

Wallich's Correspondence  
1842

St. Louis, Mo. Feb 15 1845

1845

Dear Sir

I have the honor to acknowledge the  
 receipt of your kind letter of the 10th inst.  
 in relation to the above named plant and  
 in answer to inform you that it has  
 been forwarded to the proper authorities  
 for their consideration. I am sorry to  
 hear that you have not been able to  
 obtain any more specimens of the  
 plant, as it is very rare and difficult  
 to procure. I am, however, glad to  
 hear that you have been successful in  
 obtaining a few specimens, and that  
 they are now in the hands of the  
 authorities. I am, Sir, very  
 respectfully,  
 Yours,  
 Wm. B. Wood

The name of the plant is  
*Stachytarpheta*  
 and it is a very common  
 plant in the West Indies.

✓  
London  
18th June 1842

Dear Sir  
I have the honor to acknowledge the receipt of your letter of the 10th inst. in relation to the proposed purchase of the shares of the Bank of England. I have the pleasure to inform you that the same have been sold to the Bank of England for the sum of £1,000,000. I have the honor to enclose herewith a copy of the report of the directors of the Bank of England in relation to the same. I have the honor to be, Sir, your obedient servant,  
J. B. Esdaile

The Gardeners produce so much more than  
 is necessary for the use of the country. This is a kind of  
 pleasure which is most easily multiplied by  
 effect. In the garden which I have had  
 very many years, I have had a blooming  
 garden, & recently I shall be most happy to  
 send you some for the garden at Joffra  
 & propose putting some among the Apron  
 Sea, & to which I have, as my application  
 been authorized to furnish her Majesty's  
 Government with a supply.

I have had the pleasure of running  
 all the way to Mr. Normansell, and have also  
 written to that gentleman once or twice.  
 Thank you heartily for your most kind  
 attention to my wishes in regard to Mr. Normansell  
 and the Royal Garden under his management,  
 also

.

I have a reservation, that

address of Mr. to Mr. [unclear]

I have been thinking of you  
very much lately and  
wondering how you  
are getting on. I hope  
you are well and happy.  
I have been very busy  
lately but I have not  
time to write you more  
than a few lines.  
I will write again soon.  
I am your affectionate  
friend,  
[unclear]

Dear Sir,  
I have the pleasure to inform you that the  
Board of Directors have resolved to  
increase the capital of the Company to  
£1,000,000. I have the honor to be,  
Dear Sir, your obedient servant,  
J. M. Smith

That we were compelled

to be going to that general deliberation  
on the part of the Company to do otherwise  
without the sanction of the Board, which is clearly  
warranted by the provisions of the  
Act of 1844. I am very respectfully  
in my humble opinion - not to say that it is  
the view that

^Ki J->^U

our success.

fe-s l

The object of the proposed  
increase of capital is to enable the  
Company to carry out its  
policy of expansion and  
development. I have the honor to be,  
Dear Sir, your obedient servant,  
J. M. Smith

Yours faithfully,  
J. M. Smith

the thousand Stakeite Canes (very large ones) which  
we purchased up here, and shall continue so  
doing until the middle of May - May accept

most thanks for your goodness in supplying  
me with the Canes - You have so handsomely ad-  
vised me of - You really owe me, with such  
continued obligations - the good use to which I will  
put them, with I trust be some return for the favor

In three days I commence learning Russian,  
from my Native, (the of our business) who has been  
requested to be allowed that "honor" I am

at the idea I enter on the study with  
great interest, I sincerely hope that your  
health is good - and that God may bless you  
the best, prayer of, My dear Doctor,

Yours much obli-  
g'd  
and truly attached

J. A. + 4

P.S. My best & kindest  
remembrances to Dr. Spry, to whom  
I shall write again in a day or two

July 29<sup>th</sup> April

I have the honor to acknowledge the receipt of your letter of the 20<sup>th</sup> inst. in relation to the collection of specimens in that branch of geology, to which I have already alluded in my letter of the 10<sup>th</sup> inst. I have the pleasure to inform you that I have been enabled to procure a number of specimens with great interest, which I have in this instance had the opportunity of examining, however inadequate, to the obligations which I owe you, and a great many others, cannot but be to you, I judge, the same. I have the pleasure to inform you that I have been enabled to procure a number of specimens with great interest, which I have in this instance had the opportunity of examining, however inadequate, to the obligations which I owe you, and a great many others, cannot but be to you, I judge, the same. I have the pleasure to inform you that I have been enabled to procure a number of specimens with great interest, which I have in this instance had the opportunity of examining, however inadequate, to the obligations which I owe you, and a great many others, cannot but be to you, I judge, the same.

To purchase my own services in any way, or to  
be used, liable to them.

Mr. Wallace in the habit of writing me a good  
deal for the purpose of receiving that the  
very few repeatedly inquiring his that they in  
the same way glad to report that those letters  
and profitable letters from him at present  
it seems to have commenced already  
operations with all the speed and zeal as possible  
to even what must sooner or later prove  
successful.

The seeds confer a very great favor on  
them would cause the very new seeds, to be  
affiliated with plants from the tropical parts of  
America for this purpose. The meeting took place  
at Hackney on the 11th of the month of  
October with nearly 100 of some of our  
most distinguished residents here.

From the above to subscribe myself with  
feelings of the highest respect & esteem

Yours most obedient & very humble servant  
W. Wallace

J. [unclear] [unclear] [unclear] 30<sup>th</sup> January 1849  
1842

Madam  
At the request of my daughter Mrs Walbridge  
I have prepared a box of plants, to your address,  
which was embarked yesterday on board  
the "Palmyra", a bespoke frigate for Liverpool,  
the Commodore, Capt. Campbell having kindly  
undertaken to have the care of it during the voyage.  
The collection consists with one or two exceptions  
wholly of American plants; and I shall feel truly  
gratified if the plants should arrive in a good condition  
and prove worthy of your Ladyship's acceptance.  
Other than the exception of the very few plants alluded to,  
I had no data on which to form a general idea  
of the sort of plants which your Ladyship was  
especially anxious to receive from home; for what  
my daughter sent me contained from first  
to last only plants (orchideans) from the Western  
hemisphere, which we either do not possess at all,  
or at best only in very limited & precarious numbers.  
It appears that the last was sent out from England  
by  
Lady Bridport

Mr. G.

In reply to your favor which  
reached me yesterday I beg to inform  
to you

Robertson 20 June 1845

Dear Sir  
In reply to your favor which  
reached me only days ago inform  
you that the subscription nearly  
opens it has been about the  
convenient but, that your committee  
great care has been taken from London  
the other side, especially the names  
multiplicity can only be forwarded  
to you in a separate sheet, which I  
will be most happy to do. But this  
is necessary that you should have the  
opportunity to witness our efforts  
in London to procure a paper  
for the day before the 1st, and  
the signatures of the paper which  
we to take payment for the day on  
being prepared in order to meet  
for the sheet. The cost of the common  
paper is 80% - one of the sheets and  
during last week 18 1/2

Yours truly  
W. Robertson  
W. Robertson

Delivered from 1<sup>st</sup> July 1842

27/7/42

My dear Sir I received your favour of the 22<sup>nd</sup> ult. on my arrival at this place two days after your departure I had hoped to be back before your left as I have been called upon you to pay my respects before starting for the Bazaar.

I had no time in London for your kind letter in order to get the information you require respecting the specimens discharged by the Assam Company.

He says that not one of them have been brought up to the tea bazaar and that the best of them are not equal to our Suklas. I am myself of the same opinion. They are all personally known to me and many of them are very well known.

decide now but they are certainly not our best Suklas. I have seen them at least in all the stages of the bazaar and I examined their tea when finished and found it to be very far inferior to that made by the Suklas and I believe it was

to be capable of being improved

Should therefore say that they are not the best  
descriptions of men who can under any circum-  
stances afford satisfaction to the Gov<sup>t</sup>.

I have obtained a promise from our Commiss  
that they will use their utmost endeav

during

the first of

four

as to reach them in time for the first  
of April of next year  
They are willing, good men and industrious  
their success will be the Adm<sup>l</sup> Estate<sup>l</sup> would  
them not only pay its own expenses but would  
yield a profit that would

?

good looking Green Tea. The many guns expended  
on this branch of the experiment on this Province  
than few little better than thrown away when as  
Kiaman when the condition of the plant grown  
from Chien Sea is so very similar to that of the  
Sea districts of China, a Sea can be made under  
proper management very much superior to any  
any thing we have ever met with west of China  
I only wish the Gov<sup>t</sup> would place the experiment  
in my hands for a couple of years. I think I should  
have no difficulty in procuring it.

If the Chincamen engaged in Calcutta have already  
been sent up to Kiaman it would be as well to  
direct Dr. Falconer's attention to the necessity of  
examining the young leaves as soon as they begin  
to expand which they will do most likely in  
that situation about the beginning of April, this  
should be attended to from time to time

Nayona 5 July 1842

Dear Li  
Your parcel of the 5<sup>th</sup> ult  
reached me last evening and by the  
same date the beautifully packed with  
12 cuttings of *B. papyrifera* all in  
good order, for which please to  
accept of my best thanks.

These cuttings did not arrive  
in so good a state as the ones  
you formerly sent me in  
brown paper only, and this  
may result from some causes.

- 1 The wood is not so firm as  
that of the *A. multicaulis*.
- 2 They have been longer on the way.
- 3 The wax cloth and more frequent  
circulation of air, still, if you  
had not taken the precaution to put  
the boxes in the boxes, which are very

Yours truly  
Dr. N. W. Allaire

which would have probably been  
bruised, and injured by the brown  
paper. - The ends of the cuttings are  
a little withered. I have cut off one  
joint from 6 of them, at that joint  
they are quite fresh, the remaining  
6 I have planted as I receive them  
should there be any difference in  
the time or manner of vegetation  
I will inform you. - The  
cuttings of the *Mentha* are growing  
The *Mentha* has vegetated freely  
Send on a slip of the *Laudana*  
Cap. *Jurpinia* is here, and has taken  
a great fancy for the plant. I have  
not seen down to Seckath  
for him, but whether he requires  
the flowers for the same purpose  
for which the Natives use them  
I am not at present able to say.  
I cannot make out the name in  
the list which I recd. from Calcutta

Wexford Feb 20. 1842.

My dear Wallich

I have this moment  
sent you a note in reply about  
my medicinal drugs & notes  
I am extremely concerned to  
find that I excubbed myself  
so as to hurt your feelings.  
My dear old friend, do me  
the justice to believe  
I in 2. \*. -aT ■\* £ not intended any  
thing of the sort. In the present  
instance I only sought information  
- then when it seemed to me  
unreasonably I dare say that  
I might have had your  
quantity or other. Do what  
you can for me on what  
over the drugs & notes to make  
more advantageous sent to some  
deal with them as crude by as  
they deserve yet so perhaps  
encourage further research  
on their basis as published.

re

to the other flower in the water, and he gave me a  
 lesson in his way of speaking to the people, saying  
 on the present occasion should have been a  
 part of the old path from being of the same nature  
 pieces with the present, and I shall be put to  
 in this execution. Only he gave enough to make  
 but I am in the sentence of the constitution to be  
 of the Medical Board as a result of a disease  
 which I suffered in July last, and that has con-  
 sidered the importance of the constitution to be  
 mind to be a tropical climate. I have a most  
 attack of cholera (the 2<sup>d</sup> within 15 months) and my  
 medical attendance, attended by the Medical Board  
 have been very. I must not remain here another  
 day, as I am by no means strong, and I am  
 only a large number of old people, and I am  
 the country and the rest with some others at  
 Cambridge are among the retainers or rather  
 retainers in the case of an old man like  
 myself, the few of the old man should be used to  
 speak, but the unnecessary laborer duties, I am  
 unable to prevent me from not being in the  
 time

both the former and latter - and in an  
arrangement by way of change to place

on the present occasion. And thus to say  
of the effort for these purposes is not  
less with four members, and shall be found  
in the execution. And in such manner to  
that time when further operations to  
the Dublin Board as a result of a  
change proposed in the Act, and which has  
altered the original plan of construction to  
which was proposed about 1840 and  
others of which the Dublin Board (and  
which afterwards succeeded by the Board  
then believed that about 1840, and  
the reason for which there is some  
only a large number of which, and of  
the number and the cost of the works  
which are necessary to the  
Board in the case of an old Board  
which. The fact of which has been  
which, and the necessary labor  
required to perform the same

My dear Mr. [unclear]

I beg you will excuse  
my sincere thanks for the letter you  
sent to me on the 10th in my behalf  
and assure you that I am never  
forget the debt interest you take  
I promise my assistance in every  
way you may desire. I shall be  
glad to do it. I believe me that I am  
always at your service. I will certainly  
accomplish your commands.

I obtained a Poem of a set of  
books viz. "The History of the  
& Queen's Majesty" both these are

was easily accepted. Every day and  
and the improvement they will make  
I could therefore be at your service.

Yours,  
James  
James

S. Walker Esq. NY

Philadelphia February 15 February 1842

My dear Crick

I saw my letter of the 10<sup>th</sup> ult. I have had the pleasure to read your several long and letter packets and your stamps chiefly American & Great Britain. I also saw with seeds; in the latter all seeds, among them *Tricus cucurbitae* and *Wolbena* from *Tricus* and *Sonchena regia* Boiss. ripened in this good situation of the tree at the close of last month, also some puff ball seeds of *Uredia* *archaeum*. By the way in a packet of *Orchidea* that I forwarded by Drury to Bamberg, and which will reach by the April mail from *Tricus* were five plants of *Sparganium angustifolium* Wall. just rec'd from *Tricus* from *Wm* Jenkins; and in this packet by way of trial I put some papers of *Uredia* *archaeum* capsules seeds. kindly inform me how your experiment <sup>has</sup> succeeded. My idea is that some sorts of seeds, except malus kinds may benefit by having a coat of perhaps some

except of my best hands I have some of the 29<sup>th</sup> November and the packet of seeds an ampouze sent most often to Drury being unsent to  
 Wm. Crick

to the minute some few words without but in  
delivered me by Mr. Fisher as the this on which he  
arrived yesterday on the 10<sup>th</sup>. He pronounced that he  
would soon come back again. I have however  
not seen him since then. I have got an extra  
head-garden, this is certainly good practice  
now, but not very fundamental knowledge

in his profession.  
I have been to the garden, I have  
being a great deal of property in my garden  
and you can see the garden - and I have  
been as soon as I can get in. I have  
cannot be able to come back before the 10<sup>th</sup> soon  
a pair of hands.

Believe me always  
Yours truly  
W. Wallis

13<sup>th</sup> February 1842  
London

My dear Sir,  
I received your letter of the 11<sup>th</sup> inst. and was  
glad to hear that you had not been  
suffering from the same complaint as  
I have been. I am sorry to hear that  
you have been obliged to leave  
London for some time. I hope  
you will be able to return soon.

I am, Sir, very respectfully,  
Your obedient servant,  
J. G. ...

plains 22<sup>nd</sup> Feb. 1842  
feeling of the greatest respect,

Dear Sir,

I would be obliged to you if you  
would give me the safe deposit of the 10<sup>th</sup> but  
in your conduct. We have been of great  
service to the India Company and  
I am acquainted by Mr. Bishop's Station  
Book particularly to thank you for  
the valuable present.

Mr. B. M. General, General has just  
sent me with an extract from a former  
communication of yours to him in  
which I find you would to obtain some  
of the most approved kinds of Tobacco  
cultivated in Egypt. Nowhere, perhaps  
not even that the Tobacco cultivated in  
the country is of a quality so very superior  
that it be only used by the very lowest  
class of people, then we believe that

Camp Serangoon 25<sup>th</sup> February

Andropogon  
calycinus  
Narrow Aromat. Park

My dear Dr Wallich

The enclosed grass I found during our march yesterday the country was full of it, and the smell is so very aromatic, that when burnt it impregnated the Air. Now though I fear I may be sending you what you are already well acquainted with you must forgive me the trouble, as I imagine you were never so far up the Country as this place - which has nothing in the world to recommend it, unless the grass should be found valuable, the natives call it "jerrakoo", and says the Natives

was with an impression of it in process -

I hope you are enjoying good health  
all the pleasure of our month has  
been spoiled by the sad news from  
Robert - we learn that in a few days  
we must to thank for the help that  
his father and my daughter unite  
with me in best compliments  
to remain

Yours very truly

M. M. M.

San Pedro 12 March 1847

Dear Lady Nicols

Return you my  
 warmest thanks for your kind welcome  
 at the 25<sup>th</sup> and the various transactions  
 which it entailed. I know this grape  
 which you have been seeing it, if I mistake  
 not very greatly, about Del Rio but  
 will use your text in the instructions which  
 published in several places by  
 Lopez, who calls it *Andropogon Calomys*  
*aromaticus*, and supposes it (as others do)  
 to be the "sweet cane" and the "scent aromatic"  
 which you a few minutes of description. He  
 also said that the grass yields, according  
 to the same authority (Dr. Royle) the grape  
 Lady Nicols

Yours truly

Macfarlane

18<sup>2</sup>

9th Apr 1842

My dear Wakil,

Many thanks for yours  
of the 30<sup>th</sup> ult. —

When I wrote you about  
sending up the Chinamen  
I was not aware, nor till  
long after that all the  
men imported by the Govt —  
were not veritable Jew  
traders when they left  
their own country — but  
notwithstanding that had  
every reason afterwards  
to believe that had  
been played upon the  
Govt — who sent them

to India, yet nevertheless  
had I to give advice over  
again I should still recom-  
-mend the same measure  
of employing them at Kemaon,  
in whether they were well  
acquainted with the man-  
-ufacture of Tea when they  
left China or not, they  
have since been under  
the instruction of two  
able Tea makers and  
are, or were at the time  
the best manufacturers  
available for the  
plantations in Kemaon.

Instead of wishing any of  
them withdrawn, Dr Falconer  
should I think now endeavor  
to get them joined to our  
Gy Green & Black Tea makers,  
after they have completed  
their arrangements here  
in Hong-Kong. But that I

know they

/£^r^L^\$~y£

as believing that would they  
be prevailed upon, they  
would undertake the  
experiments now in  
course at Rangoon to  
a successful conclusion,  
and no others in India

cannot do full justice to the  
Lea. - Its ridiculous  
objection to a hundred  
or two rupees extra ex-  
penditure is worth  
when the success or failure  
of so important an experi-  
ment is concerned, especially  
when it cannot be fairly tried  
otherwise.

Dr. Falconer has not  
informed me what he has  
been writing to Fort - and I  
only guess from yours that he  
has been objecting to the men  
as not first rate artists,  
but this is nonsense

they are the best he could  
get and I fancy he has  
obtained them on the  
best possible terms, that  
is to say they would not  
be one or two any but  
all together or best at all.

I am

Mrs. J. P. M. J. P.  
M. J. P. M. J. P.

Reference books (I should say generally) start whatever you may send with the copy prepared by me.

Believe me with great respect, and with kind regards to Capt. Furness who I trust has got a permanent appointment at Newcastle.

Yours sincerely  
W. Wallcut

I should write these sooner by ill weather - worse weather than ever and again, but I have no time. Yr. W. W.

I have just from you a letter from your father's letter which I have left here by mistake. It is a letter to you, and I would like to see it. I have not time to write you now but I will be glad to hear from you again.

*[Faint, mostly illegible handwritten text at the top of the page]*

At the request of Capt. Edan of the 'Porakma' and Miss Packard all the plants I have filled these empty boxes which were furnished by the former, and the above is the list of the plants which have been placed in them. A number of plants which you wished to receive, and which was discussed by Mr. Edan, has been my chief guide in this matter.

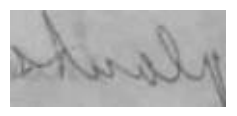

A note from you to Mr. Edan and was likewise left here by him - I presume by mistake. It found its way to my office and it was only today that I read it with attention and had it been

I would be a good specimen of one, but 272  
the weight of the letters would be against such  
a plan. But let me repeat my request  
that you will send fresh slips of paper and  
other plants, in the mode I have suggested.  
The seeds he took to Dr Campbell at Freely,  
Stone not I enclose for its location etc.  
He also says - don't take a gift horse in  
the mouth - - according to a standing rule  
with me I sowed a very small part of seed  
sent here, on the day of arrival we shall see  
how they succeed. - -

Did all I could for Mr. Miller and  
all he required, & got him an advance  
of some months salary. He seems to be a  
very superior man. He kindly took charge  
of a lot of Tea apparatus I had just  
received from Spain, & turned out  
tolerably. - -

Have sent you some my last letter

the by length and 273

and *Lilium giganteum*

Kanran). Long inform

and similar procedure

arrived. Major of the 2d regt

in station in his pants

interlocking call head of

at on the 9<sup>th</sup> inst. Two pairs

shirts (received from Madras

W. B. B. a few days before)

the other with 4 trees, and

paper 4 seeds. Shall receive

d. There were also two

more seeds just received

from Alhadad. from Kanran

all seeds obtained by you

with supplies of the following

- *Linum*, *Fuchsia*

sweet pea - *Scilla*, *Artem.*

*Linum*, *Trochiloides* (or *halis*)

number of persons, but by groups and off  
other ways. But the one and the same  
table (the letter from Lawrence). Very interesting  
one in that that there are some persons  
persons have occurred. Very off - so give  
me some information on the points  
But the most interesting part of  
the letter is the part on the 2nd page  
of the letter which (occurred from the  
to doubt from the 1st page a few days  
one with I see the other with # two, and  
my private paper. I shall receive  
of my earnings. There were also two  
pages of Lawrence's paper and just signed  
there is a paper of the 1st page from Lawrence  
which will be very interesting to you  
concerning the right support of the following  
the 1st page - Lawrence - Lawrence - Lawrence  
Lawrence - Lawrence - Lawrence - Lawrence - Lawrence  
Lawrence - Lawrence - Lawrence - Lawrence - Lawrence

leaves what I send  
 you. - They report there  
 are 500 Tea plants at  
 Kungchow and the river  
 plants about 5 feet  
 high - and they persist  
 in saying the plants are  
 useless - but I believe  
 this is altogether a  
 mistake, what you  
 say correct; the plants  
 you must have sent  
 me I believe  
 are tea plants -  
 Please let me  
 both you for

20. May 1842  
 Major Welch.  
 Thank I mentioned  
 to you some time ago  
 that Major Lister had  
 informed me that there  
 were 300 Tea plants at  
 Kungchow. - I presume  
 that he would like to know  
 the leaves gathered of specimens  
 of the Colchic m. (the)  
 in the way of making tea  
 I desired Mr. Watkins  
 send me 2 or 3 Foklah  
 that I might send him  
 to Kungchow and not  
 any instance of one  
 Major L. might effort  
 how to make tea but  
 report say the hills  
 generally by between

Handwritten text fragment, possibly "the plant".

My dear Wallcut

I have determined on acting as you  
 kind advice and this day the circular will  
 go before the members of the Finance Com<sup>ce</sup>.  
 Your encouraging comments have overcome my  
 objections and I think with <sup>you</sup> that the question  
 could with great advantage be discussed  
 at the meeting - It is very good of you to  
 assist me with such a clear line of argu-  
 -ment - The result you shall see as soon as I  
 receive it - If they choose to meet to discuss  
 the business over they must do so - The case  
 is fairly laid before them and I leave them

My duty. Your kind remarks too about  
remuneration are very considerate - I have  
given my best services to the advancement  
of the interests of an Institution that  
has and will continue to afford more  
real useful intelligence to those engaged  
in the promotion of the welfare of the country  
than any association that has ever taken root  
in India - Here I do not look for reward  
I know too well what Indian appreciation  
of exertion is but ~~but~~ when I return to  
England I may hope to find that my  
labors has not been in vain - The ~~unpleasant~~  
manner I have been treated <sup>with</sup> only <sup>the last</sup>

two days by sending Chapman into the Fort -  
for the few days Corby may be ill show  
how little consideration or respect is shown  
The merit enough of this.

This letter from the students is indeed  
a call of importance - the purpose of it most  
gratifying and certain sure am I that if I  
were to impose such a labor on myself as

Dear Sir  
 I have the honor to be  
 informed by your letter  
 of the 10th inst. that  
 you have received from  
 the Honble Secy of the  
 Navy a copy of the  
 report of the Honble  
 Secy of the Navy  
 relative to the  
 proposed purchase  
 of the schooner  
 "Enterprise" for  
 the service of the  
 Navy. I have the  
 honor to acknowledge  
 the receipt of the  
 same and to inform  
 you that the same  
 has been forwarded  
 to the Honble Secy  
 of the Navy for  
 his consideration.  
 I am, Sir, very  
 respectfully,  
 Yours,  
 Robert M. Johnston

Post Office 28 Ave 1042

My dear Madam

Thank you for the copy of Miss  
Guy's letter, which is alike honorable to you  
and him. I had occasion to speak with  
him on the subject, when he expressed  
himself much pleased with the nature and  
progress of the movement of the Municipal  
Committee.

The paper of Mr. Lorenson, enclosed  
to you note of the 8<sup>th</sup> inst. forwarded among  
other things, that the specimens were in  
route, as you desired.

For your continued boxes of seeds  
of the same plants between my best hands,  
you cannot possibly contribute any thing  
more acceptable than both seeds and  
specimens. I am, Madam,  
Your obedient servant

Influence, partly for their position, partly for being  
 favored, possessed by their convergence, — and  
 partly for being seat home by Overland  
 routes to the India House, where the  
 trade, distributed, runs far and wide.  
 We shall have the opportunity to visit  
 and people to record their collections to  
 more than, of both seas, that they  
 are mainly from wood. Half a dozen — or  
 say one dozen on the outside of the  
 species from at least 150 feet  
 200 species in the valley.

Francis Sumner, Esq.

W. Wallcut

295  
Baltimore 24th April 1842

Dear Mother  
I have the pleasure to send you  
a packet of seeds of *Truncaria* which of  
course would amount to forty or fifty  
seeds by some opinion. Possibly  
they will prove fruiting through  
the winter. I am not sure that  
some of the finest timber trees  
will be found in the woods that  
are to be seen during the  
winter. I am sure that  
you will get a good number of  
them. I am sure that  
that plant grows most readily  
in the soil all over the  
country. I am sure that  
it will be found in the  
woods of the country.

if \*^\*\_—r |

Handwritten text in a cursive script, likely a letter or document. The text is written on aged, slightly yellowed paper. The handwriting is dense and fills most of the page. There are some faint lines or markings on the paper, possibly from a previous page or a watermark. The text is written in a cursive script, likely a historical form of English or French. The words are difficult to decipher due to the cursive style and the age of the document. The text appears to be a letter or a document, possibly a contract or a record. The handwriting is consistent throughout, suggesting it was written by a single person. The paper shows signs of wear, including some discoloration and faint smudges. The overall appearance is that of an old, well-preserved document.

I am much con-  
fident you will receive the same boxes back to you filled  
with such plants as may be suitable to you. So please  
write by first post & say what they shall be. Besides

some of them were very like here of your mother's  
that I saw. He says that he will be in London soon but, as

to be sure you will send me a list & be assured of it  
will do me great service.

I am sure that  
you will be of great use to me in the way of boxes, from  
London & about the 1st of next month.

I long also to hear from you again, & more  
about yourself, & subjects you may wish to refer to  
that you have a convenient reference to me. You

will be of great use to me in the way of boxes, from  
London & about the 1st of next month.

the other things but have put an explanation  
in our correspondence in form of a long paper.  
It is necessary to compare the two parts of the  
text but they want me to suggest - or what  
do they contemplate doing?

But - year or two ago last summer only  
I discovered that amount can be explained  
in a finding to be rather odd. The same  
the was without word. -

Forward summary

W. W. Wallis

It is a note for the last from John May  
I think done yesterday, both 22<sup>nd</sup> day, in  
reference to that theorem showing  
the theorem applied, has been applied with  
the theorem's most important other in reply to  
the questions put in! -

Admiralty 12<sup>th</sup> April

WU-

My dear Sir

Pray accept my cordial thanks  
for your kind note of yesterday with  
its enclosure. The specimens which  
it leads us to \*~Kbi/Jr will prove  
a desirable addition to the  
museum particularly as the only  
kind in my possession is the "Tectona grandis"  
of Linnæus so that I shall have the  
only variety which Dr. Wallich allows  
to exist - I dare say the duty will  
be very trifling & if not so it will  
be then to memorialize the memory  
of Sir Clark's happy Plans from

from herself but waited for a  
second edition of the good News  
before congratulating you & Mr  
Stanley Clarke as I now do with  
the warmest and most friendly  
wishes for their happiness and  
welfare -

I am very sorry to hear that the  
angel has not quite recovered from

V. Probyden 7<sup>th</sup> June 1942

My dear Jenkins

Many thanks for your note of the 27<sup>th</sup> and the various minutes of machine-meeting. It is gratifying to see that a commencement has been made to avoid the un<sup>~</sup> application of manual labour. I shall be very happy if Mr. [redacted] should succeed in giving his black tea a less worse form. I hope he may succeed by dint of exertions, and then he sets about using improved machinery - your less advanced lower. I mean think the beginning looks encouraging.

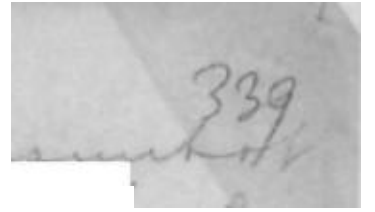

Yours  
My dear Jenkins

5^1~A

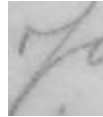

I have been thinking of writing you  
 about the various counter of machines.  
 made to. It is gratifying to see that  
 arrangement has been made to  
 avoid the whole of application of pressure  
 below. It will be very happy if Mr. [Name]  
 should succeed in giving <sup>his</sup> plans the  
 a life more form. There is way  
 turned by kind of exertion, and  
 them to get about using improved  
 machinery upon the observed basis,  
 than with the improving tools [Name]

Yours truly

Remembrance - Repenher, Star plants of all  
 sorts. Look out for a most gigantic Orchidea  
 the largest in the world which poor Dr  
 Fontaine pointed out to me on a small  
 island (a groupe) near Penang, called  
 Pulau Anding. It is terrestrial, growing to  
 man's height among rocks near the sea,  
 in high tufts. No Porter - possibly my plant  
 collector at Penang found this if mistake  
 not on this island too. A few growing  
 plants of the genuine Camelia (Camellia  
japonica) or of any of the different other  
 species will be very precious. Don't send  
 me Guamibe - Japan - Knocorde oculata  
 - and I will to add don't tempt any  
 more the Burian. We have not yet got it and  
 I give I up as a vain hope to see one  
since

I have not reshaped anything to search in  
 other words, during the 35 years of my acqui-  
 sition this Garden, it has never been visited  
 with such an awful Devastation as on  
 this last occasion. There were properly  
 speaking two storms - one from N. N. W.  
 from 8 to 2 pm. - another other from N. N. E.  
 5 to past midnight from N. S. W. - During  
 the lull between the two acts of this tragedy,  
 anticipating the worst effects from what  
 I felt saw in & from my house, I made  
 a tour round the garden. I can form  
 no idea what havoc I witnessed; and you  
 may easily guess at my distress when another  
 tempest arose, to complete, as it were  
 what the former had left unaccomplished.  
 Hundreds of the trees some of the noblest in  
 the garden have been blown down; or  
 otherwise

10 Oct.

My dear Mother

Let this find you still on the  
road - Last night I met both at dinner  
at Stewart and on mentioning to him that  
you proposed taking rooms at Spencer he  
at once and in the kindest manner asked  
if I thought you would like to take a  
room in his house (the 3<sup>rd</sup> Superior)

and he said you should be most welcome

I told him that I should see you today &  
would mention it and he asked if he  
should write you a note but I told <sup>him</sup> I would

send down to see myself which would  
save him the trouble - In case therefore that

you should not have enjoyed the rooms

at 1/2 p.m. I have no time in dispatching a  
Special Messenger at 600 Cee away to  
carry our good friend's letter and medicine  
if I can't it I shall be most happy  
to be the same medicine of carrying  
as I have been in presenting it.

I cannot but think that if you represented  
to the Deputy Governor that you are well  
in inferior state of health and respectful  
in consequence of 1/2 p.m. to sea and as an old  
servant of the Company begged to ask to  
be allowed to leave my services as I had been  
a good deal with you and was acquainted  
with your duties in order that you might  
have a little time to recruit your strength  
before going on ship board as well as to attend  
your private affairs adding if you thought

You could state that I was anxious for an  
out for you and that I was desirous of do-  
ing so — and also that when you had  
to write how to apply — I would wait on board  
with it tomorrow morning and then tell  
him that there was at work doing in the  
book just now & that if he would permit  
me I would be with you till you sailed  
He would inquire for the salary article  
At any rate I should not wish on any  
account to touch on that subject I was sent  
down, till you were prepared to do so. If he  
could only let me sleep down at the Sunday  
He would be all that I should require.  
What say you? could you do you think correct  
such an epistle against I have the pleasure  
of seeing you by the way. I am not quite done  
about this epistle of Down's and it would

October 23 Jan 1872

My dear Mother

I have just received your letter of the 20th. I am so glad to hear from you and that you are all well. I am well at present and hope these few lines will find you all the same. I have not much news to write at present. I am still in the same place and doing the same work. I have not much to write at present. I am still in the same place and doing the same work. I have not much to write at present. I am still in the same place and doing the same work.

1

It may be necessary to say that the  
kind of machine we are using is not  
any one but the pleasure of the  
a number of books, and that the  
books are arranged in good order  
I have had some good writing  
and I am sure you will find

I have had some good writing  
and I am sure you will find

My dear Mr. Gray

I have been very busy since I received your letter of the 15th inst. and have greatly enjoyed both to you and your mutual friends. The fact is, instead of your having been over my letters to me, it is my wish that the request were made, for an inst. Thank you, which I have with me. I had a very interesting letter from Mr. [Name] by the last mail which I have seen and your proposal. The most interesting to all is all a most amicable love. [Name] is exceedingly indebted to all efforts. I shall like if the plants I sent should arrive safely. There are a number to be sent to the apartment. I am most

Yours truly

Bethesda

30 ~~29~~ June 1942

My dear Friends & Colleagues

I regret exceedingly that  
I am compelled to go to the  
Cape for a couple of years, and  
to be ~~thus~~ <sup>soon</sup> separated from my  
duties at the Medical College.  
I have already given notice, <sup>of the interruption of my duties,</sup> to our  
<sup>very</sup> ~~assistant~~ Secretary, and in doing  
I now to the College Council.

I try to express my warmest  
respect & attachment to all  
and each of my colleagues  
and my gratitude for the  
courtesy & friendship I have  
experienced at ~~your~~ <sup>their</sup> hand  
~~throughout~~  
~~during~~ my connection with  
your institution  
~~the College~~ whose welfare  
and success will always  
continue

continue an object of my most  
earnest solicitude and wishes.

As my <sup>particular</sup> case is, I think,  
known to all of you, I need  
only say that the Medical  
Board has testified to the  
indispensable necessity of the  
step I have announced, and  
that I have accordingly sent

in my application to <sup>the</sup> Government  
for ~~purpose of~~ <sup>years of absence</sup> ~~an~~ sick leave

I remain sincerely

Yours truly

To

Prof. Joadun, Rakeif,  
Jackson Mount

30/4/22

for  
Miss Colless  
refers

said  
from  
letter

Have you  
any people  
in the

by the Board on Monday.  
He asked what the arrangements  
was when you went away before  
I said that you sent the same  
on full allowances at the  
General order of the Comdr of  
Quilts - bts acct? he said he  
couldn't take charge & I believe  
he has been sent by the time.  
After I showed him Col by R's  
letter to me which he read

no official  
which you  
I believe  
I said

under separate  
would be done

1/22  
I called out of  
order for seeing  
on Thursday  
end of the building  
opened on the  
de novo - the  
at leaving  
and asked  
the  
applied with

He said, oh never, he  
took the matter over  
in his mind - I am first  
boy over to see Boudy  
I wish if I could see Boudy  
tomorrow evening, if  
the weather is good.  
Do not expect me to  
look over the report  
Monday at 12 o'clock.

Yours very sincerely,  
Samuel G. P.  
Henry R. P.

and he then  
has many had  
think over the  
I still find it  
and I'll be sorry  
I perhaps help also  
back and perhaps  
suspicion of my having  
he refused he knew that  
there was no one he knew who  
had a prior claim to it. He  
he was aware I had been

working hard and should not  
forget it - he had no "hangover"  
at present was his "hangover"  
and the I should be glad

was at the conference  
Hospital joined - 18th  
him the in case of  
was his presence to  
appoint he 1 thousand  
like to have a visit ~~there~~  
rather to please you can  
- trying on the other  
part is to be denied he  
would not join with  
the team as soon as he  
could - He said that  
only because he asked

how serious was the  
takeover - He asked  
if he had with  
I had Steinhilber  
said so. So the  
on the whole I think  
the witnesses was a  
formidable. People  
is often a stream  
point. He was surprised  
when I told him that  
I actually said it.

My dear brother

I acted on your suggestion

I called on the President

Yesterday and he warmly

approved of a meal - so I

went to be thanked &

had a chat with him

reconsulted the President &

the report in the advertisement -

next week for Dec 11<sup>th</sup> 1903

hope. I must do my  
best to purchase the copy  
as well as I can afford but  
I have my hands so full  
I wish that I had the  
not be able to give it  
the student received  
which I enclose with it  
which had a performance  
righter & more. The  
seem that it is

to the 14th be my house  
something readable -  
How are you - I have been  
my interview with the  
College - which <sup>at</sup> ~~is~~ <sup>all</sup>  
on Monday to the way  
as well as it is -  
I am sorry to hear  
from you some yesterday  
It is with a concern  
for the future - that the  
particular which was in  
writing it - I know and

These are the  
I have had to  
I have had to  
I have had to

My dear brother

This is indeed the end

I shall give you my best regards  
with a gift which comes

from so sincere a friend.

I have two books which

I shall return presently

to you by the way.

Ever sincerely

Henry Thoreau

V. ... 4<sup>th</sup> July 1842

My dear People

I have been very ill lately and have  
 not been able to go to the fair or to see  
 for a couple of years. On this and other matters  
 which were before me by the last year I had  
 to leave 4 days hence. In the mean time  
 I have the pleasure to send you my report  
 on the market here to this year. By the  
 way I am sorry to say that during the whole  
 year we have been disappointed and  
 some of my life have I witnessed such a  
 more than ordinary nature during this last  
 winter. It is as if the tremendous force  
 of the gale had raised every power of every  
 kind of root and every kind of  
 such a manner as to renew vegetation  
 and a species of hay which it is impossible  
 to describe. Recollect that once meeting  
 the air knight at Market, was  
 a People

In my letter of the 14th I said that I had  
sent you a packet of seeds of *Spina* -

Let me inform you that I have sent  
you 24 packets of seeds of *Spina* -  
seed that I had received a few days ago  
from Prof. Schmidt at Moscow. Most of the  
specimens of these water chestnut seeds arrived  
in good condition and vegetate with fine  
leaves sent you some papers of seeds from  
the seeds which had just got from Bismarck  
the seeds, as that they were gathered in the  
highest elevations in Kamoa, so that the  
plants may perhaps prove more hardy than what  
is commonly the case with regard to that species.

They had a bad attack of getting &  
I don't think the seeds of that species - according  
to all seed things are, though some of them  
being scarce. I had felt better in health  
than had been the case for many months. I  
made a trip to the middle of the night into a work  
of 1000 ft. to 1000 ft.

Yours truly  
C. S. Sargent

London 12th July 1942

415

My dear Mervin,

Since I had written to you I have been  
 very ill - at least I have had a very (the kind in  
 them months) on the head of putting off bed, which  
 has left me no further alternative. I have applied  
 leave to the base for 2 years when I mean to return  
 early to go home for good, as I shall then be about  
 104½ the estimated cost per year. The difficulty  
 of me acting during my absence has not been  
 as yet determined. The question has been referred  
 to your father-in-law. You & I believe are bound  
 a doubt entitled to claim the retention of post - post  
 for when he - and wants undoubtedly to have  
 if I were with acceptance sure if I were not  
 reduced according to the expressed intention of the  
 Home Authorities - I mean reduced grade is salary.  
 As to the arrangements as to the Income they will  
 be left to you & I believe is present matter. My  
 husband's think beyond a doubt (2) (567-8) = 783-12  
 + simple military pay, making a total to a large  
 2000-8, and I trust that this amount is far  
 up than your present income. Nothing would  
 make me more happy than your being perhaps

Yours truly  
 St. Wright

My dear Dr. Halliwell

I have been prevented sending  
you the accompanying papers relative to  
the ~~the~~ reopening of the Seaman's  
Hospital, in consequence of Mr.  
Lenton still occupying the house,  
not liking to circulate the proposals  
until he was disposed of. He called  
on me this morning & solicited my  
interest in obtaining the appoint-  
ment of Super<sup>t</sup> & Apothecary, so  
the coast is now clear, and if you  
can induce a few of your friends  
to contribute it will be a truly

Philanthropic act, and will greatly  
oblige. Yours very sincerely

R. H. Wrightson

Dr. Halliday

My dear Dr. Walcott,

I must apologize for keeping  
your book so long; but it had  
so tempted me that I could not  
part with it before that I  
had the printer porters &  
its contents. I have taken  
some useful hints from it  
as to the Imbeciles, Imbeciles of  
gardens, especially those which  
relate to the Man an opponent  
of creepers which I think  
of putting into execution.  
I can let you have a  
Haut & the Spores

A. Hallen  
Nov 18742

2nd Nov 1872

Dear Sir

I am stationed at Kings Blotch  
house, halfway up Devils Berg proceeding with  
the measurement of an Ore of the Mountain.  
Otherwise I would do myself the pleasure of  
calling upon you today. I expect to leave the  
station on Saturday or Monday when I will call  
upon you.

I happened to find my friend Stewart & his  
family on the hill. I hope he is making a fortune  
so rapidly that he may one day escape from  
the Calicutta swamps, with a decent bank &  
a respectable stomach.

A month hence I start for to triangulate  
between Swickland & the Oldport River. It  
might afford you an opportunity to see the  
disappointment with the heath & Flom.  
to be found. It is that comparatively late

ii v

My dear friend, you are always, I think,  
beyond plain Mutton - but not so hard & rough as  
is to be, and out of proper life, I am proud  
you a hearty welcome, fresh air & pleasant  
society. When tired of the excitement, you  
can return to the serene society.

If you are a fair guess that there is  
a spark of the spirit, the product of it  
knows is rather laborious.

Believe me dear Sir

Yours very truly

J. M. Maclean

with these lines most anxiously hoping  
 that they may meet just and all your honest  
 family in good health and in all earth's  
 happiness. I need not tell you my highly  
 valued friends, that I will by no means remain  
 idle in this glorious part of the world.  
 Just now what a place, how totally different  
 from that these eyes of mine have for so  
 many years been accustomed to admire  
 I may reclaim with father Leone, *obsequia*  
*et sanguinem cogitavi* mean please  
 with me in *meper Africanam*. But  
 that most of all strikes me with delight &  
 astonishment is to behold natives of all  
 other parts of the world domiciled in this  
 lovely domain, being quite naturalized,  
 and passing freely together in good  
 fellowship and friendship to neighborhood.  
 The English Oaks, Scotch firs and white  
 poplar line the streets of the town together  
 with the *Neem* (*Chelia Ayedraed*) - The  
 latter in full bloom. The country places  
 are mostly shaded by the Oak & Poplar while  
 the genuine South African productions  
*Alnus, Geraniums, Heaths, Protea* and many  
 more.

innumerable other beauties you under No. 50  
have and all renowned. In our patriotic  
and most excellent national garden, Baven  
Ludwigs garden, where I have been often  
and return the available propagation seeds  
one daily planer, strawberries (rather an  
uncommon fruit here) this naturalization  
is carried to the most wonderful extent  
Young <sup>very young & fine</sup> ~~with large~~ *Quercus* excelsa, all  
sorts of *Acacia*, *Eucalypti*, *Callistemon*,  
*Melaleuca* or *Ham* *Australian*, *Tea* *Cassia*,  
*Antirrhinum*, *Gloxinia*, *Heliotropium* *peru.*  
*Magnolia*, *Primrose*, *English roses* with  
numbers, *Selenia*, *Honey-suckle*, *Lamb-ears*,  
*Tunica* *granatum*, *Savender*, *Rosemary*,  
*Nerium* *oleander*, *Myrtle*, *Pinks* of all  
kinds and beauty, *Dahlia* (these not at  
present in flower), a large white *Eurotia*  
*lutea*, *Lactuca* & *Epiphylla* & *Hedysarum*  
*coronarium*, *Valeriana*, most of all these  
and many other exotic forms. *Aquilegia*  
*canadensis*, the common *Bladder* *nut.*,  
*Emblic* *per* *rose* All these growing  
well with genuine *Apocynum*,  
the latter in vast profusion and I must  
not

not - you did perfection -  
 in the course of a few days I arrived in  
 the country (Banda Aceh & Gayo) prepar-  
 ing to a grand tour which I am going to  
 make with Mr Maclear, the worthy Director  
 of the place to triangulate between Awaiteh  
 the adjacent river - I had taken - then for  
 a few miles and our immediate objects  
 were to get as far as possible to get something  
 quite unworthy of acceptance. I had  
 some large specimens of *Spizella* and *Tringa*  
 but though I had it designed to get together  
 some such immense quantities, as have  
 been taken away by late travellers yet  
 with my good but mostly large specimens  
 especially of such birds as the postman

But enough for today. I had have no time  
 to write more this time. One of the reasons  
 for hastening away from this town is, inde-  
 pendent of all other reasons, that the unfor-  
 tunate & hospitable of both the Dutch and  
 English increased too much on my tour  
 and that I had to write to me as soon as

Wynberg 8 Dec 1942

My Dear Baron

Wickham returns this way  
by 4 numbers. Now paid him  
for his services during the time he  
has been here 3£, and likewise  
for the books there taken off his  
hands 5£, making altogether  
£8. To this sum I have given  
him a cheque on Miss Becken  
Burnie as before from of  
his own request, and I have now  
to ask the kindness of you to receive  
the same and his benefit. Explained  
to him on Monday last he personally

Handwritten text, likely bleed-through from the reverse side of the page. The text is extremely faint and illegible due to the low contrast and blurriness of the scan. It appears to be a continuous block of text, possibly a letter or a journal entry, written in a cursive or semi-cursive hand.

the grounds of my discomfiture the Es  
ment; and I need therefore only  
to add here the expression of my  
regret both on his and my  
own, that the proposed arrangement  
has come to an end — little more  
than a fortnight.

The following are the  
books which I have purchased  
Mr Eckman

u^\*.

v^-d-fr

These few lines are perused  
I have heard of the details of  
and all the particulars connected with the accident,  
which has deprived the Society of a most zealous Officer, and  
the Community a valuable member: it would  
therefore be superfluous my entering into further details on  
the melancholy subject, but I cannot refrain offering, to  
one who was so well acquainted with him, my humble  
tribute to the courtesy, gentlemanly demeanour, and excellent  
temper of him, whose "place shall know him no more". Although  
as you, my dear Sir, are well aware, I was not a personal  
friend of the late Dr. Spry, yet, associated as I was with  
him for a period of three years, I think I had better opportunities  
of knowing him than most of his acquaintances, and many  
of his friends, - and I cannot tell you how much I have and  
do still miss him, and how grieved I am at his untimely  
end. Much sincerely do I trust, that it hath pleased God  
to remove him to that better world, where "all is rest and peace".

There are several candidates for the Secretaryship,  
and the matter has been long postponed, - who is likely to be  
the successful I know not: the Election, however, is to take  
place at the Anniversary Meeting on 11<sup>th</sup> January; - in the  
interim, I have had full the work to perform and my  
time has, in consequence, been most fully occupied, and yet

To Baboo Ramcomul Sen  
Sir,

N. 776

Dated the 23<sup>rd</sup>  
Sept. 1842

Proposing to place at the disposal  
of the Council, a Gold Medal  
to be conferred as an honorary  
distinction on the most successful  
student who may pass in the  
present & the two succeeding  
years an Examination in  
Botany & solicit permission  
to denominate it "The  
Haddock Medal"

I am directed to acknowledge the receipt of your letter of the date &  
on the subject noted in the Margin and in reply to convey to you the best  
thanks of the Council of Education for your liberal and  
well directed offer of the  
for this year, one for the next, and one for the succeed-  
ing year - to the Student of the Medical College who may  
display the greatest proficiency in Botany in each of  
those years respectively

- u LA-&\*

As this science forms one of the subjects on which  
the annual examination is conducted the Section proposed  
it to the regular examiners and a person to adjudge the Prize  
Council of Education  
The 1<sup>st</sup> October 1842

I am &c

(Signed) F. D. Bayley  
Secretary

Baboo Ramcomul Sen  
Sir,

N. 335

I am directed by the Council of the Medical College to advise  
the favor of them whether you wish the Examination for the  
a Medal which you have so liberally placed at the disposal of the Council  
Education to be confined to native students only, or to be extended  
to all the pupils of the Medical College, and whether you will yourself pur-  
chase the Gold Medal, and hand it over to the Council of Education,  
authorize them to do so in your name.

Medical College  
Dec<sup>r</sup> 8<sup>th</sup> 1842

(Signed) Fred. J. Mount  
Secy. Medical College

Baboo Ramcomul Sen  
Sir,

N. 340

I am directed by the Council of the Medical College to ad-  
-cit the honor of your personal attendance at the annual distribution  
Prizes and Diplomas which will take place in the great Theatre of the  
Saturday next - 17<sup>th</sup> Inst. at 4 P.M. by his honor W. W. Bird Esq<sup>r</sup>

Medical College 14<sup>th</sup> Dec<sup>r</sup> 1842

The Meeting took place at the Medical College on the 17<sup>th</sup> Dec<sup>r</sup>: 1891.

The Hon<sup>ble</sup> the Deputy Governor presided  
Address from the President speech delivered on the occasion  
- seen - the munificent donation of Bunting's Lectures 6000 to be di-  
- vided in the annual purchase of 250 medals to the most proficient  
students in practical anatomy and Dean Commins handsome  
Gold Medal for Anatomy &c

So the native benefactors of the Medical College Robert Dunbar  
orator of Jagan, Ram Chandra Ghose, Ram Chandra Saha, Rajendra Prasad  
he returned his most grateful thanks for their unflinching liberality and con-  
- sidered with a well merited eulogium on this as the most gratifying occasion  
on which he had ever been present.

The following text appears at the Medical College on the 17th Dec. 1891.  
The Deputy Governor presided  
Spoke from the President of the  
the anniversary of the  
in the annual purchase of  
that in practical operation  
for Boston  
the Medical College  
of the Medical College

rec<sup>d</sup> in the Catalogue of the Royal Geographical Society  
Bang - the evening of the 4<sup>th</sup> May 1843.  
My very dear Wallace  
The Cape arrived within

11, New.  
10th 1843.

made one  
and an account of some iron health: I had

you and being from Joseph at the same place. The  
Eskimo & Deven will have left the Kallikma Id:  
lands about November for their third visit  
to the extreme south. If they cannot find  
ice near the South Pole, they will  
:- if they do find  
protection for the winter, then it will be April  
any rate they will find ice  
and to the Cape, & certainly next to the Islands

you know my only friend seeing you. He is an  
entire devotee to the

all have written to the Cape & in latter Oct:  
had one said that their day. Perhaps I was at  
the Admiralty this morning & heard that H.M.  
"Samarang", commanded by my friend Capt.  
Pulcher, which sailed this latter to the Cape, in de-  
termined a danger too by a Court-martial: & thus  
launched the possibility of relaying to  
the same consequence.  
The Admiralty

some your boys; & to tell you of letters  
which we have sent to you. Of the  
in heaven, your description as understanding  
to send to us all children have come, save  
the Ambrosian. Show not venturing  
to write to Vogh or Griffiths; but

I shall do so: - but I do not yet hear that  
Griffiths is arrived at Calcutta. I have Sr.  
Lomax had a letter from him a few days ago  
from Malacca. However I shall see from  
what you say that he is at Calcutta  
time. I do marvel at an East Indian being

^4<4 r\*—^C-1 ,4^\*-\*

good hope; & I suppose it is in some measure  
owing to the improvement of your  
after being so long an invalid. -

"The Earth's Ocean, the Sea, the Shores,  
Tollin are opening Paradise."

Thus again the East seems I think great your  
eye & remind you of bygone days: - else  
surely the vegetation of South Africa is  
a sterner companion with oriental?

W. index, but which there is liberty to see

A-

... love of Botany & I can only  
say that in your projects to see you  
I see much that will deeply interest  
you heartily for offering

to remember me in what year will first  
see. Your journey will probably  
north & to the West. The country immediately  
about around the Cape must be pretty well  
explored: & again it is astonishing what have

;

been done to the Eastward, all the way  
leverage & praise

them as for almost all the progress. Just  
last week I had a present from Lord Dufferin  
of a splendid herbarium of nearly if not

series! gathered by a Gardener  
Taylor, both of whom were  
sent into the interior mainly to gather  
plants. I have been perfectly charmed with  
many of these plants & especially with the  
beauty

of *Strelitzia Gordonii*  
which European Botanists  
from the figure only in *Johnson* pronoun-  
ced to be a fiction. I can testify to its

most faithful representation  
I have all the plants of Dreyer, of Kuhn  
& Mundt, Bowie & of S. Africa, & many  
fine things that the good Baron Ludwig  
sent to me. But

very deficient  
mountain  
magna country. Kahlberg says  
is gone into the latter country; but  
you will doubtless see him on his  
return, & I think he is worth knowing.  
as to the living plants of South Africa

some time at the Cape,  
and regretting.

I often see Johnson and you may suppose  
as he seems to take great pleasure in coming  
over here & staying with us. Cook, & his  
family were here lately, & his Brother, Mr.  
Linn, from Boston. Bentham left  
me only last week. He

Hercfordshire, & works much successfully at  
the Leguminosa. Dawson Thorne  
has been in Town for 18 months, having suffered  
from a sprained ankle, which made walking  
painful: - but in a letter that I have from him of  
today he tells me he shall soon be here, &  
we shall speak much of you, you may be

you from the Cape. Tell  
me in every kind regards.

Ever your sincere &  
affectionate

My Mother is well &

yj I

My dear Wallace

The present note is sent on shore to you  
from the ship by the Capt. Gimblett by my eldest  
boy (13 years old) Alfred who you know frequents in  
his boat the trunks at the Cape I have

taken the liberty to give to Messrs. on your kindness  
to request you will be good enough if in Cape  
Town to see him and write me five lines by the

first ship to say how he is &c. for which we are  
I and myself shall be truly grateful.

I and myself shall be truly grateful.

I trust your health is established and that

we shall soon see you here again - if ever with such

collections to all the Botanical treasures of "Arida Africa".

If you stumble upon a skull or even a tooth of

an African Elephant we should have great pleasure in

exalting your name at the Society's rooms for though

we have Hippopotamus jaws (though no skull) we

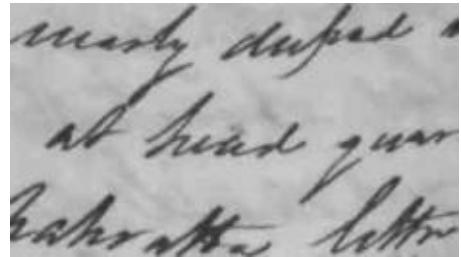

have no elephantine osteological specimens. You

Very truly

 N. Walker Esq. Esq.  
 Son of Capt Dickson of St. Helena  
 Cape Town  
 W. Piddington  
 At 2000  
 1843  
 to be taken by

P.S. I am I must say sorry to tell you myself! Truly  
 I have "found favour in the sight of the Lord" and have been  
 appointed since August to be Governor for the town of Belmont - by  
 the way I am now sitting upon that title I get something better. What  
 more shall be written?

Cape Town March 17<sup>th</sup> 1843.

My Dear Dr Wallich <sup>received the Snaukon</sup>  
Ceder Berg  $\frac{27}{3} 43$

I have the pleasure of acknowledging the Receipt of Yr. Fav. dated the 10<sup>th</sup> Inst. from Camp at Groote Kloof in the Cedar Mountains.

It gave me great Satisfaction & delight to learn that the fine Climate of our Colony together with the exercise which You doubtless daily take, has had the best effects on Yr. Constitution & bodily health.

You will doubtless also have noticed the splendid Meteor. which has suddenly surprised us at Cape Town.

I have much pleasure in sending You enclosed pursuant to requisition the ingredients required & endeavor to get a Frack for them from some of our <sup>^</sup>Wald friends.

<sup>i^/j</sup> <sup>£^\*^></sup>  
as I have  
with much respect  
most faithfully  
Yr. <sup>^</sup>Wald friend

Y 24 Nov 1843

My dear Doctor

The temperature is much higher  
this morning - 46°. Capital observations  
one angle satisfactory little, even if there  
was no opportunity for a further climb.  
I send all the papers I can spare  
& some paper.

I find you forwarded yesterday a  
copy of good things for the inland man.  
Thanks.

I forgot to mention, that when Butler  
or any other conscription article is at low  
water, direct William to go down to Botman  
unless the same has been proposed at the  
Institution.

I write writes today or tomorrow for the post.  
Therefore another line to Cornwallian will be  
wonder.

Dr Walker  
Melamp

wanted. But I request Mr Beaumont  
to forward the letter. My question is therefore,  
to wait for his response or send the  
letters for - post by him, - judging from  
the experience of last week & this month?  
I am an advocate for the latter. What  
think you?

Mr Beaumont appears to be kind in  
his way, but I suspect he is in the dark  
as to what he can make, & taking  
into account on that head, the information  
furnished by your abstract, shows  
a suspicion, precaution may be right.  
There was an indirect attempt at a horse  
stealing yesterday, in the gentleman's way.  
I know therefore, to have all dealings  
with him on a close footing.

Believe me, yours faithfully  
Wm. Knicker

How long has your horse been  
stolen. I put the copies  
into a separate & send you  
frankness & in location.

Dr. Walker  
25 - West 43

Dr. Walker

Mr. Samp

Saturday 25<sup>th</sup> 1843

My dear friend

Many thanks for your  
valuable translation, and thank do I  
may you your knowledge of German.  
Pray try to give an old lady a lesson  
when occasion permits. - pray do.

It would be a qualification for  
all doctors! Aspirants, that they have  
a good knowledge of

- German
- French
- Italian
- Latin
- Greek
- Hebrew, besides a smattering of

all others.

Those are better ready for <sup>Latin</sup> ~~Latin~~  
I am rejoiced you find the kind answer  
I could give to your kind & interesting  
letter. I hope ~~it~~ may restore you  
to that state of health which your kind letter

«-^«it»

fo~a~\*

rather unusual

a fence of stone round  
King of Islands Bay left  
them in the afternoon

supplies. The business I purpose enjoying  
here (see Sandwiches, fruit & water). But I know that I  
like to have every thing nice & comfortable, I have therefore  
this morning requested <sup>him</sup> to arrange for himself from below  
exactly as if he was stationed here by himself; which  
I know from experience to be the best course. This enables  
me to eat at convenience dictates.

From the character of this station, if I had come to  
it without any other company than the labouring men,  
I would place the camp below where it now is & leave  
exactly as I propose. There is not fuel for cooking or  
for warmth. The latter must be secured by covering.  
But now I have the advantage of running down &  
dining with you at every moment of pleasure or bad  
weather. Furthermore it is the only station requiring  
that we should be separated which is a comfortable  
prospect.

I shall want another supply of Sandwiches this afternoon

barrels, one of these I have set apart for Mr Mann  
the other for the men who are to be on the station, I shall  
join Mr Mann in water until Mr Höffner? sends  
his cart.

Wimmer I have directed to remain below Hook  
after his accounts & rations. He was formerly & must continue  
in this department until we get to Decree Logements Bay.  
He also should keep an account of the sheep. He is of little  
use here on account of the irregularity of his  
movts. He is a good penman.

I sent down Dunny yesterday with the intention  
of packing him off to Decree Logements Bay. The letter  
is not ready. He must remain below for a day or two.

If I could engage two or three of the Kottentots from  
the Institution to remain here to bring up water &c  
it would be well, but I am doubtful if they would  
be willing. I will send a note by them to you in  
the evening.

I pray seek out a safe place for your tent. In  
some nook, where although it may be warm during sunshine  
you can bask under a bush, but disturbance in the  
night is neither good for man or beast. Arrive your cheerful  
letter

letter shews how little the man has suffered in either  
spirits or wit. You managed to shake my side, although  
I found on the tempest.

Yours faithfully  
W. Maclean

DAS RHEINISCHE MISSI D'YS-HAUS ZU BARMEN.  
( Erbaut im Jahre 1852. )

Printed by the Rev. & Messrs. ... and ...  
Glanzer, 15th Feb 1853.

Cape Town April 14<sup>th</sup> 1843,  
rec<sup>d</sup> at top of ~~London~~ ~~London~~  
Perry 28<sup>th</sup> April from ~~London~~

My dear Dr.

very truly  
yours

It is with great pleasure to inform  
You of the Receipt of Your kind letter of the 12<sup>th</sup> March  
& have to apologize for not replying to it sooner, but I  
was quite unable to write, as the right hand was quite  
full of the thorns of the Indian fig fruit, that I was obliged  
to poultice the middle finger of the right hand for about  
40 days.

I was very much rejoiced to see by Your esteemed letter  
that You are enjoying excellent health, & not even had an  
hour indisposi<sup>tion</sup> left Wymberg, & wish with  
all my heart it may continue so, as long as You live.

I am also glad to find by the same letter, that You are  
enjoying Your tour beyond all You can tell me, which is  
I will tell You fairly beyond my expectation, as I always  
considered Blauwilliam District, for the most part  
Sterile, excessive hot & in general a dry & for the  
part of the Year parched up Country, almost destitute  
of vegetation, unless there is abundance of rain. This was  
Your tour most agreeable is, that You are in Company with  
our much esteemed Astronomer, the most talented, best &  
kindest of men, Mr. Maclear.

Still You have to experience I find some inconveniences as to  
conveyance having been obliged to turn Your Saddle Ponies into  
Pack-horses. Dr. Adamson, made some enquiry about You  
yesterday, & young Mr. Hooker also called on me yesterday, he  
is in H. M. S. Erebus, & returning to England, he will leave  
Town to morrow for Simons Bay where the Expt. Ship lay.  
he is very sorry he could not see You, & wrote a formal  
Note which I have the pleasure to enclose herewith.

I have also the pleasure to inform you that I received from Mr Griffith, twice some seeds from the St. P. J. P. Banks Gardens, (about 125 species) of which some are germinating already. Mr Griffith also sends to our former Colonial Agent Colonel Bell two packets, containing Prince Dezas & May seeds, for distribution, with which Mr. E. de George proposes to charge me. The stock is now exhausted & obliged to draw parts of the Colony. I retained however to your disposal a small portion of each, to give it to some of your friends in Clarewilliam Island. I thought myself to be in debt bound to receive some for you, and as well as the Colony, have to thank you for the introduction of the seeds of the most valuable timber. I must conclude now as Mr. de Ashton is awaiting for me to drive him & as fellow officer up to my garden & out to Mr. de Ashton.

Remember me kindly to Mr. de Melear.  
Wishing you continuation of health I remain

My dear Sir

Yours very sincerely,  
Baron van Stuyvesant

Calcutta, April, 20<sup>th</sup> 1843,

My dear Mallik,

I take advantage of my Cousin, William, Hampton's departure for the Cape, & submit these few lines to his care, if only to express my kindest thanks for your very welcome letter of the 28<sup>th</sup> December, and to add, the

&~\*^ &^0t^£&4^^&&^> i-syLe^f

recollection -

I conclude, as I hope, by your cheerful  
use of writing, that you are perfectly re-  
-turned to health - and I most cordially com-  
-mune with you, at the same time that I rejoice  
to learn the delightful account you give

of June. Doubtless, if he only remains  
his full leave at the Cape, he will certainly  
be as in full feeling of health, and happiness,  
so much, and in such terms of joy, that  
I trust that you continue to come back to-  
gether.

From what I gather from his letters, you  
must indeed be enjoying a fine climate,  
and lovely country, and I envy you both  
not a little. The delightful prospect of  
an inland journey. We are going on  
in much the same dull manner as  
usual. The season, however, has been

\*S/~~-y

tell

' ^ \* ^ ^ ^ \* ^ \*

in anxious expectation of the news which  
 which ought to have been in yesterday - &  
 it seems to be an interesting budget  
 of news. I am sure you will be glad to  
 hear the news, and all my family  
 had continue well - and my brother  
 William, begged me to remember him in  
 kindest regards to you -  
 I am writing to Sam, by this opportunity

Royal Bot Garden

Peradenia, May 10<sup>th</sup> 1843

no 14<sup>th</sup> sent  
at Weymouth.

is "Sea Gull".

My dear Sir,

I ought in duty to you to  
have long since done myself the  
pleasure of writing to you that I have  
been placed by the Ceylon Govt in  
charge of the Royal Bot Garden at  
Peradenia, near Randy, and am  
happy as I could wish myself.

It is to your kind and disinterested  
recommendation on my behalf  
to the Honble P. Anthoner Esq that  
I chiefly owe the position in  
I have now the honor to occupy,  
and I have great satisfaction in  
mentioning to you that that gentleman

is

is giving me every encouragement  
in my botanical

^^^t^S-sc/^^

takes a lively interest to promote  
my welfare. I am also happy  
to add that he is doing every thing  
in his power to advance the  
cause of the Botany of this noble  
island.

I have done myself the honor of  
writing to Sir William Hooker,  
Prof. Graham & Dr. Wright by direction  
of the Colonial Govt.; and really I  
consider myself peculiarly  
privileged in being allowed  
to communicate with such  
eminent botanists and  
good friends.

The Ceylon Govt have directed me

to compose a Catalogue of such  
plants as are indigenous to the  
island, and I am about to  
commence the work and will  
spare no labor or trouble to give  
satisfaction to those who so kindly  
patronize me.

Your oft-asked question now recurs  
to my recollection - "How would you  
like to be in the jungles of Sandy?"  
I should like to be in them for ever  
and to be always examining their  
beautiful luxuriant vegetation

I am located in a country which  
presents a scenery <sup>the most magnificent</sup>  
and picturesque, there cannot  
be a better Sanatorium in India  
than this noble range of hills  
in

in the midst of which I now  
find myself.

Wishing you all health & happiness

I remain

Very dear Sir,

Your most faithful friend  
& much obliged servant

Ich habe die Ehre, Ihnen zu schreiben, dass  
 ich sehr gerne die Gelegenheit, auf  
 Platz, etwas Markt noch der Stadt anzulegen,  
 in manchen Jahren so leicht, hinlänglich finden  
 die neuen gepflanzten Platz auf Ihren Platz  
 nach dem Cap, was für sich die gute kleine  
 Vornehmlichkeit jedoch ist nicht nur eine große  
 Sache, die ich auch gefunden, dass man sich  
 Annehmlichkeiten sehr klein sind.

Ihre Liebe, dasjenige, was ich Ihnen  
 in der Zeit nachgekauft, dass für gut  
 müssen, nachher den Samstag, 14. April  
 darüber bei Herbergmeistersberg sein, was  
 nicht in Ihnen, was ich Ihnen gegeben  
 aber für die Sache, was ich Ihnen  
 etwas geschenkt, dass für sich nicht  
 gebrauchten sind, die dabei sehr  
 lassen, was ich, die man kann  
 dazu im Affen, so sehr, was ich  
 Ihnen, was ich Ihnen, was ich  
 sehr in einem, was ich  
 sehr, was ich, was ich  
 Cap, was ich, was ich, was ich

to let me know on what grounds I have been bereft  
of my appointment here and my salary reduced,  
I have done my utmost by diligent superintendance  
to make the Tea plants thrive well & to cause it to  
meet the expectations

This is evinced in the fact that more  
64,291 seedlings & plants are  
in "Kumraon" derived from originally 341

30,731 seeds sown from October 1842 to March 1843  
those that have been germinated this year has  
included in the above mentioned number of plants  
quantity of plants is expected to vegetate during the  
season, not adding 1629 plants to sent to Patna  
Kumaon. Mr. Deane is an over-seer of  
Kumaon & it would do very well to look after

possible situation & in charge of Tea in the  
- actual that does see the injury in 1841. I believe  
the very same person, that has hurted me now  
quitting your absence from Calcutta had you been there  
I am confident, such would not have happened -  
My distress is great having 7 children a wife & myself  
to provide for. I must go now. I have applied for leave to  
- return in the latter part of the year, but as the  
cold season set in, I presume it is rather dangerous

Directed by mistake.

...the amount which has been realized  
on account of the Barry Stationery, is  
sufficient to meet the object in view -  
the entire sculptor is now employed  
near West (day) from the picture  
you presented to the Society. It is  
not yet sufficiently advanced for our  
opinion to be formed for the likeness  
of the bust to the picture, but should  
it prove a faithful resemblance, it  
will doubtless be of assistance to  
the artist in England who may be  
employed to undertake the work. -

August 10<sup>th</sup> Our meeting took place yesterday, the  
bust was placed on the table & in a pointed  
state; it is evidently highly creditable to

My dear Sir  
I received your kind  
letter of the 11<sup>th</sup> April  
into my hand, and  
pleased to acknowl-  
edge it in reply.  
I am sorry to hear  
of your illness, and  
I trust it will  
be of short duration.  
I am, Sir, your  
Obedient Servant,  
J. G. ...

pink

green

I trust that you  
will be of short duration  
to your departure  
was experienced  
years - the cold  
bust, and the  
...

days beyond the usual command. With  
his kind love had delightful shows &  
one over the park during the day of  
the 5th, with fine and bright. —

You will be glad to know that  
the Society is progressing tolerably well.  
The unfortunate differences in the Society  
part of the year, will subside in detail.  
You have doubtless seen our proceedings,  
concerning the life of several members,  
but that is now happily settled and  
will no longer be a subject. There are now  
nothing against the Society, and will  
I think show a fair state of affairs  
at the close of the year. — I have  
desired a great number of names from  
the friends of the Society to be made  
occupied with his own duties, has always  
been ready to assist and his conduct  
is such. I think I may say he is the  
best working member of the Society. —

We have some subscribers in the  
of the right number of the year with  
of the journal: again full, in public  
have been regularly sent to your address,  
and I hope they have been as regularly  
received. The only humble printer, we  
have not since the departure of the  
late year; but received that occasion  
from your kindness, which is so convenient  
to the well being of the Society. The  
: should go on free postage, being a share  
then, but I trust that a change for  
the better in this, as well as in other  
respects may take place by & by. —  
I am sure that the Society is  
improving & that the Society is  
with great interest, and in every  
with the new quarter in the past  
shall, till the beginning of next year,  
I have heard that a number of names  
has been the cause of delay. — At  
the Public Library has not yet  
contributed

the matter. So if every plant well fit, for its maintenance  
to his late father. It has been determined to transfer it to  
the Society of Arts after the object for which it was to be  
sent to England has been accomplished. I have entered  
into these little details, although, I imagine you will have  
seen the "Star" newspaper out of the 14 Inst, before this  
reaches you, in which our proceedings appear in full.

- By this opp<sup>ty</sup> I shall send the 5<sup>th</sup> to your journal,  
two more I hope, will shortly follow. - The one very  
late this year, I regret to say, with our Cape seeds - we  
have not heard from Elliot on the subject - nor have  
the seeds yet made their appearance. Last year, we  
got them in the middle of July. -

With an apology for this hurried letter, for I have  
much correspondence to attend to, and in the life of  
addressing you again by x b y c, I am,

My dear Sir,

Truery truly,

Robt. Schomburgk

not reflect great credit on the self and the  
 But I am not - and I am particular in my  
 choice of the most successful public men  
 in the world - I have seen a number of them  
 in the highest part of the hierarchy  
 - perhaps of the whole world - and I have  
 seen many that were like him as much to the  
 complement, I mean to say that he was a man  
 however distinguished, who not being  
 contented with his own paper, writes in a  
 number of places. But that I understand by  
 and feel deeply interested in his course  
 - I will not wonder at either. I think that  
 the true nature and appearance of the  
 world is in his present hour more than  
 ever before. I feel sure that I am deeply interested  
 that I have ever placed in my whole life  
 any person as well as mine that  
 I have ever seen or heard of, and

Wanted to see my little sweet heart Graham too,  
you would have known what I mean  
wonderful. I know, I felt like, I know you was with  
part of myself. What a beautiful journey you  
was! With what satisfaction you sat your place  
I know you were not perfect! Don't think of  
the fact, your conduct was more than perfect.  
to the end of fate.

I have seen the fatherland of the  
an element with you, the first necessary speaking  
All is not content about you, you may for my  
work by itself or other because to myself in my  
I know a long part of your time - I know you  
on the whole the part with you. The whole was  
the delivery arrangement in that is expected  
on your return, arrangements you may hold your  
in looking for the day to come.

So you remember the heart of the  
I know enough - I am a student in my  
I know you about the same of the day & I know you  
I know you for a very long of the day.

With your little this is, the construction of the  
I know you about the same of the day & I know you  
I know you for a very long of the day.

That is the purpose of forming a foundation to  
by knowing the day is between it & the  
I know you about the same of the day & I know you  
I know you for a very long of the day.

I know you about the same of the day & I know you  
I know you for a very long of the day.

I know you about the same of the day & I know you  
I know you for a very long of the day.

Windsor for Dr. W.

Agricultural Society's Room, Town Hall  
Cape Town, 10 November 1849

rec<sup>d</sup> 20<sup>th</sup> Decy /44

only 30<sup>th</sup> March 44

My dear Mallich,

At our last general meeting the other day I submitted to the members some correspondence which appeared a little time ago in the Friend of India, touching the "exhausted roots of Central Africa". The meeting thought the subject of sufficient importance to make some further enquiry, and a resolution was passed thereupon to the effect "that the Secretary do forward a copy of these papers to Dr. Mallich at Cape Town, with a request that he would endeavor to assist the Society in procuring the roots referred to in the above communication. I have now by the pleasure to enclose copies of the papers in question, and I enter into the matter that it is unnecessary for me to say more than that we shall be very much obliged to you for any assistance you may render the Society on this occasion.

You will be glad to learn that the Carey testimonial affair has been closed. A clay bust, made by the native sculptor who is employed at the Medical College, has been forwarded to Dr. Boyle, to assist the artist in England, and by this mail a sum of <sup>for £120.</sup> ~~some~~ bill of exchange will be transmitted to cover the expense of manufacture &c.

The Society is, I think, progressing, notwithstanding the loss of many members by departure to Europe, death, and occasional resignations. Our journal too is getting on, but we are not so well supported in the way of contributions as we ought to be. I should be glad to see you not favor us with a few items of agricultural or general intelligence from your part of the world? It would, I can assure you be very acceptable to the Society at large, and to  
Yours affly  
James P.

three or four months in the year. - There can be no doubt that many of the roots mentioned by the African Mission would be found to grow well even in the soil of Bengal, during the cold season. But they would above all prove an invaluable acquisition to the new province of Seinde, especially in those parts of it which are covered with the sands of the desert. If we could thus argue the <sup>merits</sup> of sustenance in that arid country, we should be indeed conferring the solid benefit upon its inhabitants - The subject is worthy the attention of the Agricultural Societies of Bengal and Bombay. Some of their members have resorted to the Cape for the benefit of their health, and there would be little difficulty in procuring them in the way of procuring and despatching, after the most approved fashion, a number of these excellent roots to India. -

To  
The Editor of the Friend of India  
My dear Sir

LUIA

n»

Serampore, July 27<sup>th</sup> 1815

My

J-

I do myself the pleasure of answering you  
of a letter which I have just received from the friends who  
communicated the facts relative to the resolute roots of  
Africa, & remain.

Yours  
Wm. B. Beckwith Esq.

Yours  
(signed by C. Knapp)

The address I usually put in my letter to my friends  
in Africa is

Rev. D. Livingstone  
Bechuana Country  
Care of Rev. D. Philips  
Cape Town  
S. Africa

Of\*

Lattakoo) but it is intended that he should go  
the interior I am sure he will most willingly do all in his  
power to aid the Agricultural Society, but it would be  
well for them to tell him how to pack the  
preserved - It will be a long time likely before  
the communications with Cape  
occasional and slow. It would be well also

M'J

to whom it should be sent in Cape Town who would take  
the charge of it and ship it &c. Materials are very scarce  
where he is from which a good box would be made. and  
if it needed to be turned I guess the Society would require  
to send the £10! Mr. L. was provided by the R. College  
of Surgeons with vials, bottles &c. for any preparations which  
he thought might be useful for them in their researches.  
But I suppose you have no time to read such a letter  
of advice as this.

R Observatory 22 Nov/43

My dear Walkich

I just want to wish, that you would do with R at the Observatory exactly the same, as if it was your own house. Therefore come when you like, go when you like, bearing in mind that I have no right to monopolize you to the exclusion of your good friends; also bearing in mind that we will be but too happy to see you, when you are at liberty.

I have not seen Thomson for the last three days, consequently nothing is yet fixed regarding the journey to London Town. I am sorry so far, that I ought to have paid my respects at the Admirals ere this. I think therefore of going down on Monday if that day will suit you. Tomorrow I purpose going to Wymberg to call on Thomson, when the proposition will be skimped. In the mean time if you should not

Rec'd April

The Home - Chapman House

Near Cheltenham 18th December 1843

My dear Willich

I should long see the name written

in your journal

when you return

> ta

has come in the way - However

glad to have such good accounts of your health, and since, I sincerely hope, that you will not favorably held your ground, as far as your resolution of

- V ^ 2 ^ ^

me in the same resolution of your good in England, for after all that you have experienced in India I should very much fear of its being conducive to your constitution, and you know a day too late, when the hour of sickness comes, may be a day too long. In a few months more you will be settled to your community, and I trust that you will await of

^2 ^-

am still as much delighted with home the day that I arrived, and notwithstanding however much I do like India, and all that belongs to it, there is no inducement, and I would take me back there. I am ever

a small colony of themselves here, and besides almost  
all of them are at one time or another paying a visit  
to the place. John Grant however I am surprised has not  
yet been here, although I have asked him and family  
to come to us, which they might very easily do, as they  
are close to us at Bath - Jack Sawers was here in Oct-  
last, and he is running about the country as usual  
whenever a race is to be seen. He told us that his late

coadjutor of the Board,  
Tom Smith, had been  
married on his arrival  
in Scotland to a companion,  
an elderly maid. It will be  
a long time ere Sawers commits  
himself in a similar way - By the post

Mail from Calcutta, Mr. Mercer had a letter from  
John Taylor of the Milk Board, who is a friend  
of yours and you will therefore be sorry to learn  
that he was on the eve of coming home on account  
of his health. He decidedly ought to do so, as he has  
had frequent warnings of the Indian climate disagreeing  
with him, and when he is once home he ought never to  
return again. Last month I paid a visit to London  
where I saw Mr. Martin, who is getting on handsomely and has  
total been in good circumstances. I was disappointed to find  
that Martin got John Grant appointed to the  
who was originally designed to be the  
of age in 1844

Royal Navy 20 Nov

*[Faint, mostly illegible handwritten text, possibly bleed-through from the reverse side.]*

J. S. Walker  
Camp of the Division  
Cape Horn  
Cape of Good Hope

Capt. Robinson will "know" certainly a  
great apprehension, that Boston's Bay may not support  
your landing plan for the winter. I have now to have  
you in the stores, but under any doubt I do not like  
to tell you with the responsibility. I intend therefore to take  
a plan of the bay with you up to Valparaiso, where  
I shall say you will find me at my post.  
I have known the route - 80 the people for a long time  
and you will be able to see & tell the  
entire extent of the bay. He will carry all companies  
in winter of a thousand men and a few  
He extends the bay yesterday. He starts with  
a quantity ready to receive Cape Horn's command.  
I am, Sir, of your, the most of the title "land  
with

Tuesday Morning

My dear Wallick

No light yet from Dequet Bay  
However, I am not idle, yet we cannot long  
remain thus uncertain.

Now for making use of you.  
Will you be kind enough to be present when my  
servant opens the large box in my Markee to  
take out some Tea — My Money, viz. the  
Mazety's Money is there & altho' I would trust  
him (the serv<sup>t</sup>) in other matters, I do not think it  
advisable to do so with Money.

I send the Key which I will be obliged to you  
to keep. +

I wrote yesterday, no I sent to him for my  
wash hand basin & a bottle for water, but  
the Pezperger states my servant forgot it. ~~Also some funds~~  
Yours faithfully  
Matthew

My dear Mother  
 I have just received your kind letter  
 and was glad to hear from you  
 and to hear that you were  
 all well. I am well at present  
 and hope these few lines will  
 find you all the same. I have  
 not much news to write at  
 present. I am still in the  
 same place and doing the same  
 work. I have not much time  
 to write at present. I must  
 close for this time. I will  
 write again soon. I love you  
 all very much. I am your  
 affectionate son,  
 John Smith

My dear Wallis

The result of your not coming on <sup>Monday</sup> ~~Monday~~ or  
yesterday is, that you will attach to me, at least I will appear to desire  
the blame you good Agents so often merit for retaining Newspapers that  
you would wish I have a right to see instantly. Impresos, Newspapers  
addressed to you from India were brought here (I think on Monday) as I  
suspected by your direction - ~~Secundus~~ - Sunday St James Chronicals  
from England you know would like to peruse. - My wife is  
partly to blame for she ~~was~~ would not let me send them. - How  
comfortable to shift part of the burden from one's shoulders!  
Pray come today. The microscope & the - have arrived - the -  
shall be well treated according to direction. You promised to stop at  
the Observatory a few nights. I want to send to Adamson, who  
would enjoy the treat.

Yours faithfully

Hydney April 26. 1804

My dear Mr. Wallis,

I received your letter of the 19<sup>th</sup> of the 21<sup>st</sup> inst. which I read with pleasure.

Yesterday - I was indeed glad.

That we are so soon to take for

valuable a discovery in our

history - consequently, it would be

desirable to wish you to remain

cannot take leave upon the receipt

of your departure, before going

back again to have an opportunity

Dr. Mellich

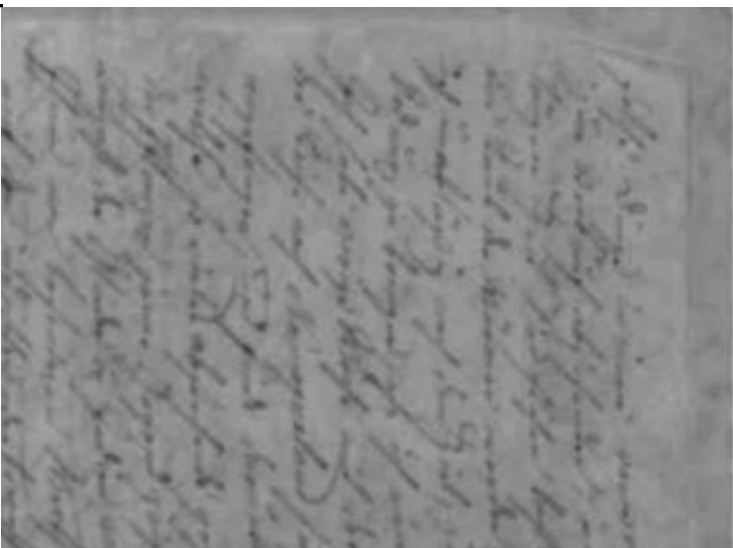

Dear Sir

Received of you

of the sum

of £1000  
the sum of one thousand pounds  
in full of the sum of £1000  
which was due to you by me  
on the 1st day of January 1840  
and which I have now paid to you  
by the Bank of England  
on the 1st day of January 1840  
and I have no further claim  
on you in respect of the sum  
of £1000  
Yours faithfully  
J. Mellich

---

A large rectangular area of a document containing dense, handwritten text in a cursive script, oriented vertically. The text is written in dark ink on a light-colored background. The script is highly stylized and difficult to decipher, but it appears to be a continuous block of text. The orientation of the text is vertical, running from top to bottom.

A small, narrow vertical strip of handwritten text, likely a fragment from the main document. It contains a few lines of cursive script, oriented vertically.

A small, narrow vertical strip of handwritten text, similar to the one above. It contains a few lines of cursive script, oriented vertically.

C. Laper  
29 April / 44

Received  
29th April 1864

My dear Sir

It was altogether  
unconceivable to offer any pecuniary  
aid not coming out here, as I  
know how much you must  
be hindered in getting ready for  
your departure more especially  
from Simons Bay.

I regret very much that  
I have not been able to pay you  
a visit at the observatory or  
even to say farewell in London

Dr Wallcut

My dear Sir

London Aug. 31. 1844

jtC^ - \*j€7\*Z~~

rec'd 25 Octob.

I am sure you will allow me to trouble you  
with a few questions respecting a plan I sketch, which was  
suggested to me, by having the scheme of a projected  
geological survey of the coal-fields of those districts  
put into my hands as referred by the Chairman of  
the Court. - The survey altho' not yet deter-  
mined upon & not yet brought before the Court will in all  
probability take place next Autumn Nov. 1845, & it is  
not unlikely that I may have the offer of being the leader, &  
not without assistants  
of my own. If I can make up my mind to leave the climate  
which has been fatal to so many of my predecessors in Geology,  
Herbert, Dr. Bower,  
Innocent, Macculloch, Christie, Maclellan & others besides those  
whom you mention & Dr. Falconer have suffered so severely from illness.  
I remember once in the Athenaeum club having a conversation with  
you about the unhealthiness of India & the number of friends you  
had lost by the cholera - Sir Charles Wood  
to go any where rather than to Assam

\*\*\*F

\*^

had time to go over the names of several  
 acquaintances & friends of scientific books & ac-  
 quirements - how long does it take to go to Simla for  
 Calcutta by steam & then conveyance, not carrying by the way?  
 I had been told in 2 months [redacted] it is  
 along the month of March & April for ascending the Ganges  
 if I did no geology on the journey? Have there not been  
 some controversies about the value of the Indian Coal fields  
 at Raniganj, Kharbandah & others? Who wrote on them & where  
 could I see the papers - Some Indians write in  
 in the latitude of Calcutta there is no season in which  
 it is safe to geologize subjects in the middle of the day. Others  
 say that at sunset the malaria is dangerous. Has there  
 many houses of a Calcutta or Agra day and then  
 with suitable and prudence to geological field work?  
 Be so good as to state as strongly as you can all the  
 risk, & danger from climate & [redacted]  
 in India, that I may endeavor to get the

#

\*-&\*

I believed you had not suffered there & that  
you had not been required to go into the interior, nor to  
expose yourself as much to the sun as a geologist  
has to do - Any information you could send me as to the  
dangers & precautions which should be taken against  
them would be most useful. Supporting the Government to provide  
me & my assistants with every aid, a steam boat to be sent

Sit^c-\*? — r -

^

men or military in the Indian service in Bengal  
are acquainted with geology or its collateral sciences,  
ology, paleontology, or surveying? Any medical man  
who could besides professional skill bring some other  
qualification useful in such a survey. Do not mention  
this to any one as it might lead to dissatisfaction  
being that I cannot expect more than one or two  
of the kind in the military (engineers & others) in  
India in addition to those I may take from here.

The weather is very warm and sunny and the water is very clear. I have seen many of the same birds as I saw in the other part of the island. I have also seen many of the same plants as I saw in the other part of the island. I have also seen many of the same insects as I saw in the other part of the island.

I have seen many of the same birds as I saw in the other part of the island. I have also seen many of the same plants as I saw in the other part of the island. I have also seen many of the same insects as I saw in the other part of the island. I have also seen many of the same mammals as I saw in the other part of the island. I have also seen many of the same reptiles as I saw in the other part of the island. I have also seen many of the same amphibians as I saw in the other part of the island.

of Dept. of Fisheries

Philadelphia February 22<sup>nd</sup> November 1844

My dear Sir

Yours favor of the 21<sup>st</sup> inst. reached me on the 22<sup>nd</sup> inst. and I thank you for it. I am glad to hear that the matter is now before the committee and that you are taking an interest in it. I have no objection to your making such use of the facts as you may think proper. I am, however, of the opinion that it is a matter of some importance and that it should be treated with the same care and attention as it is entitled to. I have no objection to your making such use of the facts as you may think proper. I am, however, of the opinion that it is a matter of some importance and that it should be treated with the same care and attention as it is entitled to.

Dear Sir,

I have been anxious since my arrival  
here 16<sup>th</sup> Sept. to pay you a visit, and see the Botanic  
Gardens, but from ignorance of the best time and  
manner of doing so I have been unable. I have  
got some seeds from Van Diemen's Land, from whence  
I have lately come (with my Brother-in-law J. Clarke  
M.D. Inspector of Hospitals), and I also have some  
from Torres Straits; that I doubt not would be  
acceptable to you. Perhaps you will have the kindness  
to suggest on what day it would be convenient  
to me to wait on you, and also the best  
method of proceeding - whether in a boat from  
here, or driving down in the carriage opposite the  
Gardens. Trusting you will excuse my thus troubling  
you I remain dear Sir

Yours truly

Robert Ken. Nuttall

Sir  
I deeply regret, that in consequence  
of severe indisposition, [redacted] and  
for a fortnight, and has left me now in a  
state of extreme debility I could not now  
communicate to you the result of my application  
to Dr. Garder in behalf of my little girl  
but being somewhat better I have no time in  
informing you, that I have unhappily been  
unsuccessful in my attempt this time, owing  
perhaps to there being more debility than  
indicates in the feet. I beg further to inform  
you that I forwarded your letter without  
delay to Dr. Garder, but received no reply.  
Although [redacted] I still feel it my  
duty to return you my best thanks for  
having

having so kindly & readily favoured me with  
your assistance in behalf of my unfortunate

only 15 January 45  
Dr. W. Wallis

Lafayette 15 Oct 1844  
recd 27th Dec

A 4.

Your copies of most interesting letters  
from Madras gave us exquisite delight. To know that you  
would be received there, as you are sure to be received every  
where else, we could not otherwise than expect; viz with that  
good feeling, which your character & talents have directed towards  
you & which you were certain of cementing on personal acquaintance.  
The only drawbacks are the regrets **'O ^/^^fj^** taste of the  
bitter **J, ^z&^&^&^b&J^.\*!/-** the sweets.

Had a letter from Taylor by the same post, who expressed  
how he was disappointed by not having the power to secure you  
I suppose you had had enough of other duties. However  
he explained on the supposition that he was "a day too late."

You will regret to hear that Mrs Grote died. Believe  
from flooding in her confinement. The particulars are most  
distressing, since it appears the Medical attendant had  
not arrived before the birth. The nurse left the room with  
the infant (Grote in search of the Doctor) I suppose the hemorrhage  
occurred with the separation of the placenta, without much uterine  
contraction.

Dr. Wallis 8-45

from ~tjZ~Lr »"

the result of which has not transpired  
what the result was

improper temper & language as a clergyman  
Surgeon of the ship the offensive flat contradiction  
that Mr Hill was ordered to  
previously investigated  
curried some 12 months  
almost said the in plain  
& vexatious. The object

the object of Capt<sup>l</sup> Byvil was evidently to shake the reputation  
of the author of the Pamphlet. Hills period of detention  
has expired; he purposed sailing for England by the first opportunity  
per Man of War. I may have mentioned that I told Hill what you  
said to you, viz the officer in command of the slave ship when the matter  
occurred immediately after the capture, had no other course than to send  
a Court Martial on himself, after Hills' statement. In fact he  
denied that expression of feeling on the part of the Service, which he  
conducted justly merited if gentle; or, if the occurrence was totally  
beyond his control, to exhibit the difficulty of carrying out with  
proper attention to humanity, the present system for suppressing the  
slave trade, & to exonerate himself from the public oblige which  
Hills statement was sure to bring upon him; & generally by some  
on the Royal Naval Service.

The 19<sup>th</sup> Mr Machan has just forwarded your long & interesting  
letter dated Aug<sup>r</sup> 18, which I have read with avidity. Believe  
me my dear friend when I tell you that none even of your  
own family, can feel more than I do, how for the many, unnumbered  
annoyances which have fallen to your lot, exclusive of those which  
may be considered the days of our pilgrimage in this world.  
You in some measure prepared me to expect the mutilation  
of the garden - your pride, your honourable health, obtained  
by your talents, & fostered with the care which every man of your

good sense (even of common sense) must know, was as essential  
to the preservation of your scientific character, as to the retention  
of the appointment & just to the Court of Directors. If  
that you carried this out to the fullest extent, no one can doubt  
nor does doubt who has a particle of honesty to dispose of.  
But if there is any impartial man who does doubt this,  
I will only put the publication or "report" of Mr Griffiths  
into his hands with the moral certainty, that he will return  
it, exclaiming, "what a venomous serpentine scoundrel this author  
is! - are such proceedings <sup>tolerated</sup> amongst gentlemen?  
is this a specimen of the proceedings of men of science in India?  
why instead of a contribution worthy of a man of science  
& professing to belong to the Society of gentlemen, he has  
furnished us with a sumptuous personal attack, so badly  
I would scarcely find a niche in the latest  
newspaper. Even if Dr Wallich had respected his  
duty as a man would have thus acted towards him?"  
By the way of must be received with caution."  
inclined to remain at Calcutta until justice be  
done you. My dear friend, you maybe a clever fellow even to the  
yours

a snake byets a snake; & moreover, to whom do you refer?  
John Thomson or the Court of Directors? I cannot of course  
presume to advise, decidedly, what you should do, but I will  
tell you what I would do, I would take the Bull by the  
horns & shortly but faithfully represent the case to the Governor  
General & give his Excellency to understand <sup>my</sup> wish to  
retire as you previously intended, but ~~as~~ unsullied.  
That having been appointed by the Court of Directors I was  
in duty bound to lay my case before them. — bearing  
I should feel myself performing what was due  
For, in England I have reason

&4-

just justice from those who <sup>by kindred feelings</sup> reside in the mean  
time, with those whom I love & with those who still have  
a right to claim my protection. You will say, judge  
what does he know about the matter, thus advising &  
laying down the law. — Be it so. You have my say.  
The thing is quite clear — There is one at least in your  
neighbourhood, <sup>capable,</sup> of doing that which you disdain to do, viz a  
poet

a dirty act & who **<~«~af\*»\*-** appointment.  
thwart both at home. You cannot at Calcutta.

**Jit\* <A<\***

Brown has received a pension of  
£200 per annum; Would not he & Sir W. Hooker be good  
advisers when you get home? The pension **?**  
from the crown & has nothing to do with his retirement or  
engagements; it is merely on the ground of merits like those  
to Sir W. Hammett, Lady Sale (500 £) &c. &c.

The death you mention of a lady in the upper room  
in Childbirth, is a poor woman, a happy release both  
for herself & those who knew or were connected  
Let us hope for the best & think no more of the matter  
reference to the young gentleman, who after all, died  
openly, which, <sup>many</sup> do privately & escape; no excuse for the  
act; but in a worldly sense, a la Moline (Partuffe) the

old friend Col. Hitchens. Miss Maitland was a passenger  
to the Admirals. When we reached Decks where the vehicle lay  
for 20 min. CU\*4 JC+fc the little Dame on my arm to point

out the scenery about that interesting quarter, but was anxious  
to find us followed a la footman, ubiquitous by the Colonel -  
He could not have exhibited stronger precautions against secret  
communications or love making, if I had been a handsome  
single young man. If he is a man of deep learning, he better  
it up.

Cap<sup>n</sup> Brown is gone. He dined at my station  
in the per nie fashion with the Admiral at whose house he  
was visiting. Lieut. Hamilton is promoted to Commanding

Command the Frolic on the South American station. His wife  
returned to the Cape from England three weeks ago, to resume  
his functions as Clerk of the Legislative Council, nothing better  
being obtainable in England. Of course Johnny Craig will not  
have to return to England should no berth be found for him  
here. The Governor & Mr. Montagu are on the frontier, making

the frontier, making

the frontier, making

traitors with the Caffers, & taking strong measures to bring certain  
Caffer murderers to justice. They have been screened by their chief  
Mascos. The Neutral territory is occupied by our troops, where  
permanent fortifications are to be erected. The frontier farmers  
rejoice in the abrogation of the Stocken-trom treaties, while Fairbairn  
states that there is no alteration, but simply decisive enactments  
for carrying them out firmly. The bases of both are the same  
we appeal justice - but for my own part I see no similarity  
in the clauses.

Dottanger returned to Cape Town. Thence off again to Graham's  
Town surveying as before. The road making progresses with celerity,  
in all directions & Montagu's convict system is said to work  
admirably.

^^^\*\*\_!y^\*|

striping. Need I tell you, that if he & your good  
daughter Madam Hannah & children should think of their  
quarter of the world for a change of air, that we will do all  
in our power in our humble way to make them comfortable?  
I call her Madam, for lordery it (? ladying it) over little Molly.  
I have no idea of this assumption of superiority in word, if the

to the contrary than any good  
appeared - He served others  
from a grander temple of his  
faith or conscience & got him-  
self assistant & to be  
predecessor him to the  
honors & patronage of the  
Bishops

The whole of the useless  
importance is taken  
the spirit of Mr. Pank's  
sign & the attempt to  
throw his life away in  
with assistants in  
Adam is as unmanly  
as unjust.

Wm. Pank  
Pank

July 6 1852

John W. Pank

request that he make  
for from two notes of  
the 12 & 16 of your kind  
in taking so much trouble  
in the way of our friend  
Druce - John Pank's  
they do not decide  
him of any conviction &  
I am sure he will be  
able to explain away  
any appearance of  
neglect or disaffection -  
it is foreign to his nature  
to be guilty of any such  
offences - but he may  
commit many negligences  
or omit any small items

But would seem to be  
rather peculiar in the  
as might appear - his  
conception of religion is more  
of the hope of heaven always  
in a form - a faith & doing  
good but having no method  
& looking for reward & thank  
rather in overwork & prayer  
occasional or methodical  
The former for the latter -  
I have seen in the thought  
of the best condition <sup>and thought</sup> they  
bear on, the King of Heaven  
Father. About the Heavens had  
but it was his creation. Of the  
arts & economy, that the  
they have no great fault  
& in part to him - that  
may have arisen from  
want of good men &

that I have seen  
in the opinion of the  
were that the people  
contact to experience &  
& they out faults - as  
more less capable  
than since kindness - &  
that they considered them -  
- deliver as serving themselves  
& the will of Heaven &  
I have - so that they  
can understand their life -  
- I have seen in the most  
capable present thing  
they ever had - one think  
of the landscape in year  
I have seen in Heaven believe  
one word of what has been  
said against his own  
wishes or correction & I  
shall believe to be sent  
has much better can be

the department of ...  
Mr. Robinson - ...  
of Dr. Carey's associates -  
want some fresh  
Coffee seeds as usual  
You can spare any  
I shall be obliged for  
some packets - one day  
when you can spare  
- he wants to make a  
small plantation - our  
experiences are I think  
against coffee - it grows &  
best yields - but when  
the trees are bushy best  
they are constantly cut  
off by some insects - the  
kind I designate being *atropis*  
I know not - but this is best  
in this district - Mr. J. ...

your  
transmission

Royal Botanic Gardens,  
Shew. Oct. 1844. & 1

My very dear Dr. Willd.

So many & so varied have been the reports respecting your movements from the Cape, that I struggle much to know where to address you. And I am sure you will give me very hearty & grateful acknowledgements for your highly interesting letters from the Cape & the reports you gave me

^\*^

^ £ 2 ^

\*~\*

to Africa, your entire exertions & annoyances still more substantial proof of your remembrance of me in the S. African Plant which our good friend Brown has at length communicated to me as a gift from you. There are several very interesting plants & some quite new to me. I have been returned to Culcutta & I am again in charge of the Garden. I hope & trust you will remain there. I am as usual a true friend & you will have been long during your sojourn among the Vegetable wonders of S. Africa. And when you

-C-

^fc>f & <O^~

have many friends & welcome you  
Europe. I spoke much of you the other  
with you down here, a fine Cambridge  
whom I was so fortunate as to find at  
Yarmouth when my son & I lately spent  
a fortnight there. I am not so  
to flatter, nor do I give my own opinion  
alone when I say that you are likely to  
have a great career in that line. I  
know who had seen much of him &

at Hull) both spoke of him in very high  
terms. He is delighted with the career  
of his mother at Cambridge & I mean  
to come & see us, when he visits London  
at home.

We had some admirable plants from  
you soon after you left Calcutta which  
you kindly announced to me (but the  
substitution was not among them); &  
we have had other cases from  
you & I wish I knew which you would

please send in return. Griffith  
wishes for living ferns from the  
mountain & so we have sent a box which

People, who also recommend them being  
and to you in preference to any other plants.  
Oh! how I do long to show you the improve-  
ments we are making at New: - 60 acres -  
besides other buildings & alterations, we  
are now busy erecting a new Palm  
house 340 feet long, 100 feet wide & 60 feet  
high. Many of your Palms will hold a  
conspicuous place there & in a report  
I am now making for Sir Robt. Peel &  
to be printed by the H. of Commons I am  
compelled to make most honorable men-  
tion of you & of the Garden that has  
been so long under your charge.

I shall be working: but it is so long since you  
have been in a condition to receive any  
of my little publications from me that  
I scarcely know **^£^~** you.

Whatever is imperfect with you I must  
excuse when I am so happy as to see  
you here. My son Joseph is daily  
working in the same study with me &  
desires to be a better Botanist than  
his Father. How pleased he was that year  
when he was at the Cape when he was there one  
year ago, I need not say. He left  
a letter for you.

My kind regards about his health  
I have written to Mr. Kinds about in com-  
munication with him. It is considered superior  
in color & mounting to the former Ambigua wood.

Paris 2 Novembre 1844.  
n<sup>o</sup> 24

Monsieur

Quoiqu'il y ait bien longtemps que je  
vous ai oubliés, j'espère que vous ne  
m'avez pas oublié. Quant à moi, je me  
rappellerai toujours avec reconnaissance l'amitié  
dont vous avez bien voulu me donner tant de marques.  
J'ai appris avec bien du plaisir que

the two buckets of leeches and the  
one for Cape Town - except my best  
thanks for the former & be assured  
I will take the best care of the  
latter. Many thanks for your  
kind enquiries I am much better -  
W. Lambert's gout still continued but  
when he recovers he will have  
much pleasure in visiting  
you. Frederick continues to  
have a "very bad appetite" but  
wishes from your good face  
or kind assurance you have  
quite gained his heart.

My dear Doctor  
Yours very sincerely

D. W. Lambert

Jan 26 1844

My Dear Sir,  
I have received your kind letter of the 12th inst. in relation to the purchase of the land at the mouth of the river, &c. &c. I have the honor to acknowledge the receipt of your letter, & to inform you that the same has been forwarded to the proper authorities for their consideration.

I trust you will excuse the intrusion of one who is a total stranger to you, but in the simplicity of the request (and I sincerely hope it will prove to be genuine) in your situation, I did not think of the good intention which prompts me to do so, rather a rough & informal mode of self-interest which I have used.

I am, Sir, your obedient servant, &c. &c. I have the honor to acknowledge the receipt of your letter, & to inform you that the same has been forwarded to the proper authorities for their consideration. I have the honor to acknowledge the receipt of your letter, & to inform you that the same has been forwarded to the proper authorities for their consideration.

What I have to ask is the name of the person employed in the office of the Indian Department, who is to call on you with this letter, & who will bring the said horse, &c. &c. I have the honor to acknowledge the receipt of your letter, & to inform you that the same has been forwarded to the proper authorities for their consideration.

\*1~5) < & 4#\*\* & S~7\*'

I have the honor to acknowledge the receipt of your letter, & to inform you that the same has been forwarded to the proper authorities for their consideration.

There is nothing I desire more than to see you, & to be able to give you the information which you require. I have the honor to acknowledge the receipt of your letter, & to inform you that the same has been forwarded to the proper authorities for their consideration.

Dear

to Sir John

TO\* ~-?S

plants which the Society would  
be sent by my brother, (who will probably  
take charge of anything you may have been able to collect for him, not

at present existing or obtainable by you

10th

- The Jack or Jacow tree (Ceylon)
- The Durian
- is the strawberry (- similar fruit)
- best variety of Mango (perhaps the golden)
- or Mangosteen
- best Carrotaceous Plant

- Wax
- Butter (has you the African variety?)
- Soap
- any handsome Palm (including a good Date) & Cassia
- any fine Chinese fruit trees

good variety of Mudd. if you are acquainted with any single &  
convenient mode of forwarding - I feel that cannot  
be managed unless the seed is the width of the fruit  
with less forwarding? - but I never doubt a  
man goes for these seeds, did you?

The list is, for the kind enough  
to send shall be as much spread  
in the Western World as it lies in our power  
to effect - nor shall the people of  
Languedoc & the West Indies be ignorant of the  
name of the patron to whose kindness &  
enlightened generosity they owe  
the new vegetable wealth &  
such distant countries. I hope you  
will also see a public acknowledgment  
of the gratitude of the recipients.  
It is a year or two I trust they will  
(the Society being) be enabled to return  
the benefit of the complaint, in kind - in  
valuable plants (and I mean of) from  
South America, unknown or at least  
not indigenous in the West.

rec'd 19<sup>th</sup> Nov

... of the 20<sup>th</sup> Mr. asking me  
was of chief geological interest  
of the world has only lately reached  
perplexed me a good deal as to how  
to answer it. — First of

let it  
be

What are the principal  
parts of your journal for whom you put the  
question of records, what is the lesson he  
has to spare. — Few days (like a temporary service)  
can be made and more than a short month  
or two and in so brief a time little can be done  
here in the way of a general geological  
summary of the Province for you know it is  
wide one, and you are also aware we  
have no railways, or any the least facilities  
to shorten the way of unfortunately the season  
when you can travel safely is a very brief one.

If therefore America what your friends & friends  
could do were of how long a distance he has  
at his command, I would endeavor to  
direct him in the shortest way to those parts  
of the same where he would best observe  
was chiefly desirous of seeing. — I must now  
write you in the dark. — In the valley itself

you are now are then is little of rock formation  
to be seen, that is to say on the middle of the valley  
is a great high road the Berkshire  
— both of them seem to be of the same

save you from thinking that this is a science altogether  
of a geologist. There is perhaps much to  
be learnt from an observation of our banks  
of the really unprejudiced & scientific observation.  
The great sections of our banks afford an opportunity  
of knowing how strata are deposited in deep or  
shallow waters - in waters still or rapid - in the  
alternated - watered & included strata shown  
in the sections of our low banks there is such  
a mass that militates against the universal  
scheme of upheavals which these facts seem  
to present in nature. At least there is to be seen  
a resemblance to the contorted, in chert & other  
beds of the older formations that may be seen  
these present might be explained by  
knowing accurately how beds are now formed  
& played with in these mighty currents. You  
need not suppose that these might be the  
scale of the majestic floods which have been  
seen the Himalayas, the strata to be projected  
how these strata are so constantly contorted  
and the lower formations are included at the  
bases of granite mountains - how they are  
interrupted in the great valleys or how they are  
continued round & through them. - It is  
might think also see something of how they  
were formed in various ways broken & broken  
independent of volcanic formations & the  
see in the various stages in which our part  
are carbonized under the load of beds  
occasionally laid on them & the great view  
and logic to guide him to account for the processes  
under which the Coal beds have been formed  
at - - - But beyond the theories which

he might build up out of the great sections of our  
sand bands, there is little of interest to the geologist  
in the valley of Hoam. - and to know something of the  
rocks on which we repose it is essentially necessary  
to visit the mountain range which border the  
valley & to study them in their descent under that  
mass of diluvial & alluvial matter which now  
almost entirely conceal them throughout the Province.  
With this view it seems most convenient to begin  
with the Khasiya hills - to trace them as they ascend  
from the plains of Bengal - & again where they  
descend into our valley. - The Khasiya hills  
not only border us for 80 or 100 miles, but they  
present peculiar facilities for observation  
from their comparative barrenness of forest & from  
the great elevation of their summits.

&

could find  
facilities  
bordered by any of the  
surrounding - The Khasiya hills are  
deserving of the first & greatest attention, as they  
present I think a singular group of formation  
different from all those of our mountainous  
ranges which I believe can be elsewhere  
throughout - The other hills are covered throughout  
with the densest forests & the richest vegetation  
showing at once their difference from the Khasiya  
hills - as far as I have had opportunities of seeing  
they are invariably the same - mountains of the  
day - with here & there a seam of clay slate or  
in a bed of sandstone which has been broken to  
pebbles & with  
of which

My dear Walter  
The natural families to  
which I refered from

1 17~

- Alumina
- Papaveraceae
- Cruciferae
- Leguminosae
- Rosaceae
- Umbelliferae
- Compositae
- Convolvulaceae
- Solanaceae
- Labiatae
- Umbelliferae
- Solanaceae

Cyperaceae  
Gramineae

and perhaps a few others, important  
from the Commission with  
the great mass of Judges  
from which Munda, Brundaban  
and other well known and  
efficient Brundaban are  
procured. The number  
of substances mentioned in

**P S AL**

books as being of great  
value. When we know  
about them, we know  
to mention a student's history  
with, and attaching to them

attended in my lectures to  
men of ability. They have  
necessarily been very difficult  
to elaborate for a detailed  
consideration of their importance,  
Energetics, and other points  
involved.

I have described the  
general physiological  
therapeutical virtues of  
the substances obtained  
from each Flammid - but  
their botanical characters  
have been very briefly referred  
to, and in some cases  
omitted, - as the duration

of the Courts in the limitation of  
power of their detentions. It is  
even if there is a sufficient  
Bostwick. It is just as  
justifying them as is  
rule, therefore, but may be  
useful & valuable - but  
necessary to complete their  
knowledge of the subject.

Very truly yours

Wm. Brewster

Tuesday

My dear Wallich.

I am now alone, Low leaving  
the country for five or six weeks, and I would  
like to see you & hear all your news of the  
Cape. Will you do me the favor to dine here  
on Monday the 21<sup>st</sup> when I hope to collect a  
few old friends.

I sent a note to Mr. Ross yesterday about  
the contents of a former note of his, & told him  
that a couple of the strongest of the King Cocoa-  
nuts were

In his last note he mentioned that a  
few things which I asked for & were not then  
available would be given me by Shye. *Pisonia*,  
*coccinea*, *Olea fragrans* &c. Can I ever hope to get a  
*Cordia*? The Woods in Calcutta, & Sir Laurence  
Biel's Mallie produced five specimens yesterday.

H

It was a very confused show, my own man  
got the prize for papiou flowers. - I told Mr.  
Rop yesterday that I had one ready for you, which  
is not in the £s & £VI'^\*^r of which no body knows  
the name. -

Very truly yrs.

(So) C. H. Robison

I have taken a great fancy to the *Jatropha*  
*pandurifolia*. -

Mr. Rop's report.

We cannot furnish Mr. Robison with any of the  
plants he has named, at present, indeed it is quite  
impossible to furnish the various applicants with  
such plants, our garden stock is now so small  
I mean the plants we propagate from, almost  
every applicant has had an *Alcea fragrans* lately,  
now we are quite out of plants of this sp: we  
cannot respond to all such demands. -

(So) Rop

18<sup>th</sup> October 1844.

My dear Wallich

If I had known that Mr. Hanson was with you I would have sent him a Card, for he has been here more than once.

If you will dine with me on the 25<sup>th</sup>, be so good as give the accompanying note to Mr. Hanson; I hope you will.

You say you "cannot" let me have the plants I asked for, some time ago, & which I thought had been promised, both by yourself & Mr. Rop. - I read for "cannot", will not, and consider what you say "about stores being small, and requiring so much nursing & time, before these species can come again into distribution," all "bat ha bat," as the natives say. - This house belongs to Nam Comulden, a person who had some claim, and I am likely to finish my career in it, so I think we deserve favor. - Since you came back

two Amherstias have been obtained from the garden  
by bribing the Mallies I have seen them; your  
unwillingness to part with any thing worth leaving,  
also led to Cordias going into hands that had  
no acquaintance, or care about you; and because  
poor I would consider it an act of gross insult,  
& disrespect to you personally, to obtain what  
I want, by such means, I must go without,  
I see my efforts to make a garden laughed at  
scrupulous.

**r\*\*zth'**

Yrs truly

(Sd) C. K. Robinson

P.S. I heard one of the two individuals, who have  
obtained Amherstias, say that when <sup>were</sup> you here,  
I never could obtain from you any thing worth  
having, and he had therefore not hesitated to  
pay for any valuable plant when brought to him,  
without asking any questions, knowing perfectly  
however

however, whence they came; but that while Griffith  
was in the gardens, his wishes had always received  
so considerate & liberal an attention, that ~~if~~  
he had never given the Mallies a single rupee -  
in proof of what I say, and the impolicy of your  
system, two Amherstias have left you since  
your return. - I understand that the way  
practised is this - The Mallie knows who will  
give a good price for a Cordia, Auracaria &  
(and) when he abstracts it from the rearing bed,  
he takes a cutting or branch from the parent  
tree, & sticks it in the place whence he has  
taken the rooted plant, the abstraction is thus  
not discovered for a few days, and then some  
false cause is found out for the death of the  
substitute plant; I never gave our anna to a  
Mallie of the gardens, I never will, consequently  
the distributing Mallies & Sicars juggle, and altho  
I may get what you have ordered, it is some sickly  
plant, that dies immediately - and I have often  
been

My persuaded that some thing had been  
 done to the plants to cause their speedy death  
 with me, for I am very pain-taking, & never lose  
 a plant I raise myself. Won't you feel ashamed  
 if I get a Cordia, Poirea cocconis, Pongamia,  
 or any other such plant from any one but -  
but mine quarter of a century friend Hall's?  
 I can assure you will. -  
 (So) C. K. R.  
 Bot. Garden 18<sup>th</sup> October 1864

t &  
 </z+\*£<\*£+\*^

You often see of  
 after I see  
 I  
 the  
 reply you

The Head Gardener is desired to report upon the following queries.

1) Can it be said with truth, that on any occasion whatever, when the Head Gardener has reported to the Superintendent that plants could not be supplied, the meaning was, that he wished them not to be supplied, upon any other ground, than that of our stores not admitting thereof?

2) Generally, has there ever been any unwillingness on the part of the Gardener, to give away choice and rare, or newly introduced plants, except on occasions when parting with them would be an injury to the Institution?

3) Does he remember or know of any instance of proper applications being refused except on the ground just mentioned?

^££\*2\* \$£\~^&s /^£\*\*\*&'

the Sup<sup>t</sup>. observes on receiving

acted in some such way as  
this: a fresh twig or branch being taken from  
and stuck into the

ground in the place whence the rooted plant  
was abstracted? Has any instance of such  
rascality come to the Head Gardener's knowledge?  
What was the nature of the offence which  
the Superintendent remembers the Gardener  
reported to him some months ago, as having  
occurred in the Conservatory, and for which the  
Gardener concerned was punished.

7<sup>th</sup> November 1844 (Sd) A. Wallich

The Head Gardener is requested to commence  
his answers upon this sheet, below.

the Head Gardener upon the  
above queries, agreeably to the Supt's order. -  
1.) In no instance am I aware of plants having  
been refused to applicants on any other ground than  
that

receiving applications for plants or seeds?  
Does he know of any departure from that rule?  
Is the St. Gardener aware of two *Amherstias*,  
(and one or more *Cordia sebestenas*, having been  
stolen, or otherwise been abstracted by foul  
means from the garden, and upon what occasions?  
Generally can the Gardener name other important  
plants, that have been obtained from the garden  
by theft or robbery, during the last two years?  
5. Does the St. Gardener regularly and carefully  
superintend the delivery and removal of the  
plants sent away, so as to prevent any impro-  
per procedure of his subordinate hauliers and  
others; such as giving weak and sickly indivi-  
duals, or others than those that have been  
ordered for delivery to such parties, as do not  
bribe them; and reserving the good and healthy  
those that do bribe them?

and  
thefts

and

that the stores would not admit of it.

2<sup>d</sup>) There has never been any unwillingness on the part of the gardener to give away plants new or old but on the contrary a sorrow at not being able to give without injury to the Institution.

3<sup>d</sup>) In no instance have proper applications been refused except on the ground just mentioned.

4<sup>th</sup>) On the Supt<sup>s</sup> receiving an application his invariable rule is to ask the gardener what plants, or seeds are available, and in no instance has the Gardener deviated from the path of rectitude by giving the Supt<sup>s</sup> any other than a correct report of what plants or seeds could be spared.

5<sup>th</sup>) Two if not three *Amherstia gootys* were stolen or otherwise made away with last year, a *Cordia Sebestena* was also made away with about the latter end of last May, or June, at [redacted] June,

two Maullees were cut  $\frac{1}{2}$  a month's pay each for the latter plant. On the night of the 28<sup>th</sup> of August 1844, 3 Poinsettia plants were stoten out of the bed on the east side of the Supts. House, other Poinsettia, Cavendishii &c. &c. have been stoten from time to time within the last 2 years, but as I did not keep a Mem<sup>o</sup> of the dates of all, I cannot remember them now, it may however be satisfactory to say that no less than from \$4 jt24-\* obberies have been committed from the month of September 1842 to June 1844 inclusive. -

6. The Head Gardener regularly and carefully superintends the delivery of plants, sent away, he does not believe that in any one instance a [redacted] has been substituted for a plant, nor does he believe it possible that such a step dare be taken by any Malee under him.

7.) I have never known a single instance when

when a twig, or branch, was put in the  
ground when a plant had been attached,  
relative to the complaint against the Conser-  
vatory males, the nature of it was this, he  
told me the plant referred to had died and  
I demanded to see the dead plant, he said he  
had thrown it away & knew not where to find  
it, but when he found he was going to be brought  
before the Supt. he went & selected or cradled  
from amongst others that had been cast away  
for months and wished to present this for the  
real one demanded, so he was brought up, not only  
for the loss of the plant, but for telling a  
lie.

Wm. Robt. Ross  
H. D. Gardener

Chysium Row  
1st December 1844.

My dear Gallich

I only last night, & for the first time,  
saw

saw the gentleman who has succeeded to the garden where I saw one of the two Amherstias mentioned in my letter to you, from him that neither it, nor the other one I had seen, came from the "Company's Bot. Garden," but from a Company's garden, only.

-p> /£~^s?

Another person has confirmed this statement, this morning, so I hasten to express my regret at having, under erroneous information, I must think say, at all events erroneous belief, stated what gave offence.

When I saw the first plant, I was most curious to know how it came there, and not knowing that it could, by any possibility, come from any other

very willingly not the case

2 1/2 PM

Dear Robison,

Your note of the 1<sup>st</sup> only reached me 10 minutes ago by your pen, on my return from Calcutta.

The statement in it about the Amherstias does not mend the matter. It appears now, they have not been rotted from the H.C. Bot. Garden, but from a Com. - Paris's Garden. -

My dear Wakarusa

Accept my best  
thanks for the seeds  
you mailed in your letter  
of the 18<sup>th</sup>. They shall have  
my best attention -

We have no larger  
seed nearer than Japan  
to which place a note  
respecting packets shall  
be this instant &

Dear me, must  
obeyed to you

for your attention  
to my friend Mr. Weedy  
wants - I immediately  
wrote him to look out  
for them. See you  
have made a little  
mistake in the address  
not one man Mr. Foster  
but two good & honest  
friends -

Williams, Foster & Co

No 68 - Upper Thames St.

Could you send a packet  
now of them by the steamer  
to that address - & this  
Wm. Mansel Tweedy Esq  
Cornish Bank Pers.

Your old friend, Canon Rogers  
would also be obliged for a  
few seeds of firs occasionally -  
he has almost all the  
kinds you before sent - William  
Porter would take charge of  
the seeds for him also - and  
nothing for Cornwall they are  
old friends of the whole

<sup>x</sup> The Canon's address

Penrose

x "One of All"  
men -

rec<sup>d</sup> Jan'y 14<sup>th</sup>

29<sup>th</sup> Dec 1841

My dear Walter

Here are some  
more of the same curious  
Oak seeds for you & others  
I know not - from the same  
locality - as before the Miri  
hills north of Lachimpore. I  
feel assured that not one  
is to be depended upon it you will  
not regret this deficiency more  
than I shall and you may also  
be satisfied that any remedy in  
my power would be gladly applied  
but I am not Lachar - We can  
never go about the jungles  
ourselves if they are of such jungles  
but were we able to do this we  
should not be nearer a cure  
had - Almost any large tree

29/12  
is as inaccessible as the highest  
Peak of Chimbarazo - on Nevado  
and we can only obtain such  
seeds as are picked up by chance  
below the trees by the workers  
employed to supply -

These seeds were brought  
to me at Battalion's request by Miris  
who only came down at  
most once a year - and he

at their mercy for  
such as they may choose to  
favor him with -

Very truly  
yours  
[Signature]

Jan 25

My dear W. Whit,

Since writing you this morning promising to think over the subject of geology and to give you the benefit of any observations which might further occur to me - I have been reading Mr. Murchison's address - 27 May 44 to the Royal Socy's Socy of London - & look upon that part of it which dwells on the Gold Produces of Liberia - in Pl XIX & M. suggests that the auriferous aspects of the Atlantic may be traced into China & through Chinese Tartary and adds "even in our Hindostan auriferous veins & deposits, as yet, it is true but few values, are known at various heights from N. to S. -" Now I believe I may say that in no part of Hindostan has there been ascertained to be so much auriferous sands & beds as will soon if this year might bring to the knowledge of your friend I in connection with Mr. Murchison's speculations. -

account of the abundance of  
gold in Assam that I can  
refer you to will be found in  
Mr. Owen's acct. of the  
just published --

A T A

due south of the great auriferous  
ground in Siberia and for all  
that we know to the contrary  
the same series of rocks may  
extend across Ladak & Tibet  
to us — this we know for  
certain that all the Tibet traders  
who come to Assam bring gold  
in large quantities for sale,  
and though all our miners whether  
from the south or the north  
yield gold, those of the  
latter region will come

from the snowy ranges produce  
gold in the largest quantity. -  
The richest stream here, I believe  
being the Subonshon, in the  
Lachimpore district. - The  
first range of hills are a confused  
mass of mud & pebbles as far as  
has come to my observation &  
none of our officers have advised  
me that neighbours beyond  
them - - - The extent to which  
gold might be produced from  
our sands is very limited  
from the rudeness of the machinery  
of the processes used by our  
unskilful workmen, and the  
means which have been used  
from time in memorial  
for extracting the gold

Receipt of

<j.

our Honorable Masters, who  
delight not in experimental  
speculations, unless the  
advocates of our friends should  
be the cause of a new  
era of the cause of attention  
being paid to the mineral  
deposits this great empire  
holds in a manner for posterity.

Magadd that the tributaries bring  
also down silver as do the Sierrones  
but I know not that there is any  
trace of silver within the space  
watered by the tributaries of the Berdego  
The silver by universal report is said  
to come from the eastward - just west  
S. of that spot on the Inyewaddi where  
Wilcox turned back - & in some  
mediate vicinity to it - from

That unknown land between the  
Berhamptow & the Kin-cha-  
-kiang which has never been  
touched over by any European  
or any civilized being that  
we know of since the days of  
Marco Polo - but whether he  
crossed this land or not I believe  
is doubtful - & there is not  
the means of knowing - but  
there's a wonderful deal  
of knowledge to be communi-  
cated by the first man that crosses  
from the Berhamptow to  
the Kin-cha-kiang - geograph-  
ical & physical & what not  
more perhaps than could be  
gathered by passing over the  
same extent of country  
in any part of the globe

and they seem friend to that  
 thing from the other. You should  
 by the way the new  
 - the same means the new  
 of other. And so the other  
 there the neighborhood  
 here from the other.

Reason a long  
 last note  
 sincerely  
 yours

4. of Babylon, & the walls  
becomes enclosed in  
clustering roots. In this  
I opened the soil  
instead of loose soil  
= Water. It contained  
masses of white like  
a stamen, then we found  
a covering of bright yellow  
fatty or waxy matter  
they tell me how all that  
is brought about. The  
being of the division  
increasing from within  
I am thought that this  
becomes formed as  
deposit to time. The  
growth of the young  
would be greatly affected  
It is very curious. I should  
like much to hear of

the Ball Bag would require  
a good number to do justice  
to it. It is a noble paper of ground  
and abundant over the ground  
it is disgraced. In my opinion  
houses, in my opinion, who ought to  
upon your ground, who ought to  
short - largely an instance  
the kind, that it is now laid  
in ruin - The Nation  
now comparatively deserted  
with the Carps here  
one instance I knew of  
them formerly. I know of  
now more of the  
I indeed however to  
something if it be  
skeleton society or one  
in garden, but pro-  
sandy seeds etc. being occa-  
sional meetings & distribution  
for the best products.  
I have now in season  
be met with at all Tables  
Gates - Peaches - Plums

the fresh cut wood smells  
 strongly of turpentine -  
 they die of immurea  
 their long slender  
 fall bearing a covering  
 an immense amount  
 unhelpfully. On the same  
 abundance to each stem  
 they descend, & their  
 beauty is thus spoiled.  
 you this tree about  
 I cannot concern any  
 Lavettson for P. M.  
 Henry. I have had  
 applications made  
 for instructions in the  
 treatment of young  
 plantations, never before  
 had the slightest experience  
 in the treatment of

I am unable to afford any  
 useful information on this  
 subject, but as I have much  
 at least the local of all trees:  
 I have known men who work under  
 the cultivation of the pine  
 shall make bold to offer  
 for a few hints on the  
 following heads -  
 1. Should not the young trees be  
 topped? or all crown?  
 2. What is the season in reference  
 to the actual bearing to perform  
 the operation, and at what  
 age?  
 3. At what height should  
 they be topped, & kept at?  
 I find I aim for a young  
 plantation in the W. A. W.  
 4. From about 2.5  
 to the end of September  
 there is rain in abundance.  
 5. Showers in April & October  
 occasionally in most months

I have received your kind letter of the 17th inst. and  
 am glad to hear that you are well. I have not  
 time to write you more at present but will  
 do so again soon. I am, dear Sir,  
 Yours truly,  
 J. M. W. Turner

20 January 45

10. 20. 45

My dear Sir  
 Many thanks  
 for the Book which I  
 long desired. I did not  
 wish however to receive it in  
 this manner. Would it be  
 possible on your part sending  
 this day. If however you can be  
 of a suitable copy to send I  
 would take it. A very great  
 favour if you would receive it for the  
 Library

My dear Mother  
I have say you do  
not recollect me but I have  
a lively recollection of you  
though it is an old story  
now:-

Many thanks for your  
letter of the 18<sup>th</sup>. The seeds will  
not welcome every thing  
able. I am however a bad  
gardener and our soil is  
miserable & the climate very  
dry & warm. However time  
will make even trees grow.

w

,\$£\*\*>'\*\*' ^^^

I shall be very much  
obliged to you if you will  
add to your kindness by  
telling Tucker & Co. to send

Royal Observatory Cape of Good Hope  
12 Feb 1845

My dear Wallcut

recd 25<sup>th</sup> April late on the Eng  
reply 31 May - E June

This date two years back found as in the book  
you with your plant pres, Bottledown & all the paraphernalia  
of the Western sciences. I hope this letter may find you safely housed  
with your dear family in England - all in sound health, before  
abandoning fire to keep out the (Damp) in Capetown, of Feb.

The beautiful drawings on Missa you kindly sent me both praised  
& admired to the fullest extent. Yesterday that Commodore in discussing the  
Governor had a peep at them. He had seen several of that kind before  
but not so well executed.

McKracken has given you an account of the unexpected distressing  
event in Simon's case. I have little to add excepting that my suspicion  
any day diminishes the balance against him, & we entertain a strong hope  
that he will escape from the ordeal unscathed by any criminal defalcation.  
& perhaps with a small amount of credit. In this case,

%oy\* ~ 9^ ^/^ < ^.^ \* .^ \_ % ^\* \_

improve himself, that hindered the the happiness & prosperity of  
himself & family. I am afraid the neglect will imply incapacity  
& that he will be considered incompetent to fill a similar appointment  
Dr Wallcut F.R.S. &c. Dunbar

London.

\* - \$ »

I sat down three days back & drew out a  
the quarterly receipts & expenditure from 1st day of my  
1834 (a period of 10 years) & the present time, with notes to explain the  
mode of keeping the accounts. This I sent down in the hope that

y~1kt4j, ^^^

use to my friends if he has omitted to enter any  
seems advanced to the observations, & to save all questions relative  
to my department. I fully expect to be examined relative

JK^A^~U,\* fyfa r ?\*f4^&\*~ii/

on these topics I can say with a  
consensus that I never met with a more honourable man  
I cannot be expected to be a judge of the quantity of time he  
should spend in his office. I will not pretend to judge of  
any ones office; jfer-yiy

leaving this painful affair in the connection that my friend  
he found to have erred & blame in neglecting to look through  
his responsible appointment, I will trust in Providence that no  
may not be cast upon the world without the means of support  
The gentleman sent out is a Treasury Accountant.

l^13l a»

down to Leonard's Cove on Monday when I shall arrive  
in what way the current expenses of the Survey are to be provided for.  
Lady Sarah Maitland inquired if you was coming back to the Cape. I told her  
Ladyship you was about to return home & pay the overland route. Is it  
if the Ladyship left India by the same course which she described as  
very interesting.

Dr Stanger is duly installed Surveyor General of Natal & is to  
start Wednesday, with his Battery of instruments, Surveyors &c.

J. Maclean

Dr. William F. R. S.

Antony Garden

Clayton  
Ladies

1945

RECEIVED  
APR 20 1945  
12 KELLY RD  
MELBOURNE  
VIC

Mr. Stanger says she enjoys the best life & anticipates much pleasure,  
in meditating over that region of ~~anarchy~~ anarchy. [REDACTED]  
The latter terms are mine, not hers.

Colonel Machel is far from well, apparently diseased of the heart.  
Mr. Montagu & family are ~~also~~ in sound health; he is heretofore  
very deep in Budgets - "ways & means." Mr. Skirrow is installed  
bridge builder, of which conveniences, some 30 are to be constructed.  
Charles Bell & his wife are in Cape Town.

Astronomy flourishes. We have now two  
comets within a degree or two of each other! -  
both visible simultaneously in the Comet sweeps.  
Such a meeting of wanderers was never before  
perhaps witnessed by any astronomer.

I have about half finished the reciprocal sector  
work at the Observatory. Smyth is on Snow Kop - French Hook  
state. Mann at the Observatory - Weidner resides at the  
Magnetic Observatory.

...  
I hope you  
have forgiven my long  
delay in sending  
my best thanks for your  
kind and such ones  
I received some  
week ago we had the  
great pleasure of having  
of your time and all  
through your letter to  
Mr. Norton in whose  
house we are at present  
and your friends have been  
so kind in willing  
us to pay them about  
that through we had  
a promise of our case  
this month or nearly  
so we have been staying  
first with the ...

...  
I should be most  
pleased to hear from  
you after so long a  
silence it is not that I  
have a good and reasonable  
excuse for my  
neglect. We have  
been returned to Madras  
thanks, after a  
miserable  
journey, and  
since we landed  
my dear little boy has  
been an object of  
ceasing some anxiety  
to me. You will  
be glad to hear  
that he is  
well. I have  
not  
excepting

My dear Mr Chamberlaine,  
I sent a few days ago to Dr. Wright at  
Coimbatore a specimen of root of grass which at night  
when moistened affords a brilliant phosphorescent light.  
I begged him to forward it to you with such observations as  
might occur after examination — It was first discovered by  
Subseeldar who had been on our Table land with Captain  
Bean and on his return in the low-country, having been obliged  
by the heavy rains to take refuge for the night under a large  
mass of rock in the jungles, he observed all the grass  
in the vicinity exhibiting this vivid phosphorescence, and  
I brought several specimens with him to Sivandrum.  
I had the specimen (sent to Wright) for the last 2 1/2 months  
and as I frequently neglected to moisten it, it seems to have  
lost all vitality. It still retains its phosphorescent power  
when well moistened. It should be wrapt up in a wet  
cloth for an hour or two previous to exhibition and should be  
examined in a perfectly dark place —  
The people (Korakumins) at Sivandrum declare that the grass  
is described in their Sacred Books and several  
pages were given to me — These I will also send you —  
They call it (in the Book) Syotiskumitta, which appears to be  
the Cadiospermum Halisacabum of Simsens —  
Wright in his Botanical work describes two species, the  
second being C. Coreseus! but these seem to be shrubs  
and I think while the Subseeldar described it to me  
as a grass and it looks like one — I shall try to get more  
specimens and in a vegetating state, for it is really as  
curious and interesting a plant as perhaps has any  
where —  
of Subseeldar —

Handwritten text in a cursive script, likely a letter or document. The text is dense and spans several lines, though the specific words are difficult to decipher due to the cursive style and image quality. Some legible words include "Dear", "I", "am", "writing", "to", "you", "and", "hope", "you", "are", "well".

Handwritten text at the top of the page, possibly a list or notes.

Main body of handwritten text on the left page, appearing to be a detailed account or report.

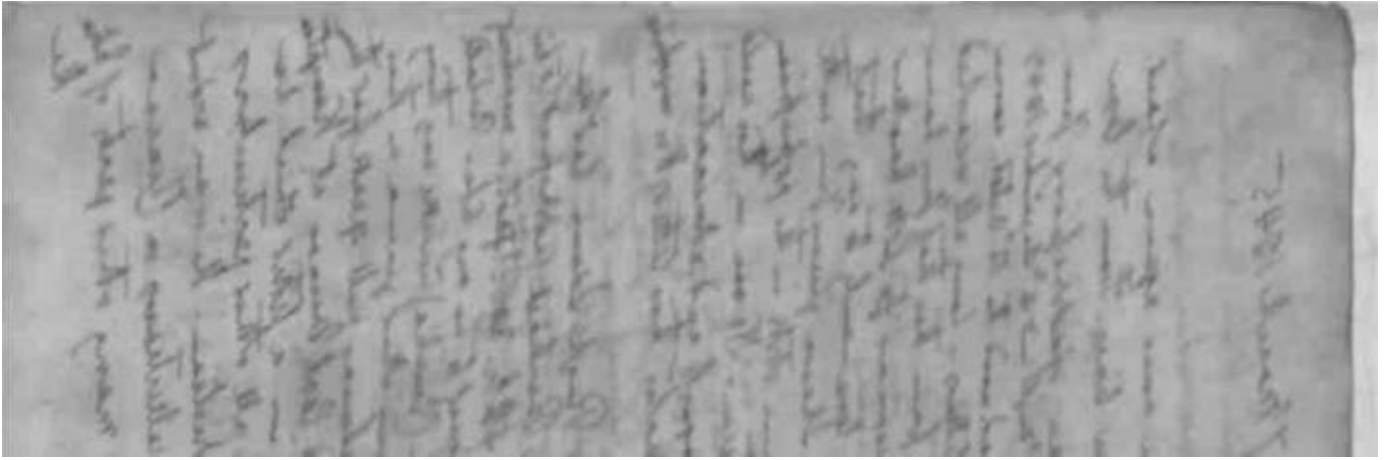

Handwritten text at the bottom left of the page, possibly a signature or date.

||

Handwritten text at the top of the right page.

Main body of handwritten text on the right page, continuing the account or report.

Handwritten text at the bottom of the right page, possibly a signature or date.

by Dr. Hall  
I don't see how I can ask  
the President to anticipate the  
Society's wish in this matter - for  
the simple reason - that Mr.  
Feil has never been in common  
mention with the Society at all,  
though his letters to you, which  
I read in full, gave the Society  
so much satisfaction - I am  
not aware of any case in which  
the thanks of the Society have  
been given to a party not in  
communication with the Society,  
and as I am quite sure there is  
nothing in objection in form  
than substance, on the present  
occasion, and that the Society  
nearly feels much indebted to  
Mr. Feil, I have no doubt that  
on mentioning the matter to the  
Society all that is to be said will be

Handwritten text, likely bleed-through from the reverse side of the page. The text is illegible due to blurriness and low contrast.

Handwritten text in a cursive script, likely a historical document or manuscript. The text is arranged in approximately 15 vertical columns, reading from right to left. The script is dense and difficult to decipher due to its cursive nature and the image's low resolution. The document appears to be a page from a book or a folded sheet of paper, with a visible gutter or fold line near the center.

A small, vertical fragment of handwritten text, possibly a continuation of the main document or a separate note. It is also written in a cursive script and is mostly illegible due to the image's low resolution.

|

Handwritten text, likely bleed-through from the reverse side of the page. The text is illegible due to blurriness and low contrast.

Small, illegible handwritten mark or signature.

Handwritten text in cursive script, likely a letter or journal entry. The text is dense and covers most of the page. Some words are written in a larger, bolder hand, possibly indicating emphasis or a change in subject. The ink is dark and the paper shows signs of age and wear.

Handwritten text in cursive script, continuing from the previous page. The text is less dense than the top page, with more space between lines. The handwriting remains consistent, showing a personal or informal style. The bottom of the page shows the binding of the book.

P.S. Have you received my Sylva  
...  
Munich, 20 May 1845.

London Dec 2<sup>d</sup> 1845  
Dear Sir

Received your letter of the 21<sup>st</sup> inst

use of this plates, I endeavour to proof my gratitude by any way you choose proper, therefore I am expressing Your orders. Perhaps it may be agreeable to You, receive from Fries to have new publications and I shall do my best, for procuring you such books in exchange with your benevolent communications of plants, seeds, fruits &c.

In the last days I received very various news about Dr. Griffith: one saying, that he has married himself, being ready to go out for Malacca (as he wrote himself D.D. & Do. 44) - another, that he was died! I hope that only the first may be true, because he has shown himself as a very clever and able Botanist.

The intercourse with Calcutta may be considered now as very safe, the letters going by Trieste. If you therefore will honour me with your letters, I beg you, to send them this way, care Mr. Koch (Merchant).

I am now occupied with the generalities both morphological & geographical of Palauca, and I hope to bring my work to end this year. Flora Brasiliensis also going on, but slowly, 2 numbers having appeared, but many being in work by Kunze (Folices) Endlicher (Dilleniaceae, Ericaceae) Schumler (Liliaceae) Schlechtendal (Utriculariaceae) Nees (Cacanthaceae) Schauer (Verbenaceae).

As soon as I have your reply, I shall not fail of writing up for you different literary things, and I hope, will shall very often communicate together. God bless You, my Dear Sir, Believe me ever  
Yours

P.S. Have you received my Supplement to the materiae medicae vegetabilis Brasiliensis?

Munich, 20 May 1845.

my friends & patients who  
rest in our hands when there  
is doubt as to the nature of  
flourish.

I wish the Govt would  
daily make me supply of Milk  
Opium and I would supply the  
supply all the two hospitals in India  
with a pure drug equal to the  
best foreign ones! I have found a  
many other valuable vegetable  
drugs which I have seen in  
Europe in the usual shops.

Wishing your health is  
quite established.

Believe me

Very Dear Sir,

Yours truly & faithfully

W. H. C. Surgeon  
100 St. St. St. St. St.

My dear Sir

Ever since my arrival here in  
April 1843 I have been endeavoring  
to cultivate a number of flowers  
from seeds received by the  
Govt. I am happy to say with great  
success; I have also been engaged  
in publishing a Med. Journal  
the volume for 1844 is now  
finished & I shall to-morrow  
send you a number of it in  
which you will see several  
topography from the pen of  
W. H. C. and a few  
lines reading that has been  
sent for

»- f€\*U. s\*^g£^ < \_

By your humble servant  
W. H. C. Surgeon

recd 10 June 1847 3/10 B. B. B. B.

My dear Walter

This is to accompany  
some of the specimens  
before a double Chlorian  
perhaps it may be novel to you  
I am sure you will plant  
I think after some  
flowers a visit is not  
scarcely within my  
power that I can do  
but this may be  
I am sorry to say  
- acquaintance  
I had to do with - this  
I am sure I can do  
- white - blue - pink  
but the thing I mean - I mean  
I shall be glad to see you  
I am very truly  
yours

imlm

Also put a few seeds which may  
be acceptable as being fresh and  
scented at this place. The plants  
of which I had upwards of 30  
Pine's Mine here considerably  
well, to do the beautiful Es-  
cholmas, Clarkias, Euboeas,  
Swamp Dials, Paperflowers  
& a host of others. I have not  
much ground my garden is  
really a hanging one & I restrict  
the rest of it. You might I  
think mention the delicacy  
of tobacco as a gift for the  
flora horticultural gardens to  
the Agricultural College of  
Calcutta from which seeds  
of beautiful flowers were

obtained; I could only work on a  
small scale but should be happy  
to send seeds to the Society if it  
would favor me in returning with  
vegetables to the seeds. The Fox  
Flower things admirably & has  
just done flowering, I expect  
a rich harvest of seeds next  
year.

My journal for last year  
now in the press, it is now  
extended to 300 pages & a fine  
gold border, you have 1200  
pp. of original text. I have made  
but little in very long lists of subscribers  
I cannot afford this, may I send  
you name? Remedy send me a  
packet of seeds of ornamental shrubs,  
trees & herbaceous plants. I have  
all the species of Pinus indigenous  
to these hills now growing in

12/6/45  
My dear Mr. Biddulph  
I have prepared & despatched to  
Captain Biddulph some extract from  
Berolai's journal - It is good, very good,  
but not of the best quality, the paper  
being a little old.  
I return Mr. Biddulph's letter.  
It has caused me some ~~concern~~  
that they should so soon have ventured  
on 12 grain stones, however I trust all  
is safe.  
Had I say had no pressure of

I have to return your  
 many thanks for the cards lately sent  
 through Sprunt and also for the cards  
 of plants which arrived the other  
 day. Most of the things in the cards  
 are doing well. Though in the leaves  
 some knots of the wood, and other  
 things are, in thing would I am afraid  
 to transplant them yet. I shall do  
 my best to provide for you what matters  
 are to be done in this quarter, but  
 some being a good time place,  
 the same are less varieties of hills  
 or grassy open places. I have  
 written to Mr. Tom desiring he  
 or the Messrs. here to hunt for

from where I had  
 accounts of the  
 account before the  
 of things. The  
 less than several  
 further enquiries.  
 of the bank of the  
 action had for  
 my father's health

being last night  
 more than ever  
 the kind of fishes  
 and the way, the  
 much water  
 inside the the  
 or other sea  
 be the same  
 than on the bank  
 of the water

The folks here in

ability, but you are aware that this is  
 the season for collecting them. Minimum  
specimens you collect in each year. It's  
 better forward to you in the spring, and  
 which you can return with some more.  
 I'm not perfect printer or perfect forest.  
 The best books to read. (Hill's) plants  
 are springing from the the stacks (which  
 any he and things and are apparently  
based in the script. I don't expect of  
new plants of these. Can you promise for me  
 some of the describes & margos stems, " "  
 with an or two more perfect samples;  
 The seeds sent me last year, before you  
 had found the Optimical problem, which  
 all failed. What you write in cheerfully  
minutes of ten to print & print books.  
How long will it take to print the  
books you are at present working on. What  
is the status of the varieties of Numerosa  
and of others, & Distinction. What is the  
status of the varieties of Numerosa

we'd want see from Smith's, but the  
 system, and distinction, & other varieties  
 we are not in any proportion. You  
might like to see in proportion. You  
are one of the best. What is the status of the  
the which was sent to you in 1891.  
we could not find it in any of the  
collections of the varieties of Numerosa or of others.  
It is very likely that the varieties of Numerosa  
are not in any proportion. You  
are one of the best. What is the status of the  
the which was sent to you in 1891.  
we could not find it in any of the  
collections of the varieties of Numerosa or of others.

Posthumous services have separated  
necessarily from me & have stood  
without thinking in the belief  
of the old world of his being her  
best. If the world were more  
blunt it must think of her no  
reason to hear it when longer.  
I have said but my heart returns  
back to you forever - a long  
year seems to me as he was  
one of the very few nations  
who look on other nations  
as the property of young trees  
and having a theory concerning  
them as yet in existence to  
be as perfect as more than  
even say for my European

Services -  
I am sorry that my heart returns  
so fast unaltered. It must have  
got a heart of the early morning  
hours we have on his scale the  
plentiful. The amount of the  
best of me returns to I am really  
happy to my return to the other  
years returning back to you.  
I believe it will turn out of more  
and more like a choice of  
colours. However I have not seen  
just will make for it all  
against it its beauty in any of  
only distant from my distant  
countries, while we forget to some  
you as the nation.  
The Service itself are now going  
to some other nations that

an one of a few days on his voyage, &  
very highly recommended to us. He is an  
amiable well bred young fellow - & any con-  
sary little attention you show him he will be  
grateful to you for, & I myself obliged.

We have had Sr. Brown at home,  
who, at the special desire of Sir H. K., has  
made himself really master of all our Uni-  
versity affairs - & has acquired a perfect  
knowledge (not from me only - but from  
his own colloquies at head sessions here, &  
the first officials) of all our difficulties &  
The

the real causes of them - a  
Current, & motives, religious & other,  
towards, & will thwart, all that we attempt,  
with a strong hand puts their man-  
-ning opposition down. However, it is much  
that from our most kind assistance, &  
now from the just claims, the real  
State of the case is known. The struggle  
- on - the same species, & continuation of  
support & being occasionally exhibited - & the  
same hard & heavy blows occasionally  
dealt out. These species protests - &  
empty but delusive & injurious measures -  
are much opposed by one, & sometimes by  
two, members of Govt - & great efforts are  
made, on one side to carry such <sup>sterner</sup> measures,  
& on the other to get them (with all minutes  
& correspondence) before the Sup. Govt, that  
they will be rightly understood & checked.

The object is, now, to nullify our powers - &  
transfer them, with controlling & directing powers,  
to a knot of the most bigotted fanaticism

in this place - some of the - are being

a, &

to put down our institution, & introduce  
religious schools for the lower

"\*+\*\*\*^\*." ^LW

Care must be to keep ourselves distinct -  
and allow the natives to suppose we are  
unconnected with them - & then, except  
the native schools, they will be without  
followers - & the system will perish of  
itself. The last measure was to deprive  
the govrs of their proper title, & thus by a side  
wind to annihilate them.

\* ^^-Mfc-yftu^f^

According to the new  
new govrs just made were gazetted as "the  
govrs of the high school of the Madras University"  
(the words scored under being added) - but the  
govrs himself being no party to this business, &  
the other two councillors having seen thro' it, &  
made peremptory objections, the designation  
has been directed to be altered, & to  
be gazetted corrected. And, indeed, I believe  
the new govrs would not have accepted office  
under that title.

Thus we go on. I wish you may

I have what Dr. [unclear] says of these things.

I rejoice to see so much done among the retrograde public at [unclear]. There is a greater unanimity against the [unclear] & that party, because [unclear] lacking them. But they are too slow to found schools. I am glad to [unclear] my friend [unclear] [unclear] of them. [unclear] when you see [unclear] present my respects & regards.

I shall probably soon write you again. [unclear] mean time,

Believe me ever, dear Walter,

Yours most truly,

J. C. [unclear]

Ms. A. 9. 2. 115

that you oblige me  
in this affair - as you  
have struck the right  
other friends - the state  
is another physician - at  
least late physician to  
Dr. Dexter Stanhoke - but  
there are two brothers of  
whom not whose is which  
is their names -  
name is Dr. Ed. a Morgan  
Do you through Payne  
to some need conveyed  
- Enclose his address  
with as a Memo: for  
some people -  
I have sent lots of books  
to you by Dr. Stanhoke

red 27 - very sorry  
only 37 - will send the 22/cent  
to  
Dear Mother,  
I have been by long to  
hear of yours of the  
13 but the late book to  
I hurried before the  
I have been - I sent  
you 304 packets I  
I hope you do not think  
that all these parcels had  
to be taken at a loss  
I would love you but as  
you do not meet over the  
receipts of the flowers in  
spirit Noble you had  
at that time packets  
I hope to receive -

MAI

I have by far the most  
 known of - He is  
 who brought the  
 the Duke of Cambridge  
 and the Princess's  
 - the seeds were  
 were found as  
 of the world of the  
 Babine's Mill  
 in any where -  
 the way - the  
 I have since brought  
 a case of  
 very beautiful  
 plants. -  
 H. T.

Here we have  
 found the  
 this remarkable  
 their  
 some  
 with  
 found  
 for in the  
 these  
 of  
 for  
 -

2/ for its Godfather could be he  
before any thing can be expected from  
Madras "The Benefitted" as I expect  
England however be <sup>no</sup> ~~no~~ hesitation  
of subscribing a considerable number  
of supporters, but there also we are well  
assured that the Major **X^— <5** <sup>as</sup> ~~as~~  
would work wonders —

we have all along kept in view the  
pleasant prospect of **^^t^P^\_ & ^^**  
towards England when we would  
have made some definite arrange-  
ments upon the above and other  
points, and cherished the recollection  
of your kind offer **£\* >g;** that the King  
into the right train to appear in the  
form you might deem it best adapted  
for, and in fact Prot Compe has counted  
much upon the invaluable promise  
you were good enough to give him  
of your benevolent eye & judgment

and hope to be in the market in introducing  
at least a few of the above numbers, perhaps  
the Cassina would flourish a little  
more and the Journal also I should think  
from your account **^I-Tn^Z^** thrive a lot  
Climate we have not lately **£■\*-r-^t-.\*^.**  
from the Cape and were therefore much  
pleas'd for the information you let  
\* your letter contained regarding our friends  
here - I hope however to redeem my (I fear  
last) character for **^i.\*** **S/^/PdK**  
but the office to which I am attached precludes  
from its laborious nature the enjoyment  
of a very general correspondence even  
with those whose friendship I so highly  
value - you kindly expect your  
enquiries respecting my own health it is  
I am thankful to say better than it was  
upon the whole at the Cape, I am certainly  
stronger and feel less inclined

Said when he last met, and my  
Medical man you he hopes that some  
of us will be in this country at any rate  
Some time before, Mrs. Conwell is  
indeed better than could be expected  
and little more than a year or two  
& SU-Z

is now as on the Camp ground keeps  
his head well up for a number  
two friends the Porters are both as well  
X-\* 5\* could wish, and places

of crossing over me when he is favour  
with a letter from "Dr. Ballist" however  
I beat him last time - In "heart  
of oak" has had his steam turned off  
being outside from the agency to the P.O. S.C.  
Notwithstanding been deemed incompatible with  
Z \* public duties - as is known as fully  
as ever. Mrs. Conwell with her is  
the kindest regards by yourself & they  
I hope you give most kind  
Dr. Conwell

rec<sup>d</sup> 18 July - recy 19

My dear Sir

I have to thank You for  
Your kind letter of the 10<sup>th</sup> Inst. enclosing  
a list of the Plants obligingly furnished  
by You for His Highness's Mother General  
Kis on Kissa Begum, and transmitting  
also a Prospectus of a work entitled  
"Flora Antiqua Sivalensis" which I  
have now the pleasure to discern, with  
a request that the General Begum's Name  
may be added to the list of subscribers  
for 3 Copies -

His Highness is now engaged  
in laying out the grounds & Gardens of  
his Country Seat at Moharich Mungil  
with ornamental Trees & Shrubs and  
has requested me to solicit the favour of  
You to assist him with a few Plants from  
the Botanical Garden. As I believe this  
to be

to be the most favorable time for removing  
the plants, you would perhaps kindly  
let me know whether it would be in  
your power to comply with  
request, and to appoint a day for  
the attendance of the people to receive  
them - I hope you have enjoyed  
your health since your return to  
the Presidency - Believe me  
My dear Sir  
Yours sincerely  
J. Taylor

rec<sup>d</sup> 30/4 45

July 23. 1845.

My dear Dr. Wallace.

Madrid -  
red - 3 Aunt in Paris

I fear you will quite get  
 tired of so bad correspondence and I  
 must plead guilty to the charge, how  
 my long silence since the receipt of your  
 kind letter passing over to Grater news  
 in the Cape. However has been in some degree  
 accidental. By the last steamer I had  
 intended writing in reply to your pleasant  
 suggestions touching Mrs. Ruffell's leaving  
 and had also purposed to give you some  
 of your books when the collection was  
 the unexpected arrival of the steamer  
 days before her expected date took me  
 by surprise and the box was not  
 dispatched but will go by the  
 next steamer. Unfortunately the letter  
 (which I now enclose) was also forgotten.

Mr. James Bidew has put it into his pocket  
and did not discover his mistake until  
the ship was well right off. He thought  
that as it contains however the result of  
our considerations upon the several points,  
admitted in your list I have enclosed  
it in the present enclosure and shall  
be glad to know your opinion upon any  
further matters you may desire discuss  
if you will. Kindly favour us at your  
service.

Since my last was written Mrs. Knappe  
has fulfilled her promise and is now  
the mother of two sons and I am  
happy to add that both the Mother and  
Child are doing well. By the time you  
have seen and returned the printing  
she will be able to resume her pen  
and you expect happy news that they

I will send a line by the  
Saturday to let she should reach  
this letter to announce the box of paintings  
being on board. - I see by the title of the  
works of your able artist: that you had  
intended them but poor specimens, how  
imperfect they are not finished. Some  
have not yet been nearly touched in.

Mr. Ruppelt desires his kindest  
regards and remembrances and they  
of you to believe me

they shall be well  
I am most sincerely yours

J. W. Ruppelt

occure to you as cultivated specimens the  
collections. When they are finished the con-  
-templative attraction being some of the finest things  
of the Indian flowers and any other  
It may be able to obtain in Madras and  
Among them the best flowers cer-  
has lately been in great beauty in the Botanic  
Garden here.

Our friends the Rostons continue very  
well tho' indeed he has complained for the  
last two days but has a new hope. He  
has been nominated Chairman of the Railway  
when established in Madras and  
is fully occupied on that matter just now.

I was pleased to hear the sad termination  
of Mr Thompson's affairs at the Cape you  
have doubtless heard that he was found  
guilty and transported for 14 years!  
His poor wife had proceeded to England

was still in existence - but  
he is no longer in my employ-  
ment, & I may not see him  
again, perhaps, while I am  
here. He is now superintendent  
in a Coffee plantation - Even  
if I could ascertain from him  
that the tree exists, I should  
not know how to get any plants  
from it. The Dutchess is now  
probably acquainted with  
Lady Tweeddale, and I am

Kandy 23<sup>d</sup> July 1845

rec<sup>d</sup> by Bentinck  
4/8-45

My dear Sir,

It was very good of you  
to think of sending me the  
samplelet on the subject of  
the Ruccian Samac. I am  
sorry to say that the seeds  
which you were good enough  
to send me of this valuable

de Bordeaux et du Havre

et il est possible avoir ces graines de *Wrightia utilis*, et non

'■' \* ^ / \* - r S \* r ? \* \* \* \* & ' / f U,

Vous avez l'honneur d'être,

Monsieur,

Je suis très humblement

Votre très humble  
Vilmoiret Andrieux & C<sup>ie</sup>

Je vous serais fort obligé si vous étiez  
permis de nous faire parvenir quelques graines de

*Wrightia tinctoria*, arbuste indigofère cultivé, dit-on,  
avec succès par la Compagnie anglaise.

V. A. & C.

plants have not come up.

& I think they must have  
been too dry, when they were  
put into the earth.

The Mulberry plants have taken  
root, and are growing well  
in both places, where I planted  
them.

I do not remember the large  
Sycamore trees in the garden  
at Madras. I am sorry that

will not make the engraving  
about it when I was there, &  
then, if it ~~is~~ <sup>was</sup> still in existence,  
cuttings or shoots from it  
might easily have been sent  
to the garden. As it is, I do  
not know to whom I could  
apply. I had an English  
gardener at Madras, who  
is now in Ceylon, & who could  
probably tell whether the tree

of choice plants to  
Mr. Buckland also  
a few will be pro-  
tected at the oppor-  
tunity of meeting for  
with the  
Bellevue as  
with the  
of the  
of the  
of the

The correspondence with  
you have been a constant  
tribute to you. - I shall find  
my wide acquaintances at the  
Messrs. growing very small  
indeed after your departure  
and there will be no one  
in that small circle that  
will supply your place for  
none of their pursuits &  
mine have any common  
ground and with these  
night courses will be  
very much indeed. -

I shall after be tempted  
to write you some but  
losing the privilege of speaking  
I shall be unable to do so

24<sup>th</sup> Sept 45

9<sup>th</sup> Aug 74

Dear Aunt Matilda -

I have just got your letter with an acct. of the general exp: of Mr. Annapolis family. and she will be pleased to find that she has in you so old a friend.

The end of your letter troubles me much. I must not keep my mind to the idea of your leaving India for good. I thought I have no doubt but you are doing right. I shall miss your post for my occasional letters to the Golden have been to me a great fund of amusement & interest so I shall continue to write from hence. but I fear my share of

from me that I pick up now  
often, which I want to be  
informed of. - I wish I was  
going myself. I have my  
small pleasure in my office  
adventures - I do take no  
special pleasure in seeing  
the Province prospering but  
it is very difficult indeed to  
know how to add to her  
advancement in any way -  
there is but a deal of  
obstinate in men's temper &  
I don't see any improvement - &  
there is no very great an  
affinity in the minds of  
the natives for anything like  
progress, and the march of  
intellect is a measure so totally  
foreign to their notions - that

to be able to do a good job in the  
lot of fun.

I am sorry to hear you found  
Mr. Campbell has gone this way  
when your father - he died at  
Massachusetts about 2 years ago.

Her daughter Mr. Bennett is  
the best of her family as you  
know she is very talented  
in music, but she is successful  
in the same art as the her  
for some time.

How you wish to enjoy a double  
in New Zealand? I would like a  
go side of to enjoy a day's tour  
with you to Oahu.

Her mother  
Yours truly  
John

rec<sup>d</sup> 4 Aug. /45

My dear Dr. Wallis,

The box containing my Cape  
drawings has been really for  
some days and in the hands  
of Captain Kidson for transportation  
to you by the expected steamer  
which arrived this evening about  
1/2 past 6, so I trust you will  
receive them safe and sound,  
and to hear from you soon  
the judgment you pass upon  
them. They are however many  
of them almost as unfinished  
as you saw them at the Cape,  
for as Mr. Hoapele will have  
told you I have not been able  
from one cause or other to apply  
myself to the task of finishing  
up, or of planning the wreath

you suggested for the frontispiece  
When my husband last wrote  
I was daily expecting

tf-

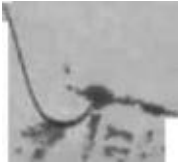

a fortnight ago  
I have got through a very well  
and have been able to go about  
again the last few days, as  
strong and well as I have ever  
been. The little stranger is a  
son and a very strong healthy  
little fellow. Mr. Henshew continues  
very well. In spite of the severe season  
we have had and little Boston  
dites. The cholera has been  
very prevalent here lately especially  
among the soldiers in the fort.  
The steamer is to go at 6 tomorrow  
morning and it is now 9  
at night so I must at once

come to a conclusion. My husband  
begs his kindest regards and  
begging you will accept the  
same from myself remain  
Dear Dr. W. which

Yours most sincerely  
Abigail Knappell

for you but that the rest of  
of you can I find just now  
- I suspect I must wait some  
time yet for them. Shall  
not feel to watch their  
locality narrowly. I found  
once an immense abundance  
of them - but I quite forgot  
at what season. They are  
exceedingly delicate & I doubt  
not yet come to time. The  
natives say they will only grow  
on Burmah roots (or some other).

That little Antlerium (Antlerium?)  
is quite common with  
us. on some of our lakes.

I send separately a  
sitaminous plant, which

A little bit of Coe's droptail  
included in your letter  
of the 17<sup>th</sup> June shows  
to my Collectors but as yet  
we have not been able  
to identify it - but we shall  
keep it in mind - I think  
I know it & shall recognize  
it if I see across it.

What order does it belong  
to? I see its not in Laidley's  
Nat: System -

I have been looking out  
for the Cypripedium plant

I should like to know the  
name of it you please -  
its not very common in  
the hills. The flower is  
not yellow & looks white  
but it only flowers towards  
the evening & during the  
night.

I attach this date  
the parcel so you will  
recognize the plant I  
allude to - Putting ever

My dear Walker,  
Singapore August 11/44  
re 8  
I rec'd your  
sketch of a  
Singer's book  
yesterday at full length and have only  
now the trouble to write a few lines for your  
recollection. Very showing you at Calcutta show  
been of a catalogue of the Fine Arts which I  
had drawn up. Yesterday received the same  
print number of four copies from the  
Government, rather a poor reward for my labours  
I have this day forwarded to you six hundred  
available ten copies of the paper for the  
which I hope you will accept very graciously  
both with it with a laurel, as it comes  
contributes to our scientific production. Be Mr.

Wally

Dear Madam,

Here's another of the plants you have found so interesting, which has been waiting on my table until your reply was recd - & which of the 25<sup>th</sup> - I have now the pleasure to announce - just come to hand. -

You shall have lots more if I can send **it** in my garden **y\_ ^ ^ &** appears

I have frequently come across the plant but not in flower & if in flower I did not take notice of it. It is common on all our low hills - what struck me now was the seed vessel. I have seen but some curious things in this old low hill of ours

I am glad to hear  
Mr. Maudslayi has  
left. I shall be  
very willing to increase  
his pay - I have a  
lot of a capital  
in the office to him  
in the office. This  
man Maudslayi  
has a great deal  
of money in the  
office, but  
I have a great deal

I have just received your letter of the 10th inst. & am  
 glad to hear that you are well. I am always delighted to  
 hear from you especially when you are at present  
 I learn that you enjoy good health. I must  
 confess I am not so well as I was some time since  
 my health has been very irregularly & my correspondence  
 has been very much interrupted. I am however  
 getting a great deal better & I am now  
 in a measure able to attend to my business as usual  
 I have not been in the city for 2 or 3 months I  
 endeavour to devote as much of my spare time  
 as I can to my business but I find it very difficult  
 to do so especially when I am in the city

... says delighted to  
hear from you especially when as at present  
I learn that you enjoy good health. I must  
confess however that I do not prove the sincerity  
of my friendship by the regularity of my correspondence  
My abominable procrastinating habit in this  
matter is I fear so confirmed as to be absolutely  
incurable. Once a year on the eve of leaving  
London I generally England for 2 or 3 months I  
endeavour to overtake the most essential part  
of my affairs but I also on such occasions  
generally leave myself so little time that I am  
forced to be very brief & cannot be very methodical  
I leave London tomorrow or next day just  
before when if I find myself equal to the  
travelling late in the  
Marseilles for Naples where New

reply 21 -

3 Chancery Lane  
15<sup>th</sup> Aug 1845  
no 16

Dear Sir

I have not the pleasure  
 of your acquaintance but your  
 good and obliging disposition  
 is well known to me, and there  
 were the most bad occasions  
 to trouble you for other people  
 and the obliging way in which  
 you have responded to my request  
 emboldens me to address you on  
 a subject of importance to  
 myself.

I have had the misfortune  
 to lose my dear Wife whom  
 carried off by a sudden attack  
 of Cholera on 18<sup>th</sup> Ult<sup>o</sup> and I  
 am left alone to protect seven

children, five of whom are in  
England and two with me being  
anxious wish is to have all my  
dear children about me, which  
I cannot have with advantage to  
them in this country and my  
means will not allow me to  
retire from active life & remain  
idle in England. I therefore think  
of fixing myself abroad in <sup>one</sup> ~~some~~  
of our healthy Colonies and  
prefer the Cook of good Koki  
to any other, and as you have  
lately been there there is no  
doubt you have observed  
its "ways & means" and if you  
will kindly inform me if  
a capital of £10,000 invested  
in Bank there would be  
likely to yield a return  
equal to the support of

family such as mine in decent  
comfort you will confer a great  
favor on me. I care not for  
luxuries, but in my 42<sup>nd</sup> years  
and enjoy excellent health, and

prospects in this country are good.  
But I cannot bear the separation  
from my children

If it is inconvenient  
to you to write I will wait  
on you at any time  
to talk over the subject  
and reason.

Yours faithfully  
C. H. Smith
