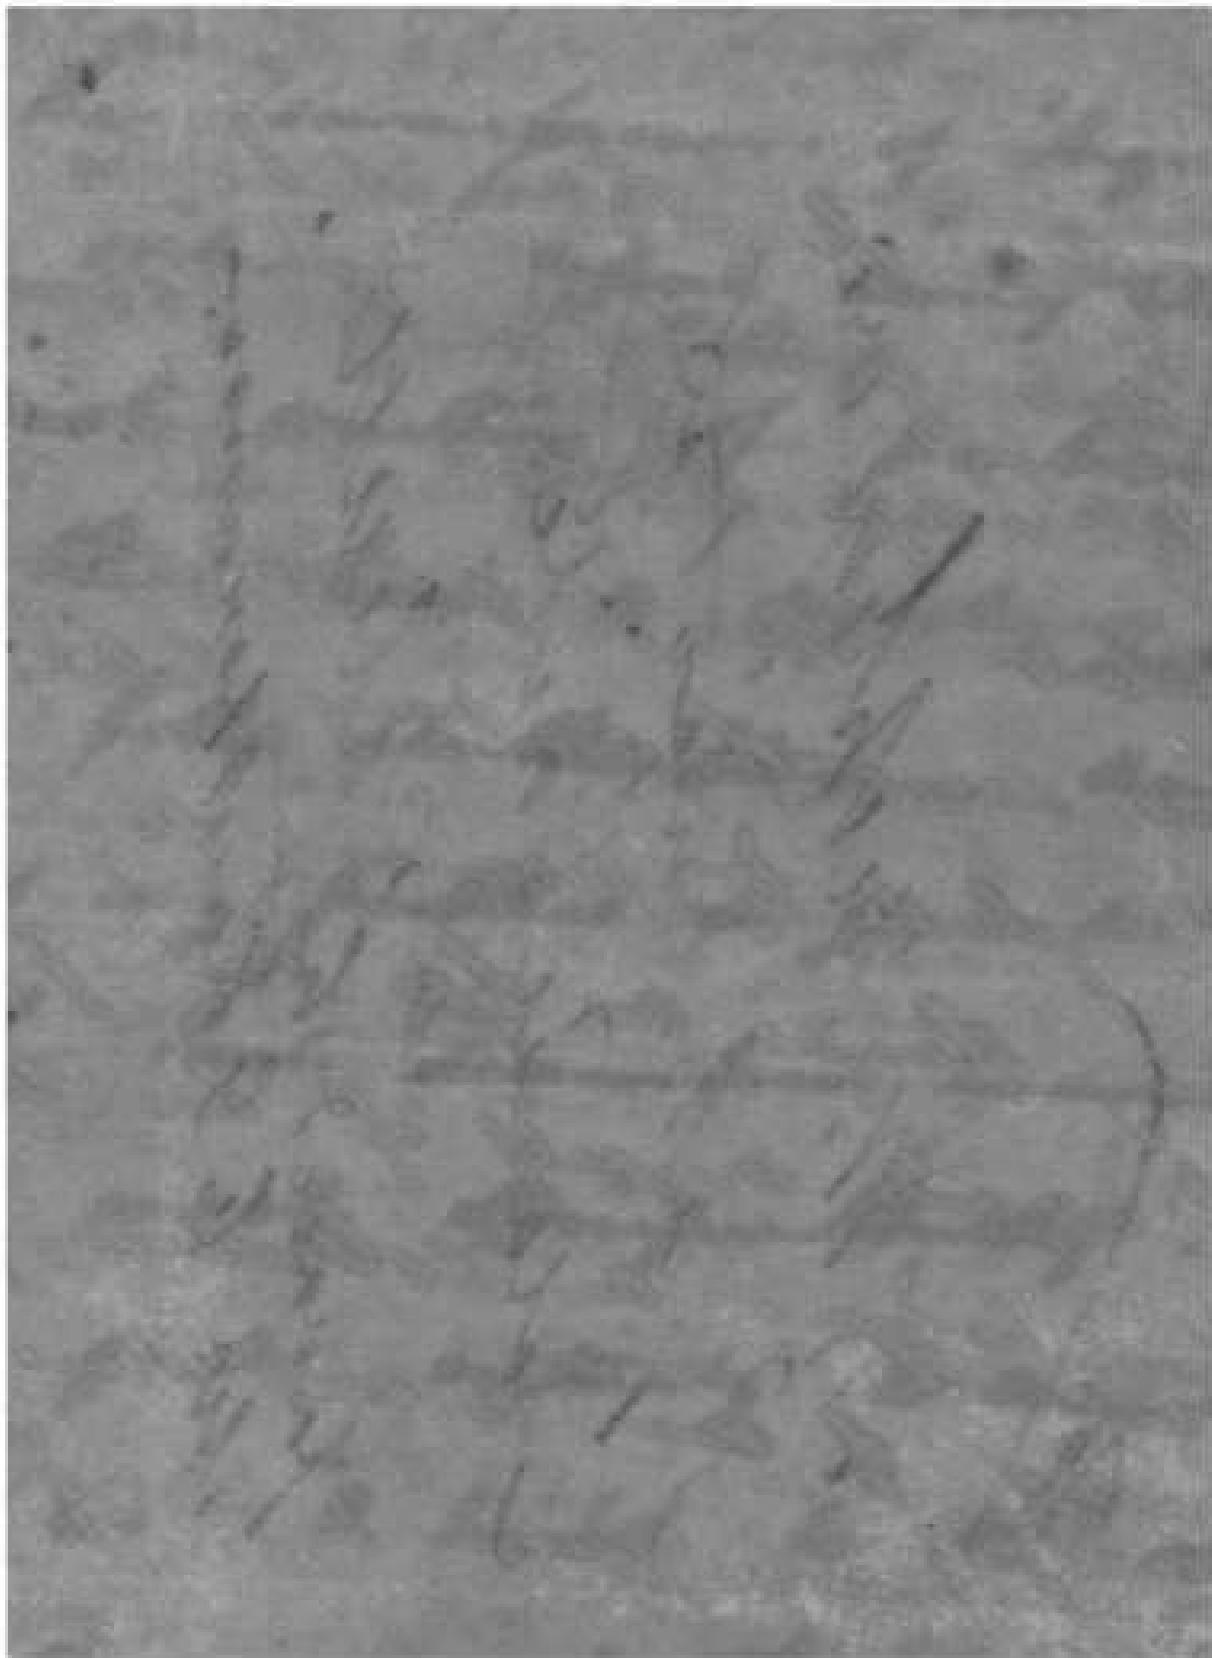

When I had the pleasure  
 addressing you a letter from my  
 15<sup>th</sup> Nov, I certainly forgot  
 about a trifling of the several  
 two stamped pieces in remembrance  
 of the most famous Botanic  
 present in Sweden. I be-  
 lieve you to be with much  
 pleasure, my dear Sir,

C<sup>A</sup>

Yours  
 John

I have some something (Klein's) in  
the hands of the company, for  
the purpose of clearing up the  
the necessary, from the  
company

Pat. Linn. June 23 1827

rd 9<sup>th</sup> Aug 1827

My dear friend - I have the pleasure  
of introducing to you the bearer of this  
letter Mr George Gordon Mowbray - who is  
acquainted with your wife and family  
and has seen them very lately - you  
will be glad to receive such news  
regarding them, as he can give

I avail myself of his kindness in  
sending to you a collection of dried  
specimens of our mountain plants  
what I trust you will find  
interesting

The attacks upon my friend Governor  
Percival & myself in Parliament by  
Mr Buxton last year - has given me  
plenty of work - the Minister gave

order for the most minute examination  
of the facts by the local Government  
and the Government of England also  
I have order to report every thing for  
in the next meeting of Parliament - I  
have thus had a meeting to enduce  
from both Authorities - and every  
act of <sup>^</sup> / « <sup>^</sup> <sup>^</sup>U-ASZ\* > a private life also  
for the last seven or eight years has been  
left to me scrupulously - and  
think god - entirely to my satisfaction  
and as I had to the discomfiture  
and dismay of those who do  
wantonly & so confidently treated  
me in Parliament - I have  
also been most busily employed

as Registrar of the Admiralty, in furnishing  
the documents and records of all the  
trials for Slave Cases which have  
taken place since the conquest of this  
Colony - so ~~that~~ I have been obliged  
to abandon for the time those pursuits  
which are most to my taste - & to regret  
that correspondence with my friends  
in which I delight - I now hope  
however as my business draws away  
I may be able to return to those habits.  
I be importuned your offences with my  
letters - My wife be glad to hear  
that my worldly affairs are prosperous  
and I could desire - a far beyond  
my expectations - My wife & child  
are well - the latter now finds you  
gay & the most entertaining fellow  
in the world - I have had seven

Some severe disfigurements to suffer during  
the last years in their death of sons,  
father and also brother. I have  
got a professorship of Botany established  
in our Royal College & Mr Bojer  
the Swedish traveller appointed to  
the Place. I trust to expand as  
taste for these studies in the rising  
of this place - and for  
this purpose hands got prizes offered  
by the Committee of Public instruction  
of which I am Vice President - for  
the best propoitions in botany at the  
Annual College examination. You  
I hope you may then find, believe me  
in good times & in bad: in your  
circumstances of prosperity or adversity  
Yours most sincerely attached and  
affectionate friend Charles Felpe

Extract of a Letter from Mr. Almondbury to C. Taylor Esq  
dated 17th June 1831. €\*&& <<Z /

,/ 4\$

Je vous envoie à présent en trois paquets les  
premiers fruits de nos recherches, dont il y a en 450 plantes  
dont la plupart nouvelles, et avons déjà tout emballé pour  
le transport sans délai.

Vous aurez de la satisfaction de pouvoir r. fltr entre à son  
Cabinet votre parfait dévouement. "Ltt i'7Lsa t un nouveau  
genre de plantes de la famille des Cypripédiées (Fragularia  
Lamb.) Mr. Boyer en fera le dépôt pour le présent dans  
Cabinet de l'Université.

Vous voyez au mois de juillet l'année 1831 un  
grand herbier de plantes provenant de la Société à Calcutta  
pour Mr. St. Wallich, lequel furent confiés aux soins de  
M. C. B. tout entier. Quelques années sont le nom. Nous  
les croyons à juste raison perdus parce que Mr. Wallich n'a  
jamais mentionné sa réception. Faites donc le plaisir d'en  
parler dans une Lettre à votre ami, et donnez nous y l'ol  
de nos plants.

JLJ

\*n€-\*

Je suis tout à fait de toute votre amitié  
et si possible visitez nous mêmes, j'en suis sûr de publier

Sous

deux de direction, ce que nous décrivons de nouveau à  
collaborateurs, mais de cela, nous pourrions parler plus amplement  
à Bois Brûlé.

Signé / A. M. H. H. H.

Paris 27 Août 1829

Monsieur,

J'ai l'honneur de vous adresser avec la présente un paquet qui vient de me parvenir de France, d'envoi de Monsieur le Professeur Deville de Montpellier.

Permettez moi Monsieur, de profiter de cette occasion pour vous demander quelques plantes qui servent fort utilement à notre île, et qui sont cultivées dans le riche Jardin de Calcutta. Vous rendre un grand service à notre Colonie, si vous voulez bien donner qu'elles me soient envoyées, et je vous en serai très reconnaissant.

Je vous offre de mon côté toutes les plantes indigènes de Maurice et celles qui y sont cultivées. % vous offre aussi, Monsieur, de faire parvenir à Monsieur Deville avec lequel

J'ai une correspondance très /&£&€£ tout ce que vous m'a  
-ourez pour lui.

J'avais obtenu de la cote d'Afrique u, Pedali <sup>•f/KVL</sup>  
maria, et je l'ai malheureusement perdue. Cette plante est  
utilisée <sup>££\*££&- 0&mJ \*u>s</sup> affection des vries vennes. Il  
suffit de mettre quelques feuilles infuser le soir dans un verre  
d'eau froide, et d'en faire usage pendant quelques temps. Je  
crois qu'il vous sera agréable de connaître l'emploi de cette  
plante.

J'ai l'honneur d'être avec la plus parfaite  
considération,

Monsieur,

Voire très humble  
& très obéissant serviteur

J. Vincent

reçoit

Isle of France June 29. 1827.  
11 P. M.

Having seen the counterpart  
of my worthy friend Collick at the  
theatre this evening awakened me from  
my usual inactivity & having been unsuccess-  
-ful in my endeavours to wrap a  
little bit of nonsense under the skin  
of my sheet induced me to write you  
a few lines, if it's only to kill a little  
time, the indigestion of green peas  
& cauliflower & new potatoes having  
bid defiance to my sleeping.

embarked in the 'Lopha' at Cienfuegos  
harbour March the 20<sup>th</sup>. but what with  
delays - touching at Matanzas &  
continuing winds here I regret to say  
only made a leisurely <sup>halt</sup> journey in  
15 weeks - We put in here in course  
- of a return of water - and  
are to call at the Cape of St. Helena  
so that by the time I reach old Eng.  
- land, great an advocate for sea  
voyage or Salvoys have been, they  
indeed be most readily tried & dis-  
- suited. One thing however I may  
thank God, pronounce worth in

new good health & Content perhaps  
than I have been since leaving home.  
I sincerely hope that your zeal and  
excursions in the Antislavery cause have  
in no way impaired your health and  
that you are once more inhaling the  
breezes of golden beach with "Huzzo  
Merrilee" - Remnant & all your little  
companions around you.

Our excellent & worthy friend  
Ludford has I trust by this time  
got some appointment and that within  
year or 10 months will enable him  
to return home & enjoy the fruits.

of his own disposed labors.

kind regards to James Stewart  
Subinbe enyef. Yours very truly  
G. H. R.

J&S

Permit me to offer you my warm  
acknowledgments for your kindness in readily  
complying with my application for a few plants.  
It is impossible I think for any one that has had  
to remain outwashed with the few <sup>^</sup> & <sup>^</sup> <sup>^</sup> <sup>^</sup>  
who has been treated in the handsome and  
kind manner in which you have conferred  
this obligation on me. -

The reason for my troubling  
you with this request was that having im-  
proved a piece of ground & planted in  
all that were procurable from the country  
around, I have felt a strong desire to plant  
it with the appearance of some of those on -

uncommon about that time - but the young  
of your skill were -

I am at 12 Oph how to get the  
distances of my own for a day or two in  
visiting my studies in attending those that  
you have kindly offered me with my care  
of them in future. The dinner will take the  
of the plants related to in the tickets - I am

As you  
making, health enough they to undertake  
of the plants related to in the tickets - I am

of the plants related to in the tickets - I am  
of the plants related to in the tickets - I am

of the plants related to in the tickets - I am

have persuaded them to stay here till October  
but suppose the arrangements in Calcutta for  
him below rendered that impossible. I trust  
you will receive them all in good health  
in Calcutta in October as they have been  
longer than expected. I have seen the  
company of plants and leaves of a  
kind which is the quality of the  
is little what you suppose - the reason  
the high road to the back of the Hermitage  
of the latter bed is a great recourse in  
the quality of the Koilas and ranges  
beyond are only acceptable in the quarters  
the climate, and I have papers bringing you  
into immediate contact with the Chinese  
protected masses who admit some -  
I have seen of any botanical work for sale  
I think would be of use to me from Cal

Lyons. Sept. 10. 1827. &\*jfa

My dear William

Many a long day, has again pass'd  
over our heads, since I had a letter from  
you. During your trip to Rotterdam,  
& the territories of the 1<sup>st</sup> of the part,  
I send myself often, in tracing  
your journey, sometimes in fragments  
sometimes by the aid of newspaper  
information; and sometimes by the  
private letters of my friends, who are  
occasionally situated to me. What the  
news of your proceedings since your  
return to your own comfortable abode  
at the border. I can say that you  
have been holding a kind of scientific  
assembly among the new representation  
of Rotterdam & elsewhere, and enjoying  
a mental feast, on the affairs of your  
representation and laboring that —

When you wrote to me, I was not aware  
that you were living a life of struggle.  
Myself now did not seem aware that  
I following the good example set before  
me by so many friends had thrown  
off that state, and become a Reformer.  
I could not help exclaiming, when  
you mentioned the state of Maryland,  
because in your description of  
them dear Miss and children, you  
tell us the condition of the people  
are exposed, more removed from  
our state, at the best for a time.  
I have now been married 3 years,  
and have one little boy whom my  
wife has lately been sent to suffer  
from worms, creep in the stomach.  
As it has to report his general health,  
that I have this for on my way  
from Martha's Vineyard, I find he  
or had a ship for Saugus for

1/2

4c

<\*'

^

months. I am now  
 prospect of being here by noon, and  
 securing that assurance which  
 formerly afforded me so much of pleasure  
 and instruction also.

I should be very glad to hear a letter  
 from you on my way down; but  
 on receipt of the same would write  
 to you of the care of Major D. M. Head  
 Major Cipriani, and the whole of the  
 papers, and the papers of your  
 wife's and family. I shall certainly  
 do a great deal of business. It will be  
 a certainty that on the point, that  
 out as I shall be for a time, from  
 all knowledge of what is going on.

In the expectation of soon being  
 down again. I am  
 with wife. I shall be

19. Sept. **f**

My dear Doctor

I am sorry your name was included  
in the list I sent you the other day, of the subscribers  
in arrears, it was a mistake inadvertently  
made there being, with which the list was  
made out by Mr. Weston, and I must confess  
I did not examine it properly; in fact I did  
not consider the gentlemen who were in  
arrears for a few quarters, as departed  
and especially your bill fell in  
arrears owing to your absence from  
the garden.

Last night Mr. Yarrow  
with your note, with enclosure. There  
is the letter to Mr. Weston and I have  
the money as you directed and

<v

as soon as I get their answer, will  
not fail to be announced to you  
I apprehend there is some misapprehension  
about Mr. Weston, who has been  
the original subscriber

**L, J~\_tL** / 1821, and I add op. 2.

Went to the in Sept 1821 to know (Doubt)  
but to derive the membership in 1821.

Mr. Weston who is now the Impert. Ware  
Houses, Keefe, Lockman, elected a  
Member in 1821

The Point will be done  
the coming year as soon as  
I can bring the different

appear under me. I shall  
pay you a visit and speak  
to you about the Society affair  
before I go to my country residence  
on the Sunday holidays in the  
Provincia

Yours

My dear Wallich

Yesterday I got your letter  
of the 15<sup>th</sup>. Your excuses were  
superfluous, because I never  
had a doubt of the standing  
of your character & consequently  
of your friendships. Work always  
my boy! nothing like it whether  
for health or happiness or  
glory. Inoua has sent you  
the "table botaniques" & says he  
will forward as much more  
at your bidding as you desire  
to have. Lots of other things  
are going, or soon will go, to  
you.

By yesterday's bark I despatched  
to you one copy of the Sketch  
& on today's bark carries to  
you the duplicate.

As I told you afore, one of these  
new copies has the explanatory  
letter addressed to yourself & also  
the Sanscrit list - but the other  
copy wants these appendages;

I therefore from the <sup>old</sup> copy which  
you ~~obtain~~ <sup>though had some time</sup> you must  
separate the letter & the list  
& add them to that one of the  
two new & amended copies which  
want them - & then you must  
dispatch the copy & its dupli-  
-cate by separate ships.  
You understand? Good! do  
accordingly!

Enclosed in this present epistle  
is a letter which I have  
addressed to W.C. in acknow-  
-ledgment of his civility &  
also in explanation of sundry  
small matters relative to the  
sketch. I send it to you open  
that you may read if you  
will - but before forwarding  
it, seal it.

Alas! for my birds! They were  
really curious & quite new: &  
what think you of entirely  
new varieties of the spipe &

will I Columbia, species? Those  
good for nothing of the A. look that  
have no more of my jewels.  
It is throwing pearls before swine!  
I will send you soon other  
specimens of these birds.

By the way, I have sent an  
anonymous description of the  
suipe or woodcock (or I doubt  
which it is) to the Joker Pub-  
detered 17<sup>th</sup> of this month, & if  
you read that paper, you  
have read, or may read, the  
description - It is very accurate  
though, of course, characterizing  
only externals - & I dare say  
some English ornithologists  
would thank you for it. Deal  
with it as you will.

Did you get the vignette of  
the Residence which I sent you  
to Hongron, & do you mean to  
employ it in your work?

God bless thee, my dear fellow,  
& give thee health & strength for  
all thy noble labours.

Thine affectionate  
W. Woodson

Factum is reading Roscoe's paper:  
& I shall peruse it after him.  
Factum, not knowing how much  
the historian of Loreago & Leo has  
recently addicted himself to politics

Chandernagore le 20 Octobre 1757.

Monsieur,

J'ai reçu hier la lettre que vous m'avez écrite au sujet des plantes et grains, qui vous ont été demandés par M. l'Administrateur général.

Le présent est très avancé pour que les grains à présent faits au Jardin de Pondichéry, les battus et pressés soient prêts à être commandés des plaines.

J'attendrai donc le reste des Minutes pour vous faire connaître les batteurs, les lesquels j'aurais obtenu d'y faire des embarquements et je vous en ferois savoir la somme avis.

Si vous pouvez envoyer par le Bailli des grains, M. le Directeur des Bâtonnets, la sera très avantageux.

La somme particulière pour le service des officiers obligés, que vous voulez bien me faire et en profiterai à l'occasion de mes parents.

J'ai l'honneur d'être, Monsieur, votre très obéissant serviteur

J. Cordier

J. Cordier

By the Will.

Monday 21st

My dear Sir

The chief cause of my  
 coming away this morning is that  
 for two days I have had an abscess  
 laid out which makes me feel  
 company for any one, & it would so  
 surely be increased by exposing the water  
 again; which the case is not. But I  
 trust you will accept my apologies;  
 and wish them to Mrs. Leaburne  
 I hope Sir Lodowick and General  
 Cotton will take their coffee with me  
 in their way home & as you will  
 probably visit the room with them

Dear Mother

10<sup>th</sup> of May  
1847

Dear Mother

I had my face in my hat  
and a lot of other things, intending  
to write you such a long letter, about your  
having known such a long time, I had  
your usual reports about the health  
and the recovery of the health  
About the other things which I heard  
from your mother and she said  
she was and was in her usual  
I had some things, some things which  
made me quite anxious to see you  
or from your mother in the usual  
I wrote you a long letter

a prostitute for it, so you must send it by  
the place & change in **← f <** **fc.** same.

By your plan you get completely thin  
in your the bottom in fact I've got  
to that no one would have given much for it  
I thought I was doing it for you to  
treat in getting the gift for the  
Papers, which I have sent you in charge  
of Mr. Clarkson the officer of the Enterprise -  
you must send on some for the boys as  
soon as the arrives, for the is bottom here

7<sup>th</sup>

There is an old barrel of yours  
here also, but it has got too much iron  
to be worth moving.  
I have very little news to tell you  
except that I have been the prisoner of

Mr. Murray was seen some weeks ago  
now, I have paid some the ordinary visits of courtesy  
which he has returned, but never invited me to  
his house, & doubtless is prejudiced by an old  
friend Baynton - he had some little change  
with the viz. viz. - I intend going to Calcutta  
to see them about a young man, which I shall say  
to you by word of mouth, & return to Calcutta  
in a few days, but it is desirable to  
know of what kind of business Europeans are engaged  
to do in Mysore, & whether they are more  
likely to be successful here with such  
ill-treatment & prejudice from a poor man - because  
there is no doubt that the British are better  
of the Government in a little while, but the  
probability there is not half - you will see

News in the paper instead of our returning  
how soon you get home or what?

Mr. Pitt is not well and I am happy to  
find nothing so signs of health, nor  
with little books.

Would you give me a list of books  
for the library, when you get the time

I hope  
to see you

Yours truly

P. M. W.

Hi

lilt

100  
- Andrew October 20 - 1842.  
- My Dear Dr. Park - I have  
not your kind letter of the 13  
of October, & feel much indebted  
to you for your subscription of  
one - the laws are most  
suggestive & show that our  
children are (when I reflect  
you to share with me) that I  
shall be able to present you  
with a child of your own -  
to have a report that you do  
not know to me, but say  
not know me well yet  
we thank you, should you  
don't us - we cannot get in

\*A M

without you - Evening's service  
has been thought and to conduct  
for a few days - Some great re-  
-visions from a high up the  
the same; Evening visitant at the  
belonging in that district, while  
now forward to that as the year  
& return - Some commencing  
rather early in the season, but  
there are advanced stages of wind  
before any other districts having  
kindly sent me a supply of  
questioned, set out out paper of  
appearance - them in party of  
the same supply of the return  
and nothing back - some collecting  
then for the same purpose to

stand up the other views - make  
attend the job in extended -  
the same observations on water  
received - and with attempt;  
and by the one disturbance -  
place - of travelling days of  
there is at home the way  
for obliqueness - that the  
downed with the return to  
down from this to take it  
on - that contributes to the  
downed on the ground  
to you particular the answer  
if you possibly can - the  
particular will be with no  
again from to the system;  
stars of the same -

The points at issue between the late  
Sir Stamford Raffles and the Court of Directors  
are - His claim **& sfrsJ \*\*** **VT\***  
actual value of the currency **S+ys'**  
on account of his **> ^** salary as **^** Governor or  
officer and what he was entitled to by the  
terms of his appointment had to be paid himself  
as he was not **\*S** **ys** **<r rf^s\*** in Spanish dollars,  
or in other words the amount of the salary  
paid to the Government Treasury at  
the time he received them as shown on  
account of his salary. And his claim  
to receive the allowances of President of  
Banco from the date of his being  
appointed from the Government officer as  
positively expressed and stipulated in the  
letter of his appointment by the Supreme  
Government.

And his claim on account of the loss

Sustained by him in **A ">?"** **\*S** this delay  
in consequence of the difference of exchange  
between paper and silver, it being the custom  
to pay the salaries of the servants of the East India  
Company throughout **f^J** in silver.

On issuing a paper currency which  
his Majesty **///** **&J,** was comprised by the  
acceptance of government in fact, it was  
thought his majesty and his council that the servants  
of government **s'S** who receive their salaries  
**Ss\*** paper and not in silver then have the  
difference made good to them by government  
at the time, paper being often at a discount of  
from 10 to 20 per cent. but while he promoted  
this obvious act of justice to those who should  
naturally be worthily, for them to avail  
himself of an advantage thus originating  
with **'<<<** **<<^\*X/\*>** as his own personal  
interests were concerned, would be the most  
but secured the sanction of the Superior

Government - the measure was approved,  
but Mr. ... to say ... to the ...  
of directors for a grant of the ...  
at the time he had willingly sacrificed to his  
perhaps too delicate sense of integrity, he was  
informed that had he drawn the money at  
the time he granted the receipt to them, it  
have been allowed him ...  
had not done so, it could not now be granted,  
thus making him to suffer in his fortune  
for one honest regard to principle in the  
discharge of his public duty, and which  
ought rather to have commended their  
unqualified approbation and their highest  
praise.

&\* ^^^\$£^\*

It might be proper to state that when  
... conferred the ...  
upon him, he had the consideration to  
explain that in fixing the allowances  
for that great and extensive charge on the

1800  
dare, feeling as was said for Prince of Wales, he was satisfied that it was unequal, but that under the peculiar circumstances in which he was placed with regard to the establishment of a provisional government at Java at all, he thought it would be more agreeable to his authorities at home not to go in the first instance beyond that precedent, at any rate until he had authority from his superiors.

It is not necessary to point out the obvious contrast between the nature and extent of the duties and responsibilities of such an Administration as Java and its Dependencies, and those of a limited and trifling place as Prince of Wales Island, which in its advantages and importance is inferior to the least of the twenty two Provinces which fell under the general administration of the King as the Chief Authority at Batavia for the duties of which his predecessor was appointed General.

General Jackson was allowed an annual  
 salary of \$3000 being an **\*?&&?\*** **s&** **husband**  
 but the Governor continued to enjoy under the  
 Act of 1802 Government with the advantage  
 of its being paid in Europe as **'SS** a liberal  
 allowance for a household establishment  
 the object is simply to show that in fixing this  
 compensation inadequate allowances in **s+<:^**  
 case it was at least reasonable and just **-£L**  
 he should enjoy them without a deduction or  
 diminution.

The amount of his allowance  
 was however effected and finally diminished  
 in two ways. First only by the mode in which  
 a part of the salary **' >fr** was paid in Maryland  
**A** at the rate of two Rappahock Spanish Dollars  
 where the actual value of a Spanish Dollar  
 was two Rappahock and a quarter but also  
 by his receiving the remainder **L\*\*^** strictly in  
 specie in Maryland instead of Spain while  
 such Spanish Dollars were frequently at a discount.

\*4

in the month of June 1842 he sent  
 he was forced to obtain extensive supplies  
 from Bengal and compelled either to accept  
 what ever terms the Governor General might  
 think proper to present, or to enter the market at  
 Calcutta as competitor for Bills where  
 he required them - there were objections against  
 the latter course, and in the negotiations with  
 the public for the extensive supplies of Cash  
 required in exchange for Bills on Bengal  
 to be drawn by himself at such rates as he  
 deemed most advantageous, he considered it  
 essential to the success of the <V \*S - S<?Ss \* \* \* \* \* that  
 that in a ? \*\* r moment a plan to advance them  
 should not exist the slightest ground on  
 which the \* view of doubt could be cast, that  
 his personal interests were for a moment  
 concerned.

It also became necessary to issue  
 provisionally, Treasury Notes to a considerable  
 extent, these notes under the particular

his due, whom we thought it advisable to  
to the public service that he should do so by setting  
the example at the head of a great and extensive  
Government, of having no other object in view  
than a public service.

The object of his appointment was not to  
obtain any benefit of salary, but merely that  
he should not be constrained to suffer an  
absolute distraction from the very important  
one to which he was actually and justly entitled.

On this occasion, a question, concerning his  
title to the office of President of the Council  
from the date of his being alienated from the  
Government of India, is decided from the  
Resolution of the Governor General in Council  
and the letter of the Secretary to Government  
Announcing that appointment, in which  
it is expressly stated that he is to be entitled  
to receive the allowances of President of the Council  
from the date at which he shall cease to con-  
tinue of the Government of India. The  
peculiar liberality with which this appointment

T> />7V\*r /V7<sup>1</sup>

in <sup>\*y</sup> <sup>>^>'<'"/>\*</sup> <sup>! /</sup> <sup>u</sup> <sup>7</sup> <sup>2</sup> <sup>~X'</sup> <sup>/^ . >^i</sup> <sup>"</sup> <sup>\*\*! "</sup> <sup>'</sup> <sup>\*</sup> <sup>^s</sup> <sup>\*\*</sup> <sup>^</sup>

... from him calls for some ex-  
 planation. The Governor General was perhaps  
 aware of the great and heavy expenses he was  
 incurring in taking charge of the office and looking  
 after his estate and station as Governor of France,  
 and was surprised in the result of his account  
 to the Government in any manner of, or  
 before his allowances were to be fixed and  
 enjoyed on a more liberal scale, to receive him  
 from top, or to use the words of / ^ . > ^ i  
 his personal appointment and service he  
 was intended simply as an honor and  
 education after the (Lombard) concerns with  
 France had been closed. Had this account  
 received it would have been his duty to  
 have proceeded to <sup>\*</sup> comply with the request  
 he is that it would in all probability have been  
 as long in making his resignation, it was the  
 case with the change of circumstances and  
 necessity which obliged him <sup>^s</sup> to proceed to France  
 but in such case there would be <sup>\*\*</sup> <sup>\*\*</sup> <sup>^</sup> been no  
 hesitation in accepting his letter to the

... s& s\* s f.S &. ... warranted by the letter of his  
appointment. By the order of the Court of  
Directors he was not permitted to take charge  
of the appointment till he had repaid the  
charges brought against him, and released  
from proceeding to the usual path for purpose  
he was compelled to return to England as the  
only course left for him to pursue. In order  
to clearly establish his claim to these  
allowances that the Governor General in  
Council on his first application to that authority  
expressed himself as being  $\nabla V - ^\wedge > \setminus < - , S^* * ' \wedge$   
not pleased to state that under the circumstances  
of the case he would recommend it to the liberal  
consideration of the Court, but in the copy of  
the Court while they generally approved of the  
view of  $' // 1 / ; , ^ , - . // , ^ - -$  by the Supreme  
Government, we find no notice of this  
consideration recommended.

His appeal therefore in this instance  
was granted in the letter and spirit of what

My dear Mother

Since the day dispatched by

£

My dear Mother the pound of Potatoes

My dear Mother signed prepared for

plants from in the Garden -

similar quantity shall be dispatched

to day after tomorrow - I in a few

days - with the dispatch of Dutch

and from plants from in the Hill

Garden - I have seen it all things

which shall follow but there is

rapid succession - as I am much

travelling in various - I shall give

a list of Cattle Dutch here when some

time ago sending the 1st vol. of the

history - I have some more but

^€~.

y

2<sup>d</sup> volume about half past 2 - 2  
notes. The - is by hand letter. In  
study of your splendid "The Republic"  
It will be found that on about  
of Laurel to your house, that you will  
be surprised with the fact. The work has  
been done to the service. The description on  
is full of history & detail. The work is  
written in standing up - a full. The  
is the same, but mentioned by you, as  
well as - Hydrogen. In the same you  
Hollander is mentioned in the Museum.  
Let of the same name. I am looking out a  
first copy of my Catalogue, in which there  
are to be many additions & corrections.

Believe me

Yours very truly  
J. M. W. McKelvey  
The Dept of Ag. & M.  
Smithsonian Institution

Dear O^£ /\*

I am favoured with your  
Letter of the 25<sup>th</sup> of January, and it gives me  
concern to find you & I hear of the  
state of my application to the Court of  
Directors for permission for D. Wallich to  
conclude his voyage. The request was made by me  
according to your desire but the Court could  
not entertain it on account of its irregularity.  
It is usual for such permissions to be given by  
the Bengal Government on application  
from the Parties here and I have no doubt  
if D. Wallich applies leave will be given  
without hesitation. It will be better for you  
therefore to write to D. Wallich immediately on  
the subject & remain anxious for his success.

would you hear from him. At last I send  
a Copy of a note from the Deputy Secretary to  
one by which it appears that an intimation  
was made to the Bengal Government that  
D. W. must make the Request.

I am Dear Madam

Your faithful humble Servt.  
George Smith

Shedden (Coeydon) Feb 9<sup>th</sup> 1826

Copy of a letter from the Deputy **?V\*, \*s£,**  
Member, British India  
House Feb 9<sup>th</sup> 1826.

Mr Halliday's application was brought  
to the Committee's notice by you.  
No mention was made of the fact, but  
I know that the Committee were not

**nil**

...to take up the questions  
upon the possible contingency of  
Dr. Kellie's coming to this country;  
and intimating that I should have  
said a letter to the Government  
as to his business application  
has been made to my solicitor  
about it. The object to be  
probably my representation in  
Dr. Kellie's coming to  
the Government.

Garden Reach  
Nov: 14. 1827

My dear Sir

I have read the  
paper about you put out  
my hands, and I should like  
to have some conversation with  
you respecting them. We are  
coming over this evening & will  
call in your garden  
& perhaps may find you at  
home: otherwise I will leave  
the paper at your house.

Yours sincerely  
Chas. Rowley.

... my involvement in the distribution  
'-' V JUT, <S, ,J>  
of the labor & £&£ ^4  
decisions of laying before and meeting particulars of that dis-  
tribution with a few observations arising out of the subject

The supply of seeds was computed in 20 boxes of which nine  
&M.+ =2E.K.' were of Mr. Cunningham and 13 of Mr. ...  
bought of Mr. Johnson, by our friend Mr. ...  
and the additional expense in ...  
and date amounted to £20 more, making the whole cost £40 ...  
Chilling

The two ... 4s\* ... appear to have been of equal height and  
with the exception of one Box of Peas which was a good deal damaged  
down and apparently by damp, they arrived in perfect order

The supply consisted of 11 sets of the ... s&&4 ...  
of ... and ... sets of Lettuce, ...  
of ... and ... with ... 4fi\*Ji i ...  
and ... tr

... these Boxes in ... 5e-r ^ ^ 16<sup>th</sup> September ... a#'W

men of the Board Committee to sell a portion of the lands and I am  
happy to announce that lands to the value of 200,000 have been  
ready actually sold a considerable quantity with great satisfaction, on  
which will stand the redemption of the Loans.

I have no further particulars that I wish to trouble the Mem-  
bers with. But I cannot but mention when you consider the progress of  
our present projects, the success of our operations, the progress of the  
cause, the almost forgotten remembrance of a few of our Members had  
been mentioned, your investment of funds was highly productive ever  
before we were organized, the public being allowed the benefit of our  
operations has been made subservient to our own, to secure a little  
we have enjoyed the advantage of their action.

As long as a similar result can be obtained our Loans and  
Lands and the productive of great public benefit.

Yours truly,  
Wm. M. W. W.  
17th Nov 1827  
Friend John W.

look for the maple trees, as before said  
I am . JL s  
I am of course the plan. He also wants  
a few of the large fruit trees such as those  
mentioned in the list. The number of  
is a capital word for furniture. When you  
are of hand again. Shall say "see before"  
The house I have on Berlin & Town, in an  
all maple for bookshelves. That price is

however shall dispatch some Extract  
of Botanical Steamers grown in the  
Hill Garden - ask Sir C. P. M. if it  
be not a very pretty plant has he says  
"Muller in favor". You shall have an  
amount of it shortly. All several of its pro-  
cessions. Cultivation of every kind has been  
has succeeded well. I am not for  
you in the interest of medicinal seed a considerable  
amount. I will give what you like.

Some not had I have referred to the middle of  
letter thinking you for you but in what you  
referred to of the other but what have  
been pleased to speak of in in such  
of your the time as you represent. When  
an offer kindly indebted by you considering  
the letter, referred in what you have  
been pleased with the order, as well as  
Lodge by the day book - J^L^yS. - well  
think and in letter acquainted with  
them of kind helpful to like a family  
who was so truly kind. I of course feel  
grateful to the letter that they should speak  
well of me both in the letter and  
John Invention in opinion with the  
that you represent to his letter when  
he was born. The first was the  
should a couple of days to me

His Lordship was pleased to consider  
my views on the proposed alterations in  
the constitution of the Board of Education  
and to represent the inadequacy  
of my salary to the nature of my office  
and to do what he could for me  
in consequence. He said the subject should  
be brought before the Board.

^\_<~'-2~..  
^L  
I am now preparing  
a list of books in a few days together  
with the plan. The name of the  
book is the History of the Bible as it was  
before the Reformation. The list  
is a few days together with a full copy  
of the Catalogue of Books of the  
British Museum with a Catalogue of  
Antiquities & Historical Pictures. <sup>Both</sup> together with  
the names they have been used as well  
as any instruments of Liberty. I hope to be  
able to find that my appointment has

2-

^

My dear Mother

Thank you for the

letter that you wrote about the  
you will find in the letter that in  
the very absence of the letter  
is in the country - If I could, it will  
be a great relief if I could. It will be  
the putting of the matter as I do not mean  
to send. I will let you know if I  
put in a letter for you - or change my  
plans - and as only the matter to be  
able to spend my leisure time after  
I have done my best for a national  
Historical Association for Society  
I will send you the list of my library of  
instruments towards a few

from a day. The plan of the garden  
in 1823. In the land in a copy of  
the plan of St. Stephen who is copying  
has not yet finished it. The number  
of acres of the place is about 12  
which has been copied. as shown in  
B. 100. The plan is a fair copy  
I have thought to send to my own  
own copy in the station. The letter  
has been written in a hurry & is standing  
it for my house notes. Many parts have  
been put hurriedly together. you will  
know - excuse in perfection.  
I wish to send behind about the station  
I thought I had said it should  
have been >£J- c & as the thought

allowance should be the rate available  
as empty prison is not for payment.  
Mr Green had the opportunity of seeing  
a few letters and as I had said I gave  
many more books. see how they be  
found. The English Detachment of some  
Artillery have been received.

I think my case is a good one  
a couple of all accounts to the  
of - all things - my paper is  
I give me a small letter with  
it. I think the things say to  
them - if they do not allow the  
Napoleon. I must entertain them  
myself as I cannot afford to allow  
filled like Green to cut me out. I  
I shall not -  
Believe me yours  
J. H. H.

of my little temple to me in a promising  
book of mine. What you will have  
is a picture in my mind of the  
household. I will confess that  
if I had your work and in all  
points of support my program. All  
things to be done in things that they  
must stand to it. I have now a very  
down. as I am determined not to  
sacrifice all my possessions to the  
the performance of my duties. It  
is hard to see all the work that  
I have done. I am sure that I shall  
succeed with all the help of the  
Secretary, to whom I have of the  
subject. I shall to some extent  
also I shall be very anxious to be  
in a good kind of work to all the  
C. history. When they give me  
a manuscript. I shall be as one found  
I shall be very anxious to work. I  
will be very happy to see you  
in a short time. I shall be very  
happy to see you.

Reply 9<sup>th</sup> Dec

My dear friend

It is very pressing on my part to ask you again as my work goes on the most part of your letter is not answered. but a friend, & brother of mine of 4 years, writes me to inform you how what may be seen in the same quantity, Linens & Paravents.

As I believe these are all buttons perhaps you can carry home a few for my old companions in home - if so they should be addressed to the Rev. John Monthly, Kimbolton, Hunts, to the care of C. Wilkies Esq, Custom House London.

The price is, I presume, as good as best, just Belmont

A letter to be sent to the Rev. John Monthly

and his acquaintance might be  
agreeable - The letter from his  
brother may be useful, but if that  
I have no certain knowledge: I do not  
know him.

Let the whole depend upon  
your means, and convenience,  
of carrying him such things - for  
I do not wish any reputation  
reflecting upon

Deliver mine, with  
my good wish.

Sincerely yours

J. Smith

Mr. Smith is the interested  
friend of Col. Fenwick of  
the 45th, and was my old Regt.

Nipal Dec 14

My dear Wallich

Thore was with  
great interest your letter  
& its enclosures. You  
are so well & honourably  
known at home that  
there cannot be a  
doubt of the success  
of your petition. &

L  
i=^w ^L\*.  
I am almost persuaded  
to give you a helping  
hand. However, that  
I may satisfy my  
own affectionate regard  
for you, I shall  
address the Dy Chairman  
Jas Patterson, who is  
a true friend of me &  
mine; and my letter  
will at least serve to

interest a stranger, personally  
& privately in your work.  
Take them the enclosed  
& give it to Mr. Patterson  
with your own hand  
merely as an introduction  
which shall be followed  
by a larger & more  
explanatory letter when  
anon.

I shall desire Mr. P.  
to catch - if he can - an  
opportunity of making  
you known to my  
Parents & friends. There  
is a note to my father  
to deliver if opportunity  
serve. Would that my  
father were able to  
serve you! But alas!  
his means are not what  
they have been, & the  
'res anquata domi' must

permitted him from now  
to take a hearty welcome  
to you in case you  
pass his way. The  
Director however lives  
in Town & knows my  
remote residence; &  
I shall not be wanting  
in urging Mr. Pattison  
to show you all kind  
of private attention &  
to render you all  
public aid in his  
power. If you do  
not till January you  
had better send off  
both copies of my "Sketch  
of Buddhism" that no  
undesired delay may occur  
in case one miscarries.  
& you should also send  
the sundry scraps & letters  
relative to the subject  
which I have addressed to  
you.

Leave off to the Terrace to-  
-morrow - but a letter from  
you will reach me, as  
usual, if addressed to me

Calcutta Dec 12<sup>th</sup> 1827.  
My dear Willish

I received only a short time ago a  
fine collection of seeds from the Agricultural Society being  
yours for which I accept and pray give them my best thanks  
I am now very preparing ground from the jungle for the  
excursion in March for we are all to winter here as  
as well as for other plants which I will expect on that  
occasion I mean to bring down from the nursery those  
Dwarf Potatoes for which you much troubled by a  
disease by the letter some days ago - as the Spring  
is not arrived here there is no dependence to be placed  
for they be another waiting to complete we get of my  
plants. I have dispatched several parcels to you and for  
to my cousin and brother in law some which shall be  
sent by your forwarding or sending as directed  
in Calcutta. I shall be able to send you some more  
but shall try to keep them within the India Bank weight  
of 1/2 lb. convenient to the out of the way place has  
taken of all my time lately she is doing I am happy  
to say very well. Hope your family when you hear  
were thriving as well as we are  
I am sorry when you are yourself

A&J\*\*^.

Home -

May they be favor of you in writing the address  
about returning to the Bengal Education Dept

My Dear Dr. Wallis - I have received your different  
letters by the schooner and feel much indebted to  
you for your kind recollection of me - the garden  
which we want is not that of a I suppose that it  
should be deprived of the summer of fresh being  
to you how conveniently the vegetables should  
at present - no abundance you not relations  
to us - more especially that you always  
this best should be concerned in consequence  
of its health - a son of a wife however that  
was rather good - I do not hope to have the  
happiness of not seeing you at present  
some features of - unless my son had  
feel now, & I do not believe you, of any reason  
I return at present from below having  
visited every place on that island & have  
off again the day after to see more in order  
to see the large fortification of the Maroon Tribes  
situated between the Spaniards & the Maroon Tribes

;

a few years since, I think, made them most useful to  
us - they only require husband & encouragement  
to bring them more among us - Mr. Benson will  
most unquestionably secure my intentions - We  
have found such of the branches of the  
pages - have further employed in filling, but  
of a given size - we cannot however to send  
any number of value to be entered before the  
next <sup>i/!</sup> Mr. Benson - you will see the  
sample & from his hand learn all our views  
I expect to see that this business to be  
for the purpose of bringing it forward & you  
What attention to the plan with us will  
delay in paper, & you may not expect  
that they <sup>^</sup> be moved to attention by the  
first opportunity <sup>^</sup> - I may offer <sup>rt-</sup> them  
several times - <sup>^</sup> out of my power <sup>Ji</sup> send  
you any degree of the 'ambition' by

The enclosed book is fine - but some think the  
collected & forwarded to the Historical Society  
I am writing you a letter - but  
will however address you by Mr. [unclear] whom  
I hope to know in few minutes &  
direct to you - believe me,

My Dear [unclear],  
Yours very truly

Roma 25. (Jan 1854)

Mr

I have the honor to enclose a letter  
 from Mr. John Macleod regarding the  
 estate of St. George which is the foundation  
 or account of movements and which is  
 in fact with the approval of the Court  
 of Directors. I propose to establish a  
 Botanical Garden. The project con-  
 sists in the purchase of a piece of land  
 near the city, almost built. The whole  
 can be irrigated, and very fertile ground  
 from a spring of water, nearly pure  
 water, & from the fountain of the project  
 on the site. - About the same time  
 has been submitted as a garden, which con-  
 tains a considerable number of European  
 plants, trees & shrubs, which I should have  
 had been at your disposal to collect some  
 different plants to the country, but they  
 have been entirely neglected, from the death  
 about two years ago is at present in  
 progress. - The principal plants  
 are Peaches, Apples, Pines, (I wish that  
 there were some, Sophoras, Guavas, etc, some  
 Madroño, Alligator Pear (Laurus Peruvia) Prunus

Dear Mother

I have just received your letter of the 10th and was glad to hear from you. I am well and hope these few lines will find you the same. I have not much news to write at present. I am still in the same place and doing the same work. I have not seen any of the old friends here. I have not seen any of the old friends here. I have not seen any of the old friends here.

Yours affectionately  
Samuel Johnson

of which specimens of the  
leaves are enclosed - the smaller  
being <sup>from the</sup> ~~from~~ <sup>same</sup> ~~same~~ <sup>assemblage</sup>  
~~of~~ <sup>of</sup> ~~the~~ <sup>the</sup> ~~same~~ <sup>same</sup> ~~assemblage~~ <sup>assemblage</sup>  
and the plant is so productive  
that a species of ~~the~~ <sup>the</sup> ~~same~~ <sup>same</sup> ~~name~~ <sup>name</sup> ~~might~~ <sup>might</sup>  
probably be made from it.  
It is called ~~Sambouji~~ <sup>Sambouji</sup> by the  
natives and the larger being  
Salarpou. The ~~turnip~~ <sup>turnip</sup> ~~seed~~ <sup>seed</sup>  
you received was sent by  
me and the note for Cole  
Cooper by mistake. The ~~leaf~~ <sup>leaf</sup>  
tree is found in considerable

abundance near Juncos  
and might be put in suffi-  
cient quantity for prices as  
other small articles, altho  
it is difficult to get it  
large enough for furniture  
I will send you specimens  
of the leaves, flowers and  
fruit when I go down the  
river - Mr. Huntington has a  
good many plants of it he  
languish to me which if  
still in his possession are very  
much at your service for

The purchase of equipment  
in the hands of a good car-  
penter I think he would  
is fully equal to the surface  
to the or perhaps for  
trees, but I have seen  
planks broad enough  
to make the seats of  
my proposal for planting the  
apple trees it would now be  
convenient to defer despatching  
the young trees until you have  
heard me again as I am about  
to return to Africa.

Yours very truly  
J. Smith

## DCCCCYHL

PRYLLOGLOSSUM DltVJMMOSDI, Kze.

*Gen Char.* Spica pedunculata, brevis, oblongo-ovata, capsulifera, bracteata. *Bracteae*; plurinae, spiritaliter dispositae, subirubricatae, cordato-rotundatae, integerrimae, crassiusculae, subcarnosae, mucronatim acuminatae, basi productsilibers- Capsules solitariae axillares (in bractearum axillis) reniformes, erectae, bivalves, verticaliter usque ad basin derhiacetites. Sports numerosa subtetralidiae, pellucidae.—*Herbaceum, pusillum, australasicum.* Caudex brevissimus, subnudus. Radix caespitibus 1-3 simplicibus, (mucronatis, alba, tuberosa; tuberculis oblongis hastatis. Folia radicalia, vel subradicalia, uncinata, semiteretia, acuta, scapo seu pedunculo breviora. Scapus teres, compositus, solitariis, spiciferus.

*Phylloglossum Drummondii* Kze. in *Batavisches Zeitung*, 1843. p. 24. cum *Icon. rylogr.* (1843.)

*Lycopodium Sanderi* Monogr. des Lycop. P. II. p. 36 (1849.)

IIAB. Australia Swan River *Drummond*, n. 993. George Town, Van Diemen's Land., *R. Gunn, Esq.* n. 1560. New Zealand, fertile soil near the Wytangi *Birer, Dr, Hooker, Rev. W. Colenso* (n. 325.), *Dr. Sinclair*.

In 1843 a woodcut and description of this very remarkable plant were published by Professor Kuhnze, in *Moench's Botanische Zeitung* for 1843, as a new genus and even a new natural group of the Linnæian Filiceae. It is a matter of surprise then, that those: should appear to be unknown to Dr. Spring, who presented his "*Shmagrapkie des Zalcopdiaceae*" to the Académie Royale des Sciences in 1849, and there described it as a new *Lycopodium*, "*L. Sanderi*," reauking, however, that "*d'après Boissier on croit avoir affaire à une espèce du genre Isoetes.*" Professor Kunze's view we consider more correct; "*Planta inferior (Vilis, lial) ita fere Piniaginism tmSlam referent, sen inter Filicea Ophiorhizaceae Brgiano Schlect. (Hooker, Jc. Pl. p. 263.) non uhsiniilis.*" It is of the size, and with the general habit, of that plant, but the epike is that of *Lycopodium*. It may well form a distinct order between *Ophiorhizaceae* and *Juncaceae*:—trid we have here had little more to do than improve Kunze's accurate characters, by means of our more copious specimens.

*ffo. l.* Entire plant, / 2. Spike of fructification, f. 3. Inside view of a Bractea with A capsule. / 4. Outside View of ditto. / 5. Spores:—all more or less magnified.

Dear Sir

Expecting to leave Calcutta in  
the course of the approaching week I this morning  
called to make the necessary final arrangements  
regarding the plants you wish to send home with  
me. On mentioning to our Captain and Surgeon  
you wish to send a box of plants. I regret to  
find that their decks will be so encumbered with  
Merchandise. As to prevent in their opinion the  
probability of ~~being~~ carrying a box on the  
Thief. I will very willingly carry any thing which can  
be put in the hold - May be therefore readily  
I shall be happy to take charge of - if you can  
conveniently send them by this day week to our  
house at the corner of Mather Row and 20th Street

Family be occupied in their delicate immediate  
or own affairs. But you be so kind in  
addition to the attention I have already rec'd from  
you. to see I write them over too the names of  
the ~~children~~ Florida don't? ~~forget my~~ health  
for you. Goodbye and welcome

Yours truly  
Catherine A. Horner

N. Wallace Esq. M.P.  
Superintendent of the  
Potato Garden

Sir,

Dear Sir,

I am directed by the Governor  
General in Council to acknowledge the receipt  
of your letter dated the 5<sup>th</sup> instant and  
in reply to communicate to you the  
following orders thereunto

With reference to the 1<sup>st</sup> & 2<sup>d</sup>  
paragraphs I am directed to state that as  
the intent of the Honorable Company's  
Sanctioned for Europe will occupy more  
tonnage than is available on the  
Honorable Company's regular and Chartered  
Ships of the season, and as consequently  
other tonnage on private Ships must  
of necessity be engaged, the Governor  
General in Council has no objection to  
the arrangement proposed by you.

Yours  
W. G. B.

might that the freight required for the  
collections which you are about to  
carry to England shall be provided on  
the Ship on which you may take your  
own passage.

2 With a view to effect the  
object you are requested to place  
yourself in communication with the  
Board of Trade, and to arrange that  
the extent of the extent of **y.v.v.v.** which  
will be required as well **\*\*\*** of the  
of the Ship **o If** which you  
propose to **^** **~,,,** you will of  
course be careful to regulate your  
own part of the arrangement so that  
the Board of Trade shall not be  
compelled to settle for the rate of  
Tonnage on unreasonable terms; it is  
desirable also if possible that the  
extent of tonnage which you may **7\***  
amount to **you 11/2 30 1/2**

Y<sup>th</sup>

Campden, 10 Jan 1858.

My Dear Sir

Your 2 letters of the 31<sup>st</sup> ult. & I wish, announced my arrival here this morning - I have sent the Papers on to Col. Curlipe as you desired - and now enclose a letter to Mr. Thornhill, which should have been sent more greatly, and be let for the expediency of despatching it without delay - what it wants, in relation with I hope be made up in circumstances - Pray recd it

You have made out a very excellent case indeed - and I entertain no doubt of your success - Remember you are

Yours

with known humanity, & I should  
be truly glad to see you

I wish you would visit the  
camp in the fall you would bring  
and remain, my dear  
mother, and your  
affectionate son

28th June

My dear Mr. Webb.

Adon has been

waiting me to compare  
him to the medicinal Garden

and you will find an account  
of some of the plants.

Some said on 1st  
tomorrow - He got  
that I mean by the  
Lactate with the other  
40 or 50 pounds of Extract  
of Plantain to the depth  
before the 1st with the  
in. He really if they expect

no name

One to look up January 27/1928  
and write about History < \*  
so the things. make extracts  
I found about it in some  
books and then try the  
any other man in the  
writing does for 200  
express a week for  
the whole lot -  
opportunity of informing  
all whom it may concern.

Yours sincerely  
J. Mayhew

I do not say that the  
same before Government, as  
I am concerned that these records  
have been distributed and are  
by the papers - with the printer

Joseph Dant Esq

Secretary to the Honorable the

Board of Directors

\*%

Sir,

I am directed by  
the Governor General in  
Council to transmit to  
you for purpose of  
early sale of the  
Honorable the  
Directors Copies of the  
Documents as detailed in

file. Margin, connected  
with the permission which  
has been granted by the  
Government to Dr. A.  
Wallish the Superintendent  
of the Honorable Company's  
Garden to proceed to England  
for the recovery of his  
health

Copy of a letter from Superintendent  
of Botanic Garden dated 5<sup>th</sup> Nov  
with 2 Enclosures.  
Copy of a Resolution of Government  
dated 11<sup>th</sup> November  
Copy of a letter from Superintendent  
of Botanic Garden dated 8<sup>th</sup> Nov  
Copy of a letter to the Superintendent  
of Botanic Garden dated 10<sup>th</sup> Nov

health, and to avail himself of the opportunity thereby afforded of conveying to the Honorable Court to be disposed of in such manner as it may deem proper. The very valuable and extensive collection of Botanical Specimens which has resulted from the long and useful labours of Dr. Wallis.

For more full information as to the grounds, and terms on which Dr. Wallis has been permitted to proceed to England and to take with him an assistant and one of the apprentices attached to the Institution, I am directed to refer the Honorable

Court to & C/i Resolution  
papers <sup>1</sup> **if** returned  
on the 15. November  
last, and to the further  
proceedings connected  
therewith under date 10  
Instant.

The Honorable  
Court will perceive on  
reference to those documents  
that the Governor General  
in Council has not  
considered himself at  
liberty to permit Mr  
Wallis to draw his  
salaries during the period  
of his absence but  
adverting to the long  
services of Mr Wallis  
to the circumstance of  
his being compelled to  
quit his post here on  
account

account of some other  
contracts in prospect  
of his Bohemian researches  
and to the <sup>various</sup> additions  
to the Science  
of Botany in which the  
collection he is about  
to present to the Panthe-  
onist is calculated to  
afford the Government  
trust that Dr. Wallich  
will be permitted to draw  
his salary during his  
stay in England and  
that he will also be  
allowed to return to  
his appointment under  
the Government

The Secretary  
General in Council  
likewise hopes that the  
same indulgence <sup>will</sup> be granted

to the assistants who  
accompany the walk

Have you

W. Mendenhall  
Supt. Bull. Fund

I am favoured with your letter of the  
19<sup>th</sup> inst. regarding the same of the 9<sup>th</sup> inst.

I hope you will have the goodness to refer  
the directors of the fund that they are quite  
with respect to the appropriation of my Indian claims  
The fact have not prevented me to show how, or any part  
of them; but they have required to see them in my  
presence, whether to the Mt of directors, or myself,  
but I should be allowed to receive them through the  
medium of my address.

Under the above explanation I trust  
the directors will have the goodness to enable me  
to realize the amount of my claims I have proposed  
on my engagements to refund it, together with the balance  
due thereon in the event of the bank being authorized  
the recommendation of the Government. I question  
what effect these facts be presumed to be in  
a letter from my agents Messrs Mackintosh & Co  
address, 201 Broadway.

W. Mendenhall }  
19<sup>th</sup> January 1824 } (Sgd) W. Walker Esq  
Surgeon

W. Mendenhall  
Supt. Bull. Fund

In the event of the directors of the above  
fund, admitting & finally settling for the said allowances  
and paying money to the said, in my early operations  
the due regard of the same with interest should the bank  
Committee directors, but proper to be kept by me  
I have to Indian Allowances excepted as above on  
the certificate from the said

We have in  
C. Smith } (Sgd) Mackintosh & Co  
15 January 1824 }

W. Walker Esq  
14 January 1825  
W. Mendenhall  
Supt. Bull. Fund  
15 January 1824  
C. Smith

Bombay July 25<sup>th</sup> 1825.

My Dear Mr. Walker. I have much to say  
in grateful return for all your kind letters  
but have been so busy all day and today  
with delivery & wrapping up the night, in  
preparing my despatches - you will  
have no more to say to the  
business & to take with him a  
large attention of Mr. Walker - I do  
not think that I am unable to send you any  
of the construction of the - but the truth  
is I am a complete stranger to the  
from village to village & during the  
whole of the morning I have never  
seen the book together in the same  
place & during my absence from home

Leave me one to attend to what I consider  
of value - which to throw is more at  
all - Swift however pledges myself  
to procure some Substantive Plants during  
the S. W. Monsoon & further Swift and  
them to any one you may desire -  
do not despair of getting a good crop  
of seeds. - I have complied with Mr. P.  
your requisitions, though I have not  
been able to attend to him as much as  
I should have done had I been  
less occupied - I leave this the day  
after to morrow for our Dear Banks -  
I am going there in a messenger

little paper - but I don't know whether  
and convenient to interfere with the public  
service & you will know that we will  
it on this point. - How I wish you  
you return to England - Henry left me  
yesterday - he is on his way to Savoy  
country. - Capt. & Barrett is employed  
in collecting facts up the Atlantic & I  
have not yet enjoyed in following  
fact up the river page - I believe  
at least - May very happily -  
comfort about you return to your native  
country, & that your exertions in  
Belgium may meet with the rewards  
they merit, is this opinion well

26

128

of yours very faithfully & sincerely

Wm. M. W.

Paris le 10 février 1828.

Monsieur,

J'ai eu l'honneur de recevoir par  
l'Alphonse les 14 caisses de plantes vivantes que  
vous avez bien voulu me donner. Mais le  
Catalogue de celle-ci contenue dans la quote  
dernière, depuis le n° 124, me manque. Je  
vous prie, en conséquence, d'avoir la bonté de  
me l'envoyer le plus tôt possible.

J'ai l'honneur d'être

Monsieur,

vos très humble et  
très obéissant serviteur

Le Directeur du Jardin Royal  
de Paris

Ch. DeLong

à Monsieur le Surintendant Du Jardin  
Royaume De Calcutta.

24<sup>th</sup> Feb. 1829 Calcutta

Dear Dr. Wallich

I in the agony of our minds  
expecting my beloved Child. I could not write  
or see you: She is I am thankfull to say  
consider'd better as to the fever, but Her  
debility is fearfull indeed - whenever she is  
capable of being mov'd. we shall proceed  
to sea & not await under these distressing  
circumstances the arrival of Lord William  
Gentrich, thanks for the tulips, when the  
dorm is over. May I take them out & dry  
the roots, as they would be more portable  
& order'd the two Hog Deer in a Cage for  
Paul Poirer to be sent to the Botanic  
Garden on Tuesday the 26<sup>th</sup> Inst. Thinking

That about that time you would be near  
sailing. 4 maunds of gram goes with  
them - the Deer should not have as much  
as they can eat. having no exercise it  
would kill or injure them, a little water  
daily will be necessary - I cannot say  
how much I feel obliged to you for taking  
them - any expense attending their voyage  
& transhipment from the Ship to Bebbly  
Square - will be paid - have you any  
parasites for Mr. Herbert if so they  
might be sent to a museum in  
Cadogan Square Sloane Street - the only  
Museum there, but I forget his name  
He is a friend of Mr. Herberts - a now  
I can only add my best & heartiest wishes  
for a pleasant & a prosperous voyage

That I shall see you in England in the  
end of July or possibly August -

Very truly  
yours  
W. F.

Dear D<sup>r</sup> Wallich

I send you a letter to the  
Duchess of Northumberland. she has a garden,  
houses &c near London - I am sure  
we shall be happy to see you. I have told the G<sup>o</sup>. servants  
we entirely Botanical - I do not send you other  
letters of introduction to those whose names I  
at a distance - I write to my daughter  
Olivia my daughter, who will be  
useful to you in introducing you  
to other Gage collections, especially the  
Countess of Bridgewater's M. Aulton at New  
others, & I enclose another letter to Mr. Barclay  
who I am sure will be most happy to forward  
G. views - My poor child has had a bad night  
but Dr. Keppell says she is not much  
with very hearty than wish for G<sup>o</sup>. prosperous  
voyage I remain

Sincerely G<sup>o</sup>.

J. A.

1828

L. Wallis  
Botanic Garden

Memorandum for Dr. Wallace with  
W. Hards compt.

The accompanying specimen of Lime  
was brought by myself from a bed in Silu-  
lung perhaps four or six feet deep and cover-  
ing an area of two or three acres deposited  
by a Hot mineral spring.

This added to other calcareous appearan-  
ces in the land in this quarter & seems ill  
to accord with the idea of the Scientific  
of Europe that Lime does not enter into  
the geological structure of Sumatra.

Should it be thought desirable how-  
ever it will be possible to obtain other spe-  
cimens which may prove still more satis-  
factory.

J. Squire A. M. Ward

Bencoolen

Botanic Garden  
27<sup>th</sup> Feby. 1828-

Dear Sir,

At the last Meeting of the Geological class of the Linnean Society, I intimated that I would do myself the pleasure of submitting some memorandums made on a tour on the Athraun river in the province of Ulster, which might perhaps serve to illustrate the specimens from thence which were presented by Capt. Bruce. In transmitting them enclosed, for the purpose of being laid before the Meeting of this evening, I anxiously hope they <sup>will</sup> accept of my apologies on my sending such a short and superficial, and so truly un-geological a paper on their notice.

About two years ago I received from **4\*4®\*\*\*\*** Bencoolen specimens of a calcareous deposition formed by a Hot Spring  
at

at Silindang on the island of Sumatra. I  
take the liberty to send them to you together  
with the memorandum, which accompanied  
them, in the hope that they may  
gather unacceptably. ~~the~~

My dear Mother

If you think that  
the attorney will be best  
to take care of her  
affairs, be ready to pay  
to make arrangements  
that, in the event  
of any delay, she  
may be discharged  
with you - always be  
at hand - that day  
everything will be  
in the most complete

in the world

H

of your work -

Yours very sincerely

W. H. Westcott

Whatever you have  
sent shall be taken  
careful of you  
from -

P.S. I add a  
specimen of a  
Nepal woodcock  
to the other 2 birds.

Nepal Residency  
March 28<sup>th</sup>

My dear Wallace

Your letter of the  
10<sup>th</sup> March from Saseon reached  
me a few days ago & to  
show you how I value  
you & it I hasten to  
answer it. Write home  
from Sucland often &  
I will never fail to  
give you in return such  
Indian news as find  
its way to our mountain  
seclusion. Some short  
time before your departure  
I sent you, through Smith  
the Judge & Mr. of Arach, a  
stuffed specimen of a bird  
imperfectly described by  
Shaw & Steens & as I apprehend  
improperly clasped with  
snipes by those gentlemen.  
The bird in question is very

scarcely in those few countries  
wherein alone it is found &  
I fear that such a thing  
hardly exists in England  
on this account I also than  
it maybe seen & also than  
by competent ability I now  
forward to you, through  
your Calcutta Agents, a  
male & female <sup>~c\*-<-a^£U\_</sup> well cared  
& stuffed.

Upon looking carefully  
into I saw upon snipes &  
wood cocks I am not able  
fully to satisfy myself as  
to what he considers as  
diagnostic characters of the  
2 species as opposed to the  
other. One prominent  
distinctive mark of the snipe  
kind, he says & truly, is the  
white belly - and yet the bird  
which he calls the "great snipe"  
has its inferior parts entirely  
coloured! But I have greater  
objections than this to the

bird in its measures entirely  
resembles the woodcock & is  
unmarkedly opposed to the snipe  
for it is a shy & solitary wood-  
-lander, dwelling in the very  
same situations with the  
woodcock, & taking, when flushed,  
the short, lobbing flight of the  
woodcock. During the two last  
springs we have killed many  
birds of either kind in the  
valley & are therefore well  
entitled to say these well  
so much for these things.  
between the bird here spoken  
of & the woodcock. To which may  
be added that in point of size  
this bird, which often weighs 6  
oz. & measures 12½ inches in length  
is at least as nearly allied to the  
woodcock species as to the  
snipe. To these strong points of  
similitude between the unknown  
& the woodcock can be opposed  
(as far as I can judge) only the  
following contrarieties: - <sup>^</sup>tx -  
that the thighs of the bird  
are not feathered quite to the  
knee. that the hinder toe is  
snubbed at the end & that the  
of colour upon its superior parts

W.\*\*~\*\*s

to the great or solitary snipe of which  
 with its white belly, long, keen  
 angular wings & wild zigzag  
 flight leaves no doubt of its  
 being a snipe. I am not sure  
 that the snipe specimen which

I forwarded you through W. Smith, was  
 not, by mistake, this bird instead  
 of the one now described & despatched  
 to you. If it was you will have  
 a specimen of both & must be  
 careful not to confound them  
 but have killed from a twenty woodcock  
 during this month in the valley, they were  
 vermin the common English snipe, but are  
 rather & - ? & ^ \* - - S-i-L ^ -

The supply of the European market at present is  
doubtful for the demand is so great as to  
prevent the more general cultivation of  
European stock & fruit trees & vegetables, which  
is a great but little attended to. I  
have written to the Secy of the Horticultural  
Society begging for a specimen, with a few of  
the best varieties of European fruit trees &  
I carried out a quantity of apple & pear trees to  
South America from years ago & planted them  
with great success. I consider as an absolute  
sure to succeed here, similar to those of  
the present day. I will send you a list  
of the most suitable to give you a trial.  
The garden now contains about 1000 species &  
you get more from your English seeds  
to be sure.

Stourough in England. Had it become one to interfere with any arrangement  
which had placed in Charge of that institution any one who is not his un-  
divided attention to the subject, by adhering to the existing arrangement  
I beg respectfully to submit that in consideration of the service which have  
attended as it might have been done away with long after the day being con-  
sidered. That if with reference to please to place me temporary Charge  
of the institution which my time & attention have been long devoted to & in which  
the testimonials testimonial I have studied from me to be not unequalled  
in any of my claims on the subject may I beg permit me to state the fact  
to state that I am actuated by no wish to participate in the affairs  
of the Institution. Had they be considered by the Board of Trustees & Mr. Wallis  
but estimating highly the facilities which the Change of the London  
afford me in improving my arrangements in the business, I beg permit  
me to submit that my Request may be accepted by Gov. which has been  
considered as being an interest in every thing connected with the Institution  
London

Yours  
J. D. G. Jones Esq.  
Patent Agent to the  
Worshipful Company

Res: of Gov. on the foregoing

Ordered that Mr. Jones be informed in copy of the above  
order to be appointed to the temporary Charge of the said London  
at the Presidency during the absence of Mr. Wallis. That Mr. Jones  
be in Council does not find in his representation any im-  
pudent reason for disturbing the arrangement which was made  
at Mr. Wallis's departure.

My dear Wallis,

I received your kind letter  
a week or two ago and from day to day  
I have been looking out for your arrival.  
This evening I awoke for further and  
learn to regret that we cannot meet for  
several months. - I would with the  
greatest pleasure have moved in your  
company if I thought my services would  
have been useful. They would be quite  
the contrary, they would be mischievous.  
The company view <sup>^?^ ^ ^\*~</sup> every <sup>^Σ^</sup>  
one will soon have as your arrival.  
With the exception of few individuals of No.

not personally know the Directors. But of the  
whole body there only returned my visit. I  
explain these particulars to you for fear  
you should think me what I am not,  
like - warm in what interests your welfare  
from <sup>^M- <S tZ^-Ts^fi</sup> least you will meet  
powerful friends, and indeed from what  
I know of your case I think the Court  
having the fear of the public before their  
eyes <sup>faf&tj \*\*^</sup> will not dare to refuse your reasonable  
requests. — My book is nearly ready for  
publication and waits only for your  
Appendix and that of S. Rushworth  
on the laws. You will see it advertised  
in my *Traveller's Journal* with your name

and his. Now take time to judge for  
yourself whether you contribute to any  
performance with or without prejudice  
you with the least. If it does I will not  
importance you; if it does not I shall pain  
honor and that from my adjudicator. I  
have spoken to Mr. Brown on the sub-  
ject and he will give his ready assistance.

Well! I have spent within six months  
time as I never spent before. Think of my  
printing from pamphlets - Reviews, articles in  
newspapers and two quarto vols. of near  
600 pages each! This section seems nearly  
that you have in your letter pretty  
nearly my age. In that you have  
nearly me in this respect with great

ignorance, and yourself with shameful  
partiality. Rather than see you pursued  
in this cause I will make a voyage  
to Copenhagen to consult the Danish Reports.

This letter will be delivered to you  
by my friend Rosefield - an excellent  
man whom I have known for many  
years. They do introduce you to several  
other and trust you will be well pleased  
ever sir yours

London July 15<sup>th</sup>

1828.

Newport

I embark this morning for Scotland. My  
address is Glasgow, Dryburgh, by Dawson's.  
Some of these names are as bad as if they  
were Smith!

A.

How easy the task to pardon the faults of those  
whom we love... ^J&E~U/

Dear Mother  
I have just received your letter & nearly a month  
ago. It is among the large circle of friends you  
will have heard when you were in London. I have  
with me frequently think of you more than  
formerly. I wish you every happiness. I  
was sincerely lamented you. I regret that  
the General & myself have not met  
again in the West, but still we have you and  
our paper in constant regard & have long  
known of your bodily sufferings & I must  
sincerely regret that your health has so long  
been ill.

+s s^^, sfart: ^L^^SU

That mental one was added  
to them, a that sensation can & disappointment  
was to be the result of your own fears & desires  
to be. This is often all an unjust fear of your  
soul. I do not see they long appear to the same  
standard there, but I trust you will be long  
whom both removed health surrounded by  
your dear wife & family - & assume you  
labour in the proximity of health. I believe  
the few seldom get the real value of any thing  
when it is all dependent of it. Perhaps when you

reply 13<sup>th</sup>  
#fc~i Wetham

My dear & excellent friend,

Your letter which I received yesterday gave me  
 a great pleasure, & it was very kind of you, who  
 have so many important engagements, to devote so  
 much time to me & to give me so much valuable informa-  
 tion about yourself & your business. It would be  
 of it to be possible. You have your collection & number  
 of the advantages of London will determine you there. It  
 is what I suspected & though I trust a safe... ^ ^ ^ ^

As for the matter I shall have <sup>^ = ^</sup>  $?&z^{\wedge} > Jf^{\wedge} * - **L$  one of seeing you & Mr  
 Wallace & you should be in Scotland before your return  
 to India, yet I dare not flatter myself it will be so  
 soon as to satisfy my ardent curiosity & my affection  
 for you. I should <sup>^ ^ ^</sup>  $^{\wedge} \wedge \wedge$  wish to visit a day or two  
 with you, were it not that my health, without  
 being very much ill, is in that state of health that I  
 should rather like to visit Glasgow <sup>^</sup>  $-f y.$  for one  
 night & should have some idea of seeing you & family  
 & only this <sup>^ \* ^</sup>  $\wedge * \wedge$  city, business & constantly with  
 the duties of a society just now both the meeting, & the  
 of the British settlement in N. America. My last  
 year was finished last week, - so that, save my family  
 occupations & the work I have in hand I have nothing  
 that interferes with me to Glasgow beyond the month  
 of my return. Still for all purposes of study  
 I find nothing more than to visit in my own home  
 where there is my own library & my own collections  
 enriched with money & treasure by my friend Wallace.  
 Again therefore believe me that if possible I will  
 go to see you in England. But I fear it will be some  
 time before you will feel yourself settled in London

Call me, at home or your own, when that will be :  
It is too subtle story your work in <0£~^  
for some weeks thought perhaps to better like to work  
you there than in London; though I do not  
say that I may not accomplish that.

Could you have the anxiety I have to see  
you & to make your personal acquaintance, you  
might then satisfy yourself that anything  
that is in being about a more frequent intercourse  
between us, would be one of the greatest  
satisfactions. It is indubitable therefore my  
hopes of the publications of you  
you - for you, would make me very happy.  
I should delight in such an employment.  
to the Press you have been really I am in-  
terested in them just now, by the work  
have I should.

X-fi.^7

Frank & Wentz to give you in my name  
a bound copy of all yet published & to  
intend to send it to you. What I did  
see you, it was plain. The first was  
which Frank & Wentz employed their own  
columns I would not have a call to pay for  
myself. - certainly I would not send it for  
friend. Now they employ at my expense  
nature of your, & the law not ashamed to send  
it to you. You will see by the law sending  
friends & recommending one of the authors in our  
profession. I will not be particular in giving  
you names from the India House or I should  
doubt if they were distributed by  
was in my way - but to be careful my other

c^77st

I thank you for your letter  
A heartily congratulations on  
your safe return from the East  
I trust we shall have the pleasure  
of meeting - the my friend Peltier  
is withdrawing one from the Continent  
by returning for me a little sooner  
Departmental side of the Press and  
ship) has some circumstances in my  
conductor's power - an arrangement  
with me so that to my son will be  
delightful to me -

I wish our good Doctor's state of  
health may not diminish his  
power of contributing to the object  
which I tell you have in view -  
my only chance of helping you is  
to write to the Dean of Carlisle &  
my brother - Miss of Wiltshire with  
a influence such of them City Council  
Friends as they think may be useful

to you - this I have done - I think  
I can promise you they will do  
this but in case of need - but stop  
your wife will make it was  
with the Const. of Education

I wish any thing may bring you  
more interest in it

with the mean this I mean

My dear son

Yr. affectionate Mother

Priscilla Wetherill

12

Glasgow July 20th 1853.

My dear & excellent friend  
 If this letter reaches you immediately  
 from its reaching the place of destination, it will  
 reach you long before it is shown by you, & I  
 entertain my most sincere & my most cordial  
 congratulations upon your return to London  
 & upon joining your family. I cannot tell  
 you how much I reckon upon the prospect  
 of seeing you & of personally knowing a man  
 whose correspondence & communications have  
 been to me of such use & such service as  
 which have tended more than any  
 other circumstances to increase my love of the  
 study & to make me resolve upon devoting my  
 life to the cultivation of this science.

You will have expected to find me a resident in  
 London in consequence of my appointment to the  
 London University. The Professorship of  
 Chemistry was, indeed, most heartily & in the most  
 gratifying manner offered to me. I was delighted to  
 be called upon to have returned to my native  
 country, England, & did not at all  
 consider that in point of respectability & honor  
 that appointment would have been equal  
 to what I hold in

,C \* ^

^LL- ^U<1\*-AX-

a certainty however moderate, in point of income  
- there, the whole matter is speculation. It may  
turn out well & then I shall be sorry not to  
have gone in but it may not prosper & then I  
should have done myself & my family a serious  
injury. In short then I have very high or very  
poor & should probably have gone, but stand  
me with in my present circumstances to run  
any risk & I declined the honour which  
was offered me. <sup>the day</sup> Liddle was, then, a candidate &  
obtained, but he cannot take leave from  
his library retaining his former office  
at the **Z** Horticultural Society.

I do my utmost kind friend saying that I  
am resident 600 miles from London & must  
arrange when & where we are to meet as soon as  
the time & circumstances of your first arrival  
shall give you leisure to <sup>that</sup> that, to me, interest  
very much. Without any friend & stated  
occupation beyond that of my three monthly  
courses of lectures I am yet more confined  
to my house than most people - because  
here I have my Herbarium, my Library  
& the garden to which I am attached &  
without these I cannot carry on my  
occupation. Hence, I am induced to ask  
if any thing will call you into Scotland  
then I know you have many friends, they

gratitude for your kindness to have me be in  
 well be, knowing as I do from your return  
 time to that as well as to live, have nothing  
 on in my kindnesses. Among the Maps  
 which he brought from you is an aquatic plant  
 my name plant which has pleased me more  
 than any other. This number 22. is

London Sept. 1. 1928.

Reply to your letter

I am quite sure into your feelings when you  
 speak of your great & anxious mind to keep it & I see  
 how necessary it is for you to take up your  
 residence in London, & be near the great li-  
 braries & collections. I wish more than ever  
 that I could see you daily & hourly. I would not  
 flatter myself that you could come so far  
 north as Scotland at this season, & I do trust  
 when you will be found in London, X-S\* will  
 be your partner for the day & the evening  
 & I hope you will find a family a little  
 put myself into the thick & make  
 of it by your personal acquaintance.  
 We will then talk about many things which  
 we cannot fully enter upon in writing. But  
 do not expect too much from me in the way  
 of assistance. What I can do I should be  
 glad to do, & what I cannot do during this winter  
 I must not be absent from you in  
 London. At the time I have no interfering or  
 regular appointments, except for some in the  
 evening, when I am required to lecture for one  
 hour in the day. My work is a very liberal  
 one, & the Times Review, thanks to my great  
 love for such employment, are no harsh, tame,  
 but often performed at intervals of more important

avocations. That which occupies the rest of  
my time & which must prevent me from talking  
up anything like a regular Flora at ^ ^ rXL\*\* w & far  
wider, is my Flora of the British Settlements in  
Victoria, from ^ ^ j ^ ^ ^ ^ L & Richard Don's ma-  
terial, mainly. Twelve months however will be  
that in a very forward state. My material is  
now so arranged that the work is considerably  
done & my drawings are so far done that I am  
quite ready to go with the Express. So that  
indeed I distrust myself & my Booke & plans  
to believe you are, I could still find some leisure  
to work for you. But in point of N<sup>o</sup>. of sheets  
my Flora is about as rich as your  
Flora. There will be about 8000 of  
the number of specimens Flora are  
needed, so as to refer to their proper place  
and how different in other respects from your Indian  
Flora! These are mostly specimens or specimens? How  
strange I should feel among your glorious collec-  
tions & you as now may suppose they must mean  
quite a new aspect to me. But having started  
them much you will the better know what you  
may expect from me & not overrate my abilities,  
(though <sup>you</sup> cannot my disposition,) to be of use  
to you.

I am delighted that Franklin & Wright have un-  
dertaken to work on the new Indian Flora.  
You will soon, I trust, see the result of my Flora,  
alluvial Botany, & ascertain if it be calculated  
to embrace any of your materials. But though I trust

25 years commencing from the date of  
his departure until his <sup>expiration of</sup>  
term of office, a certificate of the  
board drawn on the date of the 11th. The  
balance of Dr W's salary is especially ordered  
to not to be reported to any purpose  
unconnected with the office any other  
but to be placed to the credit of the  
accounts.

...when from the long reports  
of the Dr's appearance very private  
is accounted him to Lord. I do  
suspect of states that only one has  
you with the doctor. The sanction  
your recommendation found sufficient  
of 35 Pt per annum to Dr  
Wallace agents subject to the same

addressed to him

The above is the best of my recollection  
of the substance of the facts I recollect, and  
I am, I think, honest in all its statements

My dear Mr. Muck

Monday will be very good. I will be  
tomorrow or Tuesday - If you come tomorrow  
there is a coach by which you can come  
from the Golden Cross, Charing Cross  
at 3 o'clock - Holden's Docking Coach  
If you come on Tuesday morning you  
will find another coach at the same  
place at 9 o'clock in the morning - In  
either case you had best not go & leave  
your place engaged to prevent disappointment.  
You will reach Docking about noon &  
there you will find a little chair to  
bring you & your bag to the place where  
you & Mr. B. will have two or three  
hours to put your curved heads  
together over the plants on Wednesday

you will return to me by 78 or  
I shall Coach as may suit you - Mr  
has an engagement for that day  
which prevents his going - you a third  
day to choose from - Saturday however  
I am sure will be the day of your  
choice - Accomplished

Yours affectionately

Henry Hill

If I'd better not hand any account  
and so you writing to Mr Barclay  
as I am not sure I shall be able to  
remain here till you come - his address  
is

Robert Barclay  
Henry Hill  
Berkley  
Sussex

keep me in your Honor favors with  
every kindness

Mr. Chas. Carter, is quite well, and  
pray for your safety arrival with my worthy  
mother Lady Wallack, with a High Sault and for  
take you and also my family who are pray  
always for your good state of health - and be  
our my mistake and your trouble - and believe  
my dear Father

Your most obedient and  
grateful humble Servant  
Mudochunda Mithen

Honoured

State the liberty to address  
You these lines trusting at the same time  
that this may find you in a good state  
of health. I am anxiously looking for you  
happy and safely arrived here. I also beg  
leave to inform your Honor that we are  
getting on as usual and have nothing of  
any consequence to inform you at present.

My Mother Lady Wallich and the  
Stops and I pray for you and they are all  
quite well but I have heard no news  
about you and my mother and brother  
since your Honor left from hence.  
Lawrence I trust I hope they are all well.  
I am glad to say that the Honorable  
Sir Ch. Mordaunt B. G. M. for P. M.  
Mr. Job Pether, Mr. Wance, and tell me  
this garden, they are all well a  
best

London  
17<sup>th</sup> Sept 1828.

My Dear Sir -

At length I am in  
ability to communicate to you  
the substance of the Court's  
resolution respecting your  
case -

It permits you to be  
about two years and a half  
from India, and a Dowry for  
that period through your Agents  
at Calcutta 1,000 Rupees of the  
payable on the production of  
proof that you were alive  
at the time to which the  
payment may be claimed: -  
And on the production of

similar proof as to the Applicant  
the amount of 35 £. R. of the  
is to be paid to your Agents  
in respect of him. —

An official Letter will  
convey to you more fully the  
Court's resolution — and which  
Letter shall be forwarded to  
you in the Country or retained  
here till your return, —  
you shall receive. —

We have received  
information from the Treasury  
of the issue of an Order  
to the Custom House to  
Deliver the Specimens

Duty free. —

I hope you are  
enjoying this delightful  
weather. and believe me  
to be, Dear Sir,

Yours very faithfully,

Wm. Hart

15<sup>th</sup> Dec<sup>r</sup> 1824  
forwarded to Mr  
Parker. with some  
alterations

Dear Sir,

I found your letter on my return home this evening  
too late for the Harrogate post. This will go by the  
post early tomorrow morning to Wetherby, and I hope it  
will reach York by the time you mention, that is hardly  
I am told that there is a coach every morning at  
8 o'clock <sup>the York coach</sup> from York to Wetherby where it arrives at  
eleven. Wetherby is three miles from Spofforth.  
Bretton Hall is five miles from Wakefield. I understood  
that a York coach to Wakefield passes Bramham  
moor (cross roads) (eight miles  $\frac{1}{2}$  from hence) daily; I  
know not at what hour - but you can learn the par-  
ticulars at York. There is a coach from Wetherby  
to Leeds every evening, I believe about six o'clock; and  
at an early hour every morning there are coaches from  
Leeds to Liverpool, & from Liverpool to Leeds. From  
Liverpool there is a steam packet to Greenock &  
from Glasgow there is a mail coach to Leeds. You  
can therefore either go from London <sup>Wetherby</sup> by Leeds to Liverpool  
u. Glasgow & return by mail to Leeds - thence to coach

from Leeds to Wakefield & after visiting Mutton Hall return  
£• ^-j\*~ j£->- Wakefield - or if you wish to get to  
Mutton first you can go from Crisp road to Wakefield  
& from Wakefield by coach to Leeds & from there either  
to Liverpool or Glasgow.

I shall be at home till Wednesday the first of  
October or that day I believe we shall have home  
for a few days - and I shall be delighted to see you  
here on Tuesday next which I suppose will best suit  
you plan, or after any days you may prefer before  
the 11<sup>th</sup> of October. It is practicable to pay all the visits  
you name in two or three days if you do not stay above  
two nights at a place. We shall be very happy to see  
you for a longer time if you are not so hurried.  
May I not think it necessary to write again, if you  
come on Tuesday, for I shall expect you to arrive  
early probably on Tuesday morning.

I am very much surprised at your denying the  
jL£~^ As£-jfiFz<xSZc\*. Your garden being Thunbergia Martiana  
mine. I sent it there, having raised it by a cutting from  
the plant you sent me. I am sure it is not an *Abutilon*,  
There was no *Abutilon* in the list of the plants you sent.  
The numbers attached to the plants did not answer to the  
numbers in the <sup>list</sup> catalogue which you sent. That which it

Ever been the Thunbergia is evidently a Bontea, I suppose  
Sapota which was named in the list. By the foliage I was  
convinced that the plant of which I have seen several  
specimens was the Thunbergia. When you look over the list  
of the plants which were sent you will probably be able to identify  
the plants. My four or five arrived in a living state, the  
others having been some months on the voyage.

I believe the rest of my family will drive over  
to the bank festivities on Thursday or perhaps on  
Friday, but I shall not go there.

I am Sir,

Your faithful servant

William Hooker

Spofforth

Saturday evening 25th

P.S. You did not put the post box in drawing room  
and your letter has travelled to Ipswich in  
the south of England and back, by a number  
of the postmasters.

^ June 2 / 1 ^ 1828.

My Dear Sir

I have just by our friend Mr. Smith, that you should  
wishes to trust your *Tracts* to my father, so that they  
might appear in the next volume of his *Tracts*. Though  
your activity is well known, I cannot well know the  
time of collection of which you speak to me, and the  
probability of your stay in England, you you can find  
it to be able to perform about the whole publication.  
My father will always ready to help you in any manner,  
and in the particular now, is so obvious that his publishing  
your *Tracts* would be advantageous to both of you.  
He will give an important addition to his work, and  
you on the other hand, would get rid of a difficult and  
intricate family, whose most serious being European have  
been a long time out of way; you would have them  
published in a general and important work, without losing  
the faculty of explaining and answering it by subsequent  
publications of plates. The plates are in the last letter

that he is near to the conclusion of his revision of  
the Umbellifera. This volume will contain the *San latifraga*  
Umbellifera, *Arabiacea*, *Rubiacea*, *Spurularia*, *Piperacea*, *Salicaceae*,  
*Campanulacea*, *Utriculacea*, *Griaceae* and *Spuridaceae*. The 6 last  
titles whose natural place, is after the *Compositae*, ~~shall~~ be  
transposed, in order to have a volume of common sea, by  
the following which ~~words~~ should be entirely of *Compositae*. The  
publication of the present volume will be in the next year,  
I cannot say exactly in what month. Should you receive  
/\*r your invitation, my father would ask you likely to  
your specimens as soon as possible, before that he should  
have completely left that part of his work. You know &  
consider it a duty to quote the names adopted by the author  
and on that respect he would be with you, on the  
same footing as with Messrs. Marten and Pohl. - Now  
I will see him in 6 or 7 days and speak with him of  
this subject. I am very sorry to leave London just  
when you are arriving: had I been certain of the  
day, I should have waited for you, being very desirous  
to see you more than I did wish to present. I  
hope that a traveller from Nagamb will not be frighten

by 300 begins in a sweet-sour and he will  
soon to pay in a visit to his garden. My father would  
be exceedingly happy to see you, and I have my own  
will not for your time in his business and  
being.

However, my dear Sir, the pleasure of my former  
reception and attention

William S. Caswell

My father is well for a fortnight or two when you  
should see him to: see his father. My father is well  
and I should not have thought I should have the care of my own  
to him.

Trusts to Mr. Knickerbocker

Charles Wallack Esq.

Wm. de Forest  
21 South Street

as soon as you sail late upon, the boat  
will be still flying on Loch Lomond  
which is on the way to Long Loch, Callan,  
near where Dr. Hamilton lives. We took  
the boat from Glasgow & reach a parish  
of Loch Lomond nearest to Culter, where  
we quit the boat, at 2 of the same day.  
We walk 6 miles, & reach Loch Katrine  
in a small boat to the Frossach, where  
we can get a conveyance to Callander  
the same evening. Then will come to  
at the residence of your old friend on  
the same day on which you quit Glasgow,  
you, & you will have some days that  
on day some of the most beautiful  
of our Highland scenery. Every day  
there is a boat to striking from Callan,  
near, & Loch Katrine \* , o A , - to Edinburgh, so  
that you will be at Edinburgh on the  
same day you quit Callander.

Dr. Graham has been for the last fortnight  
enjoying me \*£\$ ^£j\*i~? -<ri[~\*~>:- a visit  
to Edinburgh; so that we cannot speak

of his being at home. But I will warn him  
of your coming & he will be sure to be  
in the Edinburgh.

We must talk of all that concerns your  
plans whenever we meet. I was much grati-  
fied in Mr. Crawford's coming to visit me,  
making use of your name which he  
knew to be an ample introduction. You  
may be sure we talked much of you &  
of your school.

You will meet here Mr. Fenner who  
takes a great interest in the plan of visiting  
you by his friend Dr. P. Brown.  
I wish much knowing that you  
would on your way to this country.  
Dunfermline is still <sup>! ^ ^ \*</sup> low & a boulder  
will be coming every day & every  
hour till you arrive.

Let nothing prevent your coming. Mr.  
Hooker & Smith very much that Mr.  
Wallis could be with you. Accept  
our kindest regards & best wishes &  
believe me most cordially,

Remember me to Mr. Walker,  
& affectionately yours  
W. J. Hooker.

Dr. J. G. Allen  
 Care of Mr. Stephens  
 Cadmus Garden  
 New York.

Glasgow, Friday Evening

My dear Friend 3/10 28

You will learn, from the kind interest you have taken in our family, he is pleased to hear as soon he is to tell you that our accounts both last night & this evening of Mr. Turner's suffering child have been more favourable. It had indeed been clearly ascertain'd that the disease was in the lungs & it is feared they are ~~not~~ <sup>not</sup> ~~yet~~ <sup>yet</sup> ~~entirely~~ <sup>entirely</sup> ~~gone~~ <sup>gone</sup> but that under the most favourable circumstances her recovery must be slow & tedious. You heard the Monday's news. The night of that day was passed more comfortably, more free from coughing & she slept better than usual. On Tuesday she rose & was dress'd & lay in the drawing room on the sofa till nine in the evening: but the pain in the chest continued as severe as ever. On Wednesday night the cough was still better than on the preceding night & after 2 o'clock she slept for four hours almost uninter-

substantially, & when she wakes she says the  
pain was considerably relieved, but  
during the day it returned as violently  
as before. Still on the whole she is con-  
sidered better & the flatter themselves  
with the hope that she may recover as  
soon as possible she will be removed  
from the Eastern part of the hospital  
which is much too warm for her kind  
of fever. Mr. Ferrius has written and  
says himself, - from which I infer that  
her illness, has arisen from extreme  
sickness from which she has recovered  
in a measure in consequence of the  
better state of her child's health. There  
is however, yet much to fear. The family  
had suspected Mr. Ferrius would  
have left Glasgow on the Sunday last.

I do hope most sincerely that we  
shall yet have a continuation of good  
news: - & I will write to you in London  
When you have leisure tell me some  
thing respecting our (subscribed) new No.:

noticed. I have drawn it for the Bot. Mag.  
It is surely not a *Pentstemon*. The flowers  
are not umbellate. They have no involu-  
crum, & only 3 alternate bristles on each  
pedicel. The corolla is not convolute. I  
think it is a *Pentstemon* in every thing  
except the *P. fist. stigma*.

I rejoice in the fine weather you  
have had & have wished a hundred  
times that I could have been with  
you, & have enjoyed more of your  
society. I am thankful however,  
to have had you here at all, & for  
my own pleasure I should not  
anticipate.

Mr. Hooker desires to unite with  
me in most kind regards to you.

Dear Madam faithfully  
& affectionately  
Yours

W. J. Hooker.

Remember me kindly  
to Dr. Graham. Tell  
him our friends from  
N. York, & from Ohio,  
have not reached us.

3/10 28

M. H. Barber

Mo 28

add<sup>d</sup>  
1/2

Dr. W. A. Wallcut  
with Dr. J. Graham  
Prof. of Bot. & Geol.  
Edinburgh

Letters both from Mr. Ransom & Capt. Peasley  
informing me of the arrival of the Packet in  
the Wisconsin & that they are coming to me full  
with you publications in their hands are now  
the respectable productions of Michael North  
America & an immense extent of country.

So let me know as soon as you have  
arranged them what your plans are &  
when you go to Denmark & how long you  
are likely to be absent? I shall for you,  
that you will carry into execution your  
intended visit to Copenhagen now rather  
than afterwards: for when once you  
have set fairly to work on your Kiber  
crisis, you will find it very difficult to  
get away for a few weeks. We continue  
to hear, I lament to say, by no means favorable  
accounts of Miss Finner's health. She was  
considerably better during the time that  
Mr. Finner was so <sup>un-~~well~~</sup> <sup>ill</sup>, enjoying to  
her place of abode. The interview that she  
with her father & brother seemed to be too  
much for her fragile frame. She coughs &  
the pain in the side have again returned.

but again, by our last night's letter, she was a  
little better & they hoped well enough to be removed  
to Yamout. And of these particulars you  
have no doubt heard from Mr. James, who I  
am <sup>sure</sup> ~~sure~~ Z&\* ~~sure~~            within to you who have expressed  
so warm an interest in the welfare of more than  
one member of his family.

That Brother of Lord Maudslayi who wrote to  
me while you were here in the Steuart when  
you were so intimately at Calcutta. He has  
made many enquiries about <sup>you</sup> & expressed the  
most sincere regret that he could not be  
your Dublin House. His Brother is built  
like a Giant Maudslayi's. but the  
country is not so beautiful as what you  
cannot deny.

Mr. Mackintosh has it much concerned  
that he did not see you & send us all an  
invitation to pass a day with him at  
his country seat.

You must not forget your promise to  
come here next summer, when we are to  
make a tour together to the Highlands.  
We will much depend on your hands  
contact. I did not know of your proposing  
this accomplishment until Douglas this

afternoon told me of your smoking in the  
back room the chance to Callender, but  
and I was not with you in that evening  
even. You must indeed have been  
much struck with Edinburgh & with  
the Botanic Garden. How well you  
enjoy Glasgow first

11/10/28

11/10/28

Mrs Wallis & Co  
Travellers Agency  
London

We are all well, except Mrs Hooker who has one  
different cold. She desires to unite with you  
in best regards & wishes to Mrs Wallis & company  
to be kindly remembered to you.  
Believe me dear Sir, your most faithful  
& affectionate friend  
W. S. Hooker.

Special Office 27<sup>th</sup> Octob 1828  
published in the Calcutta Exchange Daily Advertiser

The list comprises about <sup>21</sup>~~33~~ sorts of trees  
exclusive of a few which I cannot make out for  
the list in the above Advertisement  
The following is a recapitulation of the  
sorts which I can make out with some  
certainty

Thos

Amool (*Bambusa meloharicum*)

Forward 297

#&tf-#0!^ / O. (*Dillenia speciosa*)

Jungle Jungt (the Mulberry of India; it is here especially called the jungle (or wild) mulberry)

Bambusa. It is not quite clear whether 53 or 54 bunches, as they are called, are meant. I will take the former number and reckon at the lowest, and certainly ~~below~~ within the average, at 16 stems or sticks or trees, in each bunch making individuals 1100

Trees that lean make out 1402  
Others 13

Total 1415

The above most unquieting <\*.c\*t-J  
disgraceful proceeding took place  
while he was in England in 1828.

Mango 175 192

Jack (or *Artocarpus integrifolia*, fine small tree among them) 27

Cocunut palm 30

Babool. (This is the general term for leaves, flowers, and numbers that take; commonly the fragrant leaves which is meant by it } 16  
(the three small trees among them) }

Date (*Phoenix sylvestris*, not *arabica*; both are called *Khajoor*) 9

Apurva apple (Suppose the Custard apple, still is *Anona* sp. in mount, 3 or 4 being dead) 4

Ajgoot (*Melieua Aleurites triloba* in mount) 3

Tamarind 2

Jamson (probably *Eugenia jambos*) 2

Banyan (*Ficus indica*) 2

Aurd (Probably *Spondias mangifera*) 2

Tal (*Borapua foliolifera*, a palm) 2

Gaub (*Diospyros glutinifera*) 2

Dubdaros (*Guatteria longifolia*) 2

Keem (probably *Hydnorhiza indica*, small) 1

Kuddan (*Nuclea cadaumba*) 1

Bael 2

Sum 295  
None

An European for the sale of  
 sailing ship, 200 tons, to be  
 forward to be sold to a steamer  
 than remaining in Europe? has  
 any objection to take charge of  
 children. Respective parents  
 are not to be asked.

Apply to the Police

**Notice.**

For the purpose of the  
 Government, and in the  
 interest of the public, it is  
 ordered by the Government  
 that the following

and on 1852

**LANDS,  
 FOR LEASE.**

**Saugor Islands**

The Saugor Island Society  
 having obtained a leasehold of  
 land, now for sale, situated  
 in the center of the island, and  
 bounded by navigable creeks, and  
 being between two crown lands  
 of Mysore, Calicut and Mysore,  
 attention is hereby  
 given, that a lease of the same,  
 commencing in terms with that  
 granted to Mr. Campbell, for 27 1/2  
 years, at 1000 Rs., will be  
 sold, by Public Auction, at the  
 Exchange, on Thursday next, the  
 11th of July, 1852, at Noon.

For particulars of the lease,  
 and for the conditions of sale,  
 apply to Mr. John A. Hill, Secy,  
 No. 4, Upper street, Strand.

The Date next after the Com-  
 mander shall have Officially ho-  
 mologated to the Secretary of the  
 East India House, the Arrival  
 of the Ship in the East India  
 Co's, or at such other Dock  
 or Place in the River Thames,  
 as the Captain or Officer of the East  
 India Company may direct, the  
 vessel to proceed to, in the  
 loading of the same. In the  
 event of any delay taking place  
 and the periods here stated,  
 periods at the Order of the  
 Agents, for the East India  
 Co's, shall be deemed to be  
 the date of the vessel's  
 arrival, provided it be proved to  
 have been the vessel's day

My dear Wallace

I trust to your kind regards in forwarding me  
for sending me one half of a letter, which, though  
not intended to reach your eyes states so fully  
the wishes of our mutual friends Mr. Seligson of  
the Mariner, that I scarcely need to concern myself  
it with any comment. I must now however, say  
since he has presented to you, & you are  
saying that you will find some plants among  
your herbarium & perhaps among your drawings too,  
that may be the name of Jap. Cole & if you be  
inclined to give the plant to me!

I will be very glad to publish a figure of you  
as it stands in the Bot. Soc. Miscellany. If you do figure it  
in your Bot. book you will do more  
at it than I can do. The  
which Mr. Seligson alludes to is the Pinna  
in a region of Virginia, near a very splendid  
plant; but I believe that Pinna

I am getting more and more with my North American  
can plants both in the description & figures, as  
and daily collecting & Beechey's collection among  
which I trust to find many to add to my  
store. We continue to have the same indefi-  
nite account of Miss Ellen Storer. She is re-  
moved to Portsmouth. Perhaps if anything can  
say the most desired to her letter. Please  
Mr. Hooker & my kind regards with to Mr  
Wallace & believe me ever most truly &  
affectionately Yours H. L. Hooker.

10-25

Dr Walker 10-25

F. Wallis sent me a drawing of his new fly  
discussing amberstone articles from his  
Microscopium & the sketches accompanying it  
which I send by nearly completed part of the  
same family with the names of the flowers  
of the umbelliferous are probably larger in size  
but a collection of coloring & degree of  
coloring and propriety of them I think  
I think the latter can be excused. in  
my late communication on the subject I told  
Judge Francis Cole that from the similarity  
of the subjects between the Lady Amherst  
and the distinguished propriety of the sciences  
I should be glad if they could be  
made by a botanical representation regarding  
their allied taste, character & common  
present in this. **! trr\* ^ t!** **! <!**  
statements they have shown now for many  
of the day with the idea that **^ \* « A ^** can  
be made them. I had intended to take  
the liberty of suggesting the subject for a  
few lines on Wallis's would have  
very few which would illustrate his discovery

I have sent by the present occasion a parcel  
of goods from the East coast of Africa and  
Madagascar to our friend Mr. Barclay - as  
also a few lines to our friend Mr. Taylor  
at York - I shall give to Mr. Lopez a parcel  
of books for your Glasgow Institution of which  
I hope I may be able to think worthy correspondents  
I have had also for you a piece of Madagascar  
cloths from the Raffles trade - I think it rather  
invaluable nothing else worth sending you - but  
I cannot afford to send upon my friend Lyall  
(the African traveller) who is gone on an expedition  
to Madagascar. Mr. Taylor is the grandfather  
of the mother of the child - & he has promised  
me all the treasures he can collect -  
I certainly shall procure as far as his disposition  
he must therefore for a short time be obliged  
to the good friend Taylor \* J^~\* "Jg^~:i\*\_j\*\

and I am sure you will be  
very delighted at what you have seen of the  
old Barclay's and our young country is really  
a most happy happy one our very dear  
and most faithful friend  
Your most faithful friend  
J. G. Barclay

East Boston 28 October 1828

My Dear Sir

I was very glad to learn that you had obtained permission to come home without suspending your appointment, and rejoice to perceive that the Court have behaved so liberally to you. It should not surprise you however, for not having elected yourself a little sooner for the purpose of accompanying me, was not very much surpris'd by the conviction that you suffered a great deal in not joining through the interesting scenes we did. To tell the truth, I had long since set you up in my heart as a fellow traveller, though you did not formally tell me of your inability of joining our party till the last moment

Probably you know that, what we only found  
out from personal observation, that Egypt  
is but a barren field for the Ossement

I have not yet had a suitable opportunity  
of enquiring whether my explanation on  
the part of you has been successful  
for I was only in London a few days to  
clear my baggage, but I have no doubt  
whatever of success. As you need not  
trouble your rest, may be that some  
other gentleman and myself by our  
kind regards to her. How I desire to  
send some remembrance to you also the  
one left her to record the first year  
without your protection  
then return from Calcutta later than  
before.

Yours very sincerely  
C. Livingston

Edin<sup>g</sup> 31 Oct. 1828

My Dear Sir

Your most kind letter of the 26<sup>th</sup> has reached me, & also your most handsome present of the two first numbers of your beautiful Flora Rossiana. I cannot tell you my Dear Sir how much I feel gratified by your kind attention, & how much I value my mark of your friendship. The parcel reached me two evenings ago, & I should immediately have written you, but Mrs Graham has been threatening to plague you with some Scotch Sweet meats, I have hoped for her or twelve days past to be able to tell you by what swain they were shipped. This list is her Department, mine is in the Collier. - Immediately after you will see I tried to get some of the Al. you seem to

&~UJL< 4j /IMJUUVc when here, but the person from

whom I got it said he would not have any  
he would recommend for some other location.

I do assure you my dear Sir that your visit  
to Edin<sup>burgh</sup> gave us & our family great pleasure,  
& most sincerely do we wish it may be soon  
repeated in circumstances when the winter may

kindly permit us to ask you to be more  
comfortable in the house. It would appear

that as far **94** the India Company & your collection  
were concerned we might have kept you longer.

I shall exceedingly rejoice to hear that your Flora  
napalmis ~~is~~ to be promised with in the country.

My dear Sir how very much you would oblige  
us by returning into this Country some

A

of the heart you have figured - scarcely  
one of them except the *Thunbergia* comes in  
in the country - How we should prize you  
*Primulas* for example! - Son says my  
*Mentha pumila* is his *M. verticillata* which  
in its more robust state this season its character  
so much resembles that I sent him a specimen to  
ascertain they - Dr. Huxtable also believes  
that it is so, but has some doubts. What is  
your opinion? - But it is time that I should  
tell you about your letter - The Lord Lord of the  
Star is from home but I have seen his son the  
waiter who was in his service when you were here  
he left him & gone into the country, but another  
waiter says that your letter to the Lord Lord caused an  
inquiry to be made & that the waiter being then in town  
had perfectly recollect<sup>ed</sup> getting the letter from you, & carrying  
it down stairs & laid it among the other letters of the Post. I saw  
a Porter who says he carried the letters to the Post that day, but he  
cannot

C&\*4AA#Q—<&uU

whether your letter was amongst them. I have  
been to the secretary's office at the Post Office, & his  
clerk assured me (he himself is from home) that he  
would make every inquiry about the letter here, &  
that he would by the post write to Mr. Freehling in  
London, desiring that every inquiry may be made in

your most obed<sup>t</sup> servant  
I nearly gave  
— in a great way  
I believe me my dear Sir  
Wm. Graham

Kind

England, & as soon as he has Freehling's answer he  
promised to communicate it to me, when I shall  
instantly write to you. They have no means of ascertain-  
ing whether it was put into the Post Office on the 30<sup>th</sup>.  
You may rely upon hearing from me as soon as I have  
any thing to communicate. Mr. Graham is the most kindly

My dear Wallis

%ftr-yv^ happy to learn that \*f" A~\*S~^ \*\*£\*.\*\*".

my family are well and you in best regards to Mr W. Wallis whom we should be happy to be better acquainted. Before I heard from you I had received notice of the safe arrival of the commodities on the Boston Malabaricus

and you are perfectly welcome to use all my collections so far as depends upon me but I have given the whole away through the kindness

f } I have in y^\*^ have for ~,Sti to in showing the to my good friend Mr Withins who will oblige me much by giving you every assistance in his power to facilitate your work 7

f The plants I collected in Ava and Chalyang were sent to his descriptions and some drawings and to them you can

flmiJ\*\*\*' have a copy through Mr Morrison 15 whom I beg to recommend them which I collected in Myore and Nepal were given to

his two former books with descriptions and drawings. Now you are to procure them only they are purchased by the Linnean Society I know not

Whether nothing of the Horns tree if it be different from the Holigarna as you seem <6r think. My best regards with

made in Agra is done at a town according to my orthography called  
 Gauran, a large town a little above Bakhaj, which you call  
 Pajpam now. I did not see the place but understood that the war made even  
 at Gauran. • ' ^ w ^ y w ^ ^ A / ^ w ^ t \* y & \* » The basis used in hill  
 countries U / r \* £ » ~ \* K \* d 4 \* \* f i \* x r f £ ^ & & \* / £ , ^ I 4 n x \* & ) u r > ^ / ^  
 painted of gilded.

I have considerable doubt of the cotton of India, at least of that produced  
 near the Ayrawade, which alone I know being superior to that of Hindustan  
 I indeed admit that it may be rather better than what is raised in the hilly  
 countries surrounding Gangetic India and extending from Rajmahal  
 to Bombay where no doubt most of the Indian cotton is raised: but  
 what grows on the plains especially to the North <sup>West</sup> of Decca is mostly

ttU \* TUjr & \* £ > I \* ^ v ^ ^ your attention to the report which I have  
 made on the cultivation of that kind in a report on the agriculture  
 of the Dinajpur district, which you can readily procure at the  
 India house. A small portion of the country favourable for that  
 cotton extends into the South east corner of that district and  
 is distinguished by being sufficiently high - fc £ ^ u » A / \_ p  
 in by having a considerable portion of strong clay in its composition. The  
 hill cotton however constitutes more than 3/4 of the produce of India

and you will find reports on its management in the opinion of those  
- part. Its great inferiority to the American cotton seems to me owing in a considerable  
to two circumstances: first the want of proper machines for cleaning it and  
removing the seed as you justly state: secondly the injury it receives in  
transportation in bales very badly secured from rain both in the carriage  
by land and by water, the Petchi boats especially in which it is conveyed  
being to the last degree miserable. Not a^ydfef?;i which the cotton is brought  
from Suva to Bombay much better while the manner in which the bales  
are exposed on Monday noon before they are shipped is truly deplorable  
were these two defects in management remedied the 7 / even of the  
all cotton would be greatly improved. \*\*^n>7AC^ 04\$ fjLa\*c \*\*\*> dtedf WP^M/LAHJL,  
cotton produced near Dacca is one cause of the superiority of its manufacture  
as do I think that any American cotton is so fine but then there can be  
± doubt that the American kinds have a longer filament and on that  
account are more fitted for European machinery. I think however that  
if the good Dacca cotton were sent home which I do not suppose  
has ever been done that our people would contrive to spin it and  
find it superior to any other; and the first experiments to be tried  
on the subject should I think be directed to that  
quarter. [Although I am inclined to think that there is really only one

I have already mentioned the two kinds of soil on which I have seen  
otton raised: the clay level land 400 from Dacca, and the dry sharp  
soil of the hills surrounding Gungtee India and the Ayoowade. The  
produce of the former is by far the finest but still that of the hills might  
be vastly more valuable were pains bestowed on bringing it to market  
(I know however that seed of the long stapled kind from America should be  
tried in both situations and perhaps a careful person should visit the best  
parts of America and examine their practices and the situations <sup>fit for</sup>  
cultivation and then be sent to India to select proper places and instruct  
the people in a proper management. I sincerely hope that the people who  
have sent their coarse <sup>spinning and weaving</sup> machinery to India may suffer the penalty  
due to so injurious an innovation. Were they successful they would  
reduce the poor people there to the same deplorable state that the  
labouring classes here have been brought to, that is wallowing <sup>in</sup> ifTvC  
<sup>day</sup> moment in the most gross dissipation, and next day 4C\*rtj+<n<, /  
want of employment. It is however to be hoped that the want  
of fuel and of pecuniary means will prove a bar to their  
endeavours, and I hope to see the importers return buyers >\*

I shall be very happy to assist you so far as I am able with the  
native <sup>^/nw^</sup> of plants. The local authenticated names that I have are  
given in the <sup>&</sup> <sup>v\*\*^</sup> catalogue which accompanies the specimens sent to the  
India house. The Hindavi and Benghalee names of them were taken  
down by a native on the spot in their own characters, and afterwards  
written in English, according to the plan given by Mr. Walther. In the  
account of the plant of Ava sent to his Joseph Bank, <sup>^f\*\*&</sup> we will  
also find the name <sup>u\*\*</sup> written in the Burmese character by a native.

<sup>ft\*</sup> <sup>amovit</sup> and <sup>kinari</sup> <sup>f</sup> <sup>synonyms</sup> of the Materia Medica, which is the  
the appearance of a <sup>stranger</sup> I make them, would give

a great many accurate names, but this collection was sent to the India house  
for the use of Mr. Linde. Whether or not he has it I know not. If  
you can lay your hands on it the names in the catalogue above  
mentioned will in general point out the plant meant. The names  
of plants collected in <sup>and Nepal</sup> <sup>Myore</sup> were taken entirely by the ear, and without  
any man pronouncing the words, but much less reliance can be placed on  
these than on such as were written in a native character. All of the names  
are however liable to numerous mistakes, among the chief of which is that  
a native seldom hesitates in giving some name or other to every plant.

you meet, although it is probable that with a great many he is quite  
unacquainted.

& <?

Should you see Mr Tucker please present him with my best regards  
is a person for whom I have a great regard both on account of his  
wit and heart.

I remain dear & truly yours sincerely

John B. Smith

8 Turnham Green Terrace

13<sup>th</sup> Nov<sup>r</sup> 1828

My dear Sir

Permit me to give you  
the following estimate of expenses  
which will be incurred in  
arranging the collection of dried  
specimens of plants for distribution.

You are aware that the  
lithographed text is intended  
to supersede the great expense and

J. Huber

endless trouble of writing long  
tickets to each specimen. Twenty  
five copies of the list will be  
required. Each copy will consist  
of about 8000 names with such  
remarks as are absolutely necessary,  
and <sup>of the kind you saw in</sup>  
the <sup>list</sup> **td** I submitted when  
Each sheet will contain, on an  
average 26 names; therefore 307  
sheets (or rather pages, for you will

be pleased to observe that only  
one side of the checks can be printed  
in order that the <sup>labels</sup> ~~labels~~ may be  
separately cut off and by horse  
power. The tests are composed  
all to require to compare  
1000 names. Have made an  
arrangement with Mr. White,  
the Lithographic Printer, Bedford  
Street Covent Garden, to print  
exactly the work, at the following

very moderate ~~cost~~ <sup>rate of 8 sh. 10 p per</sup>  
- 75 copies of each sheet, ~~8 sh. 10 p~~  
including printing charge. This <sup>will</sup> ~~make~~  
make for 75 copies of 307 sheets

/s/ JL/e

I further request that you should  
to purchase 20 Reams of large  
brown paper @ £1.15 per sheet.  
with the <sup>\*1</sup> ~~indispensable~~ <sup>insured</sup> ~~on~~  
**S** / **S**  
preparing & arranging the  
specimens for final distribution  
The cost of each ream is £1.15  
making for 20 Reams £38.

P.S. Do pray assure Mr. Wallich from Mrs  
Graham & me that we look forward with great  
pleasure to being introduced to her by you next summer  
in Scotland -  
My dear Sir

Edin. 29<sup>th</sup> Nov. 1828

Mrs Graham begs you will allow me  
to answer your letter of the 24<sup>th</sup> for which she begs  
to thank you, because I am at all accounts  
to write to you about other matters more in  
my department. We are much surpris'd to hear that  
Mr. Wallich has been so much unwell, but  
we were happy that you were able to add that  
he is recovering. Most truly do we hope that  
the pleasure your friends derive from your  
visit to Britain may not be clouded by  
any domestic affliction. We <sup>4X4^</sup> very glad  
to hear that Mrs Graham's little summer  
has

has not been desisted. - May I hope as much  
for mine? - The person who supplied me  
with ale informed me a few days ago that  
he had now some which he could answer  
for, & accordingly he on Thursday last  
shipped on ~~board~~ a smack <sup>&#</sup> to you and  
dressed a small cask which I shall be  
anxious to hear terms of. I have  
requested instructions from him for its  
treatment & the enclosed in hopes of  
getting a frank to convey to you & also  
from the Postmaster regarding your preceding  
letter. I was long of getting this statement of

the result of the enquiry regarding it, I would  
be glad to hear from you. I am sorry to say I have only  
heard of it - I fear the <sup>in</sup> carried it  
to the Post office - If any thing further oc-  
curs to you that can be done regarding it, pray  
write to me, I will give you real  
pleasure to send Ben Lomond for it.  
Your account of Mr. Brown's experiments interest  
me greatly - If you pack a note to him with  
the coin with this, perhaps you will take the  
trouble of forwarding it to him - We are greatly obliged  
to you for your kind wishes for our little girl with the hope  
she has been alarming ill lately, but  
I must close again - The Mother of our author  
Miss Edgeworth, a fine boy, is going to India, &

3 Dec 1824

Pray to 2<sup>d</sup> order  
to the Treasury  
to draw my check,  
to pay out here

George Washington  
13th Dec 1824

My dear Sir  
I have the honor to acknowledge  
the receipt of your letter of the  
11th inst. in relation to the  
drawing of a check on the  
Treasury for the amount of  
\$1000.00 in favor of  
George Washington  
I have the honor to inform  
you that the same has been  
drawn and is now in the  
hands of the Treasurer of the  
United States.

Madison, Sept. 9, 1920.  
No. 15 - h y & 16<sup>2</sup>

My dear Friend

May I trouble you with the forwarding a letter & a parcel to this excellent Dr. Carey. I have provided him a copy of my <sup>English</sup> notes & I wish it to reach him free of expense. I have ready enough means of getting the book to Calcutta but the last book that I sent him was forwarded by some person who took the change of it to Calcutta, thence to London, here, by some conveyance that cost the good doctor almost half as much as the book was worth.

You can avoid this I cannot doubt a pitiable cost to my friend. If I am mistaken let the book be by your bill you have further

me. The letter you can easily see  
hatched I know. The <sup>11</sup> will be  
\*£^ to your address, at the National  
Central Society House, Regent Street.

I hope you see this Mrs. Wallcut  
is quite well. We do certainly have  
improved accounts of Miss Green  
from Government & you were right  
in your conjectures about her. Her  
sufferings not affected.

Have you any idea what plant it  
is which produces your Anemone?  
Is it not something which grows in  
Germany. Some authors particularly  
by Dr. Voss were described of them.

Accept for yourself & Mrs. Wallcut  
& your children, our united & best  
regards. Dear most faithfully

& affectionately  
Yours

H. J. Rooken

Reply 23 Dec 1838

(also to your letter  
of 10 Aug 1838)  
Some considerable time ago

I took the liberty of writing to you from Liverpool  
where I then resided, presuming on your correspondence  
with the Botanic Garden of that place of which I was  
one of the Committee and visitors, and on your  
friendly intercourse with Mr. Rose who whom I am  
proud to consider as my friend, requesting you would  
so far aid my botanical studies, and assist me  
in giving instruction on the occasion as to send me  
some specimens of such interesting fruit  
as might most readily be dried and conveyed, amongst  
which I particularly mention *Mimosa*  
I have seen a very fine specimen of *Mimosa* in the Calcutta  
Garden, and a few other articles.

If my application has been deemed intrusive  
and therefore neglected, I have no right to complain  
as I only hoped to interest your good nature

in assisting a valuable student of a science  
which you have eminently loved <sup>\*S £4\*+\*+/\*</sup> to  
which you are doubtless greatly attached; <sup>^u</sup>  
if so I think more probable my letter never  
reached you owing to the carelessness of the  
to whom it was entrusted in your absence  
from Calcutta, and the illness which I am  
very sorry to hear you suffered I may  
perhaps be caused <sup>,T^— e^</sup> in requesting  
your assistance and anything sent  
to me at Liverpool to the care of Mr.  
Shepherd of the Britannia, London will safely  
reach me here and be very gratefully  
received. I have been favoured with  
several interesting specimens from the  
West Indies and am so anxious to increase  
my collection in this department <sup>^C</sup> <sup>St.\*</sup>  
I am emboldened to trouble you.

I hope your health is completely well  
by your wish to England and  
am for

Your devoted servant

Glasgow, Dec. 5. 1853

Reply 16<sup>2</sup>

My dear Friend

I was truly glad to see Mr. Hooker  
 you may be sure to hear of Mr. Wallace  
 recovery of the first ... > \*c  
 for the ... & well again. I must take  
 leave of all things to be in the midst of  
 "S\*" after only stopping to take breakfast  
 in Edinburgh came on to Glasgow & remained  
 with us till yesterday. He was here even  
 separately when you visit ...  
 & would not withhold from him such  
 great intelligence respecting him as it  
 contains. Report that he has not seen  
 in London, however possibly he may find  
 them, are now quite unwarranted. But had  
 he so done, assuredly he would not have  
 known him in Scotland, but our heart &  
 soul in Earl's Head, in Leith Street  
 (my old house) ... with heart  
 & good will in arranging your collection  
 Being now at least 400 miles from London  
 & after an absence of some months he finds  
 many calls upon his time & his attention. His  
 property in business requires to be looked after  
 which is on the point of being married  
 Still there was a struggle whether he should re-  
 turn to London or not. But the bad season

\*&r V<C

." S\*

TAJL - 447 - L "

the year, the short days, the doubt whether we  
not you some more actually engaged in the  
re-arrangement of your *Herbarium*, all a reason to in-  
duce him to resolve upon not going so hastily.

Another arrangement was then discussed.  
You know that I have always anticipated  
of going out to England this year, the plan  
was of going very early in the next. And it  
must be very early if I go at all, because of  
my lecture in May. If I can go in February  
& Smith can make it convenient, to go too -  
would it not be a good plan that we  
should go together? & we might in Sweden  
or a month's time do as much more than  
either of us could do singly in twice that  
time. And do say when you think of  
going to Copenhagen, I will certainly  
& do will Smith endeavour to arrange  
plans so as to meet your views &  
visit us much as possible.

We do certainly hear rather better  
news of the poor. Buffon at Yarmouth  
& I heartily wish Mr. Turner may see  
the case in a favourable light. You  
will gratify him very much if you  
would visit him at Yarmouth & I  
think you would be rejoiced to please  
with an expression of affection. Pray send

one very particularly you like a Swiss school  
from them most gladly such as may suit  
the Bot. Miscellany a school he delighted  
to say something of the extent & nature of  
your vast collections & of the munificence  
of the Count of Saurau in the disposal of  
them. I should like to give many pages  
to such a subject.

I have been always surprised at the  
use or abuse that was made of your  
plants in the Prodr. Fl. Nepal. - and  
I could not tell to what extent you  
might have allowed Lambert to pub-  
lish a genus whose name the species  
were that had been so liberally  
sent to this country. Both in dis-  
cussing in my diff. work, Nepalensium  
Ferns & Phanogam. plants, I have  
found that your specimens in my  
herbarium bore quite different names  
what you called them by in the Prodr.  
ms. Then I had to determine which  
to choose a legally correct miss. name or  
an illegal published one. I had no  
hesitation in deciding upon the former  
Nothing will be happy than to see right  
such pitiful blunders as these & if you

with it. I will publish a complete set  
of your names in the Miscellany.

Know that you have in Bailey engaged with  
a Spanish plantation. I really know not  
how far he has the time to do justice to  
your papers. Fanning, I suppose is the  
best man, & a good knowledge; but he does

*J. Wallcut*  
*J. Sambam Green*  
*London*

5/11 28

not seem to be active enough. I should have your  
papers, require that your paper should be begun  
of them. It is such difficult for me, nothing can  
be done without them. Offer Mrs. Hooker &  
my very kind regards to Mr. Wallcut & be  
assured of the same for your own faithful  
& very affectionate  
W. S. Hooker's

New York 21 Nov

Dear Wallcut

I send you

this memorandum to

remind you of

recollect my own

subscription, & that

of the Duke of Buckingham

to your Flora

Arctica. W. M. Farwell

E. H. East

Finney House, New Bolton,  
Dec. 29. 1828

My dear Sir,

Dear Sir

I have the Honor to acknowledge  
the Receipt of your letter of yesterday.

I shall be most happy to promote Your Wishes  
to improve the Ende of Science, by recommending  
4&u\* Work to those of my Friends who are likely  
to contribute towards it; but I fear the Duke of  
Mancheston will not be persuaded upon to subscribe  
since he has not the least Taste for any Department  
of Natural History - Should You think it  
' \* ? /  
likely to answer any good Purpose, will You to  
send me down fifty Copies of the Prospectus, I will  
be glad to have them franked & distributed  
thro' the country, & if I be not greatly  
I can procure You some Assistance.  
&€H\*£L&U+  
To Lady Sandwick the Daughter Lady M. Baring

I shall not scruple to apply, I have no acquaintance  
f, <\$-JL \$k/u of Northern Ireland, but were you to  
make an Application to his Grace I think it might  
be effectual. I see the Publication Price will place  
the Work beyond my own Means, but for its Success.  
You have my hearty good Wishes, & I repeat that  
no Objection shall be wanting on my Part to promote  
it. Should the c f4fr#&rfu+ 4&+p£~2f and in any  
Copies of the Prospectus for Circulation they may be  
sent by Post from the George & Blue Swan Tavern  
Adapted to The Rev. J. T. Hewitly, Kinshelton.

It is absolutely necessary for J2&+ /#?& an  
English Description /tsfou^-fifw ~-Zi what you see in  
the Register & Magazine. The Ladies will purchase  
%&\*s \$£\*£ for a Drawing Room Book & they cannot  
understand Latin. If then you have an English  
Text you lose one half of your Patrons.

It is indeed our wish to have you everywhere but

at Kumbakon. You must have passed within six  
miles of my own Door I had You honored me with  
a Visit You would have found a hearty Welcome.

Can You possibly assist my Collection by  
requesting Your borrow trees at Calcutta to send me  
a set of parasitic Orchids, cultivated in Your Garden  
My Friends who have gone to India have promised me  
much but hitherto I have not had any thing, I  
at least that I might <sup>be</sup> ~~bring~~  
them in England. I should be  
very grateful for any Assistance in this  
Department.

Believe me,

My dear Sir,

Yours very truly

Agricultural Society Report

December 11, 1861.

My dear Sir

I am directed by the Council of the Society to place in your possession a Key which will admit you to the Garden at present at the Castle in the Duke of Devonshire's Park.

It is to be understood that the Key is to be returned to the Council at the expiration of a year and that whilst you hold it, it is not to be used by any person except yourself. This regulation is not intended to prevent you being accompanied by any of your family or friends when you go to the Garden, only to secure your personal presence when it is used.

A^J^ 4&

D. Wallich

Commit

Remit me also today the sum that you  
will take the trouble whenever you go to the  
London to attend the Court of the Public when  
I ask to enter your name and that of your  
friends who may be with you as witnesses to  
the Statute.

To Mr. M.

4

Dear Sir

Had the pleasure to receive your  
letter of the 11<sup>th</sup> together with the copy of the  
York Herald's Society's address which accompanied it.

The flattering notice of the  
Council of the Society has done me the honor to  
refer me to the same instance. I entreat you to offer

me my best thanks, and to me the favor to inform  
them that I value their favor you shall soon properly  
know, but only

to be able to do so. I am, Sir, very  
truly  
yours

I am perfectly sensible of the very high obligation  
which you put on me for that generous intercession in my behalf  
which led to the procuring a loan being granted by the  
Council of you my warmest gratitude and acknowledgments.

I need not thank you, but shall most  
cheerfully conform to the particulars mentioned in  
your kind letter, and again, kindly accept of my  
best thanks.

I am with the highest respect & esteem  
Very dear Sir

Robert Barlow

My dear Sir,

I shall be most <sup>p£J^£—J></sup> <sup>Z7</sup> <sup>iJfew\* ^ \*—r</sup> <sup>Sy 5tt\*v</sup> <sup>JS~^</sup> glad to have your wishes on the subject of intended botanical work that I have undertaken. I have written long letters (as shown to both your applications & I hope that have submitted to it, but you must really be content with the elder brother's name, for I am actually with you. In fact I should desire both to do what you wish & to help the work) to indulge myself in the purchase of expensive botanical publications. With a limited income & an increasing family I am bound to <sup>but</sup> by arrangements within strict bounds & I must be content to look at your fine work in the hands of other persons. I could however have <sup>an</sup> exception in this as to promote your wishes, if I were not confident that

you will not fail to get 100 subscribers amongst the Gales  
I will send the prospectus to Lord Melton & write to him on  
the subject.

The *Rhododendron* after which you enquired was  
in high preservation. You will recollect my plant  
of Dr. Carey's *Platanus corymbosa* which you said was  
*Platanus venanda*, to which I confidently denied to be  
that plant. On closer examination it is unquestionably  
*Ceanothus Beckwithii*, which Dr. Carey's gardener must have  
sent by mistake instead of the timber that should have come.  
Before it <sup>was</sup> had begun to sport, I had said that it looked  
like a *Ceanothus* than a *Platanus*. I have thrown away  
a great deal of care upon this little tree in particular &  
shall hope to have the pleasure of calling upon you in the  
spring.

Yours truly

Yours faithfully

W. Herbert

Andy, Sussex

Dear

I shall have great pleasure in offering myself to her subscribers to the Indian Botany, under your direction & with a view to the possibility of being very interestingly occupied by your liberal contributions.

I would give great pleasure to show the collection of plants I have at my disposal, & I received originally from you & I expect Mr. Sabine during the same holidays, though I should be very happy if you would accompany him, I expect to be there by

the end of the week, & shall not  
return to my place till the middle  
of next week, I would give you the greatest  
pleasure to see you during that interval  
if you find it would not be too inconvenient  
to yourself, I do not say I shall be very  
pleas'd a dinner, could go to Newbury  
- the Bath road almost every hour, but  
I shall see you on Friday night at latest.

Yours affectionately  
John A. Knapp

Trinity, Apr. 16<sup>th</sup> 1819

My dear Sir

I have been for the last week or two at the 12<sup>th</sup> Street 1819  
in one hand with Thomas as a matter of fact for an hour or two <sup>fr</sup> some  
day in the City of the Kingdom. I have been for some years past from with 3<sup>rd</sup> R  
- one obliged to answer myself your letter of the 11<sup>th</sup> having to make a circuit  
of several in yesterday. I mention to explain the cause > 1% your not <sup>/\*ZA</sup>  
not received an answer

I shall have the greatest pleasure in contributing to your work  
in which I think I have no doubt will be excellent & interesting. Will  
you have the goodness to direct Mr. Bentham to put down my  
at four pounds will continue on so expensive a work, but you <sup>at\*</sup> just  
sured that no objection shall be <sup>0&v>&</sup> on my part to either subscribers  
know no fear of your not allowing 100 names. The public Librarian on  
a Continent. Many in our island & some public bodies must have so  
small a work

I am extremely happy to hear of the magnificent patronage which the  
Directors of the East India Company have so properly extended to <sup><€</sup>  
the execution of the Librarian, with which they have promoted the distribution  
of your duplicate specimens to the public & private collections here & abroad <sup>H\*4\*\*i</sup>

There are persons who will not therefore be so desirous to you. What time I  
collected, or have at different times appeared from my friends, I have given others  
to the business of business as to the same, but if you should know me, or  
you will you would be making a new person in the world, I can't but I should like  
to have a child's opinion of it, & I do believe to see that of Josephine.  
I hope you will often for me think of me, & if I could see you in London  
I will depend you will take the time on your side, but as your former attention  
to my sister I think the more you will be

I regret that I cannot have the pleasure of seeing you at last, but I  
I don't think you will ever see me in London as I have not yet had the  
time on the same of the summer, if you may not please to stay for a few  
days, or to do what the Frenchman gives you.

I have to offer my best compliments to the whole of the  
to you good health & business.

My dear Sir  
Ever yours most truly  
August Harris

Milton Dec 17 1848

My dear Sir

I hardly know whether I am entitled to  
either of the epistles, under cover of which  
you have sent me G. Wallcut's prospectus,  
but as the imprudents are just as likely  
to subscribe as the too other classes,  
you may put me in that class, and you  
will think I really deserve the epistles  
then I beg that you will put me  
down for 2 copies, for I must have  
one here as well as at Marlborough. As G. W.  
is engaged in this work I suppose he will  
remain some time in England - Very anxious  
to give me the hope of seeing him at Marlborough

And your kind I shall be much obliged  
to you if you will let me I shall be  
much pleased to see the ladies and  
their the members to your service are

Yrs very faithfully  
William

My dear Sir,

I have the pleasure of enclosing herewith  
Milton's answer, having his name & that of Mrs  
for two copies of your work. The invitation to  
himself, you will probably think it not  
to answer personally

Yours &c &c

Yours faithfully

W. Keble

Boston Hall Dec<sup>r</sup> 29<sup>th</sup>  
1828

Dear Sir

I was favored with your obliging  
letter at my return Home from paying  
some distant Visits, we propose being in Town  
only in February, & shall hope to have the  
pleasure of seeing you & Mr. Wallich in  
Pitman Square soon after our arrival,  
I beg you will put my Name down as  
a Subscriber to your Magnificent Works,  
I have already written to several of my  
Botanical Friends, & shall be very happy  
if I am so fortunate as to procure you some  
subscriptions, & will use my utmost endeavors  
to accomplish it I beg you will be assured;

Mr. Knibley will be sorry to hear I am  
obliged to part with my Alpine pendant  
immortality, I regret his conduct was not  
equal to his abilities, & he has greatly shypan  
himself; his name is Mr. Green. —

I beg my compliments to yourself & the ladies  
and am Dear Sir

Yours most affectionately  
Thomas Parsons

My dear Sir

Except my  
goodness was sending them  
back. The other copies I have  
not received.

^ L - ^ ^

Had I heard of your arrival in town,  
I should have had the pleasure of  
forwarding to you an article for  
the publication for the "Lancet"  
which Mr. Morrison requested might  
be transmitted to you by the post  
to Mr. Morrison. But you will I  
trust receive them from Mr. Shaker  
at once, to whom I put them in  
a box of millinery well secured.

I am glad to have good accounts of  
Mr. Vellert and all your family.  
My dear children are also well, and  
all with me, among James, who was  
considered too delicate to be sent  
from home. Family has not  
forgotten you or her friend  
Sannah.

Mr. Weston suffers much. Maria  
Arthur she is with at Brompton  
with all her family but expects  
to leave England for the Cape on  
9th January. The accounts from  
Mr. Nelson are not good - at one  
time he was deriving much benefit  
from the change of climate, but  
a fall from his horse threw  
him back sadly.

Should you be acquainted with  
my Lady going to Bengal will  
you <sup>Z</sup> inform me as I  
am much anxious to send  
either the young woman I brought  
home with me she is perfectly  
well <sup>^</sup> <sup>^</sup> and  
contented and has all the requirements

necessary for a  
single man. She is a  
true Portuguese but  
speaks a little English.

I trust you will excuse any trouble  
you are this subject but she left  
two children in Portugal and she  
is a widow! Her loss to me will  
be great. With my best regards  
to J. Melick and wishes for many  
many years of that happiness

which I have not for some  
time may my dear Sir  
Dear Sir  
Very truly yours  
Wm. Pitt

Leicester Mass. 31 Dec 1828

My dear Sir

I am truly sorry to hear that you are indisposed & sincerely hope that you will be well enough by tomorrow to meet me at Fitch's according to your promise - when I shall be at Westport &c -

I remained at Mr. Brown's yesterday till 3 pm. - I had not much time to give to the plants, - mostly by walking yesterday evening & this morning. I have nearly finished putting the *Hammon* *Col.* into the other paper & it will now only require to 2 hours of your kind assistance in wrapping some of the *Genera* to enable me to arrange the whole in Fitch's Orders. -

What a superb Collection!!! -

With kindest regards for your health I remain

Dear Sir

Wm. Walker Esq. : Yours very truly  
J. N. Prescott

Reply 3<sup>9</sup> Feb

My dear

At the moment I have time for a few lines  
out in reply to your letter of the 27<sup>th</sup> 29<sup>th</sup> Inst. which

is received. - I accept of my first thanks for the trouble  
you have given yourself about a microscope for me,  
I beg of Mr. Brown to accept of them. I will be

infinitely obliged to him if he will order for me  
that instrument which he would recommend, & in

the hope which he thinks best. <sup>What fearful</sup> <sub>SS</sub>

about they of the 14<sup>th</sup> Feb. last are 14\*~A

and an <sup>%&^\*0-tf</sup> arg number 1 - or a corresponding  
number, - or a number of some sort, - certainly

not ordinary - I shall not forget your  
wishes

^J

wishes regarding contribution to the Calcutta gar-  
den <sup>14</sup> you are in their Company. - I am

xtf-\*\*\*

glad you are satisfied with my sending a <sup>-^e-fc\*</sup> graph to the newspaper. It was all I could do seeing the Philosophical journal was already printed - From a mistake of the Editor it has not yet appeared, but I expect it tomorrow & shall send it to you - Have to Lord Mungton he has refused to subscribe. I wish my paragraph to appear before I apply to others -

Very many thanks to you for your attention to the Univ. University Herbarium as well as to my own - Believe me I have how highly value your great kindness. - I wish to express love with

with you in that respect -- so how the  
goodness bears every thing that is kind to us.  
Wishes from Mr. G. you. Remember me  
with many thanks for his kindness to the up-  
fallen member of the Medical Botanical Society!

I believe me my very dear  
most truly obliged  
affectionate friend

Robt Graham

Edin: 31st Dec 1828

Accept of Mr. Graham's & my hearty  
wishes for many happy returns, before I all  
years, of New-year's Day -- How would your  
volume of the Transac. R. Soc. Edin. How shall I  
send it to you?

Reg<sup>34</sup>

Perly 26<sup>2</sup> Jan<sup>y</sup>  
1829

My dear Sir,

I trust you will not regard  
me as an intruder upon your time &  
trouble if I take the liberty of addressing  
a few lines to you. I was extremely  
sorry that I happened to be absent  
from Edinburgh when you paid that  
city a visit, as it would have afforded  
the real pleasure to have received you  
there. I wished also to have spoken  
with you on the subject. I am \* s&c,

I have made an application to the  
Hon<sup>ble</sup> the P. & C. Company for duplicate  
specimens from the Herbarium where  
there are specimens to spare & when I  
do not interfere with greater claims  
of other individuals. I hope you  
are convinced that I am sufficiently  
devoted to botanical science, to determine

his favor from the Company, but if  
you <sup>^</sup> think so, I should esteem  
it a kind favor if you would  
use your influence for me. You are  
too good a <sup>-f&-\*~f13c~m^-=tj-</sup> yourself not  
to know the great value of a good  
collection to a practical botanist  
& that it is in fact impossible to  
do much without a good collection.  
My own herbarium has cost me  
much money & labor. I <sup>o . . ^ \_</sup>  
particularly endeavor to render  
it as perfect as possible that I  
may be gradually prepared for  
future works. I am especially  
desirous of obtaining specimens of  
the folices you have been the  
fortunate means of procuring to  
the Society Company - Hooker & I  
live as you know at a distance  
<sup>^ . v ^\* . ^    ^^~\* - e - 'jC</sup> from each other, & cannot work  
so well as if we had each of us  
specimens in our respective herbaria.

Besides (I will be quite candid with  
you) - in case of our friend Hooker's death  
(which I hope is far distant), I should  
earnestly wish to be able to continue  
the work we have jointly commenced.  
 & this I could not do satisfactorily  
without a full collection. for we  
hope to complete a Historia Filicum.

After we have published as many figures  
as possible - I hope you will excuse

my troubling you with  
this matter, & that you  
will give me credit for  
no selfish feeling, in

wishing to share in the duplicates  
of the Collection - Believing  
me I shall feel truly grateful if  
you can kindly send me on this  
occasion - & in the hope of seeing  
you here before you leave the County  
I am My dear Sir

Yours very truly

R. Greville

at Wallerich.

I wish I had as soon to write  
 a few lines to you to accompany a letter  
 from Mr Pyle to your Lady was brought  
 in with a number of your splendid  
 account of Indian History, most carefully  
 wrought up by Mr John Smith like a Chief  
 though I know your knowledge, I am not  
 sure if I can do it. I am a very weak  
 view of it at this moment I am my power  
 on a very dull gloomy day.  
 I am so much enamored of its majesty in beauty & your  
 former noble power  
 that I wish they were originally  
 designed. I shrink from speaking in open  
 terms I would have them a study and  
 not to a much faller to the eye of their

Vwt~ &<\*\*\*\*? & \*

•A

various excellencies than what is either in my  
power or my daughter. But both in <sup>the</sup> ~~the~~ <sup>the</sup> ~~the~~ <sup>the</sup> ~~the~~  
can admire & are deeply grateful for such a  
convincing mark of your regard & esteem  
But my daughters have still further assi-  
ment of the gift from their taste for drawing  
their greater knowledge of the science & their  
being able in several instances to trace  
resemblances to English plants. Some of  
your specimens we hope to see, when ever  
we go to London in a living state either at  
Jodice's or Ken. There we should have  
great delight to meet you. But we  
should be still happier to see you again  
at Welton. Most unfortunate we were  
in being from home on your last visit  
into Yorkshire. But I fear you are  
contemplating a voyage either in this  
spring or in the summer to Chamberlayne  
? either going or returning we both would  
to see you here. We think more proba-

: By the power, as you will hardly leave me  
the little plates in London, while you  
are on the other side the Baltic if you  
deprive us of having their  
as Mr South any part of the time of your  
being in Denmark. Of the change of this  
I am very glad. For I believe it will save  
the country from a variety of ills. But I shall  
rejoice still more, if it gives you facility  
of remaining permanently or even  
longer than you had first intended. In the  
little bit of the card Mr P had read her letter  
to Mr W. before the packet from Kirkcaldy  
which she desires me to mention, but she  
should even utterly regardless of a kind  
a convenient one. I have only to repeat  
the regards to Mr P. that already  
made for me. I do assure you  
that I am

Reply 25.

'Tu - ^V

Many thanks for your last valuable communication on your letter & the enclosure of your Catalogue of Jordan's plants. This latter is exactly what I wished to receive. I was greatly pleased to find that in the instance of the *Stemaria* name, you have yourself published it to the *Stemaria*. But then unfortunately as a *Stemaria* you specify some words not contained in your description of your plant on the subject. I should have noted it *Stemaria* chrysomela Stemaria. I sometimes think I am too hasty in publishing your inextinguishable name. I am only sorry to know that their great interest makes me very anxious that they should become something of their own names as well as myself. In my next No. of *Journal* *Stemaria* will appear. *Stemaria* argentea but you are not aware that there is a *Stemaria* argentea of Gray & Willd. I am ^ attempting it to the *Stemaria* argentea & will quote you ^ if you will give me leave. You I assure you share abundantly participation in the privilege of giving publicity to your Jordan's name: & for the name I wish of all things it should strive to quote you ^.

You have *Stemaria* Polytrichum argentea of ^ a simple frondose stem, which branches & is gathered in your ^ upon the trunk of some tree; & you will observe, why did you gather that, it is common

v, ^.

of the British Museum they will never be  
afforded me & will deny the owner's right to  
sell them & to have them in his hands  
of his private individual property of public  
collections.

If indeed you have any  
plans quite to show, let me say a word in  
behalf of a second brother, who lives in London,  
who seems unengaged not only because  
he is much engaged in the cause of Botany, but  
because he is likely to be more of independent  
fortune & will therefore be able to do a much  
deeper work in this one field of science. I  
mean George Bentham Esq. M. A. Cambridge.

I suppose he knows nothing of what  
we are saying to you & but if you had  
that might be desirable for the  
Museum, he appears that these  
would seem to be destroyed by hand, as one  
saying for them & a whole, with Bentham they  
will be most highly prized & studied. It  
only on this ground I stand of him. If he  
be now as he was you a few years ago, he would be  
one of your London & he might give you his  
personal assistance in Little Street, if you de-  
sired it. He works in Glasgow  
essentially as Bentham does.

I hope soon to receive the continuation of  
your <sup>^ 46\*3~ \*o \*\*</sup> ~~Journal~~. But do not be deceived you will  
find them. If they come in your way all need  
be done. Only in that case do not overload them

V

to answer in all they carry (with the  
Office Frank) & all beyond that, for  
now there is no complaint left, if you  
know the persons you letter give me you  
would not trouble yourself about friends  
at all. Remember too that your neighbors  
Franklin & Mary send me the 1st of  
every month. If you have the 1st of June

1828

Q

you can send me by that money some more thing  
which will give me information as to the extent of  
your collection & the persons involved, as respects to  
of the Court of Directors I should be pleased to publish it  
I think you have got by this time 1828, and welcome  
from your friends. Thank you for the 1st of June &  
and children in united testimony, all be a  
and it be your faithful opponents

T. H. Jrui\*

Glasgow Jan 8. 1891.

rec<sup>d</sup> 18<sup>th</sup> Jan'y

My dear Wallace

I trouble you with two small  
bundles for India, one for Mr. Page &  
the other for Dr. Cass. I was dumb to  
send them in a large packet through  
Hampden: but they now go in charge  
of a young friend of mine, Mr. W. Mack,  
whom I wish to make known to you,  
and as a Protestant or Nonconformist, but  
as one in whose welfare I feel a great  
interest. He is about to proceed in  
the General Post, Capt. Davis, on his  
first voyage to India & the place bound  
to Bombay & China. He the former  
place I know as correspondent & now  
has: of the latter I know know only  
Mellott. Majoribank's having returned  
& from Liverpool having said on his  
voyage out. Now what I beg you  
to do is if possible, your friend at  
these places (& where have you met?)  
is to give my friend letters of introduction

of that kind that may render his  
visit to the place agreeable, & to some  
people whom he may look up to for  
that kind of assistance & advice which  
a young man so much needs in a strange  
country. When I tell you that  
Mr. Mack's Parents have been from  
the time we first came to reside  
in Glasgow our very kindest &  
best of friends - I need say no  
things beyond to recommend them  
to your favor & attention. Do  
all you can for him. He goes out as  
Missionary. He has been accustomed  
to the best society in this country  
& I would wish him to enjoy the  
same advantages abroad. Under  
the idea that he would have gone  
to Calcutta, many letters were sent  
over for him, though some in that  
case I should have written upon  
your behalf: - but now the des-  
tination of the vessel is changed.

Dear, my dear Wellick, Yours,  
with true regard & affection  
W. J. Hooker.

Glasgow, Jan'y 9. 1841.

My dear Susan

I have to thank you for your letter  
& for the fertile flowers of Holkellia. Are  
there not two Holkells to which you  
refer lately sent? I think our Mr.  
Penny's subscription in correspondence with  
him told me so. If so it may be a small  
that I speak of his life to Susan. It is  
to be very anxious when the result of  
the meeting of the Board of British  
parties your application: if, as I fear  
since they have by their true confidence  
the subject.

Do not see Brown; - but I had by me  
some of your ability to my committee,  
to see what you think give you  
an account from it, for the gratification  
of my own as well as of your feelings.  
I must not allow you to suppose in  
opposition & relation of our common friend  
Walker. I wish I could see him to the  
full extent of his merits. - That is beyond  
my power: but only when he is in the

every effort to obtain for him a prolongation of his residence in England;—

"I have heard so much of your personal acquaintance & claims to admiration & respect, that I cannot deny myself the pleasure of subscribing a letter of further introduction, with the view (my anxiety will not allow me to copy all the handsome things he says) —"

^ \* ~ ~ ^ ε θ ξ ~

in the course of science, I shall be highly delighted to have my own demands there. — Such a man should be the President of the Royal Society.

Brook's other stands no chance at the London University. It was but little I could do for him in favoring introduction.

: \* ε ^

Brook's reputation is a most kind & powerful recommendation & inducement to the Professor to do the same.

^ — ^

I suppose Mrs. Grant Brook's particular friend, the late Dr. H. Thompson a man of much influence in his behalf. But I thought I could say nothing but what was highly favorable to our friend's request.

You will greatly oblige both Mr. Hooker and me  
by giving him letters of introduction. He will  
call on you in Fort's street, and I am very  
sure the plot is to sail very soon he will  
be very little about town. He said  
you had two parcels of seeds, what time  
thank you to forward, the one to Dr.

Dr. Hooker  
9<sup>th</sup> January  
1844

Dr. Hooker  
with the  
seeds

Copy, the other to Mr. Proyer. As well for  
himself & family (who I believe see use)  
our entire best regards. I am, most faithfully  
& affectionately  
Yours  
W. S. Hooker.

Edinburgh, 7th Feb<sup>r</sup> £?fc\*\*\*r-

10 Jan<sup>y</sup> 1831

RD 16-

My dear friend

The postman wrote me the other day 15th  
saying, whether I had gone for a fortnight or less  
or not, but by some mistake of the post office, was  
retained to send to you I have only now got it,  
and am exceedingly annoyed at the thought that you  
did not to get your hand of abstracts perhaps  
and have accordingly written to Lord Ashly on the  
subject: as did I send this in the same packet.

Accept my thanks for your last packet, but I have  
been too much engaged lately in writing a very  
long & tedious paper which I cannot send printed  
by a certain day that I have not yet got time  
thoroughly digested.

The postman informs me that sheets 35 & 59  
have not arrived for me for which they have  
to thank you.

I should like much to see you in London  
next summer, but have so much on hand that  
I dare not promise myself the pleasure. Adieu

other things am engaged in building a <sup>^^L...</sup> and  
museums house in Kirovsk, upon which,  
and I expect will be finished next autumn, I  
go to the country, and bid Edinburgh "most hearty  
farewell." I am so laughed at residing there late

**-r\*-v?**

in Edinburgh. The new income paid me to go to  
a more fashionable part, and on the other hand am  
so abused by my neighbours in the country for  
being there since months every year and for spending  
my income in Edinburgh away from the property from

which it is derived, that I have at length found the  
above resolution I was also attracted by another  
method. My scientific work, <sup>suburban</sup> were all in Edinburgh  
so that during the three or four months I resided  
in Kirovsk I was quite idle. Although I don't  
to reside in the country, yet by the coach I can  
get to town any day in 3/4 hours, so that I may  
almost say I am blest in the suburbs. If you

**^t/c&Of\*\*"**

come next autumn I shall be  
very happy to see you 30 miles north of Edinburgh.

What is Bentham about. I have not heard  
from him for these many, many months.

,72 &-

Yours very sincerely

London

Jan. 22. 1831.

My dear Lord Ashley

I was very glad to receive  
your letter on the subject of Dr Wallich,  
not that I had any scruples, but  
am happy to have my intentions  
confirmed by your authority. I  
agree with you as to the im-  
portance & important utility of Dr  
Wallich's pursuits; and how

j\$' Srfij

only wait the movement of the Court's  
for I am told it must begin this  
or rather with D. Wallcut we  
will I suppose apply to the  
Court for further permission.

I have read with great interest  
the papers which you were good  
as to send me, Rowland Putnam  
I have only to add that, independ-  
ently of public reasons, I should feel  
gratified in thinking that our opi-  
nions agree in this matter -

Believe me

Very truly

26 May 1871

Dr. Wallcut  
Forts Street  
1/10th

My dear Sir,

My package this  
London was too bulky to  
allow of my calling on I  
had intended - I wrote  
to L.D. Palmenston the  
day I saw you - I mean  
rather puzzled what to  
do with Dr. Huxley's skin  
not having any Zoological  
Museum in Cambridge  
belonging to the University

I hope a court process will  
the present of the S.P.C. will  
take us up a little - at  
present I hope to get  
a cabinet made for me  
which in which all  
things may be placed  
and as the case of the Prison  
- Prison Society will be  
know with our progress  
I mean for the Prison  
I have just completed  
your last part, & am  
at 188 & see to every

prison society  
the same thing

My dear Sir

Dear Correspondent

I was so disappointed to see that the National Convention had not yet decided upon the subject of the National Assembly, and I was so glad to see that you were so kind as to write to me.

I am, Sir, your obedient servant

Mr. Taylor, 10, rue de la Harpe

Paris

because I see that you are so kind as to write to me, and I am so glad to see that you are so kind as to write to me. I am, Sir, your obedient servant

I am, Sir, your obedient servant

Contra les chagr. vous seul Montpellier qui avec un  
soin bien recueilli en quantité; et je vi avec talent,  
pauvre compléter votre immense trésor, quelques  
dépens que je compte m'acquiescent que j'ai l'honneur d'être  
en rapport avec vous, de vous voir vous être conquies  
de nombreux trésors, je vous exorta à diffuser au moins  
d'un an votre départ, rester nous pour faire jouir  
l'Europe du fruit complet de vos recherches. vous  
êtes pour la science plus utile ici que dans l'autre monde.  
Je dirai même que vous y êtes indispensable, et que tout  
ce que vous avez fait pourrait presque devenir inutile  
si vous n'y mettez une dernière main, en nous donnant  
des explications. auroit ce que j'ai vu de vos violettes  
michelpardit, j'y vois des formes européennes confondues avec  
des formes méridionales, quelle est donc cette singularité  
naturelle des saignes apondes cuticées qui ont le caractère  
des pays chauds, Manure plique autre autre, avec  
la véritable opidium aculeatum. N'auriez vous pas trouvé  
quelque analogie de Polypodium vulgare et Lachista  
delavai? auroit je j'ai dit un paquet que je j'ai pour  
M. Lindley quelques quinquilles, des pièces, comme dans  
les herbier de Paris, qui ne sont pas dans l'herbarium que vous  
avez bien voulu me faire et

been that same vice, but that was in  
1848.

I don't think you have the recollection  
of the meeting of the Board of Directors on  
your case. But Ashley's letter was no  
reason to me.

I don't think I must not allow you  
to keep me in admiration & esteem  
of your common friend Wallace Smith.

I could never live to the full  
extent of my desire & his merit,  
that is beyond my power.

I rely upon it I will  
make every effort to obtain  
you his a prolongation of his  
residence in England.

I have heard so much of your  
personal & scientific claims to admiration  
within & without, that I cannot  
deny myself the pleasure of exchanging  
a letter of further intercourse with  
so eminent a Professor. If any occur  
point of view can be resolved upon.

With the view of seeing I shall  
be highly honored by your sending me  
I am, dear Sir, Your very humble Servant

Ashley

Had a tolerable stock of drawings in hand  
for part. May. & therefore have not yet  
been the 2nd for you, which of course  
is different quantities. But I will give you  
early notice before I shall trouble you  
the second time. When I receive them  
I will, as before, lay you to rest them to

McC<sup>2</sup> W.

Dear Sir,

My present father being since the end of December arrived in his bed by a cold from  
his cold, I am glad to see that you have been previously informed. I am glad  
to hear that you are the father of his father & his name for the kind of  
kindness as by your visible love & care you have given a good one. I am glad  
to hear that your father's name is also given to the child & changed to his  
name.

I am glad to hear that you are the father of his father & his name for the kind of  
kindness as by your visible love & care you have given a good one. I am glad  
to hear that your father's name is also given to the child & changed to his  
name.

-t,\*^6

I hope that you would be very glad if you could see the child & that you  
have not been by the name. If you are not thoroughly interested in it, we shall  
feel the more sorry. I am glad to hear that you are the father of his father & his  
name. I am glad to hear that you are the father of his father & his name. I am glad  
to hear that your father's name is also given to the child & changed to his  
name.

It is one of the most necessary laws of nature. I have seen it in the  
operation of

Edward Hall's will to my happy in having that gentleman's opinion of the  
what has the honor to send the enclosed to me that

The W. M. Van. Wells Company might send you the original of your name. All

things against and against the more advanced habits as the majority of people  
& throughout the bill at the middle of September as it has been the tendency  
at present of the business with you the - as they had and need separate

that was one of the things to be attended by my friends of the education. While  
to the goods. some things with the character of the things (things) from  
things to things (things) from things to things (things). The amount of  
what has the honor to send you the enclosed is a thing in the way  
of the goods to things. When I am here to have acquaintance &

10<sup>th</sup> July 1831

Dear Dr. Keble, I am very much obliged to you for your kind enquiries - my Mother has indeed been very seriously indisposed, with a  $6Ce^{*^{\wedge}d}$  of suffering from spasmodic rheumatism & a complication of other evils; but I am most happy to say that she is now considerably better, indeed more so, today, than we  $fi^{\wedge}$  any right to expect. This  $fr^{\wedge}U$ -weather is very much in her favor, & she usually rallies so quick after illness, that she still entertains a hope of being able to move to town, as we had intended on Tuesday next. I communicated the contents of your kind note to her, & she desired me to thank you very much for your

r      \s

surprise, & to say how sorry she was, as well  
as all of us, to hear that you had also been so  
sore. - My Father I used to say yfc^tv £\*-&\*->  
suffering much for the last six weeks, from his  
cruelty of last winter, Rheumatism, but he is now  
very much recovered, & this unexpected warm  
weather does him more good than any thing else.

We have not yet seen the Botanical Register  
for this month, for we do not happen to take  
it in, but one of our family who does, will  
shortly be able to show it us.

I must bring up my unfortunate Soliman  
Anabasiensis to town again, together with the  
<sup>beautiful</sup> two specimens you were so good as to give me,  
for to say the truth, I have not been able to  
work at the drawing - not from idleness, I assure  
you, or, <sup>want of</sup> good will, but (from a little return  
of Indian feelings) have been obliged to keep

a good deal on the sofa, which has prevented  
her drawing in any way.

You will think this nothing but a bulletin  
of the health of all the family, however I  
may conclude by saying we are all better, &  
I hope & trust my Mother will soon be restored  
to her wonted health & strength. She joins with  
me in kind compliments to Mr. Wallich, whom  
we rejoice <sup>to hear</sup> is, together with your children  
quite well.

I remain,

Very truly yours

Sarah Eliza Mather

My Sister Harriet & Mr. Cline arrived in town  
on the 16<sup>th</sup> at their new house, N<sup>o</sup>. 11 Upper

m+\*\*^r- St. —

Edin. 16 Feb'y 1831.

My dear Friend

very much

Mr Graham & his fifth **Prvu^ft**,

to come to this world today, seem to be  
sharply remembered to you - After a very  
long introduction both the ladies are laid quiet,  
both promise to do well. - **£ ^ < /\* £ \*\* < \*\***

so common in the family that I have nothing  
to say about it, except that I make up my  
**^ j ^ ^ A A** considerable compromise to my misfor-

/ **^ . ^ ^** I do not mind whether I have  
putted you for Mr Graham's P. V. - I cannot  
write you for that & all the former members  
the second week half after enough. - I have  
often written I have written you, but believe  
it my excellent friend, I never call to think  
my obligations to you are there & a thousand  
other

thousand other scars. I have no sort of pretension  
to stand on the same footing with your other ho-  
nourable friends, but you have filled me with  
favours equal to any, & excelling most; & you  
have given me more than a mere official friendship  
— you have treated me with an amount of perso-  
nal kindness for which I am at a loss to account,  
but of which I know the value, & which I shall  
always reckon one of the many lucky events of my  
most fortunate life.

I am afraid you will think me negligent in  
delaying to apply to Grange for a letter to Lord Ashly  
on your behalf. When I received your letter on  
the subject I inquired early next to Arnott,  
then in the country, & should he write to  
L<sup>d</sup> A: but Grange was also in the country  
& I did not know where. On his return  
to

to have told him of your wish but had  
not opportunity in which you state the words  
of the commission which would have been to  
make it I.A. Had we said it, & the  
have looked for it a thousand times I have  
never yet seen it - In the meantime I told  
me he was going to Glasgow, ~~but~~ & that  
I thought I should give him an amount  
in anticipation, but to my surprise  
found him still in I.A. a few  
days ago, the weather having prevented his  
departure. - I then consulted my own  
little book, & from my files I had a  
one him a sketch which I have since  
is now filled up & forwarded - It is not  
in yet I presume too late, but it must  
be so by your request having been granted.  
I should have met at the Publisher's table  
to - You propose in a former letter to me to  
send

1. send the remaining Lymaness in week. I am  
very averse from that if it could be managed  
otherwise for it would deprive me of all the be-  
nefit of your assistance, & I know it wd be  
more agreeable to you to have the Company's spe-

arrives about before they leave London. I do  
not look forward to seeing you in London, but  
though I find that to be impossible now, I can  
fidelity anticipate that your leave will be ex-  
pedit. I know I have not and you talk like  
but it is mislaid like the other I notice above. It

Reply 10<sup>th</sup>  
1840

My excellent Grand

I have already written you a letter  
which I have committed to the care of Mr. Crickshank,  
and the next day, on it, I have the  
most hideous savage & ungrateful monster  
of I could keep you at the date, but frankly  
I had to be on the 14<sup>th</sup> for two hours in my  
possession without removing my protestations of  
wonder at your kindness to me - You are however  
the most benevolent & kind hearted man  
I ever met with. What my dear grandfather did I  
can do, what can I ever do to deserve your  
constant kindness & consideration of  
my

my interests - Heartily, warmly, & honestly I  
thank you for having transmitted the directions  
you have done regarding the Legation to

Ajra,,\_ ^DU^J^L 4&r the expectations such  
facilities will excite, - I fear I shall never  
be able to do the subject justice, - but when  
my hands are a little more clear than they  
are just now, I shall see the sweat of  
my brow among my examiners, & pray  
that I may satisfy you. - If I can do this  
I shall snap my fingers at all the world  
beside. - If you have any thing, for your  
satisfaction I shall wash, & if you shall  
be pleased I shall be delighted. - At present  
I am not touching the subject. - I thank I wash,

at

every hour of the day as an excellent & old  
friend Wight, but I cannot reach a  
single word. I shall take the very first oppor-  
tunity to transmit Wight's letter to Boston, but  
as I sent to him a large package yesterday, I  
may not be sending <sup>the</sup> ~~some~~ ~~times~~.

I have not yet found your last letter, & am  
therefore left the answer to it still due.

I am growing more & more  
dissatisfied about your leave being granted. I  
thought it was improbable that the impetuosity  
& realizing the hopes from the present ministry  
would soon make them very unpopular, & that  
strange feature of their Budget promises to hasten  
them. I tremble at the thought of the possible  
turn of my poor country - I am of course  
to make haste. I would breathe much more  
freely.

t\* \*^

Pray if I had a letter from you saying all over  
I should be glad to hear from you by  
I told you that Gravelle probably wrote to you  
a few days ago. Accept of my sincere thanks  
& good wishes for you & all belonging to or connected

Yours truly  
Robert Graham

Believe me my Dear Sir, with a  
degree of esteem which I am quite unable to  
express yours most sincerely affectionate friend  
Edin<sup>burgh</sup> 16<sup>th</sup> Feb<sup>r</sup> 1831. Robert Graham

17. 1824.

My dear friend

My dear friend

I arrived from Glasgow about  
 two hours ago & have only time to  
 scrawl a few lines -

Cousin who came Edinburgh  
 tomorrow evening. I was truly re-  
 joiced to find from your communi-  
 cation to Mother yesterday that there is  
 every prospect of your recovery - &  
 that so many friends have interested  
 I worked themselves on the occasion.  
 I was a good deal amused that George  
 had not told me till 3 days ago that  
 a letter from our brother had been  
 written - He had forgot to tell me  
 sooner from the circumstance of my  
 having been out of town when you

write to him at first on the subject.  
I got Graham's note as I was preparing  
to go to Glasgow where I staid only  
one day. As I intended to have it  
written to Lord Robley tonight or to-  
morrow at farthest, if your letter to  
Stokes had not mentioned the affair  
I should not be decided immediately.  
I have been thus particular because  
I should feel much less if you  
had thought me necessary even for an  
hour on such an occasion.

I went to Glasgow entirely to have  
some conversation with our friend  
Graham. As you will receive in spite  
of your bias on the subject in a few  
days we think that Count de Wintz  
(being how successful your splendid work  
has been) might be induced to publish  
a couple of volumes of L. Indian species  
I fear that many of the subscribers

I have much enjoyment in  
though when you  
to complain of the conduct of the  
power, I fear no other bookellers can  
command the same sale, particularly  
on the continent. I am much obliged  
though we may not be able to  
dispute the affront. In the mean time  
Hooper & I are about to draw up  
a list of the species (found) in our  
herbaria, with specific characters of  
young & other new species. It has just  
been published in the Botanical Miscellany.  
The right of priority  
to all three. We have it besides  
in contemplation of Alar! The trade  
(our eyes are to men of science!) smile  
on us, to announce a Species Filicium  
in 2<sup>to</sup> (the size of the Flora borealis americana)  
to be published in parts with some  
plates. say about 6 plates to each part

of eight sheets. - whether five being its  
weight would matter in the mail. - but the former  
I should prefer to publish the latter work, and  
I believe contribute to the plates - to my  
own use provided you returned copies of  
the work to the same amount of value.

I thank you for your  
kindness & the fact of your own  
book. - why if we were to act  
sincerely & selfish ambition are the  
our faces against the economists  
should calculate that they spent  
that depends upon the utility of labor  
work or calculate these according  
to their own standard - pounds, shilling  
& pence!

Believe me

Very truly yours

J. Affectionately

W. G. Wells

W. G. Wells

July 23<sup>rd</sup>

I begin this letter, my generous friend  
with a feeling of having many things to say  
to you, and I begin as I  
ought to do. I am indeed  
with the rebellion of your family. The  
beautiful volume which came to my  
hands yesterday, exceeds what is  
usually so in fact any which have  
presented it. I have scarcely yet in-  
spected my gift with the splendid  
flavour. **.V** At home here I get  
had to read their history. At home  
it is to be acknowledged the  
... at the moment I was  
dipping my pen for this purpose came  
a letter from dear Miss ...

inform me of her father's death - It is unnecessary to expatiate on his character to you - My dear James was extremely fond of him - & always compared him to the fine character in Richardson's Novels, the Charles Grandison - The gentleman & the Christian were so delightfully blended in his composition, the first void of affection & the other of bigotry, that we may seek in vain to find his equal - I really dread  
eye over <sup>^</sup> <sup>tf\*~r</sup> hope obituaries - so many have followed to the silent grave since the great day I have witnessed, of that recent & devout A. Lewis - - to Mr. G. M. in you within a few weeks - one of my husband's most frequent & amiable correspondents - I had pleased myself with thinking that both these gentlemen might have been amused and gratified by the Memorial I have been engaged in copying of their warm friend. I

-y^^v\*^

After full spread that before this work was  
the light, at whose approbation, I should  
most value, who he goes too - I have  
in my letter to Miss Kindred, tried to  
persuade her to come to see me at Norwich  
& I think she should request that you should  
also do me the great favour of making  
an excursion to Norwich, should your affairs  
admit of your absence for  
the fortnight - Before you leave  
England, I shall hope for the  
pleasure of seeing you at Mr. Wallcut in  
Norfolk - but should prefer for the  
enjoyment of good friends company, a  
later season of the year, when London  
is less pleasing. The Country more  
attractive - I must tell you once again  
how pleasing yet how strange it is to me  
to be thus perpetually obliged for a costly &  
well beautiful present, to a friend I never  
saw, & to write letters to receive letters for one  
whom I should not know if I met him in the  
street.

get at the same time, am more acquainted  
with & know more of his mind. than I do  
of fifty persons whom I have lived with  
these **!/?\*£/\*\*\*!**

Glasgow, Dec. 25, 1841

My very dear Friend Reply, 10 Mch

You are 45 the 18th of July of this  
year. I was 45 in July of last year: you  
that have the start of you in age by 6  
months. But in botanical work a man  
feels 10 years older without the least feeling  
of age, but of admiration & love & esteem  
from 20 years behind you. They  
kissed I receive from you prove to me more  
valuable than much the world can give  
you any thing concerning Indian Botany  
is a more matter of astonishment to me  
how you could have procured so much  
& determined so much previous to the  
distribution of your plants. I am sure  
my Protestant in Europe & in the world  
is your debtors & ought to do, with  
heart & good will, every thing in his  
power to further your views & that  
not in the Ellenborough fashion. I only  
I laughed at my whole family too at  
the expense of that noble Lord. General  
was here when you most delighted  
other animals & I could not resist the

that intention! I shall indeed be very  
 glad to see him. But I could have wished  
 had come home under some of the evening  
 steam. I am in doubt as to whether to  
 light for all the landmen. They are  
 sure of me in that long letter to you which  
 Graham sent to you, & which I again re-  
 turned to Graham.

W

Rec<sup>d</sup> 1831

My dear Wallick,

This is the duplicate  
I spoke of in my original  
despatch. If you get both  
let Mr. Vign, the Secy.  
the Zoological Society, have  
his choice & the poss. of the  
other wherever you think  
it will be appreciated.  
Civics need to be one of your  
correspondents - if alive, let  
him have it.

Yrs affectly  
W. Moogson

18/11/2018

Dear Sir,

rec<sup>d</sup> per Mr. Bell's 20 Aug

The melancholy death of my brother wife Father  
knew in season for my delay in writing

The enclosed correspondence respecting the people intended  
to be sent round to America will I am sure be very  
pleasing to you, but I hope it will convince you  
that I exerted myself as far as I could in endeavoring  
to procure on the people to go, and that I shall be bound  
down blame for the failure

Mr. Bell's was here yesterday and told me that  
he had seen you, and promised that he would look  
in the garden - he did so for two or three hours, and was  
pleas'd to say that he should write to you and say  
that it was a very favorable report I am sorry to  
say that I was too unwell to accompany him and  
not having yet regained sufficient strength to walk  
any great distance

There have been numerous applications for the in-  
struction become vacant by my brother's death, but no one  
has yet been appointed - by the correspondence respecting  
Robert M'Intosh you will perceive that Mr S. M'Intosh will  
probably abolish the Establishment at Hanson, and that M'Intosh  
is likely to be placed here as Governor. I have not however  
known that such 4 ^ . \* \* ~ the case

I have received a letter by SS\* \* + '/\* \* y#.

Plans for Capt. Jackson of the 1st Regt. Iowa Inf. from  
Mr. Call and understanding Capt. J. to be an old  
friend of yours as well as of course acquainted  
with the latter in furnishing the very fine  
Album.

Having nothing further to communicate  
I close by sending for the receipt of this letter  
by the subscriber myself.

Yours perhaps and  
most obly servant

W. Gordon

also) Mr. John Cole N. y. Bull Shavers  
Blairsville

In God's Hands 12 Feb 1834

Dear Sir

To those who are of the nature attached to the Post Office who would accompany an Officer now going for a few months to America and returning in the spring, I have the pleasure to state that on his return he will be able to accompany them home. The party will go on for a few days on the Canada and if you can mention the names of the individuals who is fit for such a duty (such as the name of Mr. Charles or the name of the person) also the salary he will receive in addition to the allowance of 20 or 30 Dollars per annum will be given to him while employed on the proposed tour.

Yours truly  
G. B. Miller

In consequence of my business with yesterday evening, I regret to have been late of Saturday and for which I beg to apologise. I am not yet too late for me to obey your wishes. The bearer of this I should like to know as one of the duties of the office is to be with Mr. Walker to New York in 1834 and I should like a few persons for the purpose of the allowance at that time. I am sure that I should be very much obliged to you if you should give something additional. I am  
G. B. Miller

Bel. Gen. 14 Feb 1834.

Dear Sir

Mr. Charles Walker desires me to enquire whether there is any person in the Post Office whom you could recommend as qualified for the duties of Acting Secretary and make himself useful to the Post Office. The enclosed will more fully describe the nature of the duties he would have to perform.

Yours truly  
G. B. Miller

Mr. Charles Walker desires me to enquire whether there is any person in the Post Office whom you could recommend as qualified for the duties of Acting Secretary and make himself useful to the Post Office. The enclosed will more fully describe the nature of the duties he would have to perform.

to conclude that the above man is for the purpose required. Mr. Sinton mentions that he would take the views of Mr. Phelps on the subject. If I am wrong in any conclusion they be apologized, and will, immediately look for a person suitable to undertake the duties required of him.

1839  
15th Feb 1839

Mr. Phelps desires me to visit on the evening of 13th Feb 1839 of School No. 4 and 5 under the charge of Capt. Perkins - the former to receive the same afternoon as when detached with Dr. Bellard and latter to receive an advance of pay.

Py S >

Mr. Phelps desires me to visit on the evening of 13th Feb 1839 of School No. 4 and 5 under the charge of Capt. Perkins - the former to receive the same afternoon as when detached with Dr. Bellard and latter to receive an advance of pay. I find a message that the latter object to go, and the former 'iJ\*'- S\*+\*' without attendance to the extent that he formerly received. I try to state that Mr. Sinton's note of Saturday last, the receipt of which I mentioned in my letter to your address of this morning, led me to believe that I might promise the man who might go on Sunday afternoon. I further have to state that Charles Kline was allowed at the time he was with Dr. Bellard to receive pay from Mr. Sinton.

15th Feb 1839

Dear Sir,

I try to make a note by which you understand that Mr. Phelps has allowed two of your lot to accompany me and I have given the necessary intimations to the Marine B. Co. and to the Capt. Dr. Perkins. The men must be on board the vessel on Thursday. Mr. Sinton desires me to request you will get every thing ready for the meeting of an Association and what you may be necessary to give effect to the proposed object of the meeting. - I shall be obliged by your answering letter. I shall

18th Feb 1831

My dear Sir,

19th Feb

Had Mr Captain Sutherland's letter. You can speak  
to the partners & explain to him what Mr Clark, is wishing  
to be done. & send him back to the partners with a note  
to Mr Paken mentioning when the vessel will be ready to sail.  
I am as you know.

Yours &c  
Wm. Sutherland

My dear Sir,

I am very sorry that this affair of the partners should  
give you so much trouble.

Mr Clark contended that Mr Paken was too unwell  
to be called at.

That Mr Paken was a sick last night to prevent the  
partners attention had been given to them when they were  
with health, whether that was 18th or 19th - and  
Mr Clark still continues to object to anything more being  
done.

Yours &c  
Wm. Sutherland

Mr Paken

Dear Sir

The partners who accompany them (the ones above)  
appear to be willing to go on the terms mentioned viz  
18th & 19th and if I am not mistaken on this they should  
be on board the vessel at 10 o'clock tomorrow afternoon - as  
the ship will certainly sail without fail on Saturday morning  
Yours &c  
Wm. Sutherland

8 P.M. 19th Feb 1831

Wm. Sutherland

Yours to advise to you for the information of Mr S. Sutherland

that I did, as I supposed, secure the services of two men  
to accompany Capt. Gardiner to Moscow yesterday, but that  
the principal man, Abdool Mohamed has now absconded, and  
is not to be seen at the station to send the other

I hope that Mr. P. Mitchell will not be offended with  
me on account of the man being so shamefully deceived  
me: and I have that the enclosed note from Captain  
Gardiner will tend to exonerate me from blame.

\* N.B. The note preceding this. <sup>from Mr. P. Mitchell</sup>  
P.M.

Mr. P.M. 14<sup>th</sup> Feb.

Mr. G. Gardiner's note does not mention Mr. P. Mitchell as  
to be from the disappearance of Abdool Mohamed who will  
of course be no longer considered as belonging to the  
establishment of the Botanical Garden - I have the pleasure  
to return Captain Gardiner's note.

Mr. Charles Mitchell's resignation of the Botanical Garden  
from the 1<sup>st</sup> April to the 31<sup>st</sup> Dec 1830 has at the  
same time expressed some dissatisfaction as to the  
and with the explanation given by Mr. Whitworth - he  
thinks that the situation of Plant Collector in Moscow  
is to be established and seems to know for you whether  
Mr. Whitworth be justified for those of Moscow in the Botanical  
Garden - whether Mr. P. Mitchell or he has been long in the  
Department and what are their respective claims.

Yours  
James Mitchell

Mr. P. Mitchell's note.

Mr. P. Mitchell is willing to have enquiry whether Mr. P. Mitchell the  
from the public of the garden that he was an apprentice here in or about 1809 or 1810  
but that on his resignation etc. to Mr. P. Mitchell he has known him and that a year or two  
before his going to the Botanical Garden he had of my knowledge been above conducted himself  
with propriety.

Yours  
James Mitchell 22<sup>nd</sup> Feb 1831.

1837

returning, the

of the species *\*ij aest&iAr flutM fJiru,\*L fe.* Deputed to your wishes. It is a character of *Leucocephala* of Rosburgh, be so kind as of send it with the next letter. I have found that the stigmata of the *Leucocephala* are *unicifida*, *capitata*, *D*, *trifida* *H*, *quad* *f* *o*. Pray, dear Sir, ask our excellent Dr. Brown, whether he judge such difference striking enough for distinction? I do not recollect in the present, it being a long time since I have analyzed your species.

In that work of *Leucocephala*, and *Leucocephala*, the last volume of my travel, which in four weeks shall be sent to England for your and other friends. Because you need not language of there yet there yet a copy for yourself, except that for the Society.

Some two weeks ago I sent a box to Mr. Scudder and White, which contained *Leucocephala* and *Leucocephala*, which

'j^ε

'^ wetter

at present sent to you, what perhaps you would kindly accept. Preparing the end of my balance I thought I might give three fine geographical tables, like the of Prof. Schiner, on the diffusion of *Leucocephala* on the earth, on that account, therefore, I request you, my dear Sir, of writing on the maps the lists in which you have observed the most common *Leucocephala* in India, as *Leucocephala* and *Leucocephala*.

*lirliiliA^t*

and if you will favour me with some other observations on *Leucocephala* and *Leucocephala*, I shall be very glad to receive them. I am, Sir, your most obedient servant.

dissatisfaction, I shall be highly gratified. —

You mention in your last letter, that you will go back to India in 2-18 months. I cannot express to you how ardently I wish of being the pleasure of seeing in your friendly eye before that before to put you the hand and express my feelings of attachment and gratitude if in any way it is possible to me I come to England. God may prosper us for a year, and then, if all remains quiet, it will be easy enough, to make the disposition on the Rhine. But there is yet another project. Let you with A. Brown would come to Munich for going all together on the Danube from Rotterdam to Geneva!

It is not the time of making plans, but if we are not intercepted by wars, I hope that such a project should be admissible. A greater pleasure scarcely I could imagine, than to embrace you and the Brown together and to see you at my fireplace!

May you, to speak about that with your excellent friend, and to say him, that the subjects dedicated to the benevolence of whom speak my letters brought by Mr. Noel, are not yet sent over for some dilatation or colouring. My kindest regards to him and to Mr. Lindley, to whom I send letters and seeds by the kindness of Lord Evershine, who went to England a week ago.

After having received the box, which Mr. Hume man announces immediately I will have the pleasure, of writing to you. — Adieu, my dear Sir and friend! God bless you with all happiness & cordially wish upon you  
Yours

Munich - 10. March. 1792.

respected and sincere friend  
Mertens.

My dear Lord

On my return home last evening I had the honor to receive your letter of the same day. I hope I may be true to say that there can be no member of the Society of Antiquaries more sensible than I am of the pre-eminence merits of Dr. Bellin in his present scientific occupation & who entitled him to the highest respect for his character.

I have nevertheless been opposed to the pecuniary grants made to that Gentleman specifically on the principle of Pension Allowances to servants or favorites.

and generally with reference to the past  
and present times of difficulty when  
we are pleading our former mis-  
take too much justice the inefficiency &  
embarrassment of our finances and  
endeavouring to relieve them by the  
most painful exertions of economy  
in every branch of the service at home  
and abroad -

But it will give your  
Honourable pleasure to hear that the  
Committee of Correspondence has power-  
fully recommended to the Court the  
continuance of the allowance to be  
paid for another year from the  
next month in order that the

d&--\*^i-^411&

My dear Friend A) rf

Perly 21

I cannot refrain from causing you  
to subscribe to the expenses of the vote by paying  
postage for my most hearty, delighted, congratulatory  
letters. I have just received your letter dated  
the 10<sup>th</sup>, & rejoice in the prolongation of your  
leave for your sake, for the Company's credit,  
for my own sake, for the sake of Potany &  
of Potanist. But do not fail to visit, when  
the last clench is put to the firm which  
will secure your residence with us one year  
more. In these days of revolutions & division  
of houses against themselves I feel sure of  
nothing till everything is sure. Respectfully I believe  
I shall be awaiting in the morning full for my  
Dear

had within my right lap before I had <sup>be</sup> ~~been~~ <sup>&AJUC\*</sup> that  
C/L &\*U<AAA&i C^ C#l>\*'L44Ct&<V>. with my shoulders -  
more especially I shall be uneasy about <sup>&ju\*\*</sup> con-  
cerns ~~the~~ till they are all doubly sure, recollecting the  
stage to which they had gone formerly, - Write me therefore  
my dear friend as soon as the next mail <sup><y JU 4UL</sup> in  
to the land - I cannot flatter myself that I was  
in **TTTZ** specific to the fulfillment of your  
hopes. - If I could my dear friend I should begin  
to grow taller in my old days for certainly I was  
had my head much higher -

Certainly my friend I shall visit you <sup>Sl^\*\*\*</sup>  
Till the next season - I cannot before the last  
week of August, but from that till the end of  
October I shall be able to spend a month or  
~~over~~ 6 weeks if necessary, but that is the only  
period at which I can leave Edinburgh **1C jfy\*^<**  
February 1852, I was at this last date my  
time

The time (tho' I were sure to live as long) must be  
uncertain as I have found by sad experience  
this year. - I had a month ago finished my  
share of the Clinical Lectures, but I was  
taken ill, & I am obliged to resume  
my labours there again with little probability  
of terminating them before the 1<sup>st</sup> of August.  
Your Friendship with the highlands with  
my Botanical Pupils, & I am not without  
hope of having Henderson with me in Scotland.  
I should like to visit all the men you  
mention, but I would much rather have  
you all town. I had last year. We

should show a  
I would rather therefore that they did not arrive  
till we were done with the Cyamoids. - Tell  
me at what period you expect them. - I sent

W. W. Wallis  
21 March 1834

Westborne Green  
Notley Hill 27<sup>th</sup> Mar 1834

My Dear Sir

I received my parcel of  
Fossils, for which I return you my  
most sincere thanks, but you  
will still farther oblige in sending  
me by the bearer that part of  
your list from N<sup>o</sup>. 1090 to 2040  
which includes their Names -  
the list I have extends only  
to N<sup>o</sup>. 418. - I ever remain

Dear Sir

Yours faithfully  
W. W. Wallis

My dear Sir,

My Prospectus is  
now ready. I am  
desirous to submit  
it to you, to consult  
you on its circulation,  
and to obtain your  
opinion. I therefore  
forward to you  
one copy.

Yours truly,  
Wm. W. Lusk.

Dear, Anonymous;  
Wednesday between  
11 & 12, in Paris St,  
and if you can make  
a convenient time  
we will take some  
detail the course  
of the road. If you  
convenient from early  
then they found me  
with a train, and,

should you be at  
the house - then on  
Monday, next in  
me.

Yours faithfully,  
John Thompson.

John Thompson.

If you notice them, I  
will mention my copy  
to Brown and Green,  
some of the proprietors  
will be in.

Cambridge 25 March 1931

My dear Sir,  
I don't send this as a  
present but to show you that I have duly  
acknowledged the continuation of the  
E.S. Co. presents. Have you succeeded in  
your application for leave of absence?  
I would better you with a long winter  
letter.

Yours sincerely

J. H. Newton

Boston March 20<sup>th</sup> 1881.

Dr. W. H. Allen

London

Recd of Cash

My dear Sir

I was after the commencement of the present year - I had had some - a pleasure of receiving from you, the contents of any letter, a box containing a continuation of the plants with which the Honorable East India Company this year means has honored me. I need not say how very valuable & acceptable they were, although from various causes had the to reach, whether the package I received was the one originally intended for me, or whether some mistake in the shipping way had taken place. For besides the duplicates noted on the next page, which the second transcription contained fewer, the Catalogue - there were 30 Synonymical plants the numbers which are marked with a C prefixed, & do not correspond with the Catalogue, being evidently Cape plants, if I am not mistaken. I regret this still on account of my being thereby deprived of their records, most of which I was unable to identify. - I should be highly obliged if you would fill paper one with the names. Besides a letter from my friend Dr. Hooker, received from above expressly stating, that you had kindly mentioned to him this second transcription, as being much more considerable than the first in number, while the one I actually received is not quite half as numerous as the first. Nevertheless \*P s^&\*mi\*\* one by saying that I thought it quite well. I should have

^^\*^^^t^

Repat Providence  
April 2. 1831.

My dear Mallick, rec<sup>d</sup> Young 4832

I have long  
intended to write to you:  
but what with expecting  
your immediate return to  
us, and receiving a letter  
from you, passing of you  
through my parents, &  
several other various cir-  
cumstances to mention, I have  
neglected to do so. Now,  
however, having some thing  
special to say, I take up  
my pen with the greater  
pleasure that I have  
not used it in your  
| -f behalf so long.

I am  
/ftzz-^C \*\*\*  
yours  
O. C.

two boxes containing as follows

2 Mice of *Bucones nipalensis*, young  
1 old.

1. 1 SZ^ Thar or Babaline antelope  
head.

2. The *Piania* or wild dog of Nepal  
young male & old female.

1. The *Felis Moormensis*, or Moormingal

1. The antelope *Hodgsonii* or *Chiru* of  
Tibet

1. *Circus nipalensis*

2. *Columba nipalensis* or *Banbajwa*  
male & female.

2. The Khatick Pheasant *Leptoceros*  
*Cuvieri*, male & female.

2. Two specimens of the *Myophonus*  
*metallicus*, *Turdus* *met.* *hopfieldii*.  
Nepal.

1. The *Myophonus* *varius*, *Turdus* *v.* *hop-*  
*fieldii*, Nepal.

1. ^ ^ A drawing of the *Piania*  
on Nepal paper, size of life.

I was also despatching by you, through  
the same Channel, a tin tube  
containing drawings of the  
Mucrona Nepil: f?Z &\*L^ ?%L

antelope, of the Moomi Cat  
the <sup>OZ^r,</sup> <sup>jc^t^-- 4^.-7</sup> «? A^>^ ^ the  
Buenos. The same tube also

contains <sup>\*e d+^f</sup> description of the  
Antelope & Cat: & for an  
account of the remaining  
animals I beg to refer to  
the Cal. Am. Soc. Transactions  
Vol VIII. n 1 of the P. <sup>^Sr^f^i</sup> <sup>^f></sup>

I have already sent you drawing  
/ /te< <sup>^s</sup> description of the Chirui antelope  
or rather two - one, bad, through  
Richardson & one, amended,  
through Mr Calder. But since  
the despatch of the latter I  
have seen reason, from putting  
many things together <sup>v ^-5-^L^^</sup>  
whether there be not an error

still left in the description. I have  
said that the animal has  
suborbital sinuses: & so I thought  
when I wrote it, judging from the  
wretched skin before me. I have  
now three skins & though they are  
all bad, a comparison of them  
persuades me that the Chin  
of Tibet has no sinuses. The  
~~wretched~~ live animal was here so  
long ago, my notes upon it were  
so rough, that I made too when  
I cared little & knew less, about  
these matters, that said notes will  
not now aid me. I could wish  
however, the words of the description  
sent "So likewise are the sub-orbi-  
tel sinuses" to be erased & the  
words "Suborbital sinuses, none?"  
with a note of interrogation to be  
substituted. Specially if written  
from the examination of the  
skin sent, be of opinion that  
there are none. I see the Chin  
is noticed in Griffith's Currier.

I long to see what is said of it.  
I have ordered the book from  
Richardson of Cavahill - but he  
has not yet sent it. You  
must give my thanks, drawing

Lds captions to Mr **r/A,**  
the Sec<sup>y</sup> of the **-J^f,** Society.  
unless you have particular  
reason for disposing of them  
as you conceive more advanta-  
-geously for science - & that  
I can hardly imagine - for you  
to judge by his writings, must  
be one of the ablest naturalists  
of the age. This society, a right  
proud one, shall appreciate.

I hope you are happy & flourishing  
so I hear you are <sup>></sup> usefully  
fully employed. When are we  
to see you again in India?  
I have come on your bags & have  
you an notion of getting any  
them out here  
partner will be in his hands

Sff »

the <sup>-^^^<^rO</sup> . JZ- <sup>vi</sup> my love & kind  
Dear Sam still <sup>S</sup> state you &  
still <sup>K\*\*\*'</sup> certain of the <sup>C^C'^L</sup> late  
pleasure of the Fielding's work  
-enter was a mere resemblance

be to thank you in Person ^ 0

K-\$L A-^c^ tfU/ & M^^

behold with his eyes the glories of the Himalayan  
Prospects! Your splendid plants seem  
actually a new creation, so novel in form &  
colour that delighted as I am to look upon  
them, it is always mingled with regret that  
the individual who would most have  
enjoyed the sight, cannot partake that  
pleasure, at least with me - I console  
myself with the cordial hope that his  
good & intelligent soul is reaching in  
wide fields & ever now perceiving more  
of the beauty of Creation & the goodness of the  
Creator than our limited faculties could  
do - I am much pleased to see the figure  
Saussurea Geysseria an excellent name for  
a Mountain adventurer an Alpine man.  
but why have you altered it from Ericoryne  
hidularia? I do not know the name of the author  
of the Prodromus Flora Nepalensis to whom you  
have given a delicate thanks - I am afraid he

will suspect your name is topped with Acrostichum  
perse - As it is the fashion with modern botanists  
to subdivide, & make new genera upon slight differences  
I wonder the genus Quercus has not undergone  
\* a change - All the European & I think American  
Oaks have lobed leaves but your Quercus <sup>is a</sup> land  
Quercus & Quercus & Quercus have entire ovate  
leaves. There is something in the manner of growth  
of the acorns so entirely different to any other  
Oak, especially in Quercus. That at first sight  
I did not suspect it belonged to that favorite tree.

There is a piece <sup>A</sup> <sup>4\*</sup> <sup>t</sup> news that Acrostichum perse  
is coming to the Quercus & Quercus some of the  
most Quercus in our Quercus - How do you  
think she will be received?

<sup>tjFt^jO</sup> you see any of the Quercus <sup>jE</sup> <sup>+</sup> Quercus  
I shall my affectionate regard to them -  
By Mr. Walker will allow me to offer my  
kind regards to her. Some more clear will  
let me assure you of the grateful attention  
of your deeply indebted friend.

Geneva 1st June 1861  
2nd April 19  
Reply to the same.

My dear Sir  
I am happy to know that your previous favour being met it after the  
reference and the justice of your application will promote, and I regret that  
you must sincerely for it though you have yet been own for the  
than any health is just before you, the total accomplishment of your  
will enterprise is a great point not only for Science but also for you  
own reputation and future happiness. What would have been one of your  
collection, without which it would have been and preservation of the  
found A; the result, perhaps in some places than totally captured by another  
specimens of history, or specimens by other too well known in the  
of about some of your specimens of which we talked but because we  
do not know that of the gathering proper now you to you  
I cannot but approve your scheme of selling for the acquisition of specimens, than  
you is now agreed, and what you ask is after all for the benefit  
of Science. Of «C\*\*^X I hope you will receive favourably, and to your proposal  
in a engaged point >> from the day of a young to long i \*\*L  
me, my dear Sir, nothing would please me more than to see you in  
months in your house and to see you and walk with you and find  
brave, but also I will tell you the situation in which I am and the  
point which I derive from it, you will understand the object and reason  
I had the pleasure of writing to you a very private proposal, as it  
has been made in our University to call on to the office of Secretary  
of history, with the management of the botanical garden, and having undertaken  
to make every the matter with the students. The proposition has been  
examined by the various Council, and approved by our Government, the  
in which it was done and felt me and suitable and urged me to send  
myself entirely to the duties of my own office. This letter being from what you  
call is before a business, but for two very good reasons. The first is not just,  
but not f either one to me, it will have a great deal of time and you  
are free attending to any other thing for some months or years. The requirement  
is to require me with any military duty, and therefore it would seem to  
be the proper circumstances. I must say also that the title of Professor

Rd 22<sup>nd</sup> April by your  
Mr W. Webb

Many thanks to you very & certain for your  
continued kindness - I have just received

your **6<sup>^</sup> A\*** of Mantel & Paves (I a  
most beautiful packet is) & your address  
etc & another package of specimens - The  
thousand thanks for all your undesigned  
kindnesses - My man sent me at  
the same time your packets for Arnott &  
Sewell, & I have forwarded them

You will be sorry to learn that I  
have a few days ago lost by inflammation  
of his

of his bowls after a very short illness,  
my very affectionate & sincere loved brother  
late of the packet service - He was with  
me about a fortnight ago in Dublin  
as promised long life - & I am just  
going into the country to  
body to the grave - May God prefer  
us all for a similar happy summer.

Yours for ever yours  
my Dear friend

Robt Graham

Edin: 13 April 1831 -

Monsieur!

rec 6<sup>e</sup> Octo  
1834

J'ai l'honneur d'annoncer la réception des deux paquets de plants  
 et de suppléments de Catalogue que vous m'avez fait la bonté de  
 m'envoyer au nom de la Compagnie des Indes orientales, au quel  
 vous m'avez fait la complaisance d'ajouter les listes de  
 nos racines dans vos ouvrages botaniques, et de m'en  
 adresser une copie avec votre adresse et de m'en adresser  
 non seulement pour la suite de la formation de  
 la Géographie des Indes orientales de M. Linné que le botaniste  
 m'aura dans 1- ^~^ i/^ > 'S^\* — , / \* vous qui si elle demandait  
 soit le temps de la recevoir avec attention il en vaudrait  
 peut-être quelques observations qui sont tracées dans  
 supplément qui sera imprimé dans le courant de l'été  
 j'aurais la p < £ , ^ '7 > ~s'i-~> \*\* . — ~^M v~ p~ il en vaudrait

r"?~/

My Dear Mother

I am happy to inform  
you that the result  
of my last application  
to Mr. Cameron on your  
behalf has been very  
favorable, and has  
left no doubt on my  
mind that he will

My Dear Sir

I have been favoured with  
your Note, of the 13<sup>th</sup> Inst; and I shall have  
great pleasure in seeing you at this House  
on any Morning Next Week when you  
may happen to come into the City;  
I am here about every Day from 9 to 12  
& 4. (Sundays excepted).

I am Dear Sir

East India House  
15<sup>th</sup> April 1731

Very faithfully Yours  
Wm. Fisher

Dr. Wallich

try to remedy that with what can be collected  
of old records and if I can find any by  
the purchase of the estate

You have received plants from Montserrat  
under the name of **A** *Andropogon* and one plant which  
Mr G. H. B. has named might be called *Maingyia* **sp**  
I would say that the former turns out  
to be an *Andropogon* but *Andropogon penduliflorus* and the  
to be a "Goussier stone" there is however one other plant  
there is now to be said to yield a kind of Gum.  
I give a specimen of *Andropogon* there reports that  
**^** **£** Mr Charles who those will verify it.

I am happy to state that **s** my **y, x- ^**  
strength continues daily to improve. I being now  
able to walk a little without the assistance of a  
stick - There some **sj£^** now of ultimately **Syr**  
recovery.

I should **Jrtf** you have informed for these  
**&\*>** **£k** **£k** **£k** been in a very  
indifference state it has never before out of **£k**  
the in it some **£k** disturbance from here, and  
very duty. Mr. Browning has the **£k** **£k** **£k**

Cambridge 19 April 1881

Dear Sir

My dear Sir,

Let me rejoice that our  
opinions have acted rightly. I am truly  
glad that you have obtained permission  
to visit the year in England. My  
article in the Gardener's magazine I see  
that leading Botanists have volunteered  
their services in the way of writing the  
paragraph on certain families. My first  
impression on seeing the notice

0

<L\*

<\*L->

<\*-

after you would in addition, but a  
little reflection has convinced me that  
I ought not to do so. I am writing  
my reasons - I should take one longer  
wait & for some trouble than it  
will give any one of the men mentioned

4

\*W & S?\*-t

-v\*

to prepare any account worth putting  
- but it wd not be troublesome had I should  
- mind if I were justified in so employ-  
- my time, which, under my present  
- circumstances I feel most strongly  
- I wd not be. The duties of a Professor  
- ship for the present require all the  
- I have to spare from <sup>the</sup> other employments  
- which the scanty provision made for  
- us in the Universities obliges me to have  
- recourse to for making an honest  
- livelihood. I have a Church in  
- 4 or 5 pupils during term which engages  
- so much **<f** my time that I am obliged  
- to reserve my vacations for my liter-  
- -ary studies exclusively. If I were  
- to undertake any portion of the task  
- you have in **¥?.. -b S** must necessarily  
- neglect my own duty of providing fresh

51 - " \* « 4

k- \*

I inclosed materials for my lectures.  
I fear that I shall not seem very per-  
suasive for this attempt to justify myself  
in your eyes for not doing what one  
is expected that I should do - nor would  
it have mentioned the subject had it  
not appeared to me that my becoming  
object must have prepared somewhat of  
the objection of want of feeling for you  
I do, most positively assure you that  
I am doing much violence to my con-  
victions in not offering you a  
service, a kind of it should please  
God to place me under less restraint  
with respect to the nature of my duties  
by making it no longer necessary for  
me to take pupils, I will then imme-  
diately offer you a portion of my time  
to be employed as you may think best

The same course, present by attempting any  
 thing in the way of original research and be  
 one person (almost entirely) to the object of  
 collecting or collating the ... information which  
 some privileged historians are daily pouring

Prof. Huxley  
 1882

J. Huxley  
 at Gresham College  
 London

1882  
 1882  
 1882

in April 1882 I have over a year ago, worked  
 upon editing a Cambridge Herald book home  
 all you find time enough to spare for the  
 paper over 30 years old. J. Huxley

to present the matter, **jf** what I hope I may yet be conveyed pass. If you will  
have the respective papers of banking yourself with the necessary inquiries concern-  
ing the fate of **&-yC4** you delivered in January last to Mr. Beaumont,  
to whom it thought to be particularly assigned, in case he has already dispatched  
the case to **6** see it without loss of time and most earnestly at the instigation  
the packet or packet by which it was sent off, and at the correspondence or ac-  
quiescence on the continent to be known it was most addressed for further convey-  
ance. I would faintly think we would succeed in making out where it  
</L+Sfe\*— retained, and prevent its being misappropriated or being lost. If you  
know how very I am for young you against this trouble, in addition to  
y our having already with me on former occasions, I flatter myself you  
would forgive me. This unhappy affair was not indeed a matter that I have  
been unable to drop every night from anxiety about it. The two former papers  
I **p f** happy to receive from you soon, in March and the other in October,  
but you were arrived rather quickly, though forwarded by different ways,  
the former by **£\*+\*\* £/** Belgium; the latter by Rotterdam where  
it came up the Rhine as far as Mayence and from there by land to Paris.  
One of my old conjectures about the probable cause of the delay of the packet is that  
**±ALS J~** perhaps sent to a Belgian sea port **~~~Ss** **^ / \* , , ,**  
had been fully discovered **\* — C-r,** **~~>** it had been intercepted and for-  
gotten, if not stolen or destroyed. At all events, I think it probable **/2~s** in  
the future your packets if sent will still be declined for us by your liberty,  
be sent by the way of France or Holland, but not through Belgium, at least  
as this country is in such a convulsed and confused state as at present  
but now, after this very unpleasant report, which, to my greatest regret,  
I was obliged to hear, your <sup>dear</sup> **politeness** let us return to your dear, dear  
letter, and offer you my warmest, though <sup>very</sup> sufficient thanks for all  
the kind expressions of your undiminished friendship at intervals. Both often  
you I read it again and again, that I may have in which

r~\* &f\*~\*~\* \*\*-& &• ^~\*~\*-/-&&~ ^y~\*/

... which, however in  
... you have at least conferred - of that  
... of all the value and most earnestly des  
... all in his power. My best and  
... your health and welfare shall always accompany  
... as of a friend and benefactor with whom, though I  
... when

£~+&r 4\*~ 6£ <!\* j£ T+ I H^ ^^ d. and /C£-,~^\*\*\_ \*^\*/

the untoward war and almost half the globe will separate us, they shall  
offer search and follow you with great warmth of affection amidst the  
plans and projects of India. May your departure however  
for such a distant station, and most probably a long absence, be yet joyful.  
I am perhaps should I be happy to be one of my friends? In  
wishes in following you to returning in of visiting you - Good  
London etc. at present, I see no possibility of being at this station, and I  
am completely unable to make myself free even for a few  
days.

W  
Letter from Lord Somers to Mr Bentham

Downing Street  
28 April 1831.

Sir  
In consequence of the death of Mr Macrae  
who was appointed to the situation of Superintendent  
of the Government Botanic Garden at Naples, on the  
recommendation of the Horticultural Society, Lord  
Somers has requested me to apply to the Society to  
recommend a proper person to be appointed. Mr

Macrae's successor Mr Macrae, although in other  
respects qualified to fill the situation of Super-  
intendent, had arrived at a period of life which in a  
great measure incapacitated him from active  
service.

In nominating his successor, therefore, care  
should be taken to select a person equal to Mr Macrae  
in Botanical knowledge, and of a constitution  
well adapted to encounter a tropical climate, in  
that it is very essential that a young & active

non domed de appointed both situations

Monsieur

J'ai eu avec une vive satisfaction par  
la lettre que vous m'avez fait l'honneur  
de m'écrire le 31 Mars que vous aviez  
obtenu de rester encore un an en  
Angleterre : j'ai communiqué cette bonne  
nouvelle à nos amis communs qui  
l'ont apprise avec beaucoup de plaisir,  
& ils sont charmés d'y avoir un peu  
contribué.

J'ai mille souvenirs à vous  
faire du nouveau monde de plantés  
du Sud que vous avez en l'estime  
complaisance de me faire à qui  
me sont parvenus en très bon  
état. Les caractères sont magnifiques

L'ouvreur une belle idée de  
l'admirable végétation de l'Inde qui  
vous avez fait contribuer à faire  
construire & par vos distributions  
si généreuses & par votre superbe  
ouvrage qui tendra le précieux  
sang par la bonté des gouverneurs  
à par grand sVi^r. que vous  
avez au dernier avec votre que  
la accompagner.

Veuillez présenter mes complimens  
à M<sup>r</sup> Brown gettaker & à M<sup>r</sup> Nathan  
lorsqu'ils seront venus & agréer leur  
nouvelles assurances de la parfaite confiance  
avec laquelle j'ai l'honneur d'être

Monsieur

Votre très humble  
obéissant serviteur

Sir,

May 3. 1851.

My dear Sir

In reply to your letter of the 28<sup>th</sup> ult. <sup>s</sup> / referring to the Horticultural Society for the recommendation of a proper person to succeed the late Mr. All. Mac as Superintendent of the Government Botanic Gardens at Mysore I have the honour to state that there is at present in this country a young man whom I believe to be particularly well suited to the situation. His name is James Watson he is a native of India and was born of a European Father & Madrasite Mother. His constitution is therefore not likely to be affected by the climate; and he is perfectly acquainted with the art of cultivating plants as practiced in India. This he learned during his app<sup>o</sup>intment

in the East India Company's Garden at Calcutta.  
He was brought to England by Dr. Wallich for  
the purpose among other things of becoming  
acquainted with European Architecture.

I enable <sup>-Zl\*\*\*l~\*S \*\* d</sup> to require his informa-  
tion he was received into the Garden of the  
Society where he conducted himself entirely  
to the satisfaction of the Society's Officers.  
The accompanying testimonials from Dr.  
Wallich will give your Lordship some  
further information respecting him.

In case they should prove sufficiently  
~~satisfactory~~ favourable to induce His  
Majesty's ~~Government~~ Government to nominate  
Mr. Watson to the appointment, I should  
take the liberty of recommending that his  
Salary be fixed at £200 a year with the  
usual allowances but I should think it also  
desirable that he should be authorized to  
expect that this sum be advanced to £250

at the expiration of 5 years, provided  
his conduct should continue to give  
satisfaction

Please the Honors to the Sr  
(Signed) George Ashmun  
de S

Concerning  
James Whitson,

recommending

his being appointed

to succeed the late

Mr. W. P. Row

Esq. in the office of

Dunburgh May 10. 1821.

102 14<sup>th</sup> May

Reply by Mr. McKello  
28<sup>th</sup> May.

My dear friends

I have this moment heard  
of an opportunity of getting a few  
lines conveyed to you free of post 1/40  
which I thought to accept myself to  
let you in the <sup>place</sup> ~~place~~ you have  
I am that you wish - I may  
as our wishes are gratified in  
 regard to prolonged absence by  
the way you might think it well  
to add any, should you have  
any business (after what I said)  
that I did write to Lord Robley  
I had hardly sent off any last  
letter to you when I thought it  
was just possible the receipt of  
a further <sup>message</sup> ~~message~~ to while he in  
time to speak in favouring the scale

I accordingly fired off a letter  
to His Lordship's instructions. It is  
all well now. <sup>\*£</sup> <sup>^^</sup> I have to thank you  
much <sup>v\*</sup> cordially for your plans &  
another one of your magazines open  
one of the best I think that has  
appeared.

Hooker was here while I was  
with him at Glasgow - & would tell  
you that we had a stand set up  
for by expedience, which cost us about  
a fortnight's unproductive labour but  
I apprehend will shake first some  
of the other pieces more effectually.

I wish with all my heart we may  
succeed in finding a publisher for an  
illustrated work on your form - I begin  
to think the only chance we have is  
to make it a continuation of your  
O. S. Hist. Char. - that is not to commence  
till yours is finished. At the same time  
I fear that both the engraving & the colouring

\*.E- Z^\*\_\*\_\*-" &~\*~tt\* "A-«S  
^  
I am more ready than for  
my plants, whole to the possibility the  
subjects are such to popular. however I  
shall be piously disappointed if  
we do not succeed, in some shape or  
other.

I have just promised to write for  
the Historical & Descriptive Account  
of India now preparing for the  
Cabinet Library here a series of the  
most remarkable & important productions  
of India which will be very short not  
more than 50 small pages. I should  
like to devote a few pages to the geographi-  
cal distribution of plants in India.  
Can you tell me where I could find  
any materials for a very broad  
sketch of this description. The end  
of the article is to <sup>be</sup> ~~gather~~ up of popular  
accounts of the most useful & important  
plants so it cannot be done soon.  
I rejoice in having by this channel  
an opportunity of pursuing a public

tribute to your exertions. It does  
not occur that as a severe compliment  
- you have done too much to me  
a severe compliment acceptable.

It was sorry to have since I  
last wrote to you, that an article  
which appeared in the Edinburgh  
of Geographical Science, should have  
occasioned displeasure or rather  
painful feelings between Brown  
& Lindley - I cannot say I  
wonder at it. Perhaps when you  
have the opportunity you will  
apologize both Brown & Lindley that  
I had no hand in it in any  
way. I drew up at the <sup>^ ^ ^ SZ</sup> of  
the Editor a very short notice of Lindley's  
introduction to the Natural System in  
the one for last December p. 31. but  
it was done with very different  
feeling, & would give satisfaction  
rather than otherwise. Having  
written one or two notices of them

description I now apprehend  
that my name might be mixed  
up with the other affair & I  
leave myself in regard to it in your  
friendly hands.

I am in great hopes of being  
able to go to London in a few  
weeks to assist you in your  
labours. It is only fair that I  
should do so - & I do assure  
you it has not been the  
want of inclination that has  
prevented my being in your  
neighbourhood long before  
now -

Believe me

Very sincerely  
yours

M. G. W. M.

Copy

Downing Street.

14 May. 1831.

Sir I beg to acknowledge the receipt of your letter of 13<sup>th</sup> May. The young man whom you have commended for the appointment of Superintendent of the Botanic Garden at Seylon in the room of the late Mr. MacRae, appears to possess every qualification which is requisite, and Lord Goderich will be much happy to engage his services for the situation in question. His Lordship further desires me to state that he consents to assign to Mr. James Watson the salary proposed in your letter, viz: £200 a year and the allowances mentioned in my former communication, and he will not object, according to your further proposal, to increase this sum to £250, at the expiration of five years, provided Mr. Watson's conduct shall continue to give satisfaction to the General and the Board of Directors.

Local authorities. He will receive help from  
from the state of his substantial contributions  
read the story, and perhaps will be permitted  
for him at the British Museum.

Very truly,  
Yours,  
J. S. ...

July 1831

Dear Sir, I have the honor to acknowledge the receipt of your letter of the 17th inst. in relation to the figures of the Palms which you have the honor to send me, that you will continue my researches in this country, bearing it to such a most noble vegetation of your Royal Palace, and I assure you, that I myself am worthy of it, but I have no other than you to thank for my friendly dedication, which I have the honor to mean you have had intention to do for your country, the rest of it is to be done in such a manner, before the coming out of which in a later time, and I have the honor to read whatever and I hope to see something of it, which I think me to receive the honor, you will certainly not, because, indeed, your friendship of it, is of great importance to me. Therefore I accept of it with the best thanks of my heart and I hope that the analysis of the flower of the Palm, and the construction of the figure of the whole palm answer to your purpose, and that you soon may see it being published in the number, which I have intended to bring out in the end of July. I have not yet been enabled of making otherwise the analysis of the Sugar and of some Restiaceous, for entering likewise in one of those noble Copies of your Royal Palace, and I am unhappily just three weeks my health is so far

4 \*

kind friend that description, that there is not  
nothing - I looked over your Papers, there are some very  
important points of Caladonia, which if you allow, is  
figured in the last number of my Caladonia. The Paper  
is still to be done if hope till February next, if good  
health. I can't but finish the Papers, all of which  
before will be published an entire with the anniversary  
of Dr. Huxley's work. I am happy to hear, that you  
will give to us for working them up with my own  
I should have some new genera must be formed in  
a family, of whose character you find an prodigious  
approximated to that figure

>\*»&£%&

indub and our excellent friend R. Brown.  
Our specimens of Caladonia and the specimens to be  
described shall be religiously returned till February  
always if calculate in the hope of seeing you  
at Warwick or at London!  
Thank you for the notice of all the books you receive  
from Mr. Truett and Whitt. All wanting I will

sent to you by Mr. Schröder of H. ...  
& c-'idt^\* nemann. r%

Indeed there is perhaps no bookfeller more careful than  
those gentlemen: I sent to them a box with books &  
part, and till now J W ifa remained in the custom house!

If you c can make, that they take a little more interest for  
publications, I shall be very thankful to you.

I beg you to make my best compliments to Mrs. S. Brown,  
to Prof. Lindley and any other friend, who makes me the honor,  
retaining my sincere

I 't was with great pleasure that I arranged the indica/pla  
you desire for, had aa to send me in the last parcel. The Agave, &c.  
are indeed very beautiful and more specious than the other  
species; but the most interesting plants were to me the Urtica,  
Passiflora, a very beautiful and not yet well understood Fol.  
which belong to my favorites for that reason I recommended  
to you, and all I beg you to present me if possible with a  
man of Nepean, because I wish to show that most interesting  
plant to my disciples.

There are four young men had under my disciples, who  
would be eminently happy,

joining under your direction <\*& C&&\* &f\*# eft: a. & p. by the  
men. If there is a possibility of take one or the other  
with you, I should be happy to procure to the  
an opportunity for seeing the world, and igno- /

that dt^f f ^^ very good natured young T'Kff if

and thankful to you! Pray be so kind, and give me  
some notice about the subject.

I must finish that hasty letter, then how I add only,  
if you may be so kind as to send the enclosed letters to  
its destination; there is one letter to Mrs. Trantlet and  
sixty, another to a banker, which announces a sum  
will draw from him for a portuguese  
and a third for Mr. Greville at Edinburgh. I beg your  
pardon, that I give you the incomodity with those letters,  
I am afraid to write to those gentlemen, if I can not  
send the letters franco over the sea.

1000-W

I wish to know from you, that you were content  
with the drawing, and if I can send the drawing  
the *Treyoinetia* in the same way, or if you  
prefer only the analysis sent in a letter, which  
I prefer to me better, because your specimens  
altho' doubt are better for the composition of  
the whole figures. Adieu, my good and most ex-  
cellent friend! Believe me for ever

Yours  
with G. July 16th.

very thankful  
and obliged friend  
Martineau

My dear Friend

jp

py

Last evening while I was  
 sitting with our my friends should come  
 quite unexpectedly to breakfast at  
 Mr. Durbey's house & always a friendly and  
 warm guest, but never was he more welcome  
 than at this moment, entering full of spirits  
 & full of news of my excellent my beloved  
 & yet unknown friends! He told me he had  
 lately enjoyed the pleasure of your society  
 & that you kindly inquired for me & what  
 concerned the whole that you would come  
 to see, this indeed I have often hoped;  
 now that it is so happy, unless you &  
 Mr. Wallcut bestow a serious time on me

do long to thank you personally for all your  
unmerited courtesy & repeated goodly gifts  
But how was I delighted above measure  
when Mr. Turner added that the Maharajah  
Rajah, your friend, would come here

"^ - Jh

to entertain such a guest? Nothing on earth  
would gratify me like beholding the

be pleased with his presence, the ... ,J

the long residence of a royal guest  
where ...

My Dear Friend

I fear you would think me most unkind  
for allowing Gemma to go to London without being  
charged with a letter of thanks from me for your  
so valuable & highly esteemed favour. - Thanks  
for your letter, thanks you for your present,  
I will you a thousand times for your un-  
ceasing friendship. -

I suspect you are mistaken as to the brother  
I have had the misfortune to lose. - I do not know  
but he had the pleasure of your acquaintance. I  
suspect the one you knew is the young man who was  
shot away in the Carron, & then fortunately escaped  
for the second time in his life from such an  
accident. - The Mother whom I have so many reasons  
to

to lament, lately commanded a Galvont. Packet  
I am doubtful whether you ever saw him,  
but if God had permitted, you should have seen him  
this season, for he purposed accompanying me to  
London - I loved him with all my heart; every  
mortat who ever knew him did - He was  
a most honourable, excellent, open hearted man,  
without a spark of selfishness in his whole com-

itxuAj\* ; arfy ^^ u very quarters of the globe for  
above 35 years had been incessantly thinking  
of his friends & sending my home by every opportunity  
evidence that such was the bent of his thoughts;  
who labored +kM &&/M </< forward to the reverse of  
his laborious life in retirement with his family, &  
who had not enjoyed this satisfaction above a  
few months, when God almight was (/MUL\*\*) called  
to

to deprive us of him - He left me in perfect  
health after a short stay here, & not many days  
after Luas called out to the country to call him  
labouring under an attack of inflammation  
which in a few days more terminated his mortal  
existence - I never shall forget my Mother  
as, & never shall cease to reflect on his loss  
as one of the most oppressive ever suffered  
as Luas was called to endure -

Luas very much surprised when I called for  
O'Grady on Friday to find he was  
was to set off for London, to find that he set off  
that morning - I was undervalued what he said  
me on the subject - Pray forgive my stupidity -  
I catch the first opportunity which has occurred  
since to make ~~my~~ my apology - I have not  
reply the other day when I found the true enclosed  
this of yours in an envelope - They shall be

has returned long long ago - How long you  
heard again from or of Wright. His last  
letter to me <sup>A/zM£</sup> into my writing to him, by  
teaching me to believe that my letter would  
almost certainly pass him at sea. I would  
like many bits of pretence which I am in  
patient to acknowledge; - Do I trust of your  
write <sup>\*fo~\*~MUt-</sup> if you know anything of his name,  
or whether you think <sup><yiAA&jys\*</sup> ever yet were com-  
bin - I had a noble calculation of his name,  
from him - & a most astonishing extent of  
valuable information. How does he find time  
to labour so much, & with so much accuracy.  
He is a most excellent man, & if he do not  
love the Company, <sup>della</sup> involt a most valuable  
officer, & Notary a most energetic cultivate  
as it is almost eleven o'clock P.M., as I have  
to write to Burman. & to look over  
my

in the end of August or beginning of Sept<sup>r</sup>.  
If there any body to be with you then, or  
shall we be as free from interruption  
during last spring? Recolent Sept<sup>r</sup>  
and October are <sup>now</sup> my only free months in  
the whole year, & I shall be better pleas'd  
if earlier we begin after the 20<sup>th</sup> of A<sup>ug</sup>

 (Signature)

Lowestoft 23 June 1831

Dear F. Wallis

Your most kind, most flattering letter of the 17<sup>th</sup> followed me hither & I am at a loss for words to tell you how I thank you for all it contains - The expression only, which under different circumstances would have afforded me unqualified pleasure gives me now not pain, but a fear & concern! - That the excellent Royal's intention of popping into Norfolk should happen during the period of my unavoidable absence - for you say "the hopes before long to be able to pay you a visit to Norwich" - I am this day driving further into Suffolk to visit my dear & only relative of my maternal kindred - from whence I return to my Brother, after a short

before it by boat - in order to pack up  
for the excursion I told you of in my  
last, in which a young friend a relation  
of my dear husband's joins me. We go, early  
in July as we can on account of length  
of days & weather - Novich like other large  
towns is warm & deserted in summer, &  
I generally quit it for the seaside in this  
season - I mention all these things to thee  
for the arrangements I had previously re-  
solved being concerted with other friends  
at the time - & I should prefer whenever  
the Noble Asiatic visit Novich to have  
some little notice of his approach, that  
I might at leisure as to arrange his  
being there most worthy of enjoying the

London & delight of the society - I intend going  
to Mottuch & possibly may proceed as far as  
Limerick to see our incomparable friend Mr  
Povey once again - Incomparable did I say?  
I think I might compare several to him, &  
not do him injustice - How did I find  
myself in such friends! - & how far beyond  
all other earthly pleasures & riches are such  
befriending! - I hope your amiable partner is  
quite recovered - What hereafter in health &  
business we may meet in peace - I must also  
express the great pleasure it gives me  
to perceive that November Day is recovering  
& able to think of travelling again - Dr. Booth  
speaks of the intention of going into Ireland, but  
afterwards of his taking a house for the winter  
in the Regent Park - I have not yet received  
the note you mentioned from the land - perhaps  
it may remain to be forwarded or he may not  
have had leisure to write it - But let me hear

you saw Dr. Wallcut again & again for them  
so kindly procuring me the favour of so great  
so extraordinary, so highly gifted a Being - whom  
none ever saw without veneration & awe -

100

the... my family I try to teach you with a few  
facts that I do know. You see, when children the name of  
John (he that has applied for permission to come to this  
country) comes out here he is more than six years of age  
when we left England. The youngest, a girl, quite a big  
the two boys my brother took charge of before we being  
and allowed her (my brother) six shillings. I had  
and a house to live in. When the other boy, William,  
had received a good education '94. \* respectable school he  
was appointed to a school, his master getting a license  
to receive (boys) with him after which the other boy was  
appointed to a relative of our family  
of the name of Mr. Brock, a most respectable tradesman or  
Druggist who had 2000 with him. The girl is appointed  
to a school near London. Their mother was a good lady  
and family stating that they lost all members of my father  
for a period of some years. My brother M, ^- from the house  
my brother allowed her to live in a small house of his own  
in London.

I could find relation to his mother respecting the history in  
England - he has been reported dead in the Friday afternoon paper  
was to be dead (in the following evening) had to  
his writing of he wants something, as I have sought to attend  
and should not probably return until the next evening  
he answered that he wanted nothing and that he was  
the quite well, as I saw him the day before - he has  
been seen at a lecture Saturday night and on  
Monday evening. Received information from the female who  
visited with him that he was extremely ill and that it  
proved to be true before he died. I would ever wish  
that he had been constantly but he had seemed too late  
before any amount all the valuable part of his letter probably  
if there was any had disappeared and some persons be-  
come to suspect that what remained he had reported his  
will should be given to the above mentioned woman. I wish  
to the Magistrate who refused to interfere after that, the  
article being of very trifling value and he gave things of  
trifling value have nothing further to do with it and the  
particular are accordingly taken away. I regret very much  
that my brother left no will as I should like to see  
with him the property in England and had it. I say  
the should not have the lot of character of him from  
Dr. M. Williams (my brother-in-law) of Boston Mass. I believe  
Mr. Williams with a look to Mr. Center when I  
discussed it, before him, as you think.

Mr. Center, to whom I have often been indebted,

&tkpi&uJjS<'d,

1821  
Scauntham 1 July 1831-

I recd your letters, which have been  
forwarded to me here, my dear Friend, receive  
my grateful acknowledgments. The second I  
had this morning containing the interesting  
letter of the noble stranger. When I requested  
a specimen of his writing, as a note I took  
only for a note which perhaps he might  
have written to you - or at most the signature  
of his name. - Grateful as I am of  
such a letter as yours enclosed, I can only  
hope the Royal will acquit me of the liberty  
I presume of respecting a complimentary  
notice of my will to Joseph his autograph.

The same date the breast of my coat. I wish  
Ireland in a note to my. really 19th July 1831 when  
White paper with a white the holding the  
Duke of Devonshire says some for good  
of the Duke's shabby manner.

I fear you will not be satisfied with any  
of my excuses. I ~~will~~ say that I was  
very unwell from a violent attack of the  
influenza. sore throat. Cough. Gout  
etc in fact with all the business I had  
to perform for the last few days that I was  
in London. it quite upset me & almost  
my head. It was only this day week that I could  
not get out of my bed. luckily Dr. Thompson  
called. gave me a few doses. so that Monday &  
Tuesday I was enabled to move out a little  
just to finish my business at the Customs &  
India House. & on Wed. morning I was obliged  
to leave town to join my ship at Guernsey.  
seeing all this trouble I really did not

remember to write you as I have  
doubt you had some dispute  
the ~~business~~ ~~of your~~ ~~with~~ ~~your~~ ~~own~~  
you again but do not write but  
I am in the <sup>\*</sup> /£££. you must know  
my dear fellow Asr\* & '£ <sup>A</sup> K #\* > <sup>it</sup>  
which will tell Shottles tell me all about it  
& am to do something with me <<< \*? < all  
what said the Duke to your office of  
the post - thank God. have recovered  
my strength very much since I have  
been in the ~~the~~ I trust shortly to  
be myself again - My wife is out to  
with me but that is an affair not to  
be known at the India Office for  
the fearful sum of £500 annually  
I have a little money, but it is to be  
12 Ladys to Gent? I think from expe-  
rience we shall have a pleasant voyage  
Remember my dear brother. that

vi,

about August 12 Month. I hope to be  
another voyage & with you & some  
other shipmate now left behind me  
fellow passengers. - try also to get as  
many presents as you can. However  
I know you will do that without  
being put in mind of it -

I trust yourself & all  
your children will enjoy  
your month in my absence.

My wife begs to unite with me  
in very best & most kind regards  
from my dear husband

Your very true friend

To Mr. Wallis  
61 Fitch Street  
Ct.

Worcester  
July 28, 1831

My dear Wallis,  
They have sent for you  
the 'Boggs' brand of  
a large Chest, marked  
Dixon specimens of D. sp.  
from the Port. Brazil  
talentula sp. It is mixed  
with fulvipes below in  
the India House; what is  
your pleasure concerning  
it? It appears to be a new  
termination of the former  
series, which you name  
under your charge.

Yours truly  
Wm. Wallis  
The Hospital.

*[Faint, illegible handwritten text, possibly bleed-through from the reverse side of the page]*

*[Faint handwritten notes or signatures, including a large flourish]*

to be considering the season. Your house is I judge  
to say in very bad order. The Antithesis there  
suppose the Upper kindred appear entirely rotten.  
I have got up upon it twice, but nothing is at present  
done. The Market too is in a very bad state, and  
I think it never has had anything done to it but  
a partial cutting since your departure from here.  
Remembering the latter circumstances, as one of my  
former letters, but nothing since has been done to it.

Some still persistently insist upon us, but  
nothing dangerous has been done, it has at  
a few feet between the 40° margin and  
corner of the Market Street, and the latter corner  
near the foundation of the 40° Joseph's wall, has  
nearly disappeared but the bulk will hold on well.

Know by the conduct of my family with Mr. Arnold  
and family will accept my most grateful thanks for  
their kind remembrance of me, and for which there will be no  
of the 14th Feb., and for which there will be no  
being acknowledged in my book.

12<sup>2</sup> August 1834

Honbl. Sir

On the 5<sup>th</sup> May 1830 I was  
informed by the Committee of Correspondence  
that a number of specimens <sup>the items</sup> of palms, brought  
home on the Persian, should be distributed  
in the manner adopted with regard to the  
other botanical collections under my  
charge. Among these specimens ~~there is~~  
<sup>is a</sup> ~~specimen~~ of a gigantic tree-fern, measuring  
45 feet in height and nearly a foot in diameter  
at the base. It is divided into 12 <sup>equal length</sup> equal  
pieces and forms without exception

1 < ? > i - & s Y magnificent King of the island

R. Campbell Esq

San Francisco

Wm

ever seen in Europe. As I apprehend that the  
height of apartments of the <sup>to</sup> ~~to~~ <sup>•Wrtst^\*\*\*</sup> at the  
India House does not admit of this noble  
specimen being exhibited to advantage I  
beg leave most respectfully to submit that  
it would form a splendid donation to the  
British Museum, where I have ascertained  
that there is <sup>a</sup> suitable place in which  
without <sup>to</sup> <sup>of</sup> <sup>prejudice</sup> doubt, if presented, to that  
~~establishment~~, it would be properly put up  
at <sup>in</sup> full length.

In the event of your being pleased  
to concur in my recommendation I would  
further take the liberty ~~to~~ of suggesting that  
this might perhaps be considered <sup>a</sup> fit  
\*4

L&y'ol hjuu^Uc^t/y

arrangements for an exhibition in the usual mode  
of arrangement in the conditions of a catalogue  
note from the Hon. Chairman and Deputy  
Chairman by ~~and having the pleasure~~  
~~to address a letter~~ <sup>to arrange the position</sup>  
of the Botanical Museum <sup>to the Trustees</sup>  
in charge of the <sup>Botanical part of the</sup> ~~Botanical~~ <sup>collections</sup>  
at the Museum, Mr Robert Brown, the  
first <sup>to be</sup> ~~to be~~ <sup>of the</sup> ~~of the~~ <sup>present day</sup>.

With regard to the <sup>specimens of the</sup> palm stems I  
request permission to have them <sup>of</sup> ~~of~~ <sup>pieces</sup> ~~pieces~~ <sup>sowed</sup>  
up in proper ~~sections~~ <sup>pieces</sup> in order to multiply  
as much as possible the ~~collection~~ <sup>collection</sup>  
of this <sup>highly interesting</sup> ~~valuable~~ <sup>most</sup> ~~valuable~~ <sup>and</sup>  
important part of the general collection.

Account of expenses  
The expenses of this process would not exceed  
a few pounds but I intend to remain  
some months on this occasion.

My Dear Sir,

The Cheo Antonini is  
Director of the Museum at Florence and Prof.  
of Botany: he has a general attachment  
to science, and is known at the  
of Volta. He wrote to request me to  
send any influence I might have in procuring  
specimens for Florence, he did it  
at the desire of the Grand Duke. — All  
the Museum at Florence is very good in  
its collection of wax models of parts of the  
human body is I believe unrivalled and they  
still keep in their establishment a modeller.  
The minerals are good and the instruments  
interesting — They have a botanical garden  
attached to the museum — Although the  
Grand Duke has not mentioned the subject to  
me in the last letter he sent me, yet I have  
reason to know from several quarters and  
particularly from Prof. Gutzere that he is  
very anxious on the subject of the specimens  
I have also that the Grand Duke is  
anxious to enrich his capital with

Rue Vivienne

Paris 16 Sept 1891  
Hotel de Clugny, Rue de Clugny

My dear Wallace  
Paris 20 Sept

I saw Adolphe Brongniart yesterday  
& he seems to have a great desire to come &  
visit you for a short time & if the consequence  
were to be to get a set of your plants for the  
museum here at the Jardin de Plantes (a  
collection truly deserving it) Government would  
send him over. Can this be arranged? Have  
you still undisposed of a tolerable set of the  
thing, already distributed? I may answer  
me by return of post. A. Brongniart is  
an excellent fellow & very zealous.

I have nothing to say more  
I shall be back in a fortnight

Ever yours sincerely

George Peckham

London  
16 Feb 1831

Dear Sir

An Officer from the  
British Museum, accompanied

me and  $\wedge\wedge\xi\_ tft\wedge\sim * \&\&r\wedge$  with  
some specimens. The list of specimens  
stated to be found  $\wedge^* \wedge \wedge / \% > \wedge\wedge zr \wedge g -$

be furnished by you, and put under the  
same cover as the communication from the  
British Museum.

In regard to Mr. Babbage's application  
on behalf of the 'Imp. & Roy.' Museum of  
Natural History at London, you will

Yours truly  
J. Waller

Let the necessary measures for providing  
with fuel and some 2 some necessary  
articles of household requisites.

Resolved the Government meeting  
for the establishment of the Committee (not  
knowing their names) for carrying out the  
plan. Intend the

From Mrs. J. M. Smith  
Washington

the owner of the house, that I should continue <sup>in</sup> ~~to~~  
occupy the apartments, <sup>with the option of quitting at any time</sup> until the house should  
be let, when I would have to arrange finally  
with the then occupant, ~~with the option of quitting~~  
~~on giving one month's notice~~; and that a deduction  
of three shillings <sup>per week</sup> should be made weekly from  
the rent <sup>for coal</sup> during the winter months. **ET. M ^\*\*j\***  
It has been a matter of extreme inconvenience  
to remove the valuable property deposited in  
the apartments before their final transfer to  
to the Museum at the India House, and as the  
rent was still moderate I agreed to this arrange-  
ment. It was necessary, however, that a responsi-  
ble person who would reside in the house, should  
take care of the rooms; therefore <sup>a woman</sup> engaged <sup>for that</sup>  
~~at seven shillings a week~~ from the date  
of Mr. Higgins' leaving the house.

61 Trisk Str. Lohs  
22<sup>nd</sup> Sept 1831

Dear Sir,

May I request <sup>^Z7 L^ A^JL l</sup> me  
the favor to lay the subject of this letter before  
the Committee of Correspondence, for their  
consideration.

When I engaged in 1828 the apart-  
ments on Trisk Street, in which are deposited  
the Natl. Company's botanical collections,  
it was done under an agree <sup>^^^t A^Jk fa\*-</sup>  
Higgins, the occupant of the house that, at the  
weekly rent of one guinea, he was to supply  
coals, have charge of the rooms at night and  
keep them clean. On the 20<sup>th</sup> Jan, Mr Higgins  
left the house, his lease having expired and  
with it my engagement with him; in consequence  
I settled with Mr Kimber

Glasgow, Sept. 25, 1834.

\*ete\*

My dear & valued Friend

You need not have printed a more grateful thanks for your exertions in the East India Co's behalf of our new mission in Lewis. That the publication has not been more successful is not your fault. but when I consider what great things the Company has done already for business I have reason to be satisfied, & am satisfied with what they do in the present instance. I am sure we need not fear about making up the list a 100 subscribers. You shall immediately have a list of the prospectuses which will go to London through a mercantile house & you will find all the alterations you allude to punctually attended to. Thank you much for suggesting them. They quite meet my views & wishes.

Now I must tell you how beautiful I rejoice at the prospect you give me of meeting me in Exmouth. That will indeed be a real pleasure to me. I start from Glasgow about the middle of the ensuing week, Wednesday or Thursday next.

Indian has again been detected. He had  
after means of sending to Cayton? Both on account  
of Professor Davis who has a son here & another  
whom when a vessel will sail from any  
port. If you should happen to learn of one  
at our house at Yarmouth. I was on  
the point of writing to Wight when your  
letter arrived. I therefore you have all the  
information that you communicated  
for him. He is a son of the Prince  
& Blair is still & but about this time  
he is on his way with the shipping  
a fortnight or 3 weeks at Edinburgh. He will  
then go to London. He has a volume  
of papers going together. But I cannot say  
anything more of my work for he has got some  
bookish. He is indeed a most worthy fellow  
My personal acquaintance with him has led  
me to increase my respect for him. He has  
been travelling over Highland mountains, but  
this one has been indeed compared with the  
Himalayas.

Remember me most kindly to your  
wife & family. His family were here last  
week, all well. They have just returned  
from the theatre. I have been to stay  
with a friend in London & shall be on with  
them & back to Manchester's quarters together  
again. I am about to look with Klotzsch  
and for a part of his, for he is a capital singer

L <^^y, Jf

a subject taken in Government by Standing  
Order. I shall be sure to  
be there at the time you speak of as your  
convenient for you to go, that is, in 3  
weeks from the time you write / that  
is / I should gladly return to London  
with you if possible: but I always find  
that towards the end of my stay at York  
the same visits taking in Norfolk  
& Suffolk & even on my way to London  
if possible you should take Government  
on your way to see Mr. Wallis at Hull.  
Let me first a letter from you at Mr. Lee's  
care to tell me of your business. You  
continue to have good accounts, I trust of  
your children. I should wish that Mr. Lee  
& Mr. Wallis may remain at Mr. Lee's  
with you. Yorkshire Lane always considered  
a sort of half way house between London  
& Glasgow & there I should like to  
be near you & Mr. Wallis & some of your  
children to see & see us.

I congratulate you on the recent success  
with that from India & thank you  
for the promise of a session for them. It  
gives me great pleasure that the beautiful  
Lancaster

But he writes much devoted to the  
Kings, & makes the little progress in planning  
Matters to be so useful to me as I expected I  
would have been by this time.

All have me well & desire to be most  
kindly remembered to you. We must soon

H. W. Drake  
H. Smith  
London.

D. Hooker  
25 Sep 1854

Your most affectionate friend  
W. J. Hooker

New 2 Oct. 1831

Dear Sir,

I am favoured with your desire to view  
his Majesty's Collection of plants & to walk in  
New gardens with a party on ~~Thursday~~  
the most ready attention to your wishes  
will be most gratifying to me to direct  
on all occasions, & in my absence,  
Mr. John Smith of the Botanical garden will  
attend upon you with the most perfect  
regard having your walk & inspection  
of his Majesty's plants, & believe

me to be Dear Sir,

Your very faithful  
attending Servant

To Dr. Wallis, &c

it~n^7tih% •

A. fr

When my dear Boy comes to us at Stone we shall be  
my happy family party. - Believe me, I wait the news  
with as much anxiety as he does. -

They suggest that when you are kind enough to  
write to me, it may pass on their paper, as I know  
the letter is not so charged by the weight. - If you choose  
to know any one who can put a letter into the French  
Ambassador's Bag, it is

£\*\*.\*---\*.\*'sr-r\* <• t ^---

... I suggest that  
cannot read this paper, but we have no privilege  
of sending letters that the paper is not.

The little sketch before you is from my  
my husband's own pen, it is from some other  
since I had it printed of study law such a thing  
it is copied in a volume of your thinness of paper  
sketch, it is more like than the other.

Accept my kind regards to every good  
with, believe me, my dear Mr. Hallist

Yours very sincerely obliged  
Whitmore

vb Y irw^h

Cambridge Oct 6 1891

P 12

My dear Mr. Harker

I cannot think of letting  
myself take his deposit for London with  
out a basis of remembrance, though in  
truth I am not within to say, except

to remain at home in two very  
interesting books in your  
catalogue of 1892. From

O\*/s\*r- 100 inclusive

& 105 to 130 inclusive.  
I will be glad to

& send you

O ^ ^

^

to change himself with them for me.  
Now I hope your wife will be glad that

my letter has nothing selfish in it,  
but in the case of all other divisions

...e ...+?

Harker mentioned in a considerable volume  
which I received yesterday, along with  
several copies of the "Cooperative" that

The Commission will surely encourage  
me to the extent of 5 copies. Half  
a loaf is better than no bread, according  
to the proverbial proverb. Therefore let  
us munch & be thankful. I trust  
however that we shall be able to  
obtain the requisite amicorum of  
patrons. Since I wrote last (by the  
hands of Graham) I have been  
annoying myself with a fit of  
Cholera - Common British Cholera,  
the **-?\*** (for I should not be inditing  
this epistle) but **t-n\*--\*t\*** sufficiently to  
confine me for **\*\* \_ \*^?^p^^^^** of  
time. It is very rare **.\*--S^.** in  
entirely common at this moment in  
Edinburgh, & in some instances has  
swept away persons in the family.  
Pray write me a line when Graham  
returns & say how you are as well  
as Mr Wallish & your young ones  
& all of whom I beg to be every

truly remembered.

Believe me  
My dear Halliwell  
y<sup>r</sup> affec<sup>t</sup> friend

W. G. Peck

By the way - Mr. Hooker & I must  
be arranging, notwithstanding  
the packing your boxes, we  
shall require the care of  
all the unique parcels  
& specimens in the company's  
collection - they can be returned  
some time to time as we clear our ground  
but we should have the whole to refer to  
& some of course will have to be retained  
till we have arrived at the end of our  
labors - very truly

Handwritten notes and signatures at the top of the page, including names like "John" and "Mary" and a date "the 20th of 1891".

Main body of handwritten text, appearing to be a letter or a set of notes. The text is dense and somewhat difficult to decipher due to the cursive style and some fading. It contains several lines of text, possibly including a signature at the bottom.

intelligent you do better afford a particularly grateful to me  
as it is to be said that you are with the United States and  
to write from the letter I quote something to you wonderful  
possibilities it being possible in - \*£ - \*& -  
of that retirement what \*~it£rX  
to be said in fact you will be interested in a feeling  
that seems to the sense of pleasure and more particularly to the  
branch which is already to be said in relation to you of the same  
nature; \*;#> ^V?\*\*-\*  
handwritten and which words in which you have had engaged  
though in the history of it being by report long before  
being it please the slightly long necessary long to continue to  
which is thought equal to you being as to be said  
that blessing to you from the sense of pleasure to  
to manage to the middle of you that said as well as  
of the same it being for I could be the great the high and  
of society; .i, w£^cM  
two in one to be said myself as for you notice; I should  
you would have been done for any individual what you have  
done for me without feeling like interest as to his future  
well-being. I should be still acquainted with my best friend  
in the world to support that news of you he shall be glad to  
be said with so much interest and goodness will not be  
the acceptable. I therefore venture to give you another  
I will I have been doing since you last letter from me.

particular employment I should inform you that the House now say that  
they will not take into their consideration any petition which  
relates to the four younger children in Birmingham and wishing to make  
general arrangements with their kind of something likely to suit and  
be on any account have been somewhat disappointed to find that  
and affairs in general but little better than in Birmingham. You will  
understand how little more of the same kind of petition for the  
benefit of whole other you will determine justice to the persons  
captured by the law in the town that it presents a moral case  
which is borne from the municipal and rapid improvements which  
have taken place, principally through the efforts of the Committee, but  
which an experienced eye can discern just ground  
to beget. As I find that the efforts of the Committee have been  
extensive during the last year, that the latter is not only  
more than ever has taken notice of Mr. Wilson and Mr. Patten  
to get me into the House as a Partner without description  
the Teachers all suppose that they now are doing little or  
nothing. The method are they say has ruined them and from  
the Sea passing to get off the one of them being established among  
to take a fly getting into a garden and for which, if he enters  
with a little property, a man will not easily estimate  
himself. They have had a long list of creditors about them that  
I see as to the amount of their dealings but their creditors are  
only taking advantage of the above named are partly from mis-  
fortune through the failure of Wilson the and others and partly  
from the reduced system for which on the other side of the  
particular. The business which were once open for some time to

VS&\*F^TM?

to those of your promotion, than to mind what through life, the for  
 your accounts with life  
 I wish in the garden as long as Mr Potter  
 as his lately married lady, I wish to say the former was very unwell  
 he says he has been to for some time back and would not find good  
 numbers for the recovery of his health, I suggested &£\*«\*\*\*, the difficulty  
 leaving the garden for any time, particularly during your  
 absence, I wish to say he had consequently gone to the country  
 give that a trial, perhaps he may be successful but  
 and from your appearance that nothing but a voyage to sea  
 will bring him round, I have some one of the apprentices  
 who can also fill any situation, the many improvements in  
 the garden which have been made since I left are evident, but  
 gardens are not kept in the clean and beautiful order in  
 which you always visited them on your visits, arising from  
 your absence to the very heavy reductions which have been made  
 being necessary perhaps to the unfortunate state of Mr Potter  
 although the letter with the valuable assistance of your  
 other know to call the main objects of the garden to  
 regard them and the various points of brightening and clearing  
 the garden up can be done at any time when the opportunity  
 can be seized with your usual state of health to take an  
 interest in it, I wish the establishment of which has shown  
 to have been as the garden of Paris, it may others or I  
 wish to have go down I wish to have my self and family  
 into them.

I have your own pen to beg, indeed, before I left I was  
 hoping you were likely to be here a while from the termination  
 your father's in France, and being ignorant that you had

You have of course attended. I took the very great liberty of  
having you with me at the Ball on the 10th. I am sure you will  
Wish that it was the necessary for me to make. You will  
pardon me I hope for this when you reflect that there is no one in  
cardinal whom I can <sup>C£ > 4£\*</sup> shall influence me to whom I can  
trust it shall be my care to keep my affairs on plain & intelligible  
order to give as little trouble as possible. This is another great  
reason <sup>1/2 EJ ^ ^ m ^ ~ " \* ^ ^ \*</sup> for knowing before I can send that the  
Doctor was acting as an agent & so I know it before it would  
be too late to send any more before but being understood that  
he was a friend to me I thought that I should be able to have  
it done for you or not clear for before though I believe that you  
are

I sincerely hope you good Lady and family continue  
if I may be permitted I would send respectfully from my best  
wishes to have future time I may submit to before again  
in future I have been frequently favored with accounts of the good  
& respectful General Macdonald's own particular for Lord Jackson  
Bengel Maitland who came out to Geny and some years in the future  
I should have been a Indian naturally feel much interested to have  
occasionally speak to who has more occasion to think of him with  
gratitude than myself. I may also presume you interested with  
respect to General Macdonald's own state indeed you to be  
occasionally at times you had know how much I have been  
indulgent to him. He has been very particular to be particularly to be  
taken by the first gentleman of this time I have thought you  
by the way to have any of those of commanding regular that he  
is a very fine man and a very distinguished and illustrious

the principles from Penning. justly did my heart whisper to have  
the hands were her mother's. I mean like Mr Phillips's

I do not think my mother and sisters have ever called  
upon you. We have frequently requested them, should they ever  
be able to have you back to live. I think you do for me  
and my good wife. Their own hearts they will lead them to do it  
if they ever see them. You will be better able to judge  
of the reason I have to appreciate it. \*-7- 9-

Dear G. Waller <sup>July 25 1877</sup> - 52

I have just heard from  
Mr. Lindley that you are  
in York & in and adv  
that you are very soon  
expected back in this  
state by of violence & riot  
but now of quiet and al  
most of solitude. But  
not word have you com  
municated ~~to~~ me abou  
your Movement altho  
you must recollect in

the way in the point  
you will be over to look  
to I shall be most hap  
py to see and shall  
request I may be as  
you have left as  
to get out of the  
Way I recollecting  
Believe me  
Very truly yours  
Wm. Lloyd Garrison

that you gave me photos on that day you have  
forgotten me you in your  
other either in your paper  
or not mentioning from the  
North you will say  
that neither could I.  
saying in your paper  
but that me in it  
can not mention because  
you. I shall be with  
on September 10th of  
this month and if you

on that day you have  
not forgot my brother  
of the Liberator I hope you  
will send down your  
long article on Water  
Mythra via on cover and  
in the paper in all those  
in it in the article in  
with a whole as far as  
I have you are  
on various points  
on the subject in water

Chemical & Medical Dispensary  
15 Abchurch Lane  
London

1800  
11/10/1800

Went away after the accident that the name of  
death was upon him. His presence at death had made  
him so much that he had no chance against his  
a number of enemies as cholera. He gave a  
cure & by 8 o'clock at night on the 27th he had expired.

Early letters  
20th or 1831

You seem to be as much  
occupied with the Indian  
as the better men - but  
you seem to be unwilling  
to be acquainted with such  
details - with Mayhew  
only add that I am  
as always your very  
truly & sincerely  
faithful  
Apprentice

Prova. Nov 2/31  
Nov 20th 1831

My dear Dr. Wallcut - you will  
I know prefer the trouble  
I am going to give you and  
excuse a little more effort  
to me in the same effort  
I pleasure that I should  
have to be so employed  
for you - My friend should  
do to give, in building  
a lot of work, & in every  
manner to procure some  
of the best sorts of paper  
apples, and should be  
from the Antislavery

Society

Mein sehr verehrter Freund:

1831 28 Juni

Paris 28 Juni 1831

Ich erhalte über die schönen Abdrücke vieler Linnae, die Sie  
gute Rats mir zu besorgen, und wünsche Sie mit meinem herzlich-  
sten Dank, daß Sie von allem, was ich habe besorgen lassen, für  
so viele Mühe gemacht hat, als diese Abhandlung. Besonders die  
Phasen aus noch meines Buch wiederholen für die große Sorg-  
falt die der Druck gewidmet haben. Ich finde ein Fehler  
der zu rügen wäre. Auf p. 43 1. l. 1. steht et partium  
partium, zu lesen ist, habe ich, wie ich glaube, schon früher  
gemeldet.

Es wurde vermuthet den ganzen Winter hier in Worms bleiben  
und es ungestört die besten bearbeiten, auch, wenn ich zu  
hätte, die Nacharbeiten zu den Linnae von dieser Familie voll  
in Kauter von Systema vegetabilium helfen zu können. Ich  
dennoch ist im März die mir das geliebte Exemplar von  
Synanthropea. Synanthropea bearbeitet ist für die  
dennmals erhielt ich über Dula eine neue Sendung der Gesam-  
vertheilung die ein großer Vorzug war. Ich habe hier  
Kommen sowohl diese als die Vorhergehenden folgen, die  
nicht gewiß weiß, ob ich noch schon bestimmt habe. Ich  
bestimmungen bei Lyserose = Gramineae freie ich mich  
diese Familien mit zu meinen Lieblingen gehören. Der 10

Nov. 1831

Dear Dr. Wallis.

I received your letter two days since & delayed for a couple of days to answer it, in the hope that I might meet with friends disposed to subscribe to the new work you announce upon Temps. which must be, a most interesting subject. Good Ankerst & myself will with pleasure subscribe, & I will exert myself to the utmost to obtain subscribers to the work in question. it is however I fear not a propitious

Arguments for my own of your  
weight. The times are such  
imperfectly, as to induce  
persons of all descriptions to  
think this wrong in case of  
need - that this fact will now  
I do not doubt will give some  
impression good fortune should  
promotability be sent to meet  
it, & to change the present aspect  
of affairs - but you have many  
Botanical friends in this country  
whose names & attention might  
be an incentive to others in  
this, I wish also the best of you,  
& most happy should be if  
my endeavours

They prove amongst  
supplies, that I have had a  
quantity Botanical friends would  
be numerous & likely to be  
willing to them as subscribers,  
but then the times!!!

I begive you  
Mr. W. Hall's & some  
others in good health, &  
I am Sir J. Wallis  
Y<sup>r</sup> University  
J. S. Hancock

Rec<sup>d</sup> 55  
1932

M. Botanic Garden  
Glasgow

17<sup>th</sup> November 1891

To Mr. Arthur Boyd  
Edinburgh

My dear Sir,  
You will have heard that the  
situation is by that to which you had been  
pleased to appoint me previous to your  
departure was been abolished, **f** J2  
that Mr. Charles ... **f.A- ?<<**  
situation of the Director of the Garden which  
became vacant by the death of Mr. Patton's  
brother.  
I regret much the sudden  
abolition of the Establishment of Sythet by  
which I have lost the best opportunities  
of enriching the Garden, as by the recent  
acquisition

1

acquisition by Government of territories  
on the hills, every facility would have

**I**— afforded **X** the execution of  
my duty, and by my settling myself  
on the hills, for which I had obtained  
the permission of the late Mr. Scott Agent  
to the Governor General, I would have  
been enabled to explore the best **A\*\* - 2—**

the Country, which could not be effected

**6** my predecessor Mr. S. **C~ p** been very  
kind and promised me every assistance

in case **\*d>** **Y \* ' \*** of my removal. At his request  
I went to Mr. Charles Nuttall and obtained

his sanction, but when I was on the point  
of removing the Gov<sup>t</sup> abandoned the settlement

"A

With regard to the garden I can  
say nothing more than what is  
stated by Mr. Peter. We are going on as usual,  
and doing our best to keep the garden in order.

I have been informed by Mr.  
Peter of your return in August or September  
next, for the approach of which time we are  
all impatient, and anxiously trust that  
our hopes will be realized.

I hope then live with great  
pleasure and your family in the enjoyment of  
good health, and

I am  
Dear Sir

With the greatest respect

would open before him in the East - The inquiry  
Mr. Southwell makes is whether Calcutta or  
any other spot would be preferable for  
to begin his career in? & whether in your  
opinion he is likely to succeed? - Of his  
talents she speaks highly, for Mr. Southwell  
sent him at her own expense to make a  
Portrait of General Lafayette, which now hangs  
at Worcester Hall, together with those of  
Gen. Bosc & Mrs. Foy &c. - The painted man  
is this city & is now returned from York  
where he has been employed in a similar  
manner - She mentions that his character  
& manners are those of a gentleman, but  
his means are very limited - I really was  
dear friend full shocked at intruding  
upon your valuable time with this long  
disquisition, & for my apology must add,  
"Thou canst not say I did it" -

During your fleeting visit several things

Savoy Street 10 Nov<sup>r</sup> 1851  
Rec 21<sup>st</sup>

reply 17 Dec  
by W. D. W. - had

My dear Friend

While I was writing a note

to present her with the envelope you charged  
me to give her, she stopped at my door,  
& I had the pleasure of delivering it in person.  
In return she mentioned you & how very  
pleasing to your friend to hear. I begged I  
would say every thing that was interesting  
of the enjoyment she found in your company  
- also entrusted me with a message  
to you, requesting your opinion on the  
subject - A young man, a portrait painter  
by profession, of the name of Davis, finding  
it difficult or impossible to maintain  
himself in this country, is anxious to try  
his fortune in India - He has heard  
that artists are employed & encouraged by  
the native Princes, & that a better prospect

jrX?^ f-

JL A

escaped my memory which I wished to observe,  
one was to inquire after General Hardwick  
of mention his friend Dr L. M. Wood. who  
lives in this County - I intended had you  
performed your duty to have made a call  
on them with you, for I understood you  
also know them - In the beginning of the  
Mr. Southwick is to introduce me to them  
at her house, for they do not live far  
apart - When you see the General, I  
will thank you to remember me to him.

I hope my dear Sir that before you leave  
England you will bring Mrs. Wallcut to  
see me, and will then make the little  
excursion. Some business left upon other  
you may determine, whether to remain  
here or go at Leamington or return to  
India - What will you & Mr. Wallcut say  
to taking up your residence in a new paper  
strong City - a little respect town? I am glad  
you would say as Sir James St. John would  
Borone, if he said in winter in London. When  
God made me he did not take him it would

be so very cold." & I think you may sometimes  
have occasion to say, "When God made  
Man he did not tell him it would be so  
very warm."

Dr. Bost tells me there is an admir-  
able picture of the Royal R. Roy painted  
by Briggs. I shall entertain the hope of seeing  
that illustrious personage though I am informed  
by a Lady who has been in his company, a Mr  
Marsden of Norwich, that he actually was  
England for Italy in the Spring, chiefly on account  
of his health - This name happened to be  
mentioned when I was at Bolton & a  
gentleman observed that he was of his  
& caste in his own country - In the Sept  
& I quoted you for the affair, that he  
was of the highest most distinguished origin  
& nobleman of British descent - As I had  
concern in having under your name

Ever and more my dear Friend -  
present my respectful regards to Mr  
Walton, forgive my intrusion, accept  
my grateful thanks & believe me  
Yours very affectionate Friend  
H. Smith

You flatter me in speaking of Norwich, &&+++---~\*\*f  
have not so many copies I consider it good in  
stead of rich in choice society. I wish you A^  
Mr. Kellie would recommend me to do by taking  
of your former abode here - I know a spacious  
family mansion within a mile & 1/2 of mine, the  
residence of that Lady's Father who had the plea-  
sure of dining with you at my house - Mr & Mrs  
Cove see both heads but I know the place  
well for 30 years, & can recommend it - There  
the Dogstar never rages, but a perpetual Spring  
reigns in the verdant enclosure, & flowers of every  
season enliven the ground. The groves & green  
alleys are haunted with the Shades of Beasts  
& Holes of Mithras, & Woodcock & Crows  
These are its external recommendations, within  
the genius of neatness & elegance holds her court  
No dust ever falls, or floats in the clear sunbeams  
of the air ^^^^&, & when you have got it,

"You need not wish, & instantly obeyed  
Fair ranged the dishes well, & that the glasses  
glazed,

fjU^ 0 \*\*£ entered the door since my old friend died.  
at such, as I have said, I used to see it, & thus it was  
not again in possession of those who love Nature.  
I cannot then thank you with the addition  
with the type of sketches fdL/\*/\*\*" ^ .7

Quite agree in  
your admiration  
of Mr. Hooker  
He is a most  
affectionate &  
amiable man  
& I think as  
highly of the  
character family  
as you can -  
I thank you for  
mentioning the  
American Society  
I shall always be  
interested in its  
doings & success -  
The Americans  
are displaying  
great activity  
Here on temporary  
aid their friends  
I believe in it

Chandernagore 14<sup>th</sup> Nov 1831

Honored Sir,

After so great a lapse of time  
 since my last, I can assure  
 you with pleasure that I hope when  
 you have received this that I shall  
 be forgiven for having so long been  
 silent. I have been for more than  
 two months very unwell again, so  
 much so that I have been frequently  
 obliged to retire at  $K^{\wedge}fC$  so much  
 as to prevent my collecting any ideas  
 sufficiently to enable me to write  
 on any constant subject;  $i^{\wedge}v / \text{£}$ .  
 Hoping in the meantime  $9$  to  
 be able to send you some extracts of what I have

p v\*

pretty recovered. Dr. Clarke has been iv the  
goodness to allow me to absent myself,  
occasionally on little excursions upon the  
river, and I have been, from the unusual  
inclemency of the weather at this season  
obliged to take a house at Chandernagore from  
whence I write this. I go from home to  
see my family, **A** and remain there four or five  
and then return for I have invariably found  
in my going there that (whether from the very  
unhealthy weather we have had or some other  
cause) I have got fever attended with extreme  
heaviness in my head. The weather I am  
happy to say is now more seasonable and I feel  
the change much, but with some here being  
opinion that I may be wanted when I go he  
I shall however return in the course of a few days  
and stay unless I feel any material change for the worse.

On the night between the 31<sup>st</sup> 11<sup>th</sup> and 1<sup>st</sup> 12<sup>th</sup>  
a most horrid hurricane occurred, the effects of which  
being here been dreadful. I understand from the papers,  
that the sea about Bridgetown and beyond rose to a most  
trifling height, sweeping away whole villages and beyond  
all those places and therefore it is believed that more  
than 1000 lives were lost. The Government has dispatched  
many thousand barrels of Rice for the relief of the starving.  
Mr. Gordon has suffered comparatively little, and I believe  
Columbia was not so severely visited as the country above and  
below it.

There was Mr. Porter who informed me  
he had written to you. I am sorry to learn  
from him that he came round on account of some loss  
he has sustained through the failure of Messrs. Pelham & Co.

There are my books here and you may think  
improving you that Mr. Cantor had the shell from Dr.  
Koch and two small boxes containing fruits of R. & C.  
Carpenter and seeds mentioned in one of my former  
letters, shipped some time ago. Mr. Cantor was kind  
enough to allow me a sight of your letter respecting  
the appointment of Watson to the P.O. Garden at  
Ceylon, I most sincerely congratulate him on his  
good fortune.

Yours  
Wm. B. Smith

a drawing of an *Indigofera* (I  
~~will send it to you~~ I suppose I send  
~~it to you~~ it shall be done soon  
enough. He has not however yet  
sent me the specimens.

The *Lycopodium* which you sent  
me from Lindley is certainly nearly  
allied to the Hawaiian one but is  
fundamentally distinct & new; I have  
called it *Epilophyllum*. I enclose  
the fruit for Lindley as you desired.  
The plant however is not so manageable  
as an Irish pig, who if you pull  
him one way is sure to go the other.  
It took 3 days to revivify - and though  
sprayed with shower 100 lbs on its back  
will not be quiet. I rejoice to hear  
that more fine ones come.

With kind regards to Mr. Wallich &  
your family believe me ever  
truly

Nov 11 1854

My very dear friend -

Mr. Tule a  
few days since I Mr. Jones on Sunday  
to acquaint him I should be at home,  
I want further to repeat the assurance  
I give him of the pleasure I anticipate  
in seeing you under my roof.

On Thursday I hope nothing will happen  
to interrupt our meeting & my hour  
convenient to yourself & friend - I have  
written 5 o'clock as my dinner hour  
upon & Mr. & Mrs. Jones will find  
you home in reading & receive  
your pleasure you receive - I bid

^jt^A-> } &~~-\*^<:;<-t£~

y

He was at  
Boston yesterday, a few minutes  
after I arrived at home - He gives  
me the promise of joining our  
party - I beg you will present  
my respectful compliments - I do  
think when I shall be happy to see  
with you - J. Hooker mentioned  
that Mr. Turner had engaged you  
to stay at Yarmouth on Wednesday  
which is the reason of my leaving  
Thursday as the day I hope to  
be favoured with your company -

Said to myra yesterday you know  
I expect my great objection &

you for your excessive generosity.

He just they I saw on my arrival  
was another example of your fine  
work - Behave me dear Mr. Miller

Yours gratefully & respectfully  
Wm. H. Smith.

Dear Dr. Wallis

I have to return  
you many thanks for your  
kind interest with Mr. Aiton  
in procuring me some new &  
very beautiful plants. He sent  
me some I had most wish'd  
for & admir'd, & they arriv'd here  
in beautiful condition, & are  
a great addition to my green  
house collection of plants. I have  
also written to Mr. Aiton to  
thank him, & to tell him how  
well they have arriv'd here by  
coach - in

is 11 Nov for Partly I am  
and the Rectory have been  
informed by the Curate that  
instructions would be given  
to you as above

Yours very faithfully  
J. W. Robinson

Dr. Walker  
H. H. H.

as possible, & in relation w<sup>th</sup>  
they are still at home -

We have  
beautiful summer weather  
now remember what a winter  
in England - We have with  
abundance of flowers left & have  
been enjoying our out door amuse-  
ments uncommonly - My

Winnifreda however has gone  
very much, & has become a great  
Annoyance plenty of unknown fern

W. G. L.

My dear Sir,

In sending you this  
my Brother, the 2 plates to Lewis,  
I take the opportunity of  
asking you to forward for me a  
few packets in your immediate  
neighbourhood - & to send them  
to the British Museum the first  
really convenient opportunity - for there  
is no need of hurry. I have directed  
me to Mr Burchell, which you may  
keep by you till you have a chance to be

him - That to Dr. Hensfield I dare say  
will have some effect. of sending -  
This is a totally unnecessary com-  
-mission on my part to a busy  
Man - but I really did wish you  
to put yourself out of the way about  
any one of them - Merely send them  
as good & fair opportunity; that  
shall allow - I hope you got safe &  
sound back to your old quarters  
& without any return of Cholera -  
I found myself suddenly called on  
yesterday to support or fainting person  
- a woman at dinner, who was suddenly  
seized & but for assistance w<sup>d</sup> have

f~&\*~ - / The hammer was not shooting  
today so that I think this is hardly  
a good case for an amount of health.  
Having heard nothing of Dr. Hester I  
suppose he was in town for the  
week. We have been three days  
employed in skinning the Sun fish  
Dr. Clark, Mr. Lipton, L. J. J. J., & myself  
have all had a finger in the pie.  
It has been a most troublesome &  
dirty job & I fear we shall not  
make much of the skin, tho' Clark  
will, I dare say, have a good skeleton  
for his pains. Believe me

Very sincerely Yrs.

My dear Sir,

Your very kind letter was forwarded  
 some time about a fortnight ago from Edinburgh,  
 and believe me I merely postponed replying  
 to it until I should receive the packet you  
 mentioned as having been sent to Mr. Hume's care.  
 It has at length arrived and I now thank you  
 for it. All my cabinets have arrived at the same  
 time from Edinburgh, and since on Thursday, I have  
 had the time to peruse some of them. I see however  
 marked outside of your packet that it contains from  
 fol. 153 to 204, which I have no doubt is complete.  
 I have a copy previous (up to 154).

You speak of my coming up to Town this  
 winter, but that as far as I at present see is  
 out of the question. I have much to do at home  
 for although my barbarians be not so large as  
 those of the <sup>the</sup> Bankrupt after *i\* '7\*\*# ^ #iV# ^* from one  
 place *— £ —* they *J\*Z. £4J* *A* must be done before

Wm Kelly  
Dec 1 Dec 1834

My dear Sir

Mr Kelly the gentleman who  
is the bearer of this is anxious to  
make some enquiries regarding certain  
deeds generally & has been asked  
by a person to whom I could refer Mr  
Kelly with a present of his wife  
by me. I know no one who bears

Yr Obedt Servt  

To

Miss [unclear] [unclear]

Thank you for the enclosed which is  
**J\*\*^\_f^ \*^U^\* ^**  
 information - you will have the form to  
 address to you Mr. [unclear] & the other  
 the gentleman you have mentioned  
 request that you will inform me as you can  
 about his report -

Yours always faithfully  
 J. [unclear]

Mr. [unclear] the letter from the [unclear] at  
 Etobicoke in reference to [unclear]

My dear Sir

Oxford,  
2 Dec - 91

The Fasciculus of specimens of plants, &  
the several sections of the stems of plants we came  
to see safely — 9^ jH^C U+d had cold prevented  
me, I should have immediately offered you my  
thanks for your kind recollection —  
The specimens are a valuable acquisition — Dr  
Woods has seen them with great satisfaction  
especially the grass — As for his illustrations I say  
higher specimens would have been more suitable.

If in your interesting collection at the India House  
two duplicates of Rubus, Ficus, or other not common  
varieties, are to be at any time disposed of,  
my recollection may well be always acceptable here —  
I wish we could add specimens of other various  
kinds — of Fruits, seeds, & such like — &c &c

I shall send an acknowledgment of the India House  
specimens you were not here with Mr Brown —

Yours

Dear Sir,  
y<sup>r</sup> faithfully

L. Williams

Paris le 2<sup>e</sup> Dec 1831

Monsieur

Je réponds à la lettre que vous m'avez  
fait l'honneur de m'écrire le 31 Oct &  
je vous remercie pour votre aimable  
réception de votre dernier envoi de  
Plantes des Indes & de la terre jusqu'à  
la suite 304. Il m'est parvenu en  
très bon état & je ne puis que  
vous faire tous mes remerciements  
de la manière dont vous voulez  
bien me faire participer à vos  
magnifiques collections: je me suis en  
vérité comblé pour certaines d'elles  
ma vive reconnaissance !

Je vous prie de me faire inscrire au  
nombre des souscripteurs pour le  
nouvel ouvrage intitulé,

Felias Quarta revisum, que M<sup>r</sup>  
Hedem & Guntter se proposent de publier.

J'ai une divine prospectus de cet  
ouvrage & j'en ai parlé à vos amis;

quant au Roi il a suspendu

de rendre son consentement, & ce

que la liste a été mise fixe — ainsi

cette œuvre je ferai moi-même le

lui en faire porter.

Je fais bien du vœux pour

que vous réussiez à enlever encore

quelques exemplaires en Europe pour

mon frere à un bonjour tendre,

Quelques personnes ont dit à  
M<sup>r</sup> Lebrun Hooker & Le Wright &  
qu'ils l'avaient de la tante confidente  
un sujet à l'homme d'été

Monsieur votre très humble  
& dévoué serviteur  
B<sup>n</sup> D<sup>n</sup>

1821  
DEC 9  
LONDON

Dr. Wallich  
J. R. S.  
61. Frith-street  
Soho.  
London.

Received  
7 Dec 1821

St Albans 13th Dec 1830

Dear Sir

100 1/2 3000 14

I regret not having the pleasure of waiting on  
you at the time you were in town, but my cold so troubled me  
that I did not think of going out on the following  
day. I hope that season I may continue our conversation  
upon paper, frS/Affi^r\*\*\* As/4\*

Allow me to suggest the very great expediency  
of sending down, with very best instructions, for containing the  
contents, the thick, heavy, and increased boxes into which  
I have now, as they are adapted for the purpose, while they are light  
and built under them to be strong & spacious in removal  
promptly to place them in the possession of those I care  
about in London, with little or no doubt the usual  
kind of apparatus in a given space, which the lightness  
and compactness of the whole (for they all go into one case)  
is particularly adapted for land carriage. These boxes, mounted  
with the best pack, with the greatest security, the books for  
which are to go upon the Continental Mission, and  
as you would thus be lost.

It has also occurred to me that in addition to their present interest for the higher authorities, it would be a small expense judiciously incurred, to send out a small assortment of such English Manufactures as are

<<-<^cw\*j>^\*gr

commonly used by the natives, to be given to the natives collectors, who may be ordered in this service, as rewards for diligent attention.

This plan would encourage their efforts, and insure their diligence. And that they may be encouraged to

<<

as the insect most desired, I intend making a few rough drawings of them, particularly wants from our collections

100

I know how precious  
is your time - I  
the best fortnight I have  
seen since I left my  
dear Mother who for  
her ill at my house  
It is happy to be  
at your home so soon  
- I hope your dear  
you please in particular

100

Antoine Cook &  
Mr. Whitlock, I believe  
I by my dear  
dear dear to your  
very greatly  
yours

I am exceedingly anxious to have your opinion on account of the paper  
you and our friends...  
of the *Plantae asiaticae* I have received till paper 7<sup>th</sup> and from  
the catalogue of folio 139. I thank you heartily for that in-  
valuable communication. There is no finer and more useful botan-  
ical book in my collection.

Two weeks ago I have transmitted to Mrs. Botanic at Frankfurt  
at Mannheim for you the 5<sup>th</sup> fasciculus of my *Palmen*. It  
contains four analytical and picturesque plates and last page  
Chapter of the introduction, written by Dr. Mohl and  
containing a accurate description of the anatomical  
structure of *Palmer* with 10 plates. I wish that you  
and Mr. Brown, to whom I first sent a copy in the first  
way would be content with that publication. Even the  
second fasciculus of the *infusa brasiliensis* described to the  
Linnean Society were sent to Mr. Brown for being offered to  
that literary body.

The young Schuller is at present in Munich. He was  
excellent young writer, but if accurate that he will have a  
leisure enough for publishing from the continuation of the system  
the poor young man being without any place and therefore forced  
apply to such literary pursuits, which pay better than Solong.  
I beg you, my dear friend, with me the pleasure of writing me  
a very long epistle, for which I am waiting with the  
most interest. I am in tolerably good health and I hope to  
your family and our friends ever so. Adieu my dear friend  
and friend.

M. 12. Decr. 1831.

Yours  
most affectionate  
friend  
Martius

*[The image shows a page of handwritten text, likely a letter or document, written in cursive. The text is heavily obscured by a dense, dark, scribbled pattern that covers most of the page. The handwriting is illegible due to this obscuration. There are some faint, larger words or phrases visible through the scribbles, such as "I have", "I am", and "I will". The page is aged and has a slightly yellowish tint.]*

17 Dec 1831

1845  
I have the honor to receive  
your letter of the 20th inst.

in which you acknowledge the  
receipt of my letter -

I am very sorry to hear  
that you are so much  
on the subject of the  
& I am sure you will  
I am, Dear Sir, your  
truly yours,  
Wm. Lloyd Garrison

However, Mr. Robert  
promises to undertake the  
other persons whose  
objections, in regard to  
the state of the  
nothing has been

in your  
reminded with it.

I hope you may  
have seen more successful  
daily such success  
kindly remembering to  
as we both do to Mr. Wallcut

I am  
advice from  
Dear Sir, Wallcut

Yrs sincerely  
J. Wallcut

1000

Dear Mr. Wallcut we have in  
 anxiety hoping to hear  
 from you as to when we  
 might hope to have the  
 pleasure of seeing you here  
 would not quite happen  
 supposing it possible we  
 should be possible even state  
 with you if you are dis-  
 posed perhaps we might hope  
 to see you this week if  
 not

*[Faint, mostly illegible handwritten text, possibly bleed-through from the reverse side of the page.]*

Dear Dr. Wallcut,

Many thanks  
for your kind note. We are  
all united in love today -

I am recovering from a severe  
illness & have made much  
progress since then. Last days  
I hope to be soon stout  
again. Mrs. Stoddart is pretty  
well & the rest of the family  
quite so - Mrs. Hope was

101  
I have not seen the  
Botanical Magazine with you  
account of the *Thymus*  
Arvensis. but shall get it  
may

to have the pleasure of seeing  
you in person. I shall be  
I am glad to hear that you  
6th part of your work is near  
completion. no doubt the  
kind interesting study which  
devotes to the most highly commended  
to you & Mr. Wallis in which  
I beg to be introduced & remain  
Dear Sir  
Yours sincerely  
G. H. Bennett  
J. Bennett

Glasgow. Dec 19 1834

Perly 14 2/3

My very dear W. L. L. I would  
not have allowed so much time to  
have elapsed, since the receipt of your  
two most kind & most friendly  
letters, without replying to them, and  
I have said one word more, in regard  
to China, in my own justification,  
in one word more that would have  
enabled his Grace of Northumberland  
to entertain a fair & just view of my  
conduct towards him. You mention  
as much as I do in the matter & you  
have stated all the difficulty in the  
case in those few words - "the plank  
in question was taken privately from him".  
That Mr. Rowntree has prejudiced the  
public spirit as I do not doubt. But  
I acquit him of every unjust motive.  
He had reason to believe I acted un-  
kindly towards him in so long  
delaying the publication of the  
plank. That is the only thing in which

I can be in any way to blame, & if,  
after all that we have done, I am still  
to be blamed I must have it put to  
My conscience as quiet: me of having  
done anything unbecomingly to any  
one: indeed I should have desired  
concern had I done otherwise than  
I did in the present case.

Long me this, my dear Friend,  
hope you are recovered from your  
troublesome complaint: & you  
are now soon on the point of  
travelling northward & spending  
a little time with your family.  
Would that I could see you a  
little further north, at Glasgow.

Lord Milton is indeed a fine  
Probleman. Why! for this Book  
on Indian Laws you exhibit the  
most, descriptions & subscriptions.  
Non Prohibition are to be furnished  
forthwith with your alterations.

& Marchbank is corresponding  
with Frazer & Warty; - those  
change fellows; who have just  
sent me Park 11 of Jones's Edition,  
while I - %£-, <d~  
have none there 3 months.  
Park 11 however looks well.

A thousand thanks for one,  
then of your Plethora Point.

To tell me / I intend to ask  
you what in London / what  
you send Watson that nice  
one is better. He looks on them

as any thing which you will  
be so kind as to recommend.

I shall be quite pleased to keep  
myself in his collection. When

will a useful edit? When can I  
tell me the name, for a friend of

mine here, Dr. Brown, has some  
to whom he wishes to send a parcel

A nephew of our Professor of Chemistry  
of Thomson, is going to Bombay &

China. He is a clever fellow & a good  
Naturalist. Have asked Dr. Wright

let him see your room, that he may  
have plants ought to be collected in  
India. Show written to Wright about  
his book which I hope will be ac-  
complished. I send you letter for  
Graham forthwith. My two boxes are  
just going to show them Xmas hold  
days with that small of yours

1831

kept the best winter of the season for  
and a lot of us for ourselves and when  
you love. Love and faithfully  
& affectionately Yours  
W. S. Hooker.

Hull - Dec. 28<sup>th</sup> 1851.

Dear Sir

Being anxious for the honor  
from acquaintance I should do any  
of the pleasure of calling on you, but  
finding my engagements will not permit  
me to do so, I hope to prevail on you to  
accept the invitation, and give us the  
pleasure of your company at dinner  
on Monday at five o'clock. I expect  
most of gentlemen in the evening,  
I shall be happy to give you a bed  
you will remain in Hull for the night.

I remain Dear Sir

Yours very truly  
James Alderson.

Lord Mulgrave,

31 Dec 1831

Milton Dec 31. 1831.

Sir

When I wrote to you yesterday  
it did not occur to me  
that Wednesday is the day  
of the Fairs at Peterboro, &  
so I believe there is a great  
deal of business, I may be  
kept <sup>there</sup> beyond the hour of  
dinner - under these circum-  
stances, if it is a matter  
of indifference to you,  
it would perhaps be rather  
more

Have the Chasmanian function for you  
allowing all parties to have had  
the opinion of the plans which you saw  
it may make that gentlemen's  
interests and interests which may be  
materially lead to the formation of  
the said series.

All we hope

Very truly yours

J. R. L.

What think you of a dish  
of Dr. Williams' Beans or Beans  
Day? What can I say  
Lep. C.

Very truly yours  
Ther. de la Roche  
I am in the receipt of your  
letter of the 12th inst. and in  
reply to inform you that I  
am sorry to hear that you  
are not well. I hope you  
will improve if any  
of the medicine I have  
sent you will be of any  
service.

Washington 21st  
Dear Dr. Williams  
I have been lately taken  
from home to the mining  
part of this country by some  
disturbance among the  
Indians & I wish  
in the season I had written  
part; but which has  
already been put down. I  
am now returned to  
the Mountain Top at  
Washington the country

BCCCCUI.

ANEMIA (CoptopLyUum) AUKITA, SW.

Caudice repente, frondibus sterilibus longe stipitatis deltoideo-oblongis subcoriaceis glabris lucidis pinnatis inferne bipinnatis, pinnulis subrotundis rhomboidisve Petiol<sup>is</sup> flabellato-venosis crenulato-dentatis margine superiori saepe auriculatis, fertili (radicali) solitaria bipinnata lobis glomeratis, stipitibus pedunculoque hirsutis.

Anemia aurita, Swartz, Syn. Fil. p. 157. Willd. Sp. Pl. 5, p. 95. Presl, Suppl. Tent. Pteridogr. p. 80.

HAB. Jamaica, Swartz; Dolphin Peak, Westmorland, Purdie, Wilson.

Those species of *Anemia* which have the fertile fronds solitary and distinct from the sterile ones, have been separated by the late Mr. Gardner into a genus which he called *Coptophyllum*, a separation which we are glad to find is not adopted by Presl in his work above quoted. Mr. J. Smith is disposed to refer it to *Mohria*. The present seems to be one of the rarest of the group, and, for half a century from its discovery by Swartz, only to have been known to that author. Presl had only seen sterile fronds. Mr. Purdie detected the species in one spot in Jamaica but could not find it elsewhere.

length Mr. Wilson ^ ^ ^ ^ 1 ^ 1 ' T ^ 1 TM - At one, which we have here Tep 3f ' ^ ^ lants, one f ^ e to have been met with any wherc but ii ^ does not appear a Jamaica.
